July 3, 1974
Salem, Oregon

The Oregon Transportation Commission held an emergency telephone meeting at 11 a.m., in Room 140 of the State Highway Building in Salem, Oregon.

The following persons were on the telephone at the locations given:

Glenn L. Jackson, Chairman, Portland
Carl O. Fisher, Vice Chairman, Portland
Robert L. Mitchell, Secretary, Portland
Robert E. Veatch, Member, Klamath Falls
Anthony Yturri, Member, Ontario
Ron Ragen, Bond Attorney, Portland
Pat Randolph, Temporary Assistant Attorney General,
Portland
F. B. Klaboe, Administrator and State Highway Engineer,
Salem
Jack Sollis, Assistant Attorney General, Salem
John Earley, Information Officer, Salem
C. W. Head, Supervisor, Commission Services, Salem

Mr. Klaboe stated that this meeting was called concerning an amendment to the \$25,000,000 bond sale resolution which the Commission adopted April 30, 1974. Mr. Klaboe asked Mr. Randolph to explain the amendment.

Mr. Randolph reported that the official notice of bond sale was published in The Journal of Commerce, New York, New York, rather than the Daily Journal of Commerce, Portland, Oregon. The sale was informally published in the Oregonian and the Daily Journal of Commerce. Mr. Randolph stated that the Bond attorney and he feel the original resolution should be amended as follows:

BE IT RESOLVED by the Oregon Transportation Commission that paragraph 7, line 7, page 2 of the resolution of issuance relating to the issue of 1974 State Highway Bonds adopted by this Commission on the 30th day of April, 1974, is hereby amended to read as follows:

"in the City of New York, New York, for a period of at"

Action of the Department Counsel in publishing notice of the bond sale in the Daily Bond Buyer and Journal of Commerce, New York, New York, is hereby in all respects ratified and approved as satisfying requirements of notice for said bond sale.

The Commission unanimously approved the amendment and adopted "Authorization Resolution No. 62b," which resolution is filed in the Commission files in Salem.

The telephone meeting adjourned at 11:05 a.m.

July 9, 1974
Portland, Oregon

The Oregon Transportation Commission held a special meeting at 11 a.m., in the office of Chairman Glenn L. Jackson, Pacific Power and Light Company Building, 920 S.W. Sixth Avenue in Portland.

Present were:

Glenn L. Jackson, Chairman
Carl O. Fisher, Vice Chairman
Robert L. Mitchell, Secretary
Robert E. Veatch, Member
George M. Baldwin, Director, Department of Transportation
F. B. Klaboe, Administrator and State Highway Engineer
Walt Barrie, Chief Counsel
Pat Randolph, Temporary Assistant Attorney General
V. E. Skoog, Controller
John Earley, Public Information Officer
C. W. Head, Supervisor, Commission Services

Mr. Pat Randolph announced that bids were opened at 9 a.m., today by Ron Ragen in the law offices of Rankin, Walsh, Ragen and Roberts, 620 Morgan Building, Portland, for the sale of \$25,000,000 in Highway Bonds.

Mr. Randolph read the following bids:

	<u>Net Interest</u> <u>Cost</u>	<u>Effective</u> <u>Interest Rate</u>
1) Salomon Brothers		
Morgan Guaranty Trust Company of New York		
W. H. Morton & Co. (Division of		
American Express Company)		
United California Bank		
Bear, Stearns & Co.		
Donaldson, Lufkin & Jenrette		
Securities Corporation		
John Nuveen & Co., Incorporated		
Mellon Bank N.A.		
United States National Bank of Oregon		
Hartford National Bank & Trust Company

Chase Manhattan Bank N.A.		
Dillon, Read & Co., Inc.		
Blyth Eastman Dillon		
Merrill Lynch, Pierce, Fenner & Smith, Inc.		
First National Bank of Miami		
First Pennco Securities, Inc.		
Crocker National Bank		
A. G. Becker & Co., Inc.		
Schroeder Trust Co.		
The Oregon Bank		
By: William H. Heath, Investment Officer		
United States National Bank of Oregon	\$30,599,680	6.7999%

	<u>Net Interest Cost</u>	<u>Effective Interest Rate</u>
2) Bankers Trust Company and Associates		
Harris Trust and Savings Bank)		
First National Bank of Oregon) And Associates		
Bank of America, NT. & S.A.,		
and Associates		
Halsey, Stuart & Co., and Associates		
First National Bank of Chicago		
and Associates		
By First National Bank of Oregon		
by Pearl Base	\$31,497,250	6.9993%

Mr. Randolph stated the bids were checked by representatives of the State Treasurer's Office and Rankin, Walsh, Ragen and Roberts and were found to be accurate and in conformance with the bid proposal. He mentioned the chances of obtaining a better bid through readvertising seems small and further there is the danger that no bids would be received on readvertising because the market was so near the State maximum rate of 7%.

Mr. Randolph also reported that the bid was generally in line with bids received on the same day by the Department of Veterans' Affairs to bring into account the difference in maturities schedule.

Chairman Jackson stated that in spite of the high cost of these bonds the money is to be spent on critical highway construction projects across the State.

It was moved by Commissioner Mitchell and seconded by Commissioner Fisher that the Commission accept the bid of a syndicate of 20 firms headed by Salomon Brothers, New York, New York, at an interest rate of 6.7999% and reject the bid of Bankers Trust Company and Associates and to return their bid guaranty to their representative. The motion was carried unanimously.

The meeting was adjourned by the Chairman at 11:15 a.m.

July 9, 1974

July 30, 1974
Salem, Oregon

The Oregon Transportation Commission met in regular session at 9 a.m. in Room 122 of the State Highway Building in Salem, Oregon. Present were:

Glenn L. Jackson, Chairman
Carl O. Fisher, Vice Chairman
Robert L. Mitchell, Secretary
Robert E. Veatch, Member
Anthony Yturri, Member
George M. Baldwin, Director of Transportation
Walt Barrie, Chief Counsel
F. B. Klaboe, Administrator and State Highway Engineer
A. E. Johnson, Deputy State Highway Engineer
J. B. Boyd, Right of Way Engineer
David Talbot, State Parks Superintendent
Paul Burket, Administrator of Aeronautics
Dennis Moore, Administrator of Mass Transit
Harvey Ward, Deputy Administrator of Motor Vehicles
C. W. Head, Supervisor, Commission Services

The Commission approved the minutes of the following meetings:

Regular meeting of June 26, 1974
Emergency telephone meeting of July 3, 1974
Special meeting of July 9, 1974

HIGHWAY DIVISION

A list of properties needed for highway and other uses was presented by Mr. Boyd. He requested the Commission to declare by resolution the necessity of said properties for the public use to which they are to be put and to authorize him to attempt to agree with the owners of said properties as to price. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful and thereupon adopted "Condemnation Resolution No. 2622," which resolution by this reference is made a part hereof and filed in the Commission's files.

Consideration was given to the abandonment of three delinquent rental accounts totaling \$423.50. Mr. Boyd stated that these individuals have moved, left no forwarding address, have no means to pay and the expense of locating them for collection would not be justified. Following his favorable recommendation, the Commission approved the abandonment of the following rental accounts.

<u>FILE NO.</u>	<u>NAME</u>	<u>AMOUNT</u>
46171	Shirley Pierce	\$181.00
44439	Norma Morgan	180.00
45378	William Rohm, Jr.	62.50
	TOTAL	<u>\$423.50</u>

The Commission considered a three-year renewal of the Highway Division's fire insurance policy on buildings acquired by the Right of Way Section. Mr. Boyd indicated that the present policy will expire on August 15, 1974. Upon his recommendation, the Commission approved the fire insurance renewal for a three-year period.

Mr. Barrie asked if there were any questions in connection with the informational reports previously submitted to the Commission on cases tried, cases settled, and institution of legal proceedings filed against the Department of Transportation since the last Commission meeting. There were no questions. (See Exhibit G on file in the Commission's files in Salem.)

Mr. Barrie referred to his report to the Commission on condemnation cases tried concerning the case of Oregon-Washington Railroad and Navigation (L-6682). He stated that he wished to clarify that his approval as listed in the report was the approval of the trial attorney's recommendation that the State file a motion for a new trial and if a new trial is not granted, to appeal the case. It is his opinion that there is substantial reversible error in the case.

In connection with the report on institution of legal proceedings, Mr. Barrie reported on a case that the State has joined in a lawsuit in the District of Columbia Federal Court to get back some of the Forest Highway funds that were impounded by the Federal Government. He said the case is now before the Federal Court; however, there has been no hearing as yet. The total amount of the hold back is \$12 million.

Mr. Barrie stated that the State has instituted an action under the Scenic Waterways Act for some construction that was going on along the Rogue River in Curry County.

Mr. Barrie reported on the Mt. Nebo case in Douglas County. A preliminary injunction was issued to prohibit further work on the Garden Valley Road-Fairgrounds Road Interchange, Contract No. 8003, until an environmental impact statement is prepared which discusses the impact of the haul road and dump sites for a substantial amount of material to be removed from Mt. Nebo. He stated that the contractor and the State are both defendants in this case. There is also a local proceeding in the Circuit Court in Douglas County. But the State is not a party - the City of Roseburg and the contractor are. This suit attacks the City's procedures whether or not proper notice, etc., were given. There has been no order yet on this case.

In response to Chairman Jackson's inquiry, Mr. Barrie said that the State's Environmental Engineers have been studying alternative dump sites. There are 10 sites in assessment, and there are alternatives. The process for completing an environmental impact statement would take approximately 90 days. Under the contract, the State does have some mandatory dump sites which are not enjoined. These provide for approximately 300,000 cubic yards of dump. This

plus construction of a temporary bridge for the haul road which has not been enjoined could most likely keep the contractor operating while the State is perfecting its environmental impact statement so that we can greatly minimize any contractual claim damages.

Mr. Barrie presented a quarterly report of property damage claims for the period from April 1, 1974, through June 30, 1974. During this period \$58,968.46 was collected.

Consideration was given to adopting as permanent rules the regulations governing directional signs visible to the traveling public from a State highway. Mr. Barrie pointed out that a temporary rule and resolution were approved by the Commission at its meeting on April 30, 1974, and was filed with the Secretary of State on May 3, 1974. This temporary rule was published in the Administrative Rule Bulletin on May 15, 1974. Following his favorable recommendation, the Commission adopted the regulations as a permanent rule. (Regulations on file in Commission's files, Salem.) The permanent rule was published in the Secretary of State's Administrative Rule Bulletin on August 15, 1974, to become effective on August 25, 1974.

Mr. Talbot presented for the Commission's consideration Notifications of Intent by property owners to make various types of improvements along the Rogue and Illinois Scenic Waterways. The requests have been carefully investigated as to their compliance with the provisions of the Scenic Waterways Act. The Commission acted on the following requests for reasons as stated in Mr. Talbot's letters to the Commission insofar as their authority under the Scenic Waterways Act is concerned.

- (1) Approved the request from Clarence F. Pruess, Jr. to construct a residence within the Rogue River Scenic Waterway in River Mile 83 near Robertson Bridge in Josephine County.
- (2) Denied a request from Agee & Beck, Inc. to harvest timber on McCaleb Ranch within the Illinois River Scenic Waterway in Josephine County. The Commission gave authorization to negotiate the purchase of a scenic easement restricting use of the property to the existing youth camp and the McCaleb residence.

The Commission considered an agreement for professional services with The ExhibiGraphics Group, Salt Lake City, Utah, for interpretive facilities on the Old Oregon Trail between The Dalles and Ontario on I-80N. Mr. Talbot mentioned that this firm specializes in historical interpretation for the research, planning, design and production of interpretive displays. He mentioned that these displays would be housed in distinctive shelters located in State parks and safety rest areas on I-30N. Visitor orientation stations at each end of the Trail will acquaint visitors with the overall

story of the Oregon Trail and its significance in the settlement and development of Oregon. This agreement conforms to the Executive Department regulations and requirements for personal and professional services. The total consideration for services for the consultant under this agreement is \$56,195. The Commission approved the agreement as recommended by Mr. Talbot and authorized Mr. Klaboe to sign it in their behalf.

Mr. Talbot reported that there is a need to control commercial removal of rock to allow amateur rock collectors to pursue their hobby within the Succor Creek State Recreation Area in Malheur County. He stated that this proposal has the approval of the Bureau of Land Management, the Division of State Lands, and the University of Oregon. Upon his favorable recommendation, the Commission adopted the special regulations as a temporary rule to become a permanent rule if no hearing is necessitated following publication in the Secretary of State's Administrative Rule Bulletin. (Copy of special regulations in the Commission's files, Salem.) The temporary rule was filed with the Secretary of State on July 31, 1974. The proposed rule will be published August 15, 1974, in the Secretary of State's Administrative Rule Bulletin. If no hearing is necessitated, the effective date of adoption will be September 4, 1974. The permanent rule will be published on September 15, 1974, to be effective on September 25, 1974.

Mr. Klaboe reported on actions taken under delegated authority received for filing with the Commission records. These reports show the actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission files, Salem.)

Chairman of the Oregon Transportation Commission	Exhibit A
Vice Chairman of Oregon Transportation Commission	Exhibit B
Administrator and Highway Engineer	Exhibit C
Director of Permits	Exhibit D
Right of Way Engineer	Exhibit E
State Parks Superintendent	Exhibit F
Chief Counsel	Exhibit G

The Commission approved the following increases in project authorizations as recommended by Mr. Klaboe:

- (1) Peter Kiewit Sons' Co., Contract No. 7857, Old Oregon Trail in Union County, for \$667,811.50 (7.0%). The overrun was due primarily to the cost of stabilizing a large slide area.
- (2) C & B Olson Construction Co., Contract No. 7976, Pacific Highway from Jackson through Marion Counties, for \$16,602.55 (11.6%). Twelve additional signs were added to the contract at the request of the Travel Information Council which caused the overrun.

(continued on page 493)

- (3) Ausland Construction Co., Contract No. 7932, Manzanita Safety Rest Area on the Pacific Highway in Josephine County, for \$11,720.08 (8.7%). The overrun was due to an accumulation of small unforeseen problems as work progressed.

The Commission considered the approval of a publication entitled "Bikeway Design" which was prepared in January, 1974. Mr. Klaboe mentioned that this manual established standards and recommendations for bikeways. Included in the manual are designs of signs to be used on the bikeways. In order for these signs to have legal significance, he recommended and the Commission approved the publication including the sign designs. (Copy of the manual in the Commission's files, Salem.)

Mr. Klaboe presented for approval the contracting of 7.69 miles on the Battle Creek-Talbot Road Section of the Pacific Highway (I-5) in Marion County. He mentioned that a corridor and design hearing was held on March 8, 1973, and the Division has met all Federal requirements for Clearinghouse and Environmental concerns. The proposed project will consist of updating the present facility to current Interstate standards and it has the approval of the Federal Highway Administration. Following his favorable recommendation, the Commission approved the project at an estimated cost of \$8,600,000, and thereupon adopted "Highway Corridor and Design Resolution No. 414," which resolution by this reference is made a part hereof and filed in the Commission's files.

Consideration was given to the construction of the Skipanon River Bridge at Warrenton on the Warrenton Highway in Clatsop County. Mr. Klaboe pointed out that the Commandant of the U.S. Coast Guard has put the Highway Division on notice that this bridge at Warrenton is in violation of a 1916 navigation permit for that crossing. The Skipanon River Bridge was constructed in 1916 by Clatsop County and incorporated a hand-operated lift span. The County in 1933 rebuilt the structure, replacing the lift span with a float-out span. In 1946, the State assumed jurisdiction over this section of highway when it was designated as Highway 105, the Warrenton Secondary Highway. The proposal is to construct a new bridge to modern standards with a movable span which will satisfy the needs of navigation. The project is proposed as a Federal-aid Secondary Project at an estimated cost of \$2,000,000. Mr. Klaboe recommended approval of the project and to add it to Federal Aid Program XIIA. The Commission approved the project.

The Commission considered requests from the Cities of Dallas and Roseburg for approval of TOPICS projects (traffic operational procedures to increase capacity and safety). Following Mr. Klaboe's favorable recommendation, the Commission approved the requests and authorized him to sign the agreements when prepared.

Balance	---	\$213,000	\$ 213,000
New Projects (7-30-74)	---	131,000	131,000
Unprogrammed Balance	---	\$ 82,000	\$ 82,000

Mr. Klaboe presented the following construction projects on which bids are to be received July 16 and July 25, 1974. He mentioned that the projects contain an explanation of plans concerning the establishment of footpaths and bicycle trails.

JULY 16, 1974 BID LETTING

- (1) Shutler Station-Olex, John Day Highway, Gilliam County. Pavement Overlay Project. Footpaths or bicycle trails are not incorporated in this project as no new highway construction, reconstruction, or relocation is involved.
- (2) Willow Creek-Vale, John Day Highway, Malheur County. Pavement Overlay Project. Same as No. 1.
- (3) Odell Butte-The Dalles-California Highway, Willamette Highway, Klamath County. Pavement Overlay Project. Same as No. 1.
- (4) Fort Klamath-Lobert Junction, Crater Lake Highway, Klamath County. Pavement Overlay Project. Same as No. 1.
- (5) Oregon City-Carus, Cascade Highway, Clackamas County. Pavement Overlay Project. Same as No. 1.

(continued on page 495)

JULY 25, 1974 BID LETTING

- (1) Arlington Intchge.-Irrigon Junction, Columbia River Highway, Gilliam and Morrow Counties. Grade, Pave, Guardrail and Signing Project. Footpaths or bicycle trails are not incorporated in this project as no reconstruction is involved. The purpose of this project is to eliminate hazardous conditions.
- (2) Irrigon Junction-Stanfield Junction, Columbia River Highway, Morrow and Umatilla Counties. Grade, Pave and Signing Project. Same as No. 1.
- (3) West Fremont Intchge., Stadium Freeway, Multnomah County. Roadside Improvement and Mini-Park Project. Footpaths or bicycle trails are not incorporated in this project as no new highway construction, reconstruction, or relocation is involved.
- (4) Main Avenue and Third Street (Tillamook), Oregon Coast and Wilson River Highways, Tillamook County. Grade and Pave Project. Concrete sidewalks will be incorporated in this project on a replacement-in-kind basis.
- (5) Winston-Shady Intchge., Coos Bay-Roseburg and Dillard Highways, Douglas County. Grade, Pave, Structures and Signals Project. An eight-foot Class I bicycle/pedestrian facility separated from the highway will be provided along the length of the project.
- (6) Deschutes River Bridge, Warm Springs Highway, Jefferson County. Footbridge Project. The purpose of this project is to provide a pedestrian bridge across the Deschutes River. This project will be charged to the Bikeway Program.
- (7) Fort Stevens State Park, Clatsop County. Paving Project. This project includes asphalt concrete bikeway surfacing within the State park, which will provide an extension of the park's bikeway system.
- (8) Oswald West State Park, Clatsop and Tillamook Counties. Trail Construction Project. A pedestrian trail will be provided within the State park.

Attention was given to finance approval of three bikeway projects. Mr. Klaboe recommended approval of these projects and requested authorization to add \$255,000 to the current State Construction Program to cover their total estimated cost. The Commission accepted his recommendation by approving the following projects.

<u>BIKEWAY PROJECTS</u>	<u>TYPE</u>	<u>COST</u>
Campus Drive-O.T.I. (Klamath Falls) Bikeway, Klamath County. This bikeway is 0.5 miles in length and will extend our previously constructed bikeway to service Oregon Technical Institute.	Class II	\$ 58,000
Jacksonville-Medford Bikeway, Jacksonville Highway, Jackson County. The length of this section is approx. 4.0 miles and is proposed as a highway shoulder facility.	Class III	128,000
River Road (Cottage Grove) Bikeway, Coast Fork Willamette R., Lane County. This section 1.6 miles in length follows the west bank of the coast fork Willamette River paralleling River Road in Cottage Grove. Bureau of Outdoor Recreation funding has been approved for 50% of the estimated cost. The State's share of 50% will amount to \$63,750.	Class I	127,500

The Commission considered requests from Umatilla and Yamhill Counties for Federal-aid Secondary Projects and a request from Clackamas County for the cancellation of a previously approved project. Mr. Klaboe indicated that these projects have been investigated and are eligible for FAS funds. Upon his recommendation, the Commission approved the following projects and authorized the Administrator and State Highway Engineer to sign the agreements when prepared.

<u>COUNTY & FAS NO.</u>	<u>SECTION & DESCRIPTION</u>	<u>PROGRAMMED AMOUNT</u>	<u>STATE SHARE</u>
UMATILLA 30-115	N. Fork Walla Walla River (N. Fork Road) Bridge Section. (Structure)	\$100,000	\$11,000
YAMHILL 753	Mosquito Cr. (Middle Island Rd.) Bridge Section. (Structure)	180,000	19,800
	TOTAL NEW PROJECTS	\$280,000	\$30,800

(continued on page 497)

CANCELLATION OF PREVIOUSLY APPROVED PROJECT

CLACKAMAS Barton Bridge Section. (Grading \$120,000
809 & paving)

SUMMARY BY FISCAL YEARS (FAS Funds)	TOTAL		\$160,000
	1974	1975	TOTAL
Allocated Funds	\$4,108,000	\$4,252,000	\$8,360,000
Approved Projects (corrected to date)	4,108,000	571,000	4,679,000
Unprogrammed Balance	---	\$3,681,000	\$3,681,000
Projects - 7/30/74	---	160,000	160,000
Unprogrammed Balance	---	\$3,521,000	\$3,521,000

Mr. Klaboe reported that under ORS 366.525 the counties are entitled to receive from the State 20 percent of all funds received from motor vehicle taxes and fees for the period from April 1 through June 30, 1974. The amount credited to the counties totals \$7,366,643.32 as apportioned by law. The funds were released on July 26, 1974. (Listing of each county apportionment on file in the Commission's files in Salem.)

Following Mr. Klaboe's recommendation, the Commission adopted the following proposed rules as permanent rules if no hearing is necessitated following publication of the rules in the Secretary of State's Administrative Rule Bulletin.

- (1) Rescind Speed Zone Resolution No. 540 adopted August 20, 1968, and establish a 45 mile per hour speed zone on the Lower Columbia River Highway from 200 feet south of the Multnomah County Line (M.P. 18.35) to 200 feet north of Dutch Canyon Road (M.P. 19.22) in Columbia County.
- (2) Rescind Speed Zone Resolution No. 504a dated March 6, 1973, and establish the following speed zones on the Lower Columbia River Highway in Columbia County:

50 miles per hour from 500 feet south of Berg Road (M.P. 24.81) to McNulty Creek (M.P. 27.53)

EXCEPT that from Berg Road (M.P. 24.91) to 0.12 mile north of Berg Road (M.P. 25.03) the designated speed shall be 20 MPH when children are present as per the provisions of Subsection 1a of ORS 483.104.

40 miles per hour from McNulty Creek (M.P. 27.53) to the south city limits of St. Helens (M.P. 27.95)

(continued on page 498)

- (3) Establish a 50 mile per hour speed zone on the Lower Columbia River Highway in the vicinity of the community of Lindbergh from 0.85 mile south of Laurelwood Road (M.P. 44.17) to a point 0.57 mile north of Laurelwood Road (M.P. 45.60) in Columbia County.
- (4) Establish a 35 mile per hour speed zone on the Mt. Hood Highway from the west city limits of Hood River (M.P. 104.30) to 100 feet east of West-cliff Drive, (M.P. 104.65) in Hood River County.
- (5) Rescind Speed Zone Resolutions Nos. 26a dated March 10, 1960 and 26b dated November 3, 1960, and establish the following speed zones on the Oakland-Shady Highway north of Roseburg in Douglas County:

40 MPH from 0.20 mile north of Community College Road (M.P. 11.53) to 500 feet south of Page Road (M.P. 12.58)

45 MPH from 500 feet south of Page Road (M.P. 12.58) to 500 feet north of Housley Avenue (M.P. 14.61)

35 MPH from 500 feet north of Housley Avenue (M.P. 14.61) to north city limits of Roseburg (M.P. 16.73)

- (6) Establish parking prohibition on the following sections of the Tualatin Valley Highway in the West Slope area in Washington County:

North side from 70 feet west of the west property line of S.W. 87th Avenue (M.P. 1.57 Engr. Sta. 77+50) to a point 100 feet east of the east property line of S.W. 90th Avenue (M.P. 1.70, Engr. Sta. 83+50).

South side from 70 feet west of west property line of S.W. 87th Avenue (M.P. 1.57, Engr. St. 77+50) to the east property line of S.W. 90th Avenue (M.P. 1.72, Engr. Sta. 84+75).

(continued on page 499)

- (7) Amend "Through Highways and Stop Signs Resolution No. 13" dated September 21, 1949, in the following respects:

Delete the requirements that all traffic southbound on the Hillsboro-Silverton Highway shall stop at its intersection with Main Street (the City will install stop signs on Main St.).

Delete the requirement that all traffic northbound on the Hillsboro-Silverton Highway shall stop at its intersection with Oak Street.

Require all traffic on the Cascade Highway No. 160 to stop at its intersection with the northbound leg of the Hillsboro-Silverton Highway (First Street).

- (8) Amend "Through Highways and Stop Signs Resolution No. 13" dated September 21, 1949, to include the following exceptions on the Scholls Highway in Washington County:

All traffic eastbound on the Scholls Highway shall stop at its intersection with River Road, except that the right turn for eastbound traffic will be permitted without stopping.

- (9) Left-turn prohibition on the Tualatin Valley Highway at S.W. 185th Avenue in the Aloha Area in Washington County. (This rule was adopted as a temporary rule on April 30, 1974, and was put into effect on May 15, 1974, when signs were installed.)

(Proposed rules published in the August 15, 1974, issue of the Secretary of State's Administrative Rule Bulletin. If no hearing is necessitated, the effective dates of adoption will be September 4, 1974. The permanent rules will be published on September 15, 1974 to be effective on September 25, 1974.)

The Commission considered an agreement with McCann-Erickson, Inc. of Portland for the continuation of the "Keep Oregon Livable" Program for another year until June 30, 1975. Mr. Klaboe stated that the program seeks to create an awareness by the general public of a number of environmental issues relating to the activities of the Highway Division and to encourage all Oregonians to make an individual commitment toward the preservation of Oregon's unique livability. He indicated that the Division is not sufficiently staffed to conduct these activities on its own. Major emphasis of the continuing program includes the subject areas of land-use planning and the soon to be completed Willamette Greenway Plan. Funds

for the program are available from within the General Administration budget in the amount of \$35,000 and from the sale of custom license plates in the amount of \$10,000. Upon his favorable recommendation, the Commission approved the agreement at a cost not to exceed \$45,000.

Consideration was given to an abandonment resolution for the transfer of a small segment of right of way to Josephine County in exchange for County right of way required to improve a connection between a County Road and the Rogue River Loop Highway. Mr. Klaboe pointed out that the right of way exchange is necessary for the improvement by the County of the connection to provide safer access between the two facilities. This is also in compliance with an agreement between the State and the County dated July 10, 1973. The Commission approved the abandonment as recommended and thereupon adopted "Abandonment Resolution No. 537," which resolution by this reference is made a part hereof and filed in the Commission's files, Salem.

Attention was given to a supplemental agreement with Roy Jorgensen Associates, Inc. covering consultant services for the Division's Maintenance Management System development. Mr. Klaboe stated that this agreement is to provide additional computer programming assistance. The cost will not be more than \$2,770. Following his favorable recommendation, the Commission approved the agreement and authorized him to sign it in their behalf.

AERONAUTICS DIVISION

The Commission considered an option on a parcel of land taken by the Highway Right of Way Division on behalf of the Aeronautics Division for an easement for aviation rights in connection with the Siletz Bay State Airport in Lincoln County. Mr. Burket stated that the total price is \$2,700. Following his recommendation, the Commission approved the option and authorized the Highway Right of Way Division to exercise this option. (See File No. A-14)

The Commission considered authorization of a request to the Legislative Emergency Board for permission to submit an application for Federal aid under the Planning Grant Program of the Federal Aviation Administration. Mr. Burket indicated that the Federal Funds to be requested in the amount of \$20,000 is for the purpose of accomplishing an airport "Master Plan" for the Aurora State Airport in Marion County at a total cost of \$30,000. The Commission approved the request as recommended by Mr. Burket.

MASS TRANSIT DIVISION

Mr. Moore requested and the Commission gave their approval to ask the Emergency Board for the release of \$18,333 of reserved funds for the Portland element of the Special Transportation Program.

Attention was given to a contract with the City of Portland for a period of July 1, 1974, to June 30, 1975, in the amount of \$26,448.73 (including the \$18,333 above plus unexpended and marketing funds) for the Special Transportation Program. The Commission approved the contract as recommended by Mr. Moore and authorized him to sign the agreement in their behalf.

Mr. Moore presented for the Commission's consideration a contract with the Urban Mass Transportation Administration in the amount of \$25,625 (\$20,500 Federal funds) to conduct the Technical Resource Program. The Commission approved the contract and authorized Mr. Moore to sign it in their behalf.

Following Mr. Moore's recommendation, the Commission extended the Salem Car Pool Demonstration Project Agreement between the Highway Division and the Mid-Willamette Valley Council of Governments up to December 31, 1974. The Commission authorized the Highway Division Administrator to sign the agreement in their behalf.

Chairman Jackson asked for a report on the Car Pool Project. Mr. Moore mentioned that in Portland approximately 8,000 people are in the computer match program. There are about 1,500 people that are in car pools. It is estimated that there is a saving of approximately 9,000 gallons of gas a day by people in car pools as a result of the State's program. There are approximately 500 people riding buses. It is estimated that 16,000 people are taking a car pool some time during the week.

In Salem the interest has not been as high. The biggest problem is the large employers having problems of developing a car pool program. There are approximately 3,000 State employees that voluntarily participated in the match program. At this time it is not known how many are actually in car pools as a direct result of the project. A survey is to be made by mail which will give the answer. The City of Salem, Marion County and some large corporations are maintaining an interest in the program. There will be statistical information available in a few months.

In the Eugene-Springfield area, Lane County has set aside \$100,000 to conduct a bus pool-car pool program. This is probably the largest public employer in the State that is going to aggressively start this off. This program was started on July 1 this year.

MOTOR VEHICLES DIVISION

No report.

Mr. Talbot reported that parks' attendance for June this year is up approximately 12 percent over June of last year.

Mr. Fryer stated that the attendance at the Information Centers is still slightly down from last year. The travel industry is holding even on attendance; however, the spending is greater than last year.

DEPARTMENT OF TRANSPORTATION

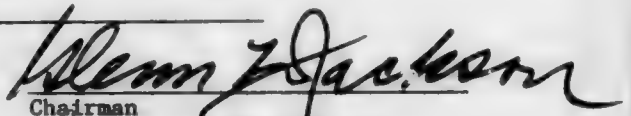

Director's Report

Mr. Baldwin introduced to the Commission Harvey Ward, newly appointed Deputy Administrator of Motor Vehicles Division.

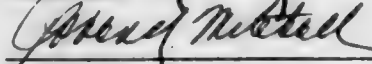

The Commission set Wednesday, August 28, 1974, as the date for the next meeting.

The Commission considered an agreement with Bardsley & Haslacher, Inc. covering responsibilities for a Statewide Public Opinion Survey concerning transportation planning. Mr. Baldwin mentioned that the funds for this survey will come out of the Oregon Transportation budget for consultant services in conducting Statewide transportation studies. The total cost of the survey will not exceed \$22,500. Upon his favorable recommendation, the Commission approved the agreement and authorized the Director to sign it in their behalf.

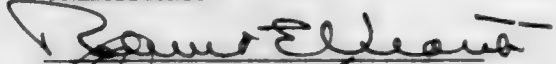

The Chairman adjourned the meeting at 9:45 a.m.

- 2) Relinquishment of excess property to the Oregon Wildlife Commission covering two sites on the Hubbard Interchange-Hayesville Interchange Section of the Pacific Highway in Marion County. One site covers 20.3 acres (File 46914) and the other site covers 4 parcels containing 17.4 acres, 56 acres, 37 acres and 39.9 acres (Files 20280, 23720, 25669 and 23578).
- 3) Relinquish an access roadway containing 900 square feet to Bonneville Power Administration on the Columbia County Line-Burlington Section of the Columbia River Highway in Multnomah County. (File 45065)
- 4) Reconveyance of Sign and Release of State's Interest as Lessee in an Outdoor Advertising Sign Site on the Columbia River Highway in Morrow County. State to relinquish all interest in said agreement with Honald Incorporated for original purchase price of \$2,360. (File 2-163.5)
- 5) Extension agreement with Oregon-Washington Railroad and Navigation Company, Union Pacific Railroad Company, and Southern Pacific Transportation Company for the lease of the Steel Bridge in Portland, Multnomah County, for 6 months to December 31, 1974.
- 6) Grant of Access to Thomas F. and Louise E. Lazier at Station 8+23 on the La Grande-Baker Highway in Union County. (File 17082)
- 7) A maintenance and administration agreement with the Mission Mill Museum Association and the City of Salem for the Thomas Kay Woolen Mill Restoration Project to be carried out on a match-fund basis under provisions of the National Historic Preservation Act of 1966. Costs are shared by the Association and the National Park Service. The City is the guarantor. There are no State Funds involved. The estimated cost of the Thomas Kay Woolen Mill Restoration Project is \$25,000. The Federal share covering the project has been earmarked from Oregon's FY 1974 apportionment of historic preservation grant monies.
- 8) Supplemental agreement amending April 15, 1974, agreement with Friends of Tryon Creek Park, Inc., an Oregon nonprofit corporation, for the construction of a nature house in Tryon Creek State Park in Multnomah County. The supplemental agreement will provide as follows: "Upon award of contract by corporation, State will pay to Corporation the sum of \$10,000. In the event that Corporation does not have sufficient funds to complete the construction of the nature house, State will provide up to an additional \$28,000 for said construction upon request and documentation of need by Corporation."

- 7) Agreement between SOLV, Inc. (Stop Oregon Litter and Vandalism) and the Commission, for the State to continue participation in the financial support of the statewide SOLV anti-litter and vandalism program. The agreement states that:
 1. SOLV will enlarge its anti-litter and vandalism campaign directed to the reduction of types of litter and vandalism that directly affects the operation, maintenance, and use of State highways, parks, recreation areas and the ocean shore.
 2. State will underwrite the costs of such an enlarged campaign through the period ending June 30, 1975, in an amount not to exceed twenty-five thousand (\$25,000) dollars.
 3. SOLV, as a condition precedent to payment of such costs, will supply the State with source documents which support the enlarged anti-litter and vandalism program directly affecting the varied State highway programs.

SUBJECT: Report of Actions Taken Under Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approve all actions listed on the attachment hereto and report this action for your official records.

Dated this 23 day of July, 1974

Steen Jackson
Chairman
Oregon Transportation Commission

Attachment List:

- 1) Options accepted (8) Report of July 19, 1974
- 2) Public sale authorized (Files 39526, 39527, 40970 & 43715)
- 3) Direct sale authorized (File 6411)
- 4) Direct sale authorized (File 7398)
- 5) Direct sale authorized (File 10186)
- 6) Public sale authorized (File 4504)
- 7) Agreement with City of Salem approved (Hines Street)
- 8) Agreement with City of Salem approved (Mission Street S.E.)
- 9) Agreement with Jackson County Board of Commissioners approved
- 10) Agreement with Clackamas County Board of Commissioners approved
- 11) Agreement with City of Enterprise approved
- 12) Agreement with City of Canby approved

48052	Sharp, Ray D. & Mary F.	\$ 2,265.00
18 signs	National Advertising Co.	11,810.00
16 signs	National Advertising Co.	12,460.00
1-38.72	Hybertsen, C. N.	450.00
1-183.94	Bandal Distributors	900.00
1E-27.24	Smith, Willie & Margery	90.00
29-39.29	Adolph, Harold	50.00
5 SR's	Casey & Stone	<u>1,500.00</u>
	<u>8 Transactions</u>	<u>Total</u>
		\$29,525.00

- 2) Public sale of 6001 sq. ft. of excess property on the So. Pendleton-Court Place Section of the Oregon-Washington Hwy. in Umatilla County, for a minimum consideration of \$5,000.00, FHWA approval has been received. This was previously approved for sale at \$8,000.00 with no bids received. Files 39526, 39527, 40970 and 43715 (Right of Way Branch) (Real Property Resolution No. 650)
- 3) Direct sale of 0.37 ac.[±] of excess property to Cloverdale Rural Fire Protection District on the Sisters-Bend Section of the McKenzie-Bend Hwy. in Deschutes County for \$250.00. File 6411 (Right of Way Branch)
- 4) Direct sale to John Stanek of 3.13 acs.[±] of excess property in the Seufert-Dufur Section of the The Dalles-California Hwy. in Wasco County for \$200.00. File 7398 (Right of Way Branch)
- 5) Direct sale to the City of Central Point of 0.33 ac.[±] of excess property on the Central Point Section of the Rogue Valley Hwy. in Jackson County for \$1,750.00 which is half the appraised value, subject to the Public Use Clause. This supersedes the July 8 approval which was not subject to the Public Use Clause. File 10186 (Right of Way Branch) (Real Property Resolution No. 646a)
- 6) Public sale of 0.89 ac.[±] of excess property on the Fort Klamath-Crooked Cr. Section of the Crater Lake Hwy. in Klamath County for a minimum consideration of \$750.00 File 4504 (Right of Way Branch)
- 7) A letter-form agreement with the City of Salem for installation of railroad crossing protection at Hines Street with the Southern Pacific Transportation Company tracks. This project is eligible for 90% Federal Aid funding under Section 203 of Title II, Highway Safety Act of 1973. Total estimated cost for the work is \$40,000.00. City will provide the 10% (\$4,000.00) matching funds with no expense to the State. (County and City Unit)

- 8) A letter-form agreement with the City of Salem for improvement of Mission Street S.E. @ 22nd Street, FAUS 2009, in the City of Salem. This project is eligible for 90% Federal Aid funding under Section 209 of Title II, Highway Safety Act of 1973. Total estimated cost for the work is \$20,000.00. The City will provide the 10% (\$2,000.00) matching funds with no expense to the State. (County and City Unit)
- 9) A letter-form agreement with the Jackson County Board of Commissioners for installation of railroad crossing protection at the Beall Lane crossing of the main line tracks of the Southern Pacific Transportation Company. This project is eligible for 90% Federal Aid funding under Section 230 of Title II, Highway Safety Act of 1973. Total estimated cost of the work is \$40,000.00. County will provide the 10% (\$4,000.00) matching funds with no expense to State. (County and City Unit)
- 10) A letter-form agreement signed by the Clackamas County Board of Commissioners for improvement of Oatfield Road at Jennings Avenue, FAS 119, in Clackamas County. This project is eligible for 90% Federal Aid funding under Section 209 of Title II, Highway Safety Act of 1973. Total estimated cost for the work is \$3,500.00. The County will provide the 10% (\$350.00) matching funds with no expense to the State. (County and City Unit)
- 11) An agreement between State and the City of Enterprise, Wallowa County, to reroute the Wallowa Lake Highway over the present truck route and shorten the Enterprise-Lewiston Highway one block in downtown Enterprise, and return the streets on the existing route to the City. This will be a reduction of .05 mile in the state highway system. (County and City Unit)
- 12) A letter-form agreement with the City of Canby for installation of railroad crossing protection at Grant Street crossing of the main line tracks of Southern Pacific Transportation Company. This project is eligible for 90% Federal Aid funding under Section 230 of Title II, Highway Safety Act of 1973. Total estimated cost for the work is \$35,000. The City of Canby has provided the 10% (\$3,500) matching funds with no expense to the State. (County and City Unit)
- 13) Acquisition agreement with Jackson County to acquire 56 parcels of land containing 363.34 acres for Bear Creek Greenway, Phase 1, as directed by the legislature under HB 3201 on July 22, 1973. Fee title will vest in Jackson County. Funding is Jackson County (25%) \$158,250; State Highway (25%) \$158,250; B.O.R. (50%) \$316,500; total \$633,000. All other approvals have been received. The Right of Way Branch of the State Highway Division will do the work under a work agreement. (State Parks Branch)
- 14) Amended deed from the Bureau of Outdoor Recreation to a portion of the former Veterans Administration Hospital Reservation. The amendment provides that the property shall be for park and recreation purposes in perpetuity. Amendment to the lease agreement (dated May 5, 1958) between the Highway Commission and the City of Roseburg. The amendment provides for a revised program of utilization for the property leased to the City of Roseburg. (State Parks Branch)

REPORT OF INSTITUTION OF LEGAL PROCEEDINGS FILED AGAINST DEPT. OF TRANSPORTATION

L-7108 Suzanne Uding v. State of Oregon: This lawsuit arose out of an accident which occurred on or about the 5th day of October, 1973, on the Mt. Hood Highway in Multnomah County, and the plaintiff alleges that the travel lane ended at West Ava Street and plaintiff's car struck a light pole directly in front of the travel lane.

The plaintiff is claiming that the State was negligent in not providing necessary signing to warn of the ending of the widened highway. The section was under construction at the time of the accident. The plaintiff is seeking \$42,700 and the matter has been referred to our insurance carrier for the defense of our State employees.

L-7109 State of Washington, et al., v. Claude S. Brinegar, et al: This is a class action filed in the United States District Court for the District of Columbia relating to the FHWA impoundment of certain forest highway monies. The total amount of Oregon's claim is in excess of \$6,000,000. Oregon, through the Highway Division, has successfully intervened in this action, but a temporary restraining order against the FHWA was denied at a District Court on grounds which suggest that the final outcome will not favor our position. The case has been partly mooted by legislative action to restore the most critical portion of the impounded funds. The recent bill, which has yet to be signed by the President, would restore to the Highway Division budget an amount of 1.85 million dollars for forest corridor purposes. It is anticipated that there will be further congressional action in the future with regard to other monies.

L-7110 State of Oregon v. Robert Hastie: This is the first in what may be a series of cases involving violations of the Scenic Waterways Act by certain property owners on the Rogue River in Curry County. The property owners, who include a deputy Sheriff of Curry County, are apparently undertaking construction activities on property within the scenic waterways corridor of the Rogue River without providing necessary notice to the Department or obtaining a permit from the Department. Injunctions will be sought in each case to prohibit any further construction activities from the time of the order. In serious cases, and with regard to critical areas, the State or Federal Government will undertake immediate condemnation proceedings. The order given in these cases may have an impact on the amount of award in the condemnation actions.

L-7111 Ethel Loftin v. State of Oregon: This case arose out of an accident that occurred July 10, 1972 on Highway 20, one mile east of Toll Creek Road in Linn County. The plaintiff alleges that she was a passenger in a car driven by Robert Lewis and that a Highway Division employee improperly directed Mr. Lewis through a work area and he collided with a Highway Division worker and a State vehicle. Plaintiff seeks \$25,000 general damages and actual medical costs as of the date of trial. The matter has been referred to our insurance carrier.

August 7, 1974
Salem, Oregon

The Oregon Transportation Commission held a special telephone meeting at 9:30 a.m. in Room 140 of the State Highway Building in Salem, Oregon. The following persons were on the telephone at the locations given:

Glenn L. Jackson, Chairman, Portland
Robert L. Mitchell, Secretary, Portland
Robert E. Veatch, Member, Klamath Falls
Anthony Yturri, Member, Ontario
F. B. Klaboe, Administrator and State Highway Engineer,
Salem
David Talbot, State Parks Superintendent, Salem
Patrick Randolph, Temporary Assistant Attorney General,
Salem
Ralph Sipprell, Public Affairs, Salem
John J. Earley, Public Affairs, Salem
C. W. Head, Supervisor, Commission Services, Salem

Mr. Klaboe stated that this meeting is to consider a resolution concerning the Dabney State Park located approximately 19 miles east of Portland on the Sandy River in Multnomah County. He called on Mr. Talbot to explain the problems and the reasons for the special meeting.

Mr. Talbot referred to Exhibit A to the resolution, a report by Mr. Frank Stiles, District Parks Supervisor in Portland. The report indicated that there have been a series of near riots at the park. On May 5, 1974, it took 26 deputies to get the park back under control. The State Police Cadets moved in and took over from the County Sheriffs as a routine matter on June 14. Since that time matters have not improved. Law enforcement officials and innocent bystanders have received personal injuries. After this the police moved out and informed the Parks Department that if the State would adopt more stringent regulations that they could enforce, then they would be glad to help get control of the Park.

The report indicated that there are problems with the use of alcoholic beverages by a large percentage of young people. In the last two weeks there was \$800 in damage to electric stoves alone due to vandalism. It is very difficult to keep dogs under control and there have been continuing problems with dog fights, sanitation and other harassment. The park consists of approximately 135 acres and there are about 210 parking stalls which will accommodate approximately 1,000 people. On busy weekends there are between two and three thousand people using the park. They are filling the parking area and are also parking on both sides of the highway outside of the park.

Mr. Randolph reported that a resolution has been prepared that incorporates Mr. Stiles memorandum as Exhibit "A", which is a recitation of the facts upon which the proposed regulations would

be based as emergency temporary regulations that would be in effect for 90 days. The resolution also covers the adoption of two temporary regulations for 90 days (August 7, 1974, to November 5, 1974). These regulations are attached as exhibits to the resolution as follows:

EXHIBIT "B"

- (1) No dogs, except seeing-eye dogs, are permitted on park grounds.
- (2) No alcoholic beverages of any kind are permitted on park grounds.
- (3) The park shall close at 9:00 p.m. every evening during the effective period of these regulations. Park visitors remaining after said time shall be subject to arrest.

EXHIBIT "C"

Temporary Regulation establishing a tow-away zone on the Crown Point Highway in the vicinity of Dabney State Park.

- (1) Parking is prohibited on the Crown Point Highway No. 125 on both sides of the roadway between M.P. 4.31 and M.P. 5.81. This area shall be designated and signed as a tow-away zone and persons violating parking restrictions in this area shall be subject to removal of their vehicles at owner's expense.

The resolution rescinds "No Parking Resolution No. 50," dated August 21, 1950, relating to parking prohibitions on the Crown Point Highway.

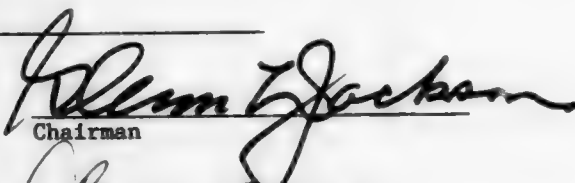

Mr. Randolph said that under the resolution these regulations would be submitted to the Commission at a later date for adoption as permanent rules. The resolution provides that a hearing be held pertaining to the regulations outlined in Exhibit B and he indicated that it may be held in the vicinity of the park.

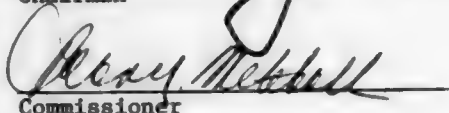

Concerning Exhibit C, a public hearing will be held if a hearing is requested by 10 or more interested persons or an association having not less than 10 members.

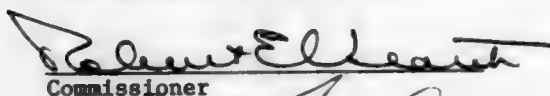

Mr. Talbot indicated that the State Police and Multnomah County Sheriff's Department have promised their full cooperation in the enforcement of these new regulations.

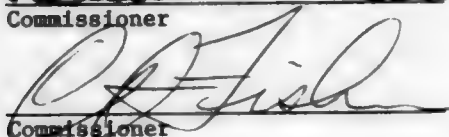

Following his recommendation, the Commission unanimously adopted "State Parks Resolution No. 34," which resolution by this reference is made a part hereof and filed in the Commission's files. (The resolution adopting the temporary rules was filed with the Secretary of State this date.) The proposed rule (Exhibit C) was published in the September 1, 1974, issue of the Secretary of State's Administrative Rule Bulletin.

The telephone meeting was concluded at 9:45 a.m.

August 29, 1974
Salem, Oregon

The Oregon Transportation Commission met in regular session at 11 a.m. in Room 122 of the State Highway Building in Salem, Oregon. Present were:

Glenn L. Jackson, Chairman
Carl O. Fisher, Vice Chairman
Robert L. Mitchell, Secretary
Robert E. Veatch, Member
Sam R. Haley, Deputy Director
Walt Barrie, Chief Counsel
F. B. Klaboe, Administrator and State Highway Engineer
A. E. Johnson, Deputy State Highway Engineer
J. B. Boyd, Right of Way Engineer
David Talbot, State Parks Superintendent
Roger G. Ritchie, Deputy Administrator of Aeronautics
Dennis Moore, Administrator of Mass Transit
Chester Ott, Administrator of Motor Vehicles
C. W. Head, Supervisor, Commission Services

The Commission approved the minutes of the regular meeting of July 30, 1974, and the special meeting of August 7, 1974.

HIGHWAY DIVISION

A list of properties needed for highway and other uses was presented by Mr. Boyd. He requested the Commission to declare by resolution the necessity of said properties for the public use to which they are to be put and to authorize him to attempt to agree with the owners of said properties as to price. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful and thereupon adopted "Condemnation Resolution No. 2623," which resolution by this reference is made a part hereof and filed in the Commission's files.

The Commission considered petitioning the Multnomah County Board of Commissioners for the vacation of a portion of S.E. Caruthers Street between its intersection with the present and future locations of S.E. 96th Avenue. Mr. Boyd stated that this is to allow for the location of the Portland General Electric Company's Kelly Butte Substation which replaces their Montavilla Substation in the way of the East Portland Freeway. Following his favorable recommendation, the Commission approved the petition and authorized Mr. Klaboe to sign it in their behalf.

Mr. Barrie asked if there were any questions in connection with the informational reports previously submitted to the Commission on cases tried, cases settled and institution of legal proceedings

filed against the Department of Transportation since the last Commission meeting. There were no questions. (See Exhibit G on file in the Commission's files in Salem.)

Upon the recommendation of Mr. Barrie, the Commission abandoned the following claims which in his opinion do not warrant further action toward collection.

<u>NAME & CAO NO.</u>	<u>KIND OF DAMAGE TO</u>	<u>AMOUNT</u>	<u>REASON</u>
James E. Nicholes 70-204	Vehicle	\$ 343.58	Unable to locate
Anthony B. Commander 72-22	Guardrail	131.34	Unable to locate
Lydia Johns 73-130	Vehicle	62.52	No response to letters - cost of litigation not justified
Billy D. Lake and Betty Lake 73-155	Redwood fence	95.70	Lives out of state - cost of recovery does not justify such action
Robert L. Stamp 73-178	Guardrail	102.82	Lives in Washington. Same as 73-155
Theodore N. Gregg 73-259	Guardrail	179.38	Subject has died with- out any assets.
Lucinda G. Roach 73-276	McCulloch Bridge	246.58	Subject has no job, no assets and is a minor.
Floyd J. McMahon 73-299	Guardrail	95.04	Lives in Washington. Same as 73-155
Peter L. Feskins 73-360	Light pole	244.37	Minor - no assets and no insurance
Wendell N. Wallace 74-4	Logo sign	402.88	Moved to California. Same as 73-155
Raymond C. Pete 74-30	Guardrail	135.82	Lives in Washington. Same as 73-155

(continued on page 543)

<u>NAME & CAO NO.</u>	<u>KIND OF DAMAGE TO</u>	<u>AMOUNT</u>	<u>REASON</u>
Charles E. Wasson 74-86	Vehicle	\$ 147.12	Further investigation revealed a heavy gust of wind caused subject's vehicle to swerve into door of highway vehicle which was not parked off of travel lane.
Richard L. Busch 74-94	Sandy River Bridge	173.39	Lives in Washington. Same as 73-155.
George L. Brown 74-148	Guardrail	74.25	Gave phony address - never have been able to locate driver.
Harold L. Egnew 74-160	Guardrail	245.77	Lives in Alaska. Same as 73-155.
Central Oregon Irrigation District 73-96	Break in the bank of a canal	1,153.24	Does not appear that the State would have any success in collecting.

Upon the recommendation of Mr. Barrie, the Commission approved the appointment of the Governor's Task Force on Transportation as an advisory committee to assist in transportation planning. Mr. Barrie stated that this action will entitle the members to reimbursement of their expenses for their work on this committee. (List of committee members in the Commission's files, Salem.)

Mr. Talbot presented for the Commission's consideration Notifications of Intent by property owners to make various types of improvements along the Rogue River Scenic Waterways in Josephine County. The requests have been carefully investigated as to their compliance with the provisions of the Scenic Waterways Act. The Commission acted on the following requests for reasons as stated in Mr. Talbot's letters to the Commission insofar as their authority under the Scenic Waterways Act is concerned.

- (1) Request from James Burnette to subdivide approximately 65 acres within the Rogue River Scenic Waterway, Section 35, Township 35 South, Range 7 West near Robertson Bridge. Approved the parceling of proposed Lots 1 and 2 and declined the approval of proposed Lots 3 through 10.
- (2) Approved the request from Orvin Olson to construct a residence within the Rogue River Scenic Waterway in River Mile 87.

Consideration was given to the approval of the vacation of a portion of Government Street in the City of Newport, Lincoln County. Mr. Talbot stated that the property lies between the Yaquina Bay State Park on the south and the Yaquina Motor Lodge on the north and is not suitable for street purposes. Following his favorable recommendation, the Commission approved the petition and authorized Mr. Klaboe to sign it in their behalf.

Consideration was given to a supplemental agreement with Royston, Hanamoto, Beck and Abey for the preparation of a comprehensive Willamette River Greenway plan. Mr. Talbot stated that the newly created Land Conservation and Development Commission, which has final approval authority for the plan after review by the Commission, has requested the State to secure local government comment and to prepare an aerial photograph showing the boundaries of the project. The aerial map would cost approximately \$10,000 and the extra contract with local officials will cost an estimated \$15,000. Upon his favorable recommendation, the Commission approved the supplemental agreement and extended the contract time to January 31, 1975.

Mr. Talbot reported that conditions at Dabney State Park on the Sandy River in Eastern Multnomah County have improved and the local people are very pleased that they can now enjoy the park facilities without any problems. A hearing has been requested which will be held at a later date concerning the Commission's proposed park rules.

Mr. Klaboe reported on actions taken under delegated authority received for filing with the Commission records. These reports show the actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission files, Salem.)

Chairman of the Oregon Transportation Commission	Exhibit A
Vice Chairman of Oregon Transportation Commission	Exhibit B
Administrator and Highway Engineer	Exhibit C
Director of Permits	Exhibit D
Right of Way Engineer	Exhibit E
State Parks Superintendent	Exhibit F
Chief Counsel	Exhibit G

The Commission approved the following increase in project authorization as recommended by Mr. Klaboe:

- (1) Andersen, Hannan, Rogers & Matich, Contract No. 7693, Pacific Highway in Marion and Clackamas Counties, for \$798,841.58 (7.0%). The overrun was due to engineering, safety shoulder widening, replacement of a culvert, added lime treatment of subgrade, median embankment, added curbs and lighting changes at the scale sites.

Mr. Klaboe reported that an allocation of 12 percent of the Highway Fund to the cities for the period of January 1 through June 30, 1974 in the amount of \$8,067,217.90 was released on August 23, 1974.

The Commission considered a request from the City of Newport for the State to consent to the annexation of a portion of right of way of the Oregon Coast Highway in Lincoln County. Mr. Klaboe mentioned that this proposal has been investigated and he recommended approval. The Commission approved the annexation and authorized the Administrator and State Highway Engineer to sign the consent to annexation.

The Commission considered a request from Deschutes County for a Federal-aid Secondary Project. Mr. Klaboe pointed out that this project has been investigated and is eligible for FAS funds. Following his favorable recommendation, the Commission approved the following project and authorized the Administrator and State Highway Engineer to sign the agreement when prepared.

COUNTY	FAS NO.	SECTION & DESCRIPTION	PROGRAMMED AMOUNT	STATE SHARE
Deschutes	900	Burlington Northern Railroad Overcrossing (Camp Abbot Bridge) Sec. (County is requesting an advance of the next three years of Federal allocations.)	\$200,000	\$22,000
TOTAL			\$200,000	\$22,000

SUMMARY BY FISCAL YEARS	1974	1975	TOTAL
Allocated funds	\$4,108,000	\$4,252,000	\$8,360,000
Approved Projects (corrected to date)	4,108,000	665,000	4,773,000
Unprogrammed Balance	---	3,587,000	3,587,000
Project	---	200,000	200,000
Unprogrammed Balance	---	\$3,387,000	\$3,387,000

Consideration was given to an amendment to the Oregon Transportation Commission Directive No. 1 authorizing an increase in truck weight limits (triple trailers) to expand the approved route systems to include the following highways:

(continued on page 546)

- (1) The Umatilla-Mission Highway No. 331.
- (2) The Oregon-Washington Highway No. 8 from its junction with the Umatilla-Mission Highway near Pendleton to the Oregon-Washington state line.
- (3) The Wallowa Lake Highway No. 10 from La Grande to Elgin, excepting the Grand Ronde River bridge crossing near Island City. Detour of this bridge by triple-trailer combinations is required.
- (4) The La Grande-Baker Highway No. 66 from its junction with I-80N at North Powder to its junction with I-80N south of Baker.
- (5) The Baker-Copperfield Highway No. 12 from its junction with the La Grande-Baker Highway in Baker to its junction with I-80N.
- (6) The Ukiah-Hilgard Highway No. 341.
- (7) Lower Columbia River Hwy. No. 2-W from Rainier to Clatskanie.
- (8) The La Grande-Baker Hwy. No. 66 from La Grande to Union.

Mr. Klaboe stated that test runs have been performed to determine the movement over these sections and they can be made in compliance with the special provisions covering triple trailer permits. Following his favorable recommendation, the Commission approved Amendment No. 6 to Oregon Transportation Commission Directive No. 1. (Copy of Amendment No. 6 in Commission's files.)

The Commission considered approving requests for four Urban System Projects. Mr. Klaboe stated that two requests are from the City of Portland for consultant studies and the other requests from Clackamas County and the City of Salem. These projects have been investigated and are eligible for funding under the Federal-aid System Program and have received the approval of the Local Council of Governments. Following Mr. Klaboe's favorable recommendation, the Commission approved the following projects and authorized him to sign the agreements when prepared.

<u>JURISDICTION</u>	<u>SECTION</u>	<u>TOTAL COST</u>	<u>FEDERAL FUNDS</u>	<u>STATE SHARE</u>
Clackamas Co.	Johnson Creek Blvd. @ Bell Ave. FAU 5007	\$ 95,000	\$ 74,200	\$10,400
Portland	E. Burnside-Sandy Blvd.- 12th Ave. Intersec., FAU 1113 (consultant study to be made by Stevens, Thompson & Runyan, Inc.)	195,000	152,400	21,300

(continued on page 547)

<u>JURISDICTION</u>	<u>SECTION</u>	<u>TOTAL COST</u>	<u>FEDERAL FUNDS</u>	<u>STATE SHARE</u>
Portland	E. Fremont Bridge Connection to Union Ave., FAU 2029 (consultant study to be made by Cornell, Howland, Hayes, and Merryfield-Hill)	\$324,000	\$253,200	\$35,400
Salem	25th St.-Airport Rd., Mission St. (FAU 2009)	260,000	203,200	28,400
TOTAL NEW PROJECTS		<u>\$874,000</u>	<u>\$683,000</u>	<u>\$95,500</u>

SUMMARY BY FISCAL YEAR
(Federal FAU Funds)

	<u>1974</u>	<u>1975</u>	<u>TOTAL</u>
Allocated Funds (Federal)	\$6,405,362	\$6,552,246	\$12,957,608
Approved Projects (corrected to date)	<u>2,680,668</u>	<u>---</u>	<u>2,680,668</u>
Unprogrammed Balance	\$3,724,694	\$6,552,246	\$10,276,940
New Projects (8-29-74)	<u>683,000</u>	<u>---</u>	<u>683,000</u>
Unprogrammed Balance	<u>\$3,041,694</u>	<u>\$6,552,246</u>	<u>\$ 9,593,940</u>

Mr. Klaboe presented the following construction projects on which bids are to be received August 15 and August 29, 1974. He indicated that the projects contain an explanation of plans concerning the establishment of footpaths and bicycle trails.

AUGUST 15, 1974 BID LETTING

- (1) Hubbard Interchange-Woodburn Interchange, Pacific Highway, Marion and Clackamas Counties. Roadside Improvement Project.
Footpaths or bicycle trails are not incorporated in this project as no new highway construction, reconstruction, or relocation is involved.
- (2) Emigrant Hill-Meacham, Old Oregon Trail, Umatilla County. Grade, Pave and Signing Project.
Footpaths and bike trails will not be established on this project as per ORS Chapter 366, Section 2, Subsection 2(b), which states that "Footpaths and bike trails are not required to be established... if the cost of establishing such paths and trails would be excessively disproportionate to the need or probable use."
- (3) South Fork Clackamas River-Bull Creek, Clackamas Hwy., Clackamas County. Grade and Pave Project.
Footpaths or bicycle trails are not incorporated in this project as no new highway construction, reconstruction, or relocation is involved. The primary purpose of this project is to repair flood damaged areas.

(continued on page 548)

- (4) Tygh Creek and North Fork Mill Creek Bridges, FAS 229 and 509, Wasco County. Structures Project.
(Same as No. 2 on page 547)
- (5) South Fork Coos River (Landrith) Bridge, FAS 255, Coos County. Structure Project.
(Same as No. 2 on page 547)

AUGUST 29, 1974 BID LETTING

- (1) Sutherlin Interchange-Winchester Interchange, Pacific Highway, Douglas County. Grade, Pave and Signing Project.
(Same as No. 2 at August 15, 1974 bid letting.)
- (2) Canyonville-Glendale Junction, Pacific Highway, Douglas County. Grade, Pave, Sign and Structure Project.
(Same as No. 2 at August 15, 1974 bid letting.)
- (3) South Baker Interchange-Pleasant Valley Interchange, Old Oregon Trail, Baker County. Grade, Pave and Signing Project.
(Same as No. 2 at August 15, 1974 bid letting.)
- (4) SE 89th Ave.-SE 106th Ave., FAU 1073, Multnomah County. Grade, Pave, Signal, Sign and Illumination Project.
Bicycle/pedestrian sidewalks will be provided throughout the length of the project.
- (5) Jap Hollow Creek Culvert, County Road 129, Wasco County. Box Culvert Project.
(Same as No. 2 at August 15, 1974 bid letting.)
- (6) Willow Creek Bridges, County Roads 723 and 729, Gilliam County. Bridge Repairs Project.
(Same as No. 2 at August 15, 1974 bid letting.)
- (7) Mill St.-Walnut St. (Eugene), Pacific Highway West, Lane County. Traffic Signal Project.
(Same as No. 1 at August 15, 1974 bid letting.)
- (8) Oak Knoll Bikeway Overcrossing, Willamina-Salem Highway, Polk County. Grade, Pave and Structure Project.
The purpose of this project is to provide a grade separation structure for bicycles and pedestrians.

(continued on page 549)

- (9) Campus Drive-O.T.I. (Klamath Falls) Bikeway, City Street, Klamath County. Grade and Pave Project. The purpose of this bikeway is to provide an extension to the previously constructed bikeway to serve Oregon Technical Institute.
- (10) La Grande Office Building, Wallowa Lake Highway, Union County. Landscaping Project.
(Same as No. 1 at August 15, 1974 bid letting.)

The Commission considered a request from the City of Portland for a Federal Aid TOPICS Project (traffic operational procedures to increase capacity and safety). Upon Mr. Klaboe's favorable recommendation, the Commission approved the request and authorized the Administrator and State Highway Engineer to sign the agreement when prepared.

CITY	SECTION	PROJECT ESTIMATE	FEDERAL SHARE	STATE SHARE
PORTLAND	N.W. 2nd Ave.-N.W. Park Ave., West Burnside	\$230,000	\$180,000	\$25,000

SUMMARY BY FISCAL YEAR (Federal TOPICS Funds)	1970, 71 & 72	1973	TOTAL
Allocated Funds (Federal)	\$4,153,000	\$870,000	\$5,023,000
Approved Projects (corrected to date)	<u>4,153,000</u>	<u>661,000</u>	<u>4,814,000</u>
Balance	---	\$209,000	\$ 209,000
New Projects (8-29-74)	---	<u>180,000</u>	<u>180,000</u>
Unprogrammed Balance	---	\$ 29,000	\$ 29,000

Following Mr. Klaboe's recommendation, the Commission adopted the following as proposed rules:

- (1) Install stop sign at the easterly approach of the Fort Stevens Highway at Ridge Road intersection (M.P. 0.10) in the City of Hammond in Clatsop County.
- (2) Install traffic signals at the intersection of 4th and Adams (Pacific Highway West) in the City of McMinnville in Yamhill County.

(continued on page 550)

- (3) Rescind Speed Zone Resolution No. 254 dated September 12, 1957, and establish a 45 MPH speed zone on the Pacific Highway East in Clackamas County.

45 miles per hour from the south city limits of Milwaukie (M.P. 6.40) to the north city limits of Gladstone (M.P. 10.57) except that between 450 feet north of S.E. Concord Road (M.P. 8.33) and 200 feet south of S.E. Concord Road (M.P. 8.46), the designated speed shall be 20 MPH when children are present as per the provisions of Subsection 1.a of ORS 483.104.

- (4) Rescind Speed Zone Resolution No. 575 dated February 16, 1971, and establish the following speed zones on the Northeast Portland Highway No. 123 east of Portland in Multnomah County.

45 MPH from the east city limits of Portland (M.P. 8.67) to N.E. Cully Boulevard (M.P. 9.64), except that from 200 feet west of N.E. 52nd Avenue (M.P. 8.84) to 200 feet east of N.E. 52nd Avenue (M.P. 8.92) where the designated speed shall be 20 MPH when children are present as per the provisions of Subsection 1.a., of ORS 483.104.

35 MPH from N.E. Cully Boulevard (M.P. 9.64) to N.E. 82nd Avenue (M.P. 10.37)

45 MPH from N.E. 82nd Avenue (M.P. 10.37) to N.E. Sandy Boulevard (M.P. 11.30)

30 MPH from N.E. Sandy Boulevard (M.P. 11.30) to N.E. 112th Avenue (M.P. 11.95)

35 MPH from N.E. 112th Avenue (M.P. 11.95) to 50 feet west of N.E. 125th Place (M.P. 12.64)

40 MPH from 50 feet west of N.E. 125th Place (M.P. 12.64) to 500 feet east of N.E. 141st Drive (M.P. 13.45)

50 MPH from 500 feet east of N.E. 141st Drive (M.P. 13.45) to eastbound connection to Columbia River Highway, No. 2, (M.P. 17.14)

(Proposed rules published in the Secretary of State's Administrative Rule Bulletin on September 15, 1974.)

Consideration was given to an architectural agreement with Broome, Selig, Oringdolph and Partners for a new materials testing laboratory building in East Salem. Mr. Klaboe mentioned that the first phase for the architect will be to conduct a site study for the new building within the existing Highway Division complex. The fee is set on a time-cost basis with a \$5,400 maximum. The design fee is set for 7.3 percent of construction costs. Upon his recommendation, the Commission approved the agreement.

The Commission considered an agreement with Systems, Science, and Software to conduct a one-day training course in the use and interpretation of computer prediction models that the Division is now using for air quality analysis. Mr. Klaboe mentioned that the Division does not have personnel trained in this particular area and is unable to achieve maximum potential from the computer program. The cost of training and reasonable expenses shall not exceed \$400. The Commission approved the agreement as recommended by Mr. Klaboe.

Attention was given to an abandonment resolution to transfer some old highway alignment on the Sanderson Bridge Section of the Albany-Lyons Highway to Linn County. Mr. Klaboe indicated that the new alignment and bridge on the South Santiam River has been completed and the County has agreed to accept approximately 2.7 miles of old alignment. Following his favorable recommendation, the Commission approved the abandonment and thereupon adopted "Abandonment Resolution No. 531," which resolution by this reference is made a part hereof and filed in the Commission's files, Salem.

Consideration was given to an agreement with Douglas County replacing a traffic signal on the Coos Bay-Roseburg Highway at S. W. Carnes Road (Kelly's Corner). Mr. Klaboe stated that the County will pay the power costs and the State will be responsible for the maintenance. The signal replacement will be funded under the Winston-Shady Project, Contract No. 8046. Following Mr. Klaboe's favorable recommendation, the Commission approved the agreement.

AERONAUTICS DIVISION

Following Mr. Ritchie's recommendation, the Commission approved the following items prior to submitting to the Emergency Board for approval.

- (1) Authorization of \$6,000 Capital Outlay from the Aeronautics Search and Rescue fund for the purpose of acquiring twelve items of Direction Finding Radio Gear to be used in Air Search and Rescue operations.
- (2) Application for Emergency Federal funds and increase the budget limitation for Federal Funds by the amount of \$38,345.90 for repair of flood damage to the Tri-City State Airport in Douglas County.

Mr. Ritchie presented to the Commission copies of Mr. Burket's remarks to the Governor's Transportation Task Force meeting which was held on August 28, 1974. (Copy of report in the Commission's files.)

Mr. Ritchie reported that the Federal Aviation Administration has depleted all of its apportionment funds for Oregon for the fiscal year 1975 and have denied ten city projects totaling \$3,058,000. These projects will now have to wait for funding until the fiscal year 1976.

MASS TRANSIT DIVISION

The Commission adopted Delegation Order No. 7 as recommended by Mr. Moore as follows:

OREGON TRANSPORTATION COMMISSION DELEGATION ORDER NO. 7

Pursuant to the provisions of ORS 184.635 and in order to provide for a more efficient and expeditious administration of the Mass Transit Division, the following powers of the Commission are hereby delegated to the following officers or their designated representative within the Commission and the Mass Transit Division:

To the Chairman or Vice-Chairman of the Oregon Transportation Commission:

- 1 - Approve consultant agreements of duration of one year or less for under \$20,000.

To the Administrator of the Mass Transit Division:

- 1 - Approve and sign contracts for services and supplies.
- 2 - Approve and sign grant contracts with the Federal Government for legislatively authorized programs.
- 3 - Approve and sign contracts for special payments to local governmental and other non-profit units for disbursement of state, federal and other funds for legislatively authorized programs.
- 4 - Sign all contracts approved by the Chairman, Vice-Chairman or Commission.

Mr. Moore presented to the Commission copies of the "Portland to Salem Commuter Bus Project Report" dated August, 1974. He stated that the bus system for Portland employees who work in State offices in Salem has operated successfully for six months. During this period an average of 40 members participated. It is estimated that during this six-month period, the commuters drove 350,000 miles less and saved at least 23,000 gallons of gasoline. After six months of successful

operation, the commuters formed a non-profit corporation called the "Commuter Club, Inc." which continues to operate the commuter service. No State funds were expended for this project. (Copy on file in the Commission files.)

MOTOR VEHICLE DIVISION

Following Mr. Ott's recommendation, the Commission approved an increase in budget limitation of \$351,629 for the Division of Motor Vehicles. He stated that this is due to additional expenditures required to implement Chapters 81, reflectorized license plates; 91, titles for mobile homes; and 643, personal service of suspension notices, Oregon Statutes as amended in 1973. (For detail see Mr. Ott's letter of August 28, 1974, to the Emergency Board in the Commission's files.)

Mr. Ott reported that the motor vehicle registration for the first six months of 1974 is almost equal for the same period as 1973. Revenue is approximately 74 percent higher than last year at this time due to the doubling of some of the license fees.

Mr. Ott stated that there has been approximately 28 percent more fatalities so far in August this year than in August last year.

Mr. Ott reported that a news release was sent out today informing the public of the Division's defensive driving courses, which is used for driver improvement. He stated that this is a requirement by the Habitual Offender's Act passed in 1973 for those who ask for it. Courses in the past have been available in three cities and will soon be available in nine additional cities throughout the State. These courses have been self-sustaining and financed by the fees collected by the participants.

DEPARTMENT OF TRANSPORTATION

Director's Report

The Commission set Wednesday, September 25, 1974, 10 a.m. as the date for the next meeting.

Mr. Lester Robinson of the Oregon Cattlemen's Association appeared before the Commission regarding the use of triple-trailers on Highways 82 from Elgin to Imnaha, 86 from Baker to Halfway, and 203 from Union into La Grande in northeastern Oregon. Others present were Fred Phillips, Baker County Cattlemen's Association; Jim Stilson, Wallowa County Stockgrowers; and C. W. Jones, Jones Truck Line.

(continued on page 554)

Mr. Robinson requested the use of triple-trailers on these three highways for hauling of livestock and feed during three months in the fall and two months in the spring. He stated the moving of cattle and feed over these highways with triples will reduce their cost of transportation by approximately 6 percent. (Delegation continued below.)

Mr. Klaboe recommended the use of triple-trailers on Highway 203 from La Grande to Union and that it be added to the previous list of approved triple-trailer routes. The Commission accepted his recommendation. (This action has been included in Amendment No. 6 to Oregon Transportation Commission Directive No. 1 concerning triple-trailer routes on pages 545 and 546 approved earlier in the meeting.)

Mr. Jackson asked Mr. Klaboe if it would be feasible to issue temporary permits on the highway from Baker to Halfway. Mr. Klaboe indicated that he would want to make another investigation as there are some steep grades on this highway.

The Commission adopted Delegation Order No. 8 as follows:

OREGON TRANSPORTATION COMMISSION DELEGATION ORDER NO. 8

Pursuant to the provisions of ORS 184.635, as amended by Chapter 249, Oregon Laws 1973, and in order to provide for a more efficient and expeditious administration of the Highway Division, the following powers of the Commission are hereby delegated to the following officer or his designated representative within the Highway Division:

TO THE ADMINISTRATOR AND STATE HIGHWAY ENGINEER:

- 1) Authority to grant temporary permits (triple trailers) on the basis of tests for any previously untested section of State highway.
- 2) Authority to cancel such permits if in the Administrator's opinion it is in the best interest of public safety.

Mr. Phillips stated that he travels Highway 86 from Baker to Halfway quite frequently. There is an eight to ten mile section of this highway in the Powder River Canyon that is quite crooked between Lower Powder and Richland. For safety, he suggested the installation of signs "Approaching Passing Area" and "No Passing Permitted." Mr. Phillips recommended the use of triples from Baker to Halfway.

Mr. Stilson mentioned that the Wallowa County Stockgrowers are particularly interested in Highway 82 from Elgin to Innaha. The worst part of this section is from the top of Minam Hill down to the bottom of Minam Canyon. The heaviest movement of cattle on this highway is from September to December and then again in April and May.

(continued on page 555)

Mr. Jones stated that there is a sale held each Monday and there are from 1500 to 2000 head of cattle hauled out to market which requires 30 to 40 truckloads (doubles).

The Chairman informed the group that the Commission is aware of their problem. He stated that Mr. Klaboe will take another look at these highways to see what can be done.

The Chairman adjourned the meeting at 12:10 p.m.

- 2) Relinquishment to Bureau of Land Management of a portion of land obtained by Amended Decision dated June 6, 1973. The right of way for the Pleasant Valley-Oxman Section of the Old Oregon Trail Hwy. in Baker Co. is being revised. File 28618 (Right of Way Branch)
- 3) Public sale of 7,200 sq. ft. of excess property on the Linn Co. Line-Judkins Pt. Section of the Pacific Hwy. in Lane Co. for a minimum consideration of \$1500. File 27494 (Right of Way Branch) (Real Property Resolution No. 651)
- 4) Public sale of 2,977 sq. ft. of excess property on the N.Portland Harbor-Russell St. Section of the Pacific Hwy. in Multnomah Co. for a minimum consideration of \$300. File 32965 (Right of Way Branch)
- 5) Agreement with Lane Council of Governments providing for transportation planning work during fiscal year 1975 utilizing Metropolitan Planning Funds provided by the 1973 Federal-aid Highway Act. On January 30, 1974, the Transportation Commission approved distribution of Metropolitan Planning Funds to the various Councils of Governments and proposed to provide the 20 percent match. This agreement is the vehicle to implement that action for the Lane Council of Governments. The total amount to LCOG is \$64,711. The amount is composed of \$51,769 in Federal Funds and \$12,942 of State match. (Planning Section) (Eugene-Springfield area)
- 6) A cooperative-construction agreement with the City of Salem concerning construction of the Center Street Bridge Off-ramp Connection to Front Street for egress from the Willamina-Salem Highway in Marion County. The agreement provides for right-of-way acquisition by the City, with design and construction to be performed by the State. The project has been estimated to cost \$900,000 and is to be financed under the State Bond Program. (County-City Unit)
- 7) Letter-form agreement with City of Tillamook which concerns financing of the Main Avenue and Third Street (Tillamook) Section of the Oregon Coast and Wilson River Highways in Tillamook County. The original construction-finance agreement dated April 15, 1974, was for the normal 75% State and 25% City participation. During the design phase of the project the estimated cost increased to such an extent that the State elected to apply for Federal Aid Primary Funding. Under this plan participating amounts will be approximately FAP-78%-\$252,486; State-11%-\$35,607; and City-11%-\$35,607. The total estimated cost of the project is \$323,700. (County-City Unit)

- 8) Letter agreement with Pacific Northwest River Basins Commission to contract with the Washington State Department of Highways for computer services. The services are analyses of recreation data that has been provided by the States of Idaho, Oregon and Washington and the U. S. Forest Service. The results of the analyses will be regional recreation demand update for the Statewide Comprehensive Outdoor Recreation Plan. The cost of the computer work involved is \$4,000 to be share equally by the U. S. Bureau of Outdoor Recreation, Idaho, Oregon and Washington. Oregon's \$1,000 share is an eligible item to be cost shared and the State's cost would be \$500. (Parks Branch)
- 9) Agreement with the U. S. Bureau of Reclamation to jointly fund improvement of the park facilities at Lake Owyhee State Park on the Owyhee Reservoir in Malheur County. The total estimated cost is \$220,000. The State's share is \$120,000 and is budgeted for this fiscal year. The Federal share is \$100,000 which is the maximum allowable under Public Law 89-72. It is anticipated that the project will be completed by June 1975. (Parks Branch)
- 10) Agreement with Seal Rock Water District for capital cost improvements to provide reservoir, supply and water treatment facilities for water service at Driftwood State Park, Seal Rock State Park, Ona State Park, South Beach State Park, and to include a metered water connection to Lost Creek State Park; all in Lincoln County. The State will deposit \$50,000 with the District when a contract is awarded for the construction of the facilities and will pay the remaining cost up to a maximum total of \$100,000 when the project is completed and with proper documentation as to the actual costs incurred. This \$100,000 share is based on the estimated percentage (10 percent) of usage by the State Parks compared to all other users of the water system. (Parks Branch)
- 11) Agreement, complete with Exhibit A, with the City of Medford to acquire a parcel of land containing 8.74 acres for Bear Creek Greenway, Phase 7, as authorized by the 1973 Legislature. Fee title will vest in the City of Medford. Funding is City of Medford 25% - \$71,250; State 25% - \$71,250; and Bureau of Outdoor Recreation 50% - \$142,500. All other approvals have been received and the City is ready to purchase the property. (Parks Branch)

- 2) Public sale of 0.4 acre excess property on the Denny Rd.-Pacific Hwy. West Section of the Beaverton-Tigard Hwy. in Washington County for a minimum consideration of \$49,000. File 35388 (Right of Way Branch) (Real Property Resolution No. 652)
- 3) Release of an excess easement over 0.98 acre to Rinker Company in the N. Yamhill River-McMinnville Section of the Pacific Hwy. West in Yamhill County. Construction of their development eliminates the need to retain the slope easement. File 34248 (Right of Way Branch)
- 4) Demolition Contract with J. L. Stanley Inc. for low bid of \$3500 for a demolition project located in the Chemawa Rd.-Hickory St. Section of the Salem Freeway in Marion County. (Right of Way Branch)
- 5) Agreement with U. S. Forest Service for snow removal by the Highway Division to facilitate snowmobile parking on the Lake of the Woods Airstrip in Klamath County. Annual cost of this service is estimated to be \$500. (Maintenance Section)
- 6) Extension of the management agreement for the Hilgard-Perry Scenic Strip with the State Forester. The agreement covers preparation and administration of the sale of certain timber and performance of certain rehabilitation work in the Perry Highway Scenic Area in Union County. The original agreement was entered into on May 29, 1973, and a supplemental agreement for additional work was entered into on February 5, 1974. In order to provide continuous coverage, the State Forester requests that this extension be effective as of July 1, 1974, until July 1, 1975. (Parks Branch)
- 7) Petition for annexation of Armitage Park in Lane County to the Oakway Water District. The Oakway Water District has approved the petition and consent of the Eugene Water and Electric Board is necessary since they must agree to supply additional water as may be needed. Authorization for Warren Gaskill, Assistant State Parks Superintendent, to sign the Petition on behalf of the Commission is requested. (Parks Branch)

- 8) Agreement with Mid-Willamette Valley Council of Governments providing for transportation planning work during fiscal year 1975 utilizing Metropolitan Planning Funds provided by the 1973 Federal-aid Highway Act. On January 30, 1974, the Transportation Commission approved distribution of Metropolitan Planning Funds to the various Councils of Governments and proposed to provide the 20 percent match. This agreement is the vehicle to implement that action for the Mid-Willamette Valley Council of Governments. The total amount is \$61,548. The amount is composed of \$49,238 in Federal Funds and \$12,310 of State match. (Planning Section)
- 9) A letter-form agreement with City of Medford for installation of railroad crossing protection at the McAndrews and Oak Street crossing of the Southern Pacific Transportation Company tracks, in Jackson County. This project is eligible for 90% Federal Aid Funding under Section 203 of Title II, Highway Safety Act of 1973. Total estimated cost for the work is \$40,000. City will provide the 10% (\$4,000) matching funds with no expense to State. (County-City Unit)
- 10) A letter-form agreement with City of Ontario for installation of railroad crossing protection at S.E. 6th Avenue with Union Pacific Railroad Company tracks in Malheur County. The project is eligible for 90% Federal Aid funding under Section 230 of Title II, Highway Safety Act of 1973. Total estimated cost of the work is \$50,000. City will provide the 10% (\$5,000) matching funds with no expense to State. (County-City Unit)
- 11) A letter-form agreement with City of Ontario for installation of railroad crossing protection at S.E. 5th Avenue with Union Pacific Railroad Company tracks in Malheur County. The project is eligible for 90% Federal Aid funding under Section 203 of Title II, Highway Safety Act of 1973. Total estimated cost for the work is \$50,000. City will provide the 10% (\$5,000) matching funds with no expense to State. (County-City Unit)
- 12) A letter-form agreement with Clackamas County for improvement of the Carmen Road at Bonita Road Intersection in Lake Oswego, a Type II route. This project is eligible for 90% Federal Aid Funding under Section 209 of Title II, Highway Safety Act of 1973. Total estimated cost is \$3,500. The City will provide the 10% (\$350) matching funds with no expense to State. (County-City Unit)

A

- 2) Relinquishment of excess right of way over 0.4 acre to Josephine County on the Grants Pass-Rock Point Section of the Pacific Hwy. in Josephine County. We have FHWA approval. Files 27184 & 27185
- 3) Contract with V. Mathis Co. for \$18,040 for re-roofing the R. M. Wade Building on the Fremont Int.-Sunset Int. Section of the Stadium Freeway in Multnomah County. The Abbott & Simpson bid was lower but the material was of lesser quality. Mr. Boyd recommends the Mathis bid. File 44642
- 4) Demolition contract with Holton Trucking for low bid of \$7,200 for clearing of the East Portland Freeway and Industrial Freeway in Multnomah County.
- 5) Public sale of 2.34 acres excess land with 0.28 acre haul road easement on the Richland-Halfway Section of the Baker-Homestead Hwy. in Baker County for a minimum consideration of \$250. Former owner has a use reservation. Files 6288 & 6289
- 6) Renewal of a five-year lease agreement with Richard F. and Ann Thomas for the concession operation in the Depoe Bay State Park Building in Lincoln County. Mr. and Mrs. Thomas have successfully operated this concession since 1958. The lessee pays 7 percent of gross sales and receipts, payable in monthly installments. In 1970 this amounted to \$5,214.14; 1971, \$5,479.88; 1972, \$5,812.52; 1973, \$5,915.81 and \$2,110.30 through June 1974. The total income to the State during the term of the lease to date was \$24,532.65. The term of this lease will begin on January 1, 1975, and terminate on January 1, 1980.
- 7) Agreement with Lawore, Inc., for snow removal by the Highway Division on access road and parking areas at Lake of the Woods Resort in Klamath County. Annual cost of this service is estimated at \$1,000.00.

- 4) Letter-form agreement with the City of The Dalles approving request for annexation of local Highway Division facilities to the Eastside Sanitary Sewer District. A pre-assessment deposit of \$14,606.52 is required upon final approval of this agreement. Upon completion of construction and receipt of the DEQ grant, net cost to the Highway Division is projected at \$7,346.80. It will be necessary for the State to request actual connection to the system, that the connecting line be constructed as part of the project and to furnish an easement for construction of the line. (County and City Unit)
- 5) Letter-form agreement with the City of Tillamook for installation of railroad crossing protection at 3rd Avenue across the Tillamook Branch of the Southern Pacific Transportation Company tracks. This project is eligible for 90% Federal Aid funding under Section 230 of Title II, Highway Safety Act of 1973. Total estimated cost of the work is \$40,000. City will provide the 10% (\$4,000) matching funds with no expense to State. (County and City Unit)
- 6) Throughway-Abandonment Agreement with Curry County covering construction of the Elk River-Port Orford Section of the Oregon Coast Highway. Upon completion of the project, approximately three miles of existing highway alignment is to be transferred to county jurisdiction. (County and City Unit)
- 7) Agreement between the Highway Division and Marion County for construction of a bicycle trail from Champoeg State Park into the city of Butteville. The County will oil or pave at County expense the existing gravel road located on the Champoeg Memorial Highway right-of-way and will permit the State to construct a bicycle trail on the northerly shoulder of the existing paved County Road #422. The State will grade, rock and pave an additional three feet of County Road #422 on the southerly side, which the County will maintain. The State will grade, rock and pave the bicycle trail from the junction of County Road #422 and the Champoeg Memorial Highway to Butteville. The State will maintain the bicycle trail constructed on the County's right-of-way for a period of twenty-five years. (State Parks Branch)

REPORT OF ACTION UNDER DELEGATED AUTHORITY BY
ADMINISTRATOR AND HIGHWAY ENGINEER

On behalf of the Commission and under its authority delegated to me to award contracts when certain conditions have been fulfilled, I awarded the following contracts:

- (1) Fort Stevens State Park in Clatsop County. Bids received July 25, 1974. Contract No. 8044 awarded August 9, 1974, to Sunset Crushed Rock Co., Astoria, at \$104,290.
- (2) Oswald West State Park in Clatsop and Tillamook Counties. Bids received July 25, 1974. Contract No. 8045 awarded August 9, 1974, to McCain and McCain, Randle, Washington, at \$33,900.
- (3) Winston-Shady Interchange Section of the Coos Bay-Roseburg and Dillard Highways in Douglas County. Bids received July 25, 1974. Contract No. 8046 awarded July 31, 1974, to Peter Kiewit Sons' Co., Vancouver, Washington, at \$7,466,413.50.
- (4) Arlington Interchange-Irrigon Jct. Section of the Columbia River Highway in Gilliam and Morrow Counties. Bids received July 25, 1974. Contract No. 8047 awarded July 31, 1974, to Babler Bros., Inc., Portland, at \$5,370,495.
- (5) Irrigon Jct.-Stanfield Jct. Section of the Old Oregon Trail in Morrow and Umatilla Counties. Bids received July 25, 1974. Contract No. 8049 awarded July 31, 1974, to Babler Bros., Inc., Portland, at \$2,293,927.
- (6) West Fremont Interchange Section of the Stadium Freeway in Multnomah County. Bids received July 25, 1974. Contract No. 8050 awarded July 31, 1974, to Paul Bros., Inc., Clifford H. Paul and Richard J. Paul, Portland, at \$920,444.
- (7) Main Avenue and Third Street in Tillamook in Tillamook County. Bids received July 25, 1974. Contract No. 8051 awarded August 2, 1974, to Babler Bros., Portland, at \$238,075.
- (8) S. Fk. Clackamas River-Bull Creek Section of the Clackamas Highway in Clackamas County. Bids received August 15, 1974. Contract No. 8052 awarded August 20, 1974, to Roy L. Houck Construction Co., Salem, at \$183,985.

EXHIBIT C

- (9) S. Fork Coos River (Landrith) Bridge Section of FAS 255 in Coos County. Bids received August 15, 1974. Contract No. 8054 awarded August 23, 1974, to Hamilton Construction Co., Springfield, at \$1,333,232.40.
- (10) Emigrant Hill-Meacham Section of the Old Oregon Trail in Umatilla County. Bids received August 15, 1974. Contract No. 8055 awarded August 20, 1974, to L. W. Vail Co., Inc., Pasco, Washington, at \$3,239,955.60.
- (11) Fifteenmile, Ramsey and Larch Creeks Bridges on FAS Routes 709 and 710 in Wasco County. Bids received August 15, 1974. Contract No. 8057 awarded August 20, 1974, to Douglas S. Coats Construction, Bend, at \$112,572.

INSTITUTION OF LEGAL PROCEEDINGS

L-7112 State of Oregon v. Dennis D. Wheaton and Donald E. Wheaton: This case involves violation of the Scenic Waterways Act by the defendant. The defendant is undertaking construction activities on property within the Scenic Waterways Corridor of the Rogue River without providing necessary notice to the Department or obtaining a permit from the Department. An injunction will be sought to prohibit any further construction activities from the time of the order. If it is felt to be advisable the State or Federal Government will take immediate condemnation proceeds.

L-7114 Lincoln Loan Co. v. State of Oregon: This is an Inverse Condemnation seeking \$12,500 in alleged losses in market value and rental value of property owned by Lincoln Loan Co. in Multnomah County.

This case arose from a condemnation proceeding (Highway Commission v. Lincoln Loan Co., L-6943 R-45779. In that case a residential rental property owned by Lincoln Loan Co. was being condemned for the Mt. Hood Freeway. The case was dismissed and the plaintiff received its costs and attorney fees.

Lincoln Loan now alleged that the long announced plans to build the Mt. Hood Freeway, the contacting of their tenants, the demolishing of improvements in the area and other alleged acts placed a "condemnation blight" on their property to their damage.

September 25, 1974
Salem, Oregon

The Oregon Transportation Commission met in regular session at 10 a.m. in Room 122 of the State Highway Building in Salem, Oregon. Present were:

Glenn L. Jackson, Chairman
Carl O. Fisher, Vice Chairman
Robert L. Mitchell, Secretary
Anthony Yturri, Member
George M. Baldwin, Director of Transportation
Sam R. Haley, Deputy Director
Walt Barrie, Chief Counsel
F. B. Klaboe, Administrator and State Highway Engineer
A. E. Johnson, Deputy State Highway Engineer
J. B. Boyd, Right of Way Engineer
David Talbot, State Parks Superintendent
Paul Burket, Administrator of Aeronautics
Dennis Moore, Administrator of Mass Transit
Chester Ott, Administrator of Motor Vehicles
C. W. Head, Supervisor, Commission Services

The Commission approved the minutes of the regular meeting of August 29, 1974.

HIGHWAY DIVISION

A list of properties needed for highway and other uses was presented by Mr. Boyd. He requested the Commission to declare by resolution the necessity of said properties for the public use to which they are to be put and to authorize him to attempt to agree with the owners of said properties as to price. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful and thereupon adopted "Condemnation Resolution No. 2624," which resolution by this reference is made a part hereof and filed in the Commission's files.

The Commission considered adopting a resolution changing the present policy pertaining to the sale of surplus lands. Mr. Boyd stated that the policy in force at the present time was predicated in 1954 on the sale of land excess to the State Highway Commission needs. The small parcels were obtained as uneconomic remnants at the request of the property owners because of severance or other reasons. The present problem which faces the present Commission has been caused primarily by the changing transportation needs. The Commission has in various cases had to purchase hardship and protective buying acquisitions in the larger cities in the state. He indicated that these acquisitions presently are estimated at \$8,800,000 and consist of entire takings which lie in the corridor of three freeways. Following his favorable recommendation, the Commission adopted "Real Property Resolution No. 664," which resolution by this reference is made a part hereof and filed in the Commission's files.

Attention was given to a resolution to fulfill requirements by the Department of Housing and Urban Development for full participation by HUD in the purchase of five properties for the Tryon Creek State Park in Clackamas County. Mr. Boyd mentioned that the State's deeds were taken without any use restrictions as provided by HUD regulations. HUD has agreed to a resolution passed by the Commission to document the highway records for the State's intent to not use the property for other than park purposes without prior approval of the Secretary of HUD. Upon his recommendation, the Commission adopted "Miscellaneous Resolution No. 255," which resolution by this reference is made a part hereof and filed in the Commission's files.

Mr. Barrie asked if there were any questions in connection with the informational reports previously submitted to the Commission on cases tried, cases settled and institution of legal proceedings filed against the Department of Transportation since the last Commission meeting. There were no questions. (See Exhibit G on file in the Commission's files in Salem.)

Attention was given to a Notification of Intent filed by Mr. and Mrs. Caleb Wade to construct a resort lodge and a single-family residence and to harvest some timber in Township 34 South, Range 8 West, Section 24, Lots 600 and 602, within the Rogue River Scenic Waterway in Josephine County. Mr. Talbot pointed out that that such development would be inconsistent with the Commission's rules for the area, intended to prevent the piecemeal erosion of the natural scene. Density in the vicinity already exceeds the four per mile on each bank standard. Additional structures visible from the river would cause substantial impairment of the natural beauty of the scene. Upon the recommendation of Mr. Talbot, the Commission denied the construction insofar as their authority under the Scenic Waterways Act is concerned.

Following Mr. Talbot's recommendation, the Commission approved a 30-day extension (December 5, 1974) to the temporary rules concerning regulations at the Dabney State Park in Multnomah County. Mr. Talbot informed the Commission that the new regulations are working satisfactorily. (The Commission at a special telephone meeting of August 7, 1974, adopted temporary rules at the park for a period of 90 days (August 7 to November 5, 1974.) A public hearing is scheduled on October 21, 1974. The 30-day extension was published in the October 15, 1974, issue of the Secretary of State's Administrative Rule Bulletin.)

Mr. Klaboe reported on actions taken under delegated authority received for filing with the Commission records. These reports show the actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission files, Salem.)

Chairman of the Oregon Transportation Commission	Exhibit A
Vice Chairman of the Oregon Transportation Commission	Exhibit B
Administrator and Highway Engineer	Exhibit C
Director of Permits	Exhibit D
Right of Way Engineer	Exhibit E
State Parks Superintendent	Exhibit F
Chief Counsel	Exhibit G

Consideration was given to three units of the Rock Creek-Nehalem River Section Project on the Sunset Highway in Clatsop, Columbia, Tillamook, and Washington Counties. Mr. Klaboe stated that a corridor-design hearing was held on July 2, 1974, and the Division has met all Federal requirements for clearinghouse and environmental concerns. Location and design approval was requested from the Federal Highway Administration on September 6, 1974. The project is proposed as a Federal-aid Primary Rural Project at an estimated cost of \$4,150,000 (right-of-way \$30,000 and construction \$4,120,000). Mr. Klaboe recommended approval of the project and to add it to the Federal-aid Program XIIA. The Commission approved the project and adopted "Highway Corridor and Design Resolution No. 415," which resolution is on file in the Commission's files, Salem.

Mr. Klaboe presented the following construction projects on which bids are to be received September 26, 1974. He indicated that the projects contain an explanation of plans concerning the establishment of footpaths and bicycle trails.

- (1) Memaloose Safety Rest Area, Columbia River Hwy., Wasco County. Rest Area Expansion Project. Footpaths or bicycle trails are not incorporated in this project as no new highway construction, reconstruction, or relocation is involved.
- (2) M.P. 3.6 Slide, Clackamas River Road, FAS 131, Clackamas County. Grade, Shoulders, and Riprap Project. Same as No. 1. The primary purpose of this project is slide correction. (ER Project.)
- (3) Lyon Street at 9th Avenue (Albany), Albany-Corvallis Highway, Linn County. Traffic Signal Project. Same as No. 1.

(continued on page 598)

- (4) Conifer Road at Pacific Highway West (Corvallis), Benton County. Traffic Signals Project.
Same as No. 1.
- (5) Bear Creek Section, FAS 32-100, Wallowa County, Culvert, Channel Change, and Riprap Project. Footpaths and bicycle trails will not be established under this project as per ORS Chapter 366, Section 2, subsection 2(b) which states that "Footpaths and Trails are not required to be established ... if the cost of establishing such paths and trails would be excessively disproportionate to the need or probable use."
- (6) Fort Stevens State Park, Clatsop County. Fencing Project.
Same as No. 1.
- (7) The Cove Palisades State Park, Jefferson County. Remodel Building Project.
Same as No. 1.

The Commission approved the following increases in project authorizations as recommended by Mr. Klaboe:

- (1) McCain and McCain, Contract No. 8045, Oswald West State Park (Pathway), Clatsop and Tillamook Counties, for \$5,920 (15.25%). The overrun was due to increasing the length of nine timber footbridges and extending the limits of the project one-half mile.
- (2) Lord Bros. Construction, Inc., Contract No. 7845, Steel Bridge-S.W. Sheridan Street, (Harbor Drive), Pacific Highway West, Multnomah County, for \$226,564.25 (12%). The increase was due to the removal of street pavement, seeding and mulching, and other minor changes.
- (3) W. H. Gregory Company, Contract No. 7942, Modoc Point (Units C & D), The Dalles-California Highway, in Klamath County, for \$178,600. An increase in the excavation quantities resulted in additional flagging and railroad protective costs.

Attention was given to adopting as a permanent rule the Bikeway Design Manual including the sign designs. Mr. Klaboe pointed out that the Commission at its July 30, 1974, meeting approved the publication. The proposed rule was published in the Secretary of State's Administrative Rule Bulletin on September 1,

(continued on page 599)

1974 and no requests for a hearing have been received. Following his favorable recommendation, the Commission adopted the bikeway design rule manual as a permanent rule. (Publication of the permanent rule was published in the Secretary of State's Administrative Rule Bulletin on October 15, 1974.)

Consideration was given to the installation of guardrails and replacement and modification of sidewalks on the Willamette River (Center Street) Bridge on the Willamina-Salem Highway in Salem in Polk and Marion Counties. Mr. Klaboe stated that the estimated cost of construction is \$850,000. He recommended that the project be financed from Federal-aid Funds and authority to proceed with the work in anticipation of receiving bids in October, 1974. The Commission accepted his recommendation.

The Commission considered approving Multnomah County's proposal to pay 9 percent interest on borrowed funds of \$1,400,000 for the purchase of the Glendoveer Golf Course in Portland as a park and recreational facility. Mr. Klaboe mentioned that the 1973 Legislature authorized the Commission to advance to Multnomah County from the State Highway fund an amount not to exceed \$3,000,000 for the purchase of the golf course. Following his favorable recommendation, the Commission approved the 9 percent interest rate.

Upon the recommendation of Mr. Klaboe, the Commission adopted the following as temporary and proposed permanent rules to be published in the Secretary of State's Administrative Rule Bulletin. The Commission finds that on the basis of studies made by the Division that failure to act promptly will result in serious prejudice to the public.

- (1) Establish a 45 MPH speed zone on the Pacific Highway (Interstate 5) from 200 feet south of the Comstock Frontage Road Overcrossing (M.P. 164.41) to the Goshen-Divide Highway Junction (M.P. 168.40S) and M.P. 168.40 in Lane and Douglas Counties to be effective only in those sections where signed.
- (2) Prohibit parking on the north side of the Santiam Highway from the east city limits of Sweet Home (M.P. 28.60 Engr. Sta. 1576+30) to Wiley Creek Bridge (M.P. 30.21 Engr. Sta. 1661+78) in Linn County.

(Temporary rules were filed with the Secretary of State on September 25, 1974. The proposed rules were published in the October 15, 1974, issue of the Secretary of State's Administrative Rule Bulletin.)

Following Mr. Klaboe's favorable recommendation, the Commission approved abandonment of the following sections of highway and thereupon adopted "Abandonment Resolutions Nos. 544, 522, 545, and 546," which resolutions by this reference are made a part hereof and filed in the Commission's files, Salem.

- (1) Clarification of the status of the old alignment on the Siss's Gap Section of the Redwood Highway in Josephine County. (Abandonment Resolution No. 544)
- (2) Abandonment of 0.2 mile to Lincoln County at the south end of the Kernville Bridge on the Oregon Coast Highway and extending 0.2 mile on the Siletz Secondary Highway. (Abandonment Resolution No. 522)
- (3) Abandonment to the State of 0.18 mile of the Button Bridge Section on the Button Road in Hood River, Hood River County, in exchange for the County's acceptance of two frontage roads paralleling the freeway on the north and south, westerly from the West Hood River Interchange. Button Road designated as Columbia River Highway. (Abandonment Resolution No. 546)
- (4) Abandonment of certain streets to the City of Enterprise and redesignating the route of the Wallowa Lake Highway and Enterprise-Lewiston Highway in Wallowa County. (Abandonment Resolution No. 545)

Attention was given to an agreement with the City of Forest Grove for installation of a traffic signal at the intersection of the new Forest Grove Bypass (Tualatin Valley Highway) and Quince Street in Washington County. Mr. Klaboe stated that the agreement calls for the State to prepare all plans and specifications and contract the work. The State will also pay for the total cost of the project which will be funded as a part of the paving and signing contract on the bypass. He indicated that after completion of the project, the State will maintain the traffic signals and the City will pay for the power costs. Mr. Klaboe recommended approval of the agreement and to adopt the signal installation as a proposed rule. The Commission accepted his recommendation. (Proposed rule published in the Secretary of State's Administrative Rule Bulletin on October 15, 1974.)

Consideration was given to an agreement with the City of Albany for installation of a traffic signal at the intersection of 9th Avenue and New Lyon Street in Linn County. Mr. Klaboe stated that the agreement provides that the State shall prepare all plans and specifications and contract the work. The State will also pay

(continued on page 601)

for the total cost of the project to be funded as a Bond Project. After the project is completed, the State will maintain the traffic signals and the City will pay for the power consumed. Mr. Klaboe recommended approval of the agreement and to adopt the signal installation as a proposed rule. The Commission accepted his recommendation. (Proposed rule was published in the October 15, 1974, issue of the Secretary of State's Administrative Rule Bulletin.)

AERONAUTICS DIVISION

Consideration was given to an option on parcels of land taken by the Highway Division Right of Way Branch on behalf of the Aeronautics Division for easements for aviation rights in reference to the Lebanon State Airport in Linn County. Mr. Burket mentioned that the aggregate total price is \$6,500. He recommended approval and authority for the Highway Division Right of Way Branch to exercise the option. The Commission accepted his recommendation. (Details of option in the Commission's File, M. M. & Jennie Orona, et al., File No. A-17.)

MASS TRANSIT DIVISION

Mr. Moore presented to the Commission copies of the Public Transportation Financial Assistance Program as contained in the proposed Mass Transit Division 1975-77 budget. (Copy of report in the Commission's files.)

MOTOR VEHICLES DIVISION

Mr. Ott stated that the Legislature decided to use a data processing form of handling their bill drafting and production of daily calendars. It was originally planned to have this work done on the Executive Department computer, but their computer is loaded with its current functions that it does not have the capacity to take on additional work. The Oregon Legislative Information System has contacted the Motor Vehicle Division to see if this work can be done on their computer. Mr. Ott informed the Commission that his Division does have the capacity to do this work until July 1, 1975. The Legislative Committee wants to start immediately and continue through the next session. To take care of this workload, Mr. Ott requested the addition of one Software Specialist and one Administrative Assistant for a total cost of \$18,186 from November 1, 1974, to the end of the biennium. The Legislature has agreed to pay the Division \$2,651 monthly for the computer service. Following his recommendation, the Commission approved the additional expenditure.

DEPARTMENT OF TRANSPORTATION
Director's Report

The Commission set Wednesday, October 30, 1974, as the date for their next meeting.

DELEGATIONS

The following delegations appeared before the Commission concerning the City of Portland's proposed Ordinance to establish a truck route between Swan Island Industrial Park and the I-5 Freeway during nighttime hours. (Copy of City's Ordinance in the Commission's files.)

Simon G. Stanich, Chairman, Overlook Neighborhood Subcommittee, Portland, informed the Commission that he was seeking their confirmation of the City of Portland's proposed truck route along Interstate Avenue (99W) to relieve traffic on Going Street. He stated the trucks on Going Street amount to approximately 20 percent of the traffic and they account for 90-95% of the noise problems. The City in passing this truck route ordinance has accepted the responsibility for the safety, economic, and environmental impacts at the north end (Going Street) and at the south end (Broadway-Wiedler) and a part of Interstate Avenue which is already a truck route. Mr. Stanich stated the City has indicated that it believes in integrity and the livability of a residential neighborhood and that the neighborhood should be given priority in the evening hours over industry and trucking.

Dr. Howard L. Cherry (State Representative, District 14), Portland, mentioned that truck traffic on Going Street creates a noise problem especially the shifting of gears going up the hill. He urged the Commission to support the City Council's proposed truck route to protect the people of the Going Street area until a real solution is found.

Father Gimpl of Blessed Sacrament Parish, Portland, stated that nobody seems to take the responsibility of coming up with a permanent solution that is going to be satisfactory to the citizens and the industry on Swan Island.

Don Bergstrom, Traffic Engineer, City of Portland, presented a report explaining the history and series of events leading to the request of the City to the Commission. (Copy of presentation in the Commission's files.) He stated the City is requesting written approval for the use of Interstate Avenue between Greeley and Tillamook Street, which is US99W, and the only part of the State Highway system that would be utilized under the provisions of this Ordinance. The City Council recognizes this is a short-term solution. To deal with the long-range solution, the Council has

appointed a Swan Island Task Force headed by former Mayor of Portland, Terry Schunk. One of the charges of the Task Force will be to recommend to the City Council a long-range access solution that will include provisions for trucks.

Ernie Bonner, Planning Director for the City, stated the decision of the City Council in this matter was a considered judgment of a local legislative body empowered with broad responsibilities for the protection of the health, safety, and welfare of all the City's occupants and users.

L. B. Day, Secretary-Treasurer, Teamsters Local 670, Salem, appeared in opposition to the City's recommended plan. He stated they are a part of the Task Force and hopefully they can find an accommodation where a minimal effect upon residents will be made by the ingress and egress of truck traffic within Swan Island. On the proposed route there are 8 to 10 more traffic signals which will require additional stops and starts. The 90° turns for the trailer trucks will be very dangerous and the 40-foot trailers are definitely going to go over the curbs. These trucks will damage the telephone poles and standards along the route. He indicated it will take approximately 30 to 45 minutes to travel the proposed route whereas the Going Street route takes approximately 5 to 8 minutes. Commissioner Yturri inquired how many people are affected on each route. Mr. Day estimated 250 to 300 people on the Going Street route and 450 to 500 on the proposed route.

Lloyd Anderson, representing the Port of Portland, stated that the Port has continuously supported the efforts to develop improved access to Swan Island. The improved access to Swan Island means as far as the Port is concerned the opportunity for further development of Swan Island as a distribution center and a center of employment for the City. The Port views the City's proposal for limiting the number of trucks moving in and out during certain hours as a detriment to the development of the island and he stated the Port is against this time restriction as proposed in the Ordinance.

Robert Knipe, President of the Oregon Trucking Association, Inc., Portland, mentioned that their federation of motor carriers represents nearly every class of motor transportation. The proposed truck route and closing of Going Street to truck traffic does affect motor carriers that pick up and deliver to the terminals on Swan Island. One of the smaller carriers indicated that it would cost his company over \$100 per day to use the proposed route. The carriers are concerned over safety, extra time involved, and the added cost to their operations in using the proposed truck route. He also pointed out the congestion that will occur in the Broadway-Coliseum area will be dangerous. Mr. Knipe asked the Commission not to approve the truck route as proposed by the City.

Clifford Nelson, Attorney, Portland, stated that he represents the Paramount Apartments at 253 North Broadway and approximately 100 tenants of the apartment building opposing the truck route. He stated the route would pass within 50 feet of the apartment building creating additional noise. The apartment is an older-type building and is occupied by a large number of elderly people. The occupants open their windows in the summertime to get a reasonable amount of coolness which makes it difficult for them to get a good night's rest. The building is not air-conditioned and not sound-proof. Approximately 430 trucks pass the apartment building each night. Mr. Nelson mentioned that he fails to see the justice in transferring this problem from the people on Going Street to the people on Broadway Street.

Steve Janik, Attorney representing Holiday Inn, Portland, submitted a report to the Commission concerning the proposed route. He also showed aerial views of the Holiday Inn and the surrounding area. The report outlines the noise impact on the Holiday Inn from the proposed truck route, the ability of the Holiday Inn to mitigate the truck noise, economic impacts, effects on resident populations and traffic effects. He stated that in the area of the proposed new route there would be 1,060 persons affected. Mr. Janik said the proposed route will create a whole new set of traffic hazards endangering all who use the Coliseum, the streets, and freeways in the area and the truckers who must drive the route. This proposal seems the very opposite of sound traffic and urban planning and he requested the Commission not to approve the City's proposal. (Copy of report in the Commission's files.)

Jeanette Egger, Chairman of the Oregon Environmental Noise Committee, Portland, appeared in favor of the proposed truck route. She pointed out that Going Street is nearly all single family dwellings and duplexes which are impacted by the noise. The impact on the proposed route would be much less since the various motel patrons are transient occupants and more tolerant. (Copy of Jeanette Egger's report in Commission's files.)

Chairman Jackson asked if the staff had a recommendation. (Mr. Klaboe previously submitted a report to the Commission dated September 23, 1974, concerning this proposal. Copy of report in the Commission files.) Mr. Klaboe recommended that the proposed truck route be referred back to the City of Portland for reconsideration based on the Highway Division's evaluation. He stated the traffic problems that will result from the proposed new truck route exceed the benefits to be gained. It is known that there is a substantial noise problem on Going Street. However, it appears that a solution to that problem should be more thoroughly addressed rather than shift the problem from one sector of society to another. Mr. Klaboe continued by saying if the Commission decides to approve this routing, the cost of all signs, traffic control measures, curb cutting (if necessary to lower the hazards of 90° turns), etc., should be borne by the City. The Division has estimated the first cost of signing only at \$20,000, which could be very substantially

increased depending on the accidents experienced. The Commission accepted Mr. Klaboe's recommendation and unanimously voted to refer the proposed Ordinance back to the City of Portland for reconsideration based on the Highway Division's evaluation.

Bruce Williams, Attorney in Salem representing John Hilderbrand, appeared asking for reconsideration of the Commission's previous decision denying a permit to erect a structure on the Deschutes River Scenic Waterway in Sherman County. Mr. Williams indicated that Mr. Hilderbrand is willing to make any type of construction, a line cabin, a barn, as well as the refurbishing or reconstruction of the existing corral. He showed pictures of the area to the Commission. In reply to the Chairman's inquiry, Mr. Williams said the facilities would be strictly non-commercial. It would be used by the immediate family and the ranchers in that particular area. The Commission took no action at this time.

The Chairman adjourned the meeting at 12:15 p.m.

SUBJECT: Report of Action Taken Under Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approve the action listed below and report this action for your official records.

Dated this 4 day of Sept., 1974

Glenn Jackson
Chairman
Oregon Transportation Commission

- 1) Agreement with the Confederated Tribes of the Warm Springs Reservation of Oregon approved.

The purpose of the agreement is to allow the Tribe to participate in the Land and Water Conservation Fund program. Funds allocated to the Tribe will come from the State share of the Bureau of Outdoor Recreation allocation, not the local agency (county) allocation. The agreement requires the Tribe to conform to all applicable Federal regulations and sets a minimum project size of \$2,500.

EXHIBIT A

REPORT OF CONFIRMATION OF TELEPHONE ACTION UNDER DELEGATED AUTHORITY

No. 1 Project S. Baker Intchge.-Pleasant Valley Intchge. (Contract No. 8058)
Grading, Paving, Guard Rail,
 Type of Work Conc. Barrier, & Signing F.A. Proj. No. I-80N-7(44)306
 County Baker Highway Old Oregon Trail
 No. of Bidders 4 Low Bidder Peter Kiewit Sons' Co., Vancouver, Wa.
 Low Bid \$ 2,683,875.00

Engineer's Recommendation: Award to low bidder as soon as approval of the FHWA is received.

No. 2 Project Sutherlin Intchge.-Winchester Intchge. (Contract No. 8059)
 Type of Work Grading, Paving, Signing & Illum. F.A. Proj. No. I-5-3(98)130
 County Douglas Highway Pacific
 No. of Bidders 4 Low Bidder J. C. Compton Company, McMinnville
 Low Bid \$ 2,274,003.20

Engineer's Recommendations: Award to low bidder as soon as approval of the FHWA is received.

No. 3 Project Canyonville-Glendale Jct. (Contract No. 8060)
I-5-2(78)82,
 Type of Work Grading, Paving, Signing & Str. F.A. Proj. No. ERFO-284(1) &
ERFO-284(3)
 County Douglas Highway Pacific
 No. of Bidders 4 Low Bidder J. C. Compton Company, McMinnville
 Low Bid \$ 3,372,747.55

Engineer's Recommendations: Award to low bidder as soon as approval of the FHWA is received.

EXHIBIT A

No. 4 Project Willow Creek Bridges (Contract No. 8061)
 Type of Work Structures F.A. Proj. No. FDAA-413-DR-25 (Item 24) & FDAA-413-DR-25 (Item 23)
 County Gilliam Highway County Roads 723 & 729
 No. of Bidders 5 Low Bidder Stan Schnell, Hermiston
 Low Bid \$ 36,664.00

Engineer's Recommendation: The Engineer's estimate failed to properly allow for move-in and furnishing of pile driver costs. It is doubtful that rebidding of the project would result in a lower bid.

Award to low bidder as soon as approval of the FHWA is received.

No. 5 Project Campus Drive-O.T.I. (Klamath Falls) Bikeway (Contract No. 8062)
 Type of Work Grading and Paving F.A. Proj. No. --
 County Klamath Highway City Street
 No. of Bidders 1 Low Bidder Klamath Paving Co., Klamath Falls
 Low Bid \$ 31,739.00

Engineer's Recommendations:

Award to low bidder. (Awarded September 3, 1974)

No. 6 Project Mill St.-Walnut St. (Eugene) (Contract No. 8063)
 Type of Work Traffic Signals F.A. Proj. No. T-HHS-5010(6)
 County Lane Highway Pacific West
 No. of Bidders 3 Low Bidder Hamilton Electric Inc., Eugene
 Low Bid \$ 348,070.00

Engineer's Recommendations:

Award to low bidder as soon as approval of the City of Eugene and the FHWA is received, and the sum of \$18,027.00 is deposited by the City.

EXHIBIT A

No. 7 Project SE 89th Ave.-SE 106th Ave. (Contract No. 8064)
Grading, Paving, Signing, M-1073(3)
 Type of Work Landscaping & Illumination F.A. Proj. No. 1-205-7(27)307
 County Multnomah Highway FAH 1073
 No. of Bidders 3 Low Bidder Cascade Construction Company Inc., Portland
 Low Bid \$ 1,333,333.33

Engineer's Recommendation:

Award to low bidder as soon as approval of the City of Portland, County of Multnomah, and the FHWA is received, and the sum of \$105,200.00 and \$12,700,000 is deposited by the City and County, respectively.

No. 8 Project Oak Knoll Bikeway U'xing (Contract No. 8065)
 Type of Work Grading, Paving & Structure F.A. Proj. No. --
 County Polk Highway Willamina-Salem
 No. of Bidders 5 Low Bidder Ross Bros. Construction, Inc., Salem
 Low Bid \$ 91,656.00

Engineer's Recommendations:

Award to low bidder. (Awarded September 3, 1974)

No. 9 Project LaGrande Office Building (Contract No. 8066)
 Type of Work Landscape Improvement F.A. Proj. No. --
 County Union Highway Wallowa Lake
 No. of Bidders 5 Low Bidder Aichele Landscaping, Inc., Portland
 Low Bid \$ 32,134.25

Engineer's Recommendations:

The Engineer's estimate did not take into account the remoteness of the project. The three low bidders were closely grouped and an award to low bidder is recommended.

(Awarded September 3, 1974)

EXHIBIT

A.

No. 10 Project Jap Hollow Creek (Contract No. 8067)
Type of Work Box Culvert F.A. Proj. No. FDAA-413-DR-65 (Item 9)
County Wasco Highway Co. Rd. No. 129 (Jap Hollow Rd.)
No. of Bidders 5 Low Bidder Ross Bros. Construction, Inc., Salem
Low Bid \$ 21,010.00

Engineer's Recommendation: The Engineer's estimate did not allow for move-in costs. There were several competent bidders, and it would be an advantage to the State to accept this bid. Award to low bidder as soon as approval of the FHWA is received.

On September 3, 1974, I accepted by telephone the Engineer's recommendations as shown on the above ten projects on which bids were received August 29, 1974, and authorized the Administrator and State Highway Engineer to award the contracts when certain conditions were fulfilled.

Administrator and State Highway Engineer

EXHIBIT C

REPORT OF ACTION UNDER DELEGATED AUTHORITY BY
ADMINISTRATOR AND HIGHWAY ENGINEER

On behalf of the Commission and under its authority delegated to me to award contracts when certain conditions have been fulfilled, I awarded the following contracts:

- (1) Hubbard Interchange-Woodburn Interchange Section of the Pacific Highway in Marion and Clackamas Counties. Bids received August 15, 1974. Contract No. 8053 awarded August 29, 1974, to Landsystems, Inc., Portland, at \$199,268.10.
- (2) S. Baker Interchange-Pleasant Valley Interchange Section of the Old Oregon Trail in Baker County. Bids received August 29, 1974. Contract No. 8058 awarded September 5, 1974, to Peter Kiewit Sons Co., Vancouver, Washington, at \$2,683,875.
- (3) Sutherlin Interchange-Winchester Interchange Section of the Pacific Highway in Douglas County. Bids received August 29, 1974. Contract No. 8059 awarded September 5, 1974, to J. C. Compton Company, McMinnville, at \$2,274,003.20.
- (4) Canyonville-Glendale Junction Section of the Pacific Highway in Douglas County. Bids received August 29, 1974. Contract No. 8060 awarded September 5, 1974, to J. C. Compton Company, McMinnville, at \$3,372,747.55.
- (5) Willow Creek Bridges on County Roads 723 and 729 in Gilliam County. Bids received August 29, 1974. Contract No. 8061 awarded September 5, 1974, to Stan Schnell, Hermiston, at \$36,664.
- (6) Mill Street-Walnut Street (Eugene) Section of Pacific Highway West in Lane County. Bids received August 29, 1974. Contract No. 8063 awarded September 5, 1974, to Hamilton Electric, Inc., Eugene, at \$348,070.
- (7) S.E. 89th Avenue-S.E. 106th Avenue Section of FAU 1073 (S.E. Foster Rd. and Woodstock Blvd.) in Multnomah County. Bids received August 29, 1974. Contract No. 8064 awarded September 12, 1974, to Cascade Construction Company, Inc., Portland, at \$1,333,333.33.
- (8) Jap Hollow Creek Section of County Road No. 129 in Wasco County. Bids received August 29, 1974. Contract No. 8067 awarded September 5, 1974, to Ross Bros. Construction, Inc., Salem, at \$21,010.

Oregon Transportation Commission

Reports of Actions Taken under Delegated
Authority Lease

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, the following reports this action for your official records.

Renewal of five-year lease with City of Portland for parking purposes on our property located near Delta Park on the North Denver Avenue Section of the Pacific Highway West in Multnomah County, File 15073. Approved 9-19-74.

Renewal of five-year lease with Al C. Giusti Wine Co., which expired July 1, 1974, for parking of motor vehicles in Lots 1, 2, 3, and 8, Block 18, EAST PORTLAND, in the City of Portland, Multnomah County, Oregon. Rent has been increased to \$155 per month beginning July 1, 1974. Approved 7-1-74.

Renewal of one-year lease with Richard Sundeleaf and Mildred B. Sundeleaf, which expired July 1, 1974, to be renewed on a year-to-year basis unless cancelled by either party. Lease is for parking of motor vehicles in Hamilton Street in the City of Portland, Multnomah County, Oregon. Rent has been increased to \$400 per year beginning July 1, 1974. Approved 9-9-74.

TO: Oregon Transportation Commission
SUBJECT: Report of Actions Taken Under Delegated Authority

By duly adopted delegation order you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority and acting in accordance therewith for the Commission, I report the following for your official records:

On behalf of the Commission and under its authority delegated to me to make formal offers to purchase real property in preparation for condemnation, I approved making the following:

ASHLAND SCALE SITE UNIT OF THE SOUTH MEDFORD-SOUTH ASHLAND
SECTION OF THE PACIFIC HIGHWAY - JACKSON COUNTY

R-48085 - Marion D. Imperatrice et al. 13.88 acres for right of way purposes. Offer \$27,800.00.

GETTINGS CREEK REST AREA - LANE COUNTY

R-47020 - Almond R. Hemenway et al. Parcel 1: 9.62 acres for a rest area; Parcel 2: 7.9 acres for a rest area. Offer \$17,100.00.

GOAT RANCH SECTION OF THE POWERS HIGHWAY - COOS COUNTY

R-48281 - Lewis Thomas et al. 1.46 acres for right of way purposes. Offer \$600.00.

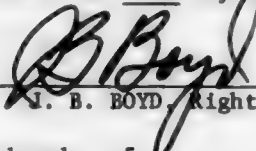

MYRTLE CREEK-CANYONVILLE SECTION OF THE PACIFIC HIGHWAY -
DOUGLAS COUNTY

R-47793 - Milton Herbert et ux. 2.9 acres for right of way purposes. Offer \$4,800.00.

N.E. 60th AVENUE-N.E. SANDY BOULEVARD OF THE NORTHEAST
PORTLAND HIGHWAY - MULTNOMAH COUNTY

R-44149 - Martha Rapp et al. 600 sq. ft. for right of way purposes. Offer \$650.00.

Dated this 30th day of August, 1974.

J. B. BOYD, Right of Way Engineer

INSTITUTION OF LEGAL PROCEEDINGS

L-7115 State of Oregon v. William R. Smith: This is an action for a permanent injunction preventing the defendant from blocking the Willamette Highway at approximately M.P. 4.5 in Lane County.

Defendant had placed vehicles in a frontage road which ran in front of his property. Motion for a temporary injunction was referred by Judge Harold Banta in Eugene on September 9, 1974, and the temporary injunction was denied on the grounds that there was no immediate need to remove the blockade because others along the frontage road had access points to the frontage road and would not be obstructed from going to and from their property.

October 30, 1974
Salem, Oregon

The Oregon Transportation Commission met in regular session at 10 a.m. in Room 122 of the State Highway Building in Salem, Oregon. Present were:

Glenn L. Jackson, Chairman
Carl O. Fisher, Vice Chairman
Robert L. Mitchell, Secretary
Robert E. Veatch, Member
Anthony Yturri, Member
George M. Baldwin, Director of Transportation
Sam R. Haley, Deputy Director
Walt Barrie, Chief Counsel
F. B. Klaboe, Administrator and State Highway Engineer
A. E. Johnson, Deputy State Highway Engineer
J. B. Boyd, Right of Way Engineer
Warren Gaskill, Assistant State Parks Superintendent
Roger G. Ritchey, Deputy Administrator of Aeronautics
Dennis Moore, Administrator of Mass Transit
Chester Ott, Administrator of Motor Vehicles
C. W. Head, Supervisor, Commission Services

The Commission approved the minutes of the regular meeting of September 25, 1974.

HIGHWAY DIVISION

A list of properties needed for highway and other uses was presented by Mr. Boyd. He requested the Commission to declare by resolution the necessity of said properties for the public use to which they are to be put and to authorize him to attempt to agree with the owners of said properties as to price. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful and thereupon adopted "Condemnation Resolution No. 2626," which resolution by this reference is made a part hereof and filed in the Commission's files.

Attention was given to the abandonment of three delinquent rental accounts totaling \$109.17. Mr. Boyd stated that these individuals have moved and left no forwarding address or have no means to pay and the expense of locating them for collection would not be justified. Upon his recommendation, the Commission approved the abandonment of the following accounts:

<u>FILE NO.</u>	<u>NAME</u>	<u>AMOUNT</u>
45970	Cheryl Callister	\$ 73.50
40041	Delbert Wells	21.00
47402	Michael Bostwick	14.67
	TOTAL	<u>\$109.17</u>

Mr. Barrie asked if there were any questions in connection with the informational reports previously submitted to the Commission on cases tried, cases settled and institution of legal proceedings filed against the Department of Transportation since the last Commission meeting. There were no questions. (See Exhibit G on file in the Commission's files in Salem.)

Mr. Barrie presented a quarterly report of property damage claims for the period from July 1, 1974, through September 30, 1974. During this period, \$49,586.57 was collected.

Mr. Gaskill presented for the Commission's consideration Notifications of Intent by property owners to make various types of improvements along the Sandy and Rogue River Scenic Waterways. The requests have been carefully investigated as to their compliance with the provisions of the Scenic Waterways Act. The Commission acted on the following requests for reasons as stated in Mr. Talbot's letters to the Commission insofar as their authority under the Scenic Waterways Act is concerned.

- (1) Denied a request from Norwood Johnson to construct a residence within the Sandy River Scenic Waterway in Sections 10 and 11, Township 1 South, Range 4 West, directly across the river from the Oxbow County Park boat ramp in Multnomah County.
- (2) Denied a request from Glenn D. Russell to construct a single-family residence within the Rogue River Scenic Waterway on Lot 502, Section 19, Township 34 South, Range 7 West located in river mile 69 in Josephine County.

Consideration was given to adopting permanent rules and regulations governing the use of Dabney State Park in Multnomah County. Mr. Gaskill stated that the Commission on August 7, 1974, adopted temporary rules because of a series of problems with the use of alcoholic beverages, vandalism and other harassments. He mentioned that a public hearing was held on October 21, 1974, at the Troutdale City Hall to consider the suitability and adoption of these temporary rules as permanent rules. Mr. Gaskill indicated that there were no objections from interested persons that attended the meeting. Following his favorable recommendation, the Commission adopted the following regulations as permanent rules.

- (A) No dogs, except seeing-eye dogs, are permitted on park grounds.
- (B) No alcoholic beverages of any kind are permitted on park grounds.

(continued on page 634)

- (C) The park shall close to the public at 9:00 p.m. every evening. Park visitors remaining after said time shall be subject to arrest.
- (D) Parking is prohibited on the Crown Point Highway No. 125 on both sides of the roadway between M.P. 4.31 and M.P. 5.81. This area shall be designated and signed as a tow-away zone and persons violating parking restrictions in this area shall be subject to removal of their vehicles at owner's expense.

(Permanent rules were published in the November 15, 1974, issue of the Secretary of State's Administrative Rule Bulletin and will become effective on November 25, 1974.)

Mr. Klaboe reported on actions taken under delegated authority received for filing with the Commission records. These reports show the actions taken by the following official, on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission files, Salem.)

Chairman of Oregon Transportation Commission	Exhibit A
Vice Chairman of Oregon Transportation Commission	Exhibit B
Administrator and Highway Engineer	Exhibit C
Director of Permits	Exhibit D
Right of Way Engineer	Exhibit E
State Parks Superintendent	Exhibit F
Chief Counsel	Exhibit G

Attention was given to the annual assessment of \$5,000 to the AASHTO Materials Reference Laboratory for the fiscal year 1975. Mr. Klaboe mentioned that the Reference Laboratory works in the fields of aggregate, soils, and bituminous materials. Its function is to tour highway department laboratories to check testing procedures and to calibrate testing machines. The Commission approved the payment as recommended by Mr. Klaboe.

The Commission considered a pooled fund Highway Planning Research study on deer vehicle accidents. Mr. Klaboe pointed out that the five-year study will be conducted by the Colorado Department of Highways and the Colorado Division of Wildlife which will be supported on a 50-50 basis between HPR funds and the Colorado Division of Wildlife Funds. The States of Colorado, Oregon, Idaho, Montana, Nevada and Wyoming have tentatively agreed to share the HPR portion of the costs. The cost to each participating State is \$20,994. Following his recommendation, the Commission approved the study.

Mr. Klaboe recalled that the Commission at its April 17, 1973, meeting approved financing the Duniway Park-Tryon Creek State Park (Portland) Bikeway, S. W. Terwilliger Boulevard in Multnomah County. He stated a survey has been completed to extend the bikeway into Tryon Creek State Park from the northerly park boundary to the Nature Center site approximately one mile. The Bureau of Outdoor Recreation Funds are anticipated for 50 percent of the construction cost with the State share coming from State Construction Funds. The total estimated amount is \$104,000 (BOR \$52,000 - State share \$52,000). Following his favorable recommendation, the Commission approved the financing.

Mr. Klaboe reported that an allocation of 12% of the Highway Fund to the cities for the period of July 1 through September 30, 1974, in the amount of \$4,515,791.30 was released on October 25, 1974. (A list of apportionment by cities on file in the Commission files, Salem.)

Mr. Klaboe reported that under ORS 366.525 the counties are entitled to receive 20% of all funds received from motor vehicle taxes and fees for the period from July 1 to September 30, 1974. The amount credited to the counties totals \$7,630,465.50 and he stated that this amount was released on October 25, 1974, as apportioned by law. (List of apportionment to counties on file in Commission files, Salem.)

Consideration was given to approving the State Highway Division Hydraulics Manual (Official Publication 74-3) covering policies and procedures concerning the design and construction of drainage structures associated with State highways and local roads. Mr. Klaboe indicated the manual updates and replaces the material on hydraulics in Technical Bulletin 19, Construction Manual. Following his recommendation, the Commission approved the manual.

The Commission considered approving the revised equipment rental rates used for contract force account or extra work order type of work. Mr. Klaboe said increases in equipment costs and operation since February 1, 1974, have prompted the Associated General Contractors to request that the rates be reviewed. An analysis of the rates has been made and an interim schedule proposed for use effective November 1, 1974. The effect of the revision will be to increase the rates 15%. He indicated that the revision has been reviewed by the Washington Highway Department and accepted for their new rates. The new schedule has the concurrence of the AGC and the Federal Highway Administration. The Commission approved the new rental rates as recommended by Mr. Klaboe.

The Commission considered a request from the City of Medford to cancel a previously approved TOPICS Project (traffic operational procedures to increase capacity and safety) and to apply the funds to another approved project. Upon Mr. Klaboe's favorable recommendation, the Commission approved the following request and authorized the Administrator and State Highway Engineer to sign the agreement when prepared.

Yamhill FAS 753	Grand Island Road, M.P. 1.0 and M.P. 2.1	\$ 3,550

Mr. Klaboe presented the following construction projects on which bids were received October 24, 1974. He indicated that the projects contain an explanation of plans concerning establishment of footpaths and bicycle trails.

- (1) Lebanon Road Intchge.-Halsey Intchge., Pacific Hwy., Linn County. Pave, Structures and Guard-rail Project.
Footpaths and bicycle trails will not be established under this project as per ORS Chapter 366, Section 2, Subsection 2(b), which states that "Footpaths and trails are not required to be established...if the cost of establishing such paths and trails would be excessively disproportionate to the need or probable use."
- (2) Fremont Bridge, Stadium Freeway, Multnomah County. Safety Railings, Ladders and Grab Bars Project. Footpaths or bicycle trails are not incorporated in this project as no new highway construction, reconstruction or relocation is involved.
- (3) Willamette River (Center St.) Bridge, Willamina-Salem Highway, Polk and Marion Counties. Guard-rail, Sidewalk and Illumination Project. Bicycle/pedestrian sidewalks will be provided throughout the length of the project on a replacement-in-kind basis.
- (4) Wolf Creek Sec., Sunset Hwy., Tillamook, Columbia and Washington Counties. Grade and Pave Project. Same as No. 1.

(continued on page 641)

- (5) Goat Ranch (M.P. 14.5 to 14.9), Powers Highway, Coos County. Grade and Pave Project. Footpaths or bicycle trails are not incorporated in this project as no new highway construction, reconstruction or relocation is involved. (ER project to correct slide and high water damage.)
- (6) Pudding River Bridge, FAS 117, Arndt Road, Clackamas County. Pave and Riprap Project. Same as No. 5.
- (7) M.P. 34.5 Slide, Nehalem Highway, Clatsop County. Grading Project. Same as No. 5.
- (8) Rock Creek, FAS 442 and 446, Gilliam County. Intermittent Grading and Drainage Project. Same as No. 5
- (9) Rogue Valley Boulevard at Medco Access (Medford) Rogue Valley Highway, Jackson County. Signals Project. Same as No. 2.
- (10) Redwood Highway at Redwood Avenue (Grants Pass) Redwood Highway, Josephine County. Signals Project. Same as No. 2.
- (11) M.P. 1.27 Slide, FAS 609, Columbia County. Grade and Pave Project. Same as No. 5.
- (12) Shore Acres State Park, Coos County. Observation Building Project. Same as No. 2
- (13) Hendricks Bridge State Wayside, Lane County. Toilet Building. Same as No. 2.
- (14) Cow Canyon Safety Rest Area, The Dalles-California Highway, Wasco County. Grade, Pave, Building and Utilities Project. Same as No. 2.
- (15) The Cove Palisades State Park, Jefferson County. Marina Building Project. Same as No. 2.
- (16) The Dalles Bridge, Wasco County. Repainting Steel Structure Project. Same as No. 2.

The Commission considered approving the criteria and procedures utilized in preparing a Statewide Traffic Signal Priority List. Mr. Klaboe pointed out that funds are not available to install signals at all locations which meet national warrants. He indicated the priority list has been prepared which will be continuously revised and when funds are available, consideration will be given to higher-ranking intersections. The intersections have been ranked by assigning weighted values to the warrant(s) met as follows:

Accident Warrant.....	35
Minimum Vehicular Volume Warrant.....	25
Interruption of Continuous Traffic Warrant..	10
Combination of Warrants.....	10
Systems Warrant.....	5

Upon his recommendation, the Commission approved the criteria and procedures utilized in preparing the priority listing.

Following Mr. Klaboe's recommendation, the Commission adopted the following as permanent rules to be published in the Secretary of State's Administrative Rule Bulletin:

- (1) Install stop sign at the easterly approach of the Fort Stevens Highway at Ridge Road intersection (M.P. 0.10) in the City of Hammond in Clatsop County.
- (2) Install traffic signals at the intersection of 4th and Adams (Pacific Highway West) in the City of McMinnville in Yamhill County.

(The proposed rules were published in the Secretary of State's Administrative Rule Bulletin on October 1, 1974, and no requests for a hearing were received. The permanent rules were published in the November 15, 1974, issue of the Administrative Rule Bulletin to become effective November 25, 1974.)

The Commission considered the abandonment of the old highway on the Rickreall-Independence Junction Section of the Willamina-Salem Highway in Polk County. Mr. Klaboe indicated that the provisions of a previous agreement have been fulfilled and approximately 3.3 miles of the old highway can now be transferred to the County. Following Mr. Klaboe's recommendation, the Commission approved the abandonment and thereupon adopted "Abandonment Resolution No. 504," which resolution by this reference is made a part hereof and filed in the Commission's files.

Attention was given to a supplemental agreement with Sverdrup & Parcel & Associates, Inc., design consultants, for additional work on the Columbia River Bridge (I-205) in Multnomah County. Mr. Klaboe stated that the work is confined to the original length structure and includes the following:

- (1) Redesign of the structure to accommodate a bike path
- (2) Design of the bike path
- (3) Redesign of the southerly end of the structure to accept an extension
- (4) Redesign of the southerly end to align piers with existing river currents due to abandonment of the airport fill
- (5) Realignment of Piers 4 - 7 as requested by Washington Department of Highways
- (6) Production of separate contract documents for the work on the Washington shore.

The total additional cost is \$617,000 including a \$30,880 contingency fund. The supplemental agreement has been approved by the Federal Highway Administration and Washington State Highway Department. Following his favorable recommendation, the Commission approved the agreement and authorized Mr. Klaboe to sign it in their behalf.

Consideration was given to an agreement with the City of Corvallis for the installation of a traffic signal at the intersection of ORE99W and Conifer Boulevard in Benton County. Mr. Klaboe mentioned that the agreement provides that the State will prepare all plans and specifications, award all contracts and supervise the work of the project. After completion of the project, the State will maintain the traffic signal and the City will pay for all power consumed. Cost of the installation is estimated at \$55,000 to be paid by the State as a Bond Project. The Commission approved the agreement as recommended by Mr. Klaboe. (This signal installation was previously published in the Administrative Rule Bulletin.)

The Commission considered an amendment to an agreement with McCann-Erickson covering the Keep Oregon Livable Program. Mr. Klaboe stated the amendment is to provide additional work relating to land use and the Willamette Greenway public information activities in return for an additional \$18,500. Of the additional allocation, \$10,000 will enable the production and distribution of 10,000 information booklets describing the Willamette Greenway Plan. The booklets will be distributed to Willamette Valley citizens in connection with a feature-length film that will be narrated by Governor McCall. The remaining \$8,500 will be provided by the Land Conservation and Development Commission. The Commission approved the agreement as recommended by Mr. Klaboe and authorized him to sign it in their behalf when it is prepared.

October 30, 1974

Consideration was given to adopting a resolution designating a connecting road between the Columbia River Highway and the Oregon-Washington State Line on the Umatilla Bridge as a State Highway Spur of the Columbia River Highway. Mr. Klaboe recommended that this connecting road consisting of .86 mile be designated as the Umatilla Bridge Spur, State Primary No. 2. Upon his favorable recommendation, the Commission adopted "Primary Highway Designation Resolution No. 50," which resolution by this reference is made a part hereof and filed in the Commission's files.

Mr. Klaboe reported that a recent routine underwater inspection of the Rogue River Bridge on the Oregon Coast Highway at Gold Beach in Curry County disclosed marine borer damage to some of the wooden foundation piles at one of the river piers. River currents have caused scour holes in the river bottom at two diagonally opposite corners of the foundation. The extent of damage has not been determined but appears to involve at least 20 piling. He indicated that there is no danger of serious bridge failure at this time, but immediate action is necessary in order to prevent additional damage, which could become serious. The cost of the anticipated work is estimated to be \$225,000. This includes repairs at the scoured pier and inspection of the other river piers. Because of the urgency of this situation, several contractors have been contacted and they have been requested to submit proposals. The financing of this project under Federal Aid is being investigated and, if that source is not available, financing will be with State Funds. Mr. Klaboe recommended that this work be done on an emergency basis (negotiated contract) as soon as possible. Following his favorable recommendation, the Commission authorized Mr. Klaboe to proceed immediately with the work. (See Contract No. 8088 on file in Commission Files)

AERONAUTICS DIVISION

The Commission considered an amendment to the original Grant Agreement with the Federal Aviation Administration concerning the Powers State Airport in Coos County. Mr. Ritchey mentioned that the amendment increases the amount of the grant from \$19,210 to \$21,131. The amendment also deletes certain special conditions of the original grant. Following his favorable recommendation, the Commission adopted "Aeronautics Miscellaneous Resolution No. 3," accepting the grant and authorized the Administrator to sign the agreement.

Attention was given to a resolution declaring necessity of an avigation easement over six parcels of real property for public purposes for the Siletz Bay State Airport in Lincoln County. He recommended approval and authority to condemn if necessary. The Commission accepted his recommendation and adopted "Condemnation Resolution No. 2625," which resolution by this reference is made a part hereof and filed in the Commission's files.

Consideration was given to the approval of a request to petition the City of Lebanon for annexation of the Lebanon State Airport in Linn County. Mr. Ritchey mentioned that with the annexation the State will be eligible for sewer, fire and police service for the airport. The Commission approved the annexation as recommended by Mr. Ritchey.

Following Mr. Ritchey's recommendation, the Commission approved the following items prior to submitting to the Emergency Board for approval:

- (1) An increase of \$300,000 in the State "Airport Construction and Improvement" limitation to allow the Aeronautics Division to pay expenses for Airport Development Aid Program projects out of State limitation until Federal reimbursement funds are received from the Federal Aviation Administration.
- (2) A contract between the Aeronautics Division and the Federal Veterans Administration for administration of the G.I. Flight School approval programs. Also requires an increase in State "Personal Services" and "Services and Supplies" limitations to allow expenditures for G.I. Flight School approval program from State limitation until Federal reimbursement funds are received. Flight school expenditures will then be transferred to Federal limitations. Contract total is \$24,996; \$21,996 in Personal Services and \$3,000 for Services and Supplies.
- (3) The purchase of 114.26 acres of property at \$250 an acre for a cross-wind runway at the John Day State Airport in Grant County. The sale of 10.08 acres of property at \$250 an acre to the seller of the 114.26 acres. Total acquisition cost of land including sale of property and incidental costs for land acquisition is \$36,500.
- (4) To replace cash in a project for Siletz Bay State Airport in Lincoln County to furnish the sponsor's matching portion of an Airport Development Aid Program Project. The total project will be approximately \$104,200 with approximately \$17,200 cash required as local match.
- (5) A request to increase the scope and cost of an Airport Development Aid Program Project at the Powers State Airport in Coos County. Project will total \$19,500 with \$3,300 required as the Agency's share of the project.

(continued on page 646)

- (6) A request from the City of Redmond, Deschutes County, for financial aid to municipalities in an amount not to exceed \$13,545 to allow a request to the Federal Aviation Administration for a \$150,500 Crash/Fire and Rescue vehicle.
- (7) An increase in the State fund limitation in the amount of \$12,000 for "Airport Construction and Improvements" State-owned airports. This increase is for a low-intensity lighting system for the Paisley State Airport in Lake County.

MASS TRANSIT DIVISION

Mr. Moore reported on an action taken under delegated authority received for filing with the Commission records (Exhibit H on file in the Commission's files, Salem).

MOTOR VEHICLES DIVISION

Mr. Ott reported the Tri-County Metropolitan Transportation District (Tri-Met) in Portland is drafting an ordinance to enable them to collect a motor vehicle fuel dealer's license tax from dealers and sub-dealers who bring motor vehicle fuel into the Tri-Met District. Tri-Met has asked the Division to collect the tax which would be levied about .7 or .8 cents per gallon. Based on the present estimated cost per gallon for collecting the regular State tax on gasoline, it is estimated that the cost of collecting the additional tax for Tri-Met would be approximately \$50,000 per year. All costs would be deducted from revenue before the funds are turned over to the District. There would be no net outlay of State funds.

He said a letter would be directed to the Attorney General to get his approval prior to submitting to the Emergency Board meeting in November. If the Attorney General finds that this proposal is unconstitutional, then this request would be withdrawn.

Following Mr. Ott's favorable recommendation, the Commission granted him approval to submit this matter to the Emergency Board.

DEPARTMENT OF TRANSPORTATION Director's Report

The Commission set Monday, November 25, 1974, as the date for their next regular meeting.

NOA

In reply to the Chairman's inquiry, Mr. Barrie stated that regular monthly Commission meetings could be held on a telephone conference call basis providing advance notices are given out to the press. Mr. Jackson stated this would be contingent upon the fact if there were no delegations. He also mentioned the Commission is hopeful that the next Legislature will change the law so they can set meeting dates as required by Department of Transportation business.

The Chairman adjourned the meeting at 10:38 a.m.

- 4) Public sale of 2.08 acres of excess property on the Lostine Section of the Wallowa Lake Highway in Wallowa County for a minimum consideration of \$925, subject to any easements or commitments of record for the existing ditch through the property. Files 18912 & 18914. (Right of Way Branch) Real Property Resolution No. 662.
- 5) Public sale of 1.38 acres of excess property in the Ontario Section of the Olds Ferry-Ontario Highway in Malheur County for a minimum consideration of \$21,000. File 10856 (Right of Way Branch) Real Property Resolution No. 663.
- 6) Agreement with Columbia Region Association of Governments providing for transportation planning work in the Portland-Vancouver Metropolitan Area during fiscal year 1975 utilizing Metropolitan Planning Funds provided by the 1973 Federal-aid Highway Act. On January 30, 1974, the Transportation Commission approved distribution of Metropolitan Planning Funds to the various Councils of Governments and proposed to provide the 20 percent match. This agreement is the vehicle to implement that action for the Columbia Region Association of Governments. The total amount to CRAG is \$130,975. The amount is composed of \$104,780 in Federal Funds and \$26,195 of State match. (Planning Section)
- 7) A letter-form agreement with the Washington County Board of Commissioners for installation of railroad crossing protection at S.W. 198th Avenue with the Southern Pacific Transportation Company's railroad tracks within the community of Tobias. This project is eligible for 90% Federal Aid funding under Section 230 of Title II, Highway Safety Act of 1973. Total estimated cost of the work is \$40,000. County will provide the 10% (\$4,000) matching funds with no expense to State (County-City Unit).
- 8) A letter-form agreement with City of Corvallis for installation of railroad crossing protection at S.W. Western Avenue with the West Side Branch of Southern Pacific Transportation Company tracks in Benton County. This project is eligible for 90% Federal Aid Funding under Section 203 of Title II, Highway Safety Act of 1973. Total estimated cost for the work is \$40,000. City will provide the 10% (\$4,000) matching funds with no expense to State. (County-City Unit)

Under Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approved all actions listed below by telephone on the dates shown and report this action for your official records:

- 1) On October 9, 1974, gave telephonic approval of a contract between the Highway Division and SEE Graphics and Displays, Inc., for the furnishing of graphic display materials. Such materials will be placed in the information plazas that are presently being constructed in the north and south Baldock Rest Areas and at the Multnomah Falls Rest Area. The maximum amount of the contract is \$19,000 and it will terminate on December 31, 1974. This contract has been approved by General Services because of the time element but contracts for future graphic displays will be put out for bids.
- 2) On October 8, 1974, gave telephonic approval to J. B. Boyd, Right of Way Engineer, for conveyance of 20+ acres excess lands on the Hubbard Interchange-Hayesville Interchange Section of the Pacific Highway in Marion County to the Oregon Wildlife Commission for public recreation purposes. -----------	--	--------------------------------------	---------	------------------

Floyd L. Mattson

L-6610A

R-43879

Section: S.E. Hinkley Avenue-Lake Road Interchange Unit

Highway: East Portland Freeway

County: Clackamas

This case was appealed by the defendant after a judgment was entered in a Circuit Court and the Attorney General's office moved to dismiss the appeal because it had not been filed on time. The Court of Appeals dismissed the appeal and the attorney for the defendant then petitioned the Supreme Court for a Writ of Review. This was an improper procedure and upon motion of the Attorney General's office the Petition for Writ of Review was dismissed by the Supreme Court. By the time the Supreme Court had acted, the time had expired for the defendant's attorney to request a rehearing by the Court of Appeals and, therefore, all of the defendant's remedies on appeal were exhausted and the matter was concluded.

Gene G. Stockhoff

L-6435A

R-42362

Section: LaGrande-North Powder

Highway: Old Oregon Trail

County: Union

The following is to report to the Transportation Commission the activity on this file. The Court of Appeals affirmed the judgment in the trial court and thus, denied the State's appeal from the same.

EXHIBIT G

REPORT OF CONDEMNATION CASES TRIED

Defendant	State's Highest Testimony or offer before filing Complaint	Defend- ants' lowest demand	Verdict	Attorney Fees
-----------	--	--------------------------------------	---------	------------------

Carmel Estates, Inc.

L-6685A

R-46326

Section: Boring Road Interchange

Highway: Mt. Hood

County: Clackamas

The following is to report to the Transportation Commission the activity on this file. The Court of Appeals affirmed the judgment in the trial court, thus denying the State's appeal therefrom. In a supplemental appeal, the Court of Appeals ruled that the State is obligated to pay interest on the attorney fees and costs from entry of judgment. Prior to this time, the State has paid interest only on the just compensation from the date of judgment or physical possession, whichever was the earlier.

The Oregon Supreme Court refused to review the action of the Court of Appeals.

EXHIBIT G

REPORT OF TRIAL OF OTHER CASES - State Defendant

Plaintiff	Cause of Action	Demands of Plaintiff	Verdict or Judgment
-----------	-----------------	----------------------------	---------------------------

United States Steel
Corporation

L-5562A

The following is to report to the Transportation Commission the activity on this file. The Marion County Circuit Court entered an Order dismissing the above case for the want of prosecution. The court rules provide that such an order can be set aside in appropriate circumstances. However, if not set aside, the order would preclude further action by U. S. Steel in this matter. You will recall that U.S. Steel was the superstructure contractor in the construction of the Astoria Bridge. The action was for \$1,000,000 plus damages for delays encountered by U. S. Steel during the performance of its contract. U. S. Steel filed and is now actively pursuing a similar case against the DeLong Corporation in the Multnomah County Circuit Court.

REPORT OF TRIAL OF OTHER CASES - State Plaintiff

INSTITUTION OF LEGAL PROCEEDINGS FILED AGAINST DEPARTMENT OF TRANSPORTATION

L-7121 Donald M. Drake Company and Willamette Western Corporation v. State of Oregon and L-7122 H. A. Andersen Co., and Hannan Bros. Construction, Inc. v. State of Oregon: These two cases are somewhat related in that they both involve actions against the Department of Transportation for breach of contract. The plaintiffs are the prime contractors for the construction of the east and west sides of the Fremont Bridge. The action by Donald M. Drake Company and Willamette Western Corporation (joint venture on east side) has been filed in the Multnomah County Circuit Court and the claim for relief totals \$2,294,199.65. The action brought by H. A. Andersen Company and Hannan Bros. Construction, Inc. (joint venture on west side) has been filed in the Circuit Court for Marion County. The claim for relief in the latter case totals \$1,295,071.15.

The claims in these cases are very complicated and attempts to resolve them short of litigation have been futile. It is anticipated that if a settlement cannot be reached the preparation and trial of these cases will take a great deal of time and effort.

Due to the complexity of the cases and the amount of money involved, these cases have been given top priority by the Department of Justice, Trial Division. I will work closely with the trial attorneys on these cases.

L-7123 Irene Vantz v. Coral Corporation and R. A. Heintz Construction Company: The plaintiff in this case has sued the general contractor, R. A. Heintz, and the subcontractor, Coral Corporation, for injuries received in trying to rehang a gate that was installed by the defendant, Coral Corporation, on Highway 211 in Clackamas County. The attorney for Coral Corporation has tendered the defense of this lawsuit to the Highway Division and the matter has been referred to our insurance carrier. The plaintiff is seeking \$100,000 damages.

L-7124 Claudia Morgan v. Oregon State Highway Commission: This lawsuit arises out of a collision between the plaintiff's vehicle and some rocks on the highway in the vicinity of Mt. Nebo in Douglas County. The plaintiff is claiming damages in the amount of \$19,023 and this matter has been referred to the State's insurance carrier for the defense of the State Transportation Commission.

L-7131 Ross Bros. Construction, Inc. v. State of Oregon, Highway Division: This lawsuit arises out of Contract No. 7602 in which the plaintiff was the contractor. The dispute arises over the failure of the surfacing on the Goshen overcrossing south of Cottage Grove on I-5 in Lane County due to improper placement. The contractor sued the subcontractor and lost and is now suing the State for \$20,603.56. The case has been referred to the Attorney General's office for the defense of the Highway Division.

Oregon Transportation Commission

Reports of Actions Taken Under Delegated Authority

On behalf of the Commission and under its authority delegated to me to approve and sign contracts, I have approved and signed the following:

An \$1,800 three-month contract with the Western Interstate Commission on Higher Education (WICHE) for a research project as part of the legislatively authorized Willamette Valley Transportation Study.

(Signature)

Administrator, Mass Transit Division
(Title)

November 25, 1974
Salem, Oregon

The Oregon Transportation Commission met in regular session at 10 a.m., in Room 122 of the State Highway Building in Salem, Oregon. Present were:

Glenn L. Jackson, Chairman
Carl O. Fisher, Vice Chairman
Robert L. Mitchell, Secretary
Anthony Yturri, Member
Robert E. Veatch, Member
George M. Baldwin, Director of Transportation
Sam R. Haley, Deputy Director
Walt Barrie, Chief Counsel
F. B. Klaboe, Administrator and State Highway Engineer
A. E. Johnson, Deputy State Highway Engineer
J. B. Boyd, Right of Way Engineer
David Talbot, State Parks Superintendent
Paul Burket, Administrator of Aeronautics
Dennis Moore, Administrator of Mass Transit
Chester Ott, Administrator of Motor Vehicles
C. W. Head, Supervisor, Commission Services

The Commission approved the minutes of the regular meeting of October 30, 1974.

HIGHWAY DIVISION

A list of properties needed for highway and other uses was presented by Mr. Boyd. He requested the Commission to declare by resolution the necessity of said properties for the public use to which they are to be put and to authorize him to attempt to agree with the owners of said properties as to price. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful and thereupon adopted "Condemnation Resolution No. 2627," which resolution by this reference is made a part hereof and filed in the Commission's files.

Mr. Barrie asked if there were any questions in connection with the informational reports previously submitted to the Commission on cases tried, cases settled and institution of legal proceedings filed against the Department of Transportation since the last Commission meeting. There were no questions. (See Exhibit G on file in the Commission's files in Salem.)

Mr. Barrie reported on the Maywood Park case concerning I-205 in Multnomah County. He stated the 9th Circuit Court has remanded the case to the Federal District Court in Portland for further proceedings. The 9th Circuit's decision suggests that new hearings are necessary on the segment which has not yet been

constructed from the Columbia River south to approximately Foster Road. It is anticipated that the attorneys from Maywood Park will present an order to the District Court in Portland requesting a new public hearing. Mr. Barrie suggested that the State should not enter into any further contracts until the public hearing issue has been resolved. He said the State would incorporate the opinions that are presented at a subsequent hearing into the environmental impact statement if a new hearing is held. This would then constitute a final environmental impact statement which would go to the Federal Highway Administration for approval. If no other lawsuits are filed and Federal approval is received, the State could proceed with the project.

The Commission considered adopting permanent rules for operating the Land and Water Conservation Fund Program in Oregon. Mr. Talbot mentioned that the proposed rules were published in the September 1, 1974, issue of the Secretary of State's Administrative Rule Bulletin. After publication, the proposed rules were revised to incorporate various comments and suggestions from interested clients. Mr. Talbot recommended that the rules be adopted as permanent rules which will supersede the provisions of the State-County agreements that previously controlled the distribution of the funds in this program. The basic differences between the rules and the old agreements are as follows:

- (1) The rules identify the new five percent Special Projects Fund.
- (2) The rules prescribe deadlines for submission of applications and complete supporting documents.
- (3) The rules replace three-party agreements with project agreements between State and sponsor only.
- (4) The rules indicate that payments will be made directly to sponsors.
- (5) Many provisions considered superfluous were eliminated without objection and the format of presentation was changed.

Following his favorable recommendation, the Commission approved the program as permanent rules. (Copies of the rules are on file in the Commission's files, Salem. The permanent rules are to be published in the December 15, 1974, issue of the Administrative Rule Bulletin to become effective January 1, 1975.)

Mr. Talbot reported that Congress has recently passed and the President has signed the bill creating the John Day Fossil Beds National Monument in Oregon. The National Monument will consist primarily of the Thomas Condon-John Day Fossil Beds (4,344.68 acres),

Painted Hills (2,833.20 acres), and Clarno (100 acres) state park properties, reducing the State's land inventory a total of 7,277.88 acres in Grant, Wheeler and Wasco Counties. Of this total, 3,363 acres were provided to the State by the Bureau of Land Management. He stated that the area will be managed by the National Park Service under a development plan generally approved by staff. This matter has also been approved by the State Parks and Recreation Advisory Committee. The Commission approved the transfer of the three State Parks to the Federal Government at no cost as recommended by Mr. Talbot.

Consideration was given to amending "Ocean Shore Resolution No. 10" dated June 2, 1970, to prohibit motor vehicle travel on the beach from Ecola Court Street to south of Center Street in Cannon Beach, Clatsop County, a distance of approximately 2,708 feet from March 1 through September 30. Mr. Talbot mentioned that the present restriction is from May 1 through September 30. A public hearing was held in Cannon Beach on September 27, 1974, which produced a variety of opinions on the issue but there was not an overwhelming majority either for or against the restriction of vehicles in the limited summer use area. Following his recommendation, the Commission approved the amendment as follows:

Amend "Ocean Shore Resolution No. 10" 3(d) to read:

Motor vehicle travel is prohibited from March 1 through September 30 from Chapman Point, Y836,483, southerly to Hug Point, Y808,168 except as follows:

Between sunrise and sunset from Ecola Court Street in Cannon Beach, Y829,402, southerly to a point 60 ft. south of Center St., Y826,694, a distance of approximately 2,708 ft.

(Proposed rule to be published in the Secretary of State's Administrative Rule Bulletin on December 15, 1974.)

Attention was given to transferring from the Federal Government (Secretary of Interior) to the State of Oregon the Coast Guard Station and Gap Filler Site at Port Orford (28.86 acres of surplus land) in Curry County. Mr. Talbot stated that this site would be used for park and recreational purposes. He recommended that Mr. Klaboe be authorized to sign an application and other documents necessary for the transfer of said property. Upon his favorable recommendation, the Commission adopted "Authorization Resolution No. 63," which resolution by this reference is made a part hereof and filed in the Commission's files.

Mr. Klaboe reported on actions taken under delegated authority received for filing with the Commission records. These reports show the actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission files, Salem.)

Chairman of Oregon Transportation Commission	Exhibit A
Vice Chairman of Oregon Transportation Commission	Exhibit B
Administrator and Highway Engineer	Exhibit C
Director of Permits	Exhibit D
Right of Way Engineer	Exhibit E
State Parks Superintendent	Exhibit F
Chief Counsel	Exhibit G

Consideration was given to a request from Harney County for a Federal-aid Secondary Project. Mr. Klaboe mentioned that this project is to replace the Acton Bridge on FAS 458 over the Middle Fork Malheur River. The Commission approved the following project as recommended by Mr. Klaboe and authorized him to sign the agreement when prepared:

COUNTY & FAS NO.	SECTION AND DESCRIPTION	PROGRAMMED AMOUNT	STATE SHARE
Harney 458	Middle Fork Malheur River (Acton) Bridge Section, Van-Drewsey Road	\$100,000	\$11,000
TOTAL		\$100,000	\$11,000

SUMMARY BY FISCAL YEARS
(FAS Funds)

	1974	1975	TOTAL
Allocated Funds	\$4,108,000	\$4,252,000	\$8,360,000
Approved Projects (corrected to date)	4,108,000	962,000	5,070,000
Unprogrammed Balance	---	3,290,000	3,290,000
Project 11-25-74	---	100,000	100,000
Unprogrammed Balance	\$ ---	\$3,190,000	\$3,190,000

Mr. Klaboe reported that the Travel Advisory Committee to the Oregon Transportation Commission has recommended the reappointment of four members of its committee for four-year terms. He stated the Committee was formed to advise the Commission on policy matters relating to the promotion of travel, tourism, and recreation in Oregon. The Commission reappointed the following members:

Frank Logan, Bend	Howard Lane, Portland
Joe Caraher, Klamath Falls	Lloyd Evans, Unity

Mr. Klaboe presented the following construction projects on which bids were received November 21, 1974. He mentioned that the projects contain an explanation of plans concerning the establishment of footpaths and bicycle trails.

- (1) M. P. 2.8 and M.P. 7.0 Slide, FAS 609, Columbia County. Grade and Pave Project.
Footpaths or bicycle trails are not incorporated in this project as no new highway construction, reconstruction or relocation is involved. (ER project to correct slide damage.)
- (2) Tygh Creek (Tygh Valley) Bridge, FAS 311, Wasco County. Grading and Structure Project.
Footpaths or bicycle trails are not incorporated in this project as no new highway construction, reconstruction or relocation is involved. (ER project to correct slide or high water damage.)
- (3) Pacific Highway East at Gloucester Street (Gladstone), Pacific Highway East, Clackamas County. Signal Project.
Footpaths or bicycle trails are not incorporated in this project as no new highway construction, reconstruction or relocation is involved.
- (4) Lewis and Clark Law School-Tryon Creek Park Bikeway, S.W. Terwilliger Boulevard, Multnomah County. Grade and Pave Project.
This project will provide an additional 1.3 miles of fully separated bikeway parallel to S.W. Terwilliger Boulevard.
- (5) Oregon Coast Highway at Hemlock Street (Waldport), Oregon Coast Highway, Lincoln County. Signal Project.
Same as No. 3.
- (6) Cape Lookout State Park, Tillamook County. Utility Building Project.
Same as No. 3.

The Commission considered approving a request from Marion County for an Urban System Project for a preliminary engineering project to study the proposed improvement of Chemawa Road near Interstate 5. Mr. Klaboe indicated that the project has been investigated and is eligible for funding under the Federal Aid Urban System program. Following Mr. Klaboe's recommendation, the Commission approved the following project and authorized him to sign the agreement when prepared:

(continued on page 690)

<u>JURISDICTION</u>	<u>SECTION</u>	<u>TOTAL COST</u>	<u>FEDERAL FUNDS</u>	<u>STATE SHARE</u>
Marion County	McLeod Lane-Oregon Electric Railroad, Chemawa Road (FAU 1237)	\$15,000	\$11,700	\$1,650
	TOTAL NEW PROJECTS	\$15,000	\$11,700	\$1,650

SUMMARY BY FISCAL YEAR
(Federal FAU Funds)

	<u>1974</u>	<u>1975</u>	<u>TOTAL</u>
Allocated Funds (Federal)	\$6,405,362	\$6,552,246	\$12,957,608
Approved Projects (corrected to date)	3,394,868	---	3,394,868
Unprogrammed Balance	\$3,010,494	\$6,552,246	\$ 9,562,740
Proposed New Projects (11-25-74)	11,700	---	11,700
Unprogrammed Balance	\$2,998,794	\$6,552,246	\$ 9,551,040

The Commission approved the following increases in project authorizations as recommended by Mr. Klaboe:

- (1) L. K. Comstock, Inc., Contract No. 7999, Jantzen Beach Interchange, Pacific Highway, Multnomah County, for \$12,707.47 (18.25%). The overrun was caused by adding a bicycle-pedestrian path.
- (2) Sunset Crushed Rock Co., Contract No. 8044, Fort Stevens Park, Clatsop County, for \$21,560 (18.2%). The overrun was due from accumulated increase of paving.

Following Mr. Klaboe's recommendation, the Commission adopted the following as permanent rules to be published in the Secretary of State's Administrative Rule Bulletin:

- (1) Rescind Speed Zone Resolution No. 254 dated September 12, 1957, and establish a 45 MPH speed zone on the Pacific Highway East in Clackamas County.

45 miles per hour from the south city limits of Milwaukie (M.P. 6.40) to the north city limits of Gladstone (M.P. 10.57) except that between 450 feet north of S.E. Concord Road (M.P. 8.33) and 200 feet south of S.E. Concord Road (M.P. 8.46), the designated speed shall be 20 MPH when children are present as per the provisions of Subsection 1.a of ORS 483.104.

(continued on page 691)

- (2) Rescind Speed Zone Resolution No. 575 dated February 16, 1971, and establish the following speed zones on the Northeast Portland Highway No. 123 east of Portland in Multnomah County.

45 MPH from the east city limits of Portland (M.P. 8.67) to N.E. Cully Boulevard (M.P. 9.64), except that from 200 feet west of N.E. 52nd Avenue (M.P. 8.84) to 200 feet east of N.E. 52nd Avenue (M.P. 8.92) where the designated speed shall be 20 MPH when children are present as per the provisions of Subsection 1.a., of ORS 483.104.

35 MPH from N.E. Cully Boulevard (M.P. 9.64) to N.E. 82nd Avenue (M.P. 10.37)

45 MPH from N.E. 82nd Avenue (M.P. 10.37) to N.E. Sandy Boulevard (M.P. 11.30)

30 MPH from N.E. Sandy Boulevard (M.P. 11.30) to N.E. 112th Avenue (M.P. 11.95)

35 MPH from N.E. 112th Avenue (M.P. 11.95) to 50 feet west of N.E. 125th Place (M.P. 12.64)

40 MPH from 50 feet west of N.E. 125th Place (M.P. 12.64) to 500 feet east of N.E. 141st Drive (M.P. 13.45)

50 MPH from 500 feet east of N.E. 141st Drive (M.P. 13.45) to eastbound connection to Columbia River Highway, No. 2, (M.P. 17.14)

- (3) Prohibit parking on the north side of the Santiam Highway from the east city limits of Sweet Home (M.P. 28.60 Engr. Sta. 1576+30) to Wiley Creek Bridge (M.P. 30.21 Engr. Sta 1661+78) in Linn County.
- (4) Traffic signal installation on the Albany-Corvallis Highway at the intersection of 9th and New Lyon Street in Albany, Linn County.
- (5) Traffic signal installation at the intersection of the New Forest Grove Bypass (Tualatin Valley Highway) and Quince Street in Forest Grove, Washington County.

(The proposed rules were published in the Secretary of State's Administrative Rule Bulletin on October 1 and 15, 1974, and no requests for a hearing were received. The permanent rules were published in the December 15, 1974, issue of the Administrative Rule Bulletin to become effective December 25, 1974.)

Mr. Klaboe requested that the item concerning an amending agreement for construction of the new State Highway Building in Salem be removed from the agenda.

Mr. Klaboe reported that increased traffic volumes have created a difficult pedestrian crossing on the Junction City-Eugene Highway in the vicinity of Spring Creek Drive in Lane County. He mentioned that the Awberg Elementary School children cross at this intersection. He recommended the installation of a two-phase full-actuated signal to provide a safe crossing for the school children. The estimated cost for the signal installation is \$15,000. Lane County will pay \$5,000 and the State \$10,000 to be financed by Minor Betterment Funds. The State will maintain and operate the installation. The Commission approved the signal installation. (Installation adopted as a proposed rule and will be published in the Secretary of State's Administrative Rule Bulletin on December 15, 1974.)

Mr. Klaboe called on Mr. Sund, Director of Public Affairs, to report on the 1974-75 travel advisory program. Mr. Sund stated that the total expenditure for the advertising campaign will be approximately \$423,000 which will include the \$200,000 recently authorized by the Emergency Board. The Public Affairs staff and the advertising agency, Cole & Weber, Portland, have worked diligently to prepare the campaign. The Travel Advisory Committee has reviewed and concurred in this program. He mentioned that Mr. Jack Wagner from Cole & Weber was present and would be glad to answer any questions.

Mr. Vic Fryer showed slides to the Commission which outlined the advertising program in detail. He said the 1974-75 advertising campaign is aimed primarily at encouraging the more-likely-to-travel and more affluent citizens of nearby states to travel throughout the State. He indicated that last year the program was primarily in the Mid-West and national markets. This coming year it is felt that the trend is right to get back to the West Coast, primarily California. Most of the advertising dollars will be allocated to magazine advertising.

A delegation from the City of Pendleton (S.W. 20th Street Committee) appeared before the Commission presenting a report on a primary traffic-flow hazard and problem within the City of Pendleton, Umatilla County. The following persons from Pendleton were present: Wesley L. Stone, A. C. Holmes, N. E. Thorgersen, Edward A. Rhodes, Joe McLaughlin, Robert E. Ramig, Rudy R. Enbysk, and Sanford Bishop.

Mr. Rhodes presented aerial photographs, maps and charts, and also showed slides of the traffic congestion in the area. He stated the problem area includes those roadways encompassing the S.W. Court Avenue and Westgate intersection (one-way couplet); S.W. Court Place; S.W. Court Place and S.W. 20th Street intersection;

S.W. 20th Street; S.W. 20th Street and S.W. Emigrant Avenue and S.W. Frazer Avenue and U.S. Highway 395 (one-way couplet); U.S. 395 and I-80N interchanges and U.S. 395 and Tutuilla Road intersection. Over the past 4 years a total of 68 vehicular accidents have occurred within this area.

The Committee requested that the Department of Transportation undertake the following action:

- (1) Conduct an in depth study and develop a report of the area to include hourly traffic counts and determine the hazard points of the area.
- (2) Propose and present alternative solutions to correct this deplorable situation.
- (3) Develop a program of implementation to rapidly resolve the problem.

Mr. Rhodes indicated their Committee will be glad to assist the Department in the study.

The delegation submitted copies of their report to the Commission. (Report on file in the Commission's files.) The Chairman complimented the delegation on their detailed report and presentation. He stated that the staff had previously studied this area in Pendleton, but another study will be made.

AERONAUTICS DIVISION

The Commission considered adopting as permanent rules the proposed Administrative Rules on Minimum Standards for Airports to replace Administrative Order 2AB21, which was effective July 3, 1969. Mr. Burket mentioned that a hearing was held in Salem on June 10, 1973, to consider amendments to the Administrative Rules. After considerable amount of research and study, including a complete review by the Attorney General, the proposed revised rules have been formulated. The Commission adopted the Administrative Rules as recommended by Mr. Burket. (Copies of rules filed under "Aeronautics Rules No. 2" in Commission's files, Salem. Permanent rules will be published in the Secretary of State's Administrative Rule Bulletin.)

Attention was given to the adoption of the recommended policies which constitute Chapter 13 of the Oregon Aviation System Plan Technical Report. Mr. Burket stated the policies will become the official State Aviation Policies and will govern the future conduct of the Division in implementing the Oregon Aviation System Plan. Following his favorable recommendation, the Commission adopted the policies. (Copies of the policies on file in the Aeronautic Division's files, Salem.)

Mr. Burket recommended approval of a financial aid to municipalities grant to the City of North Bend in Coos County for a portion of the local sponsor's matching share of a Federal Aviation Administration's Planning Grant Program Project. He stated this is for a Draft Environmental Assessment for the North Bend Municipal Airport Master Plan. The total project costs are \$35,010 with the Federal Aviation Administration to provide \$23,340; the City \$6,670 and the State \$5,000. The Commission approved the project.

MASS TRANSIT DIVISION

Mr. Moore reported that Congress recently passed the National Mass Transportation Assistance Act of 1974. It is anticipated that the President will sign the Act (Senate Bill 386) which is an 11.8 billion dollar six-year program. He said approximately 4 billion dollars will be allocated to urbanized areas. The funds would go direct to the cities with over 200,000 population and administered through the states for urbanized areas in the 50,000 to 200,000 population group. Portland would receive approximately 22 million dollars. For other urbanized areas, the funds would come to the State. Over the same six-year period, Eugene and Salem would receive approximately 6.1 million dollars. These allocated funds can be used for operating assistance or small capital improvements. There is an additional authorization for capital improvements for transit systems and this would be on an 80-20 match. This would amount to approximately 7 billion dollars over the next six years. Approximately 500 million dollars is marked for areas for transit capital improvements outside of urbanized areas. Oregon would be eligible for 5 million dollars over a 6-year period providing the State gets the usual one percent.

MOTOR VEHICLES DIVISION

No report.

DEPARTMENT OF TRANSPORTATION Director's Report - Mr. Baldwin

The Commission set Wednesday, December 18, 1974, at 10 a.m., as the date for the next meeting. The Commission approved conducting this meeting by telephone (conference call) providing there are no delegations.

The Commission considered a resolution to the Civil Aeronautics Board concerning economic discrimination against American air carriers. Mr. Baldwin mentioned the exorbitant landing fees and ground charges imposed on American carriers in foreign countries in contrast to the considerably smaller fees imposed on foreign carriers landing at foreign and American airports as a contributing factor to the economic instability of domestic airlines. The resolution also states the Civil Aeronautics Board should take action to relieve any unnecessary discrimination against American air

carriers in the rates received for transporting US mail on international routes. Following his favorable recommendation, the Commission adopted "Aeronautics Miscellaneous Resolution No. 4," which resolution by this reference is made a part hereof and filed in the Commission's files.

Attention was given to an agreement with the City of Portland and the Department of Transportation pertaining to assistance in financing the work of a consultant (System Design Concepts, Inc.) in connection with the Governor's Task Force on Transportation in the Portland Metropolitan Area. Mr. Baldwin mentioned the cost to the State is \$3,600. The Commission approved the agreement as recommended by Mr. Baldwin and authorized him to sign it in their behalf.

Following Mr. Baldwin's recommendation, the Commission approved the following items prior to submitting them to the Emergency Board for approval:

- (1) An increase in Other Fund Limitation for Capital Outlay of \$1,500 for calculators, typewriter, and file cabinets for the office of the Fiscal Officer.
- (2) An increase in Other Fund Limitation of \$6,375 to hire a Manager of Information Systems who will be responsible for managing the Computer Resources during the period April 1, 1975, through June 30, 1975.

Mr. Baldwin reported that the Port of Portland has filed a petition before the Civil Aeronautics Board to amend certificates of public convenience and necessity and for investigation under the Federal Aviation Act to authorize air service to the Peoples Republic of China from Portland via Japan and Korea. He stated the Port requested the Department of Transportation to join in the filing asking for a hearing by the Civil Aeronautics Board. The City of Portland, Port of Portland, Portland Chamber of Commerce, Portland Freight Traffic Association and the Public Utility Commissioner are also petitioners. The Chairman's verbal approval to join in the filing was given on November 22, 1974, and the Commission confirmed approval of the filing. Mr. Baldwin also requested and received approval to expend State resources to participate in further proceedings pursuant to the petition. (Copy of petition on file in Mr. Baldwin's office.)

The Chairman adjourned the meeting at 11:08 a.m.

TO: Oregon Transportation Commission
SUBJECT: Report of Actions Taken Under Delegated Authority

By duly adopted delegation order you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority and acting in accordance therewith for the Commission, I report the following for your official records:

On behalf of the Commission and under its authority delegated to me to make formal offers to purchase real property in preparation for condemnation, I approved making the following:

ELK RIVER-PORT ORFORD SECTION OF THE OREGON COAST HIGHWAY -
CURRY COUNTY

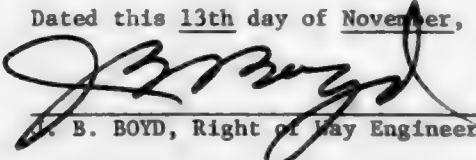

R-48219 - Port & Starboard Pizza Parlor, Inc., et al.
0.01 acre for right of way purposes. Offer \$200.00.

R-48220 - Jack M. Schmidt et al. 0.02 acre for right
of way purposes. Offer \$450.00.

LA GRANDE-UNION SECTION OF THE LA GRANDE-BAKER HIGHWAY -
UNION COUNTY

R-48178 - William B. Hawkins et al. 2.4 acres for
right of way purposes. Offer \$2,300.00.

Dated this 13th day of November, 1974.

J. B. BOYD, Right of Way Engineer

The State appealed this case after a verdict of \$863,250 and was unsuccessful in the Court of Appeals and also in securing a review from the Supreme Court. The case is now terminated and the verdict, plus attorney fees, costs and interest, have been paid with the exception of \$50,000 which has been withheld pending delivery of all fixtures acquired in the condemnation action and possession of the property. As soon as all fixtures purchased by the State are delivered, the \$50,000 will be released to the defendants.

CASES FILED BY AND AGAINST THE DEPARTMENT OF TRANSPORTATION

L-7140 Janette A. Thornley, by Ronda J. Thornley as guardian ad litem, v. Roger Lavon Lowery, et al.; L-7141 Ronda J. Thornley, personal representative of the estate of Chad Eric Thornley, deceased v. Roger Lavon Lowery, et al.; L-7142 Ronda J. Thornley, personal representative of the estate of Gilbert Lee Thornley, deceased, v. Roger Lavon Lowery, et al.; and L-7143 Ronda Joyce Thornley v. Roger Lavon Lowery, et al.: All four of these cases arose out of the accident which happened on May 10, 1974, on U.S. Highway 101 near the north end of Winchester Bay. The accident involved a collision between the vehicle driven by Mrs. Thornley's husband and Roger Lavon Lowery and Jan Lawrence Swift. The vehicles were going in opposite directions. This is a section of the highway where it changes from a four-lane to the two-lane and where this change occurs, the vehicle driven by Lowery and Swift collided. Then there was a head on collision with the plaintiff's vehicle by the vehicle operated by Mr. Lowery. The State Highway Division and several of its employees have been named as parties defendant for failure to inspect, care for and maintain the highway and mainly the failure to properly sign the highway to advise motorists of the merging of the two northbound lanes into one northbound lane near mile post 215. The lawsuits are for the following amounts:

L-7140 is \$10,180
L-7141 is \$200,000
L-7142 is \$701,899
L-7143 is \$101,100

All of these cases have been referred to the State's insurance carrier for the defense of the State's employees.

L-7144 Lonnie Mason Brewer, an incompetent person, by his Conservator, Mary Lou Brewer v. State of Oregon: This accident occurred in a construction project where Gibbons and Reed Company was the contractor on Interstate 80N near mile post 357.6. The complaint alleges that in the construction area there was a sharp curve before commencing the downgrade and no centerline was painted on the highway, although fog lines were painted. The plaintiff's automobile went off the highway and collided with the end of temporary guard-rail. The lawsuit is in the amount of \$2,026,268 and the matter has been referred to the State's insurance carrier for the defense of the State.

L-7145 C. H. Savage Company v. State of Oregon: This case arises out of a contract for the cleaning and painting of the Yaquina Bay Bridge at Newport, Oregon. The contract alleges that the contractor was misled as to the condition of the bridge and the cleaning and painting of the bridge greatly over-ran the bid amount of the contract. The contractor is suing for \$299,397.50 and this case has been referred to the Attorney General's office for the defense of the State.

December 12, 1974
Salem, Oregon

The Oregon Transportation Commission held an emergency telephone meeting at 11 a.m. in Room 140 of the State Highway Building in Salem, Oregon. The following persons were on the telephone at the locations given:

Glenn L. Jackson, Chairman, Portland
Carl O. Fisher, Vice Chairman, Portland
Robert L. Mitchell, Secretary, Portland
Anthony Yturri, Member, Ontario
Robert E. Veatch, Member, Klamath Falls
George M. Baldwin, Director of Transportation, Salem
F. B. Klaboe, Administrator and State Highway Engineer, Salem
Walt Barrie, Chief Counsel, Salem
R. L. Schroeder, Assistant State Highway Engineer, Salem
Ralph Sipprell, Liaison Engineer, Salem
John J. Earley, Public Information Officer, Salem
C. W. Head, Supervisor, Commission Services, Salem

The Commission considered extending the Howard, Needles, Tammen and Bergendoff consultant contract to May 31, 1975, for environmental impact work on I-205 in Multnomah County. Mr. Klaboe stated that the extension is needed to complete the work on the environmental statement which the State must do now. The consultant's work will be adding to the original statement and assisting with public hearings. The statement will be reprinted and then after analyzing the information received at the public hearing, there will be a final printing. The total cost of the work is estimated at \$130,000. This includes \$30,000 for additional air quality studies by The System, Science & Software, Inc.

Mr. Jackson commented that this extension involves three projects totaling between 25 and 26 million dollars. The State is trying to expedite the clearance of these jobs in accordance with the order of the 9th Circuit Court. He stated it is not only important to keep the projects on schedule, but very important from the employment standpoint of the area. The Commission approved the two agreements as recommended by Mr. Klaboe.

The telephone meeting was concluded at 11:07 a.m.

December 18, 1974
Salem, Oregon

The Oregon Transportation Commission held their regular meeting by telephone at 10 a.m. in Room 135 of the State Highway Building in Salem, Oregon. Notice of the meeting was made by press release to newspapers of the general and local circulation throughout the State. The following persons were on the telephone at the locations given:

Portland

Glenn L. Jackson, Chairman
Carl O. Fisher, Vice Chairman
Robert L. Mitchell, Secretary
George M. Baldwin, Director of Transportation
F. B. Klaboe, Administrator and State Highway Engineer

Klamath Falls

Robert E. Veatch, Member

Salem

Anthony Yturri, Member
Sam Haley, Deputy Director
Walt Barrie, Chief Counsel
Paul Burket, Administrator of Aeronautics
Dennis Moore, Administrator of Mass Transit
Chester Ott, Administrator of Motor Vehicles
A. E. Johnson, Deputy State Highway Engineer
J. B. Boyd, Right of Way Engineer
David Talbot, State Parks Superintendent
E. S. Hunter, Assistant State Highway Engineer
R. L. Schroeder, Assistant State Highway Engineer
C. W. Head, Supervisor, Commission Services

There were others present from the Department of Transportation and representatives from the news media.

The Commission approved the minutes of the regular meeting of November 25, 1974.

HIGHWAY DIVISION

A list of properties needed for highway and other uses was presented by Mr. Boyd. He requested the Commission to declare by resolution the necessity of said properties for the public use to which they are to be put and to authorize him to attempt to agree with the owners of said properties as to price. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful and thereupon adopted "Condemnation Resolution No. 2628," which resolution by this reference is made a part hereof and filed in the Commission's files.

Mr. Barrie asked if there were any questions in connection with the informational reports previously submitted to the Commission on cases tried, cases settled and institution of legal proceedings filed against the Department of Transportation since the last Commission meeting. There were no questions. (See Exhibit G on file in the Commission's files in Salem.)

Upon the recommendation of Mr. Barrie, the Commission abandoned the following miscellaneous claims totaling \$126.09 which in his opinion do not warrant further action toward collection.

<u>NAME</u>	<u>AMOUNT</u>
Altman, M.	\$ 22.14
Camper Court	25.00
Chemawa Indian School	10.00
Classic Publications	5.20
Comm. Graphics	2.00
Daves Cement Contractor	5.00
Empire Publishing	29.10
James, C.	6.40
Marr, J.	1.50
Solheim, A.	3.75
Steffen, V.	10.00
Wright, N. D.	6.00
TOTAL	\$126.09

Attention was given to the abandonment of 12 damage claims totaling \$7,435.36. Mr. Barrie indicated that these claims do not warrant further action toward collection. Following his favorable recommendation, the Commission approved the abandonment of the following claims:

<u>NAME & CAO NO.</u>	<u>AMOUNT</u>	<u>KIND OF DAMAGE</u>	<u>REASON</u>
West Coast Trucklines 70-476	\$3,764.46	Buller's Bridge	Accident caused by wind
Virginia Harmon 73-235	140.00	Guardrail	Lives out of state
Carla M. Hake 73-334	312.03	Slavin Overpass	Unable to locate
Kelly D. Walker 74-3	159.59	Guardrail	Unable to prove negligence

(continued on page 730)

<u>NAME & CAO NO.</u>	<u>AMOUNT</u>	<u>KIND OF DAMAGE</u>	<u>REASON</u>
John Young Jr. 74-37	\$ 356.51	Steel Bridge	No assets
Clifford John Lindenburger 74-58	216.12	Directional sign	No assets
Leland W. Emmons 74-97	838.42	Neon sign	Lives out of state
James A. Tremble 74-115	167.90	Right-of-way fence	Lives out of state
Gary L. Benthin 73-123	137.57	Guardrail	Unable to collect
John F. Snyder 73-74-182	407.09	Guardrail	Lives out of state
Alvarine Kennedy 74-193	429.17	Guardrail	No assets
Greyline Company 74-214	506.50	Snowplow	Refuted State's version of accident

Mr. Talbot stated that he had no report at this meeting.

Mr. Klaboe reported on actions taken under delegated authority received for filing with the Commission records. These reports show the actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission files, Salem.)

Chairman of Oregon Transportation Commission	Exhibit A
Vice Chairman of Oregon Transportation Commission	Exhibit B
Administrator and Highway Engineer	Exhibit C
Director of Permits	Exhibit D
Right of Way Engineer	Exhibit E

Chief Counsel	Exhibit G

The Commission considered a request from the City of Eugene to cancel a previously approved TOPICS Project (traffic operational procedures to increase capacity and safety) and undertake the project as a Federal Aid Urban System Project. Mr. Klaboe stated that this project has been investigated and is eligible for funding under the Federal Aid Urban System Program. Cancellation of the project under the TOPICS program is necessitated by the lack of TOPICS Funds available to the City. Following his favorable recommendation, the Commission approved the following request and authorized the Administrator and State Highway Engineer to sign the agreement when prepared:

Cancellation of Previously Approved Project

<u>City</u>	<u>Section</u>	<u>Project Estimate</u>	<u>Federal Share</u>	<u>State Share</u>
Eugene	E. 28th Ave.-E. 36th Ave., Hilyard St.	\$115,000	\$69,000	\$23,000

Approved Projects (Corrected to Date)	3,434,008	---	3,434,008
Unprogrammed balance	\$2,971,354	\$6,552,246	\$ 9,523,600
New Project 12-4-74	156,000	---	156,000
Unprogrammed Balance	\$2,815,354	\$6,552,246	\$ 9,367,600

Mr. Klaboe presented a report and recommendation covering the program of street work in cities having a population of less than 5,000 under the \$250,000 fund appropriated by Law for the year 1975. He mentioned that 53 applications had been received and all were carefully analyzed. There were 14 projects selected for

approval as being most meritorious. The Commission approved projects in the following cities and authorized Mr. Klaboe to sign the agreements when prepared: (Specific projects shown in report on file in Commission files, Salem.)

CITY	SCA	CITY	TOTAL
Aumsville	\$ 25,000	\$ 11,000	\$ 36,000
Canyonville	22,000	--	22,000
Detroit	20,000	--	20,000
Estacada	25,000	--	25,000
Hines	25,000	10,000	35,000
Hood River	25,000	5,000	30,000
Lafayette	25,000	--	25,000

Scio	25,000	5,000	30,000
Sheridan	25,000	2,000	27,000
Veneta	16,000	--	16,000
TOTAL	\$322,000	\$143,000	\$465,000

Mr. Klaboe presented the following informational report of projects on which bids are to be received December 19, 1974. He mentioned the projects contain an explanation of plans concerning the establishment of footpaths and bicycle trails:

- (1) Fifteenmile Creek (Quarry) Bridge, Wilber West Road, Wasco County. Structure Project.
Footpaths and bicycle trails will not be established under this project as per ORS Chapter 366, Section 2, Subsection 2(b), which states that "Footpaths and trails are not required to be established...if the cost of establishing such paths and trails would be excessively disproportionate to the need or probable use."
- (2) Main Street-Hawthorne Street (Forest Grove), Tualatin Valley Highway, Washington County. Signal Modification Project.
Footpaths or bicycle trails are not incorporated in this project as no new highway construction, reconstruction or relocation is involved.
- (3) W. Illinois Street at N. Main Street (Newberg), Yamhill-Newberg Highway, Yamhill County. Grade, Pave and Sign Project.
A concrete sidewalk which may be utilized by pedestrian and bicycle traffic will be constructed.

(continued on page 733)

- (4) Birch Avenue-Crater Lake Highway (Medford), Rogue Valley Highway, Jackson County. Grade, Pave, Signals and Illumination Project. Footpaths and bicycle trails will not be established under this project as per ORS Chapter 366, Section 2, Subsection 2(c), which states that "Footpaths and trails are not required to be established... where sparsity of population, other available ways or other factors indicate an absence of any need for such paths and trails."

The City has submitted a grant application to the Oregon Traffic Safety Commission for funding to develop a bicycle trail master plan. Until this plan is completed and some guidelines established for bicycle trail construction, the City of Medford recommends that no trail be established on this project.

- (5) Little Deschutes River (Burgess) Bridge, FAS 555, Deschutes County. Structure Project. A concrete sidewalk which may be utilized by pedestrian and bicycle traffic will be provided on a replacement-in-kind basis.
- (6) N.E. Killingsworth Street at Columbia Boulevard, N.E. Portland Highway, Multnomah County. Signal Project. Footpaths or bicycle trails are not incorporated in this project as no new highway construction, reconstruction or relocation is involved.
- (7) Grants Pass Maintenance Building, Josephine County. Maintenance Building Project. Same as No. 6.
- (8) Jessie M. Honeyman State Park, Lane County. Utility Building Project. Same as No. 6.

The Commission considered requests from Columbia and Linn Counties for Federal Aid Secondary Projects. Mr. Klaboe pointed out that these projects have been investigated and are eligible for FAS Funds. Upon his favorable recommendation, the Commission approved the following projects and authorized Mr. Klaboe to sign the agreements when prepared:

(continued on page 734)

COUNTY & FAS NO.	SECTION AND DESCRIPTION	PROGRAMED AMOUNT	STATE SHARE
Columbia 816	Milton Creek (Pittsburgh-St. Helens Rd.) Br., M.P. 8.18, Structure	\$ 60,000	\$ 6,600
Columbia 816	Milton Creek (Pittsburgh-St. Helens Rd.) Br., M.P. 3.96, Structure	40,000	4,400
Columbia 854	Beaver Creek (McDonald Rd.) Bridge, Structure	45,000	5,000 (rounded)
Linn 124	DeFord Creek (Lyons-Mill City Rd.) Bridge Section	170,000	19,000 (rounded)
	TOTAL	\$ 315,000	\$35,000

SUMMARY BY FISCAL YEARS
(FAS Funds)

	1974	1975	TOTAL
Allocated Funds	\$4,108,000	\$4,252,000	\$8,360,000
Approved Projects (corrected to date)	4,108,000	1,100,000	5,208,000
Unprogramed Balance	\$ ---	\$3,152,000	\$3,152,000
Projects 12-18-74	---	315,900	315,000
Unprogramed Balance	\$ ---	\$2,837,000	\$2,837,000

The Commission considered a resolution designating the westbound lanes of a one-way couplet in the City of Newberg in Yamhill County as a part of the Pacific Highway West. Mr. Klaboe indicated that a couplet was developed with the City by an agreement in April of 1972 and is now in operation. The westbound lane of the couplet parallels the present Pacific Highway West. Following Mr. Klaboe's recommendation, the Commission adopted "Primary Highway Designation Resolution No. 51," which resolution by this reference is made a part hereof and filed in the Commission's files, Salem.

The Commission considered the adoption of a resolution rescinding an original route survey of the Oro Dell-La Grande Section of the Old Oregon Trail in Union County. Mr. Klaboe stated that it has now been determined that the route will not be constructed and the original survey should be rescinded and authority granted to dispose of any right-of-way purchased for the route. Following Mr. Klaboe's recommendation, the Commission adopted "Survey Resolution No. 254a," which resolution by this reference is made a part hereof and filed in the Commission's files, Salem.

The Commission considered the abandonment of approximately one mile of the old right-of-way paralleling the new line of the Columbia County Line-Burlington Section on the Lower Columbia River Highway to Multnomah County. The Commission approved the abandonment as recommended by Mr. Klaboe and thereupon adopted "Abandonment Resolution No. 503," which resolution by this reference is made a part hereof and filed in the Commission's files, Salem.

Attention was given to an agreement with Multnomah County for the installation of a traffic signal at the intersection of N.E. Killingsworth Street (Northeast Portland Highway) and Columbia Boulevard. Mr. Klaboe said the agreement calls for the State to prepare all plans, specifications and contract the work. After completion of the work, the State will maintain the signal and the County will pay for all power consumed. The total cost is estimated at \$42,600 which will be funded by Federal Title II monies. Following Mr. Klaboe's recommendation, the Commission approved the agreement.

The Commission considered a supplemental agreement with Skidmore, Owings & Merrill for additional costs incurred on the Corridor Impact Analysis and Multiple Use Development Study for Interstate 80N in the City of Portland, Multnomah County. Mr. Klaboe stated that the work was essentially completed on this project March 1, 1974. The Finance Branch has conducted an audit for the purpose of making final payment. As a result of this audit and in accordance with previous agreements, the State has an obligation to compensate the consultant for additional costs incurred as follows:

Additional project costs and fees	\$ 55,163.60
Audit markup adjustment	141,614.59
Total	<u>\$196,778.19</u>

These costs have been approved for Federal participation by the Federal Highway Administration. The Commission approved the supplemental agreement as recommended by Mr. Klaboe.

Mr. Klaboe reported on a preliminary report recently submitted to the Commission on the use and effects of studded tires in Oregon. He stated the use of studded tires in Oregon was first authorized in 1967 and has increased to a State-wide average of 9.2% for the winter of 1973-74. The surfaces are showing wear especially on highways of high traffic volumes. Studded tires have been found to decrease the stopping distance of vehicles operating on soft glare ice and densely packed snow. The major decrease occurs when ice forms on pavement surfaces at temperatures near freezing. As the temperature drops, the decrease in stopping distance on icy pavements diminishes. When temperatures fall below zero degrees Fahrenheit, tests show there is little difference in stopping distance between studded and unstudded tires. The continued usage of studded tires on heavily traveled highways causes rutting of the wheel tracks of pavement lanes. He indicated some ruts have been found to be one-half inch or more in depth. Water ponding in these ruts increases the potential for hydroplaning and loss of vehicle control. In freezing weather, the ruts created by studded tires fill with ice and snow which cannot be readily removed by snow plows. The snow and ice filled ruts create driving hazards for all motorists.

Mr. Klaboe recommended that the Commission ask the 1975 Legislature to prohibit the use of studded tires on Oregon highway after April 30, 1977. Prior to this date, it is suggested that authorized use of studded tires continue as at present from November 1 through April 30 of each year. He further recommended

that present work directed toward the development of alternative winter driving aids be promoted and encouraged. It has been demonstrated that tires having garnet-grit embedded in the tread rubber performed comparably to studded tires on ice. By precluding the use of studded tires, new incentive will exist toward the refinement and development of alternative winter driving traction aids. Chairman Jackson mentioned this action will allow a two-year phase out of the public's present investment in studded tires. The Commission accepted Mr. Klaboe's recommendation. DEPARTMENT OF TRANSPORTATION
Director's Report

The Commission set Wednesday, January 22, 1975, as the date for their next regular meeting.

Attention was given to a work program for the continuation of the Portland Metropolitan Area Carpool Project. Mr. Baldwin mentioned that the Department of Transportation has operated the project since its inception on January 21, 1974. Tri-Met has reviewed the project and has agreed to assume responsibility for its operation for 1975. It is proposed that Tri-Met adopt the existing project including materials, services and part of the staff. The anticipated cost for 1975 is \$81,084. Approximately \$35,000 would be offset by the unexpended balance from 1974. Tri-Met would be responsible for 10% matching funds (\$4,608) and a Federal Highway Administration grant of \$41,476 would be sought. Following his favorable recommendation, the Commission approved the program and authorized Mr. Klaboe to sign an agreement with Tri-Met in their behalf.

The meeting was adjourned at 10:24 a.m.

REPORT OF TRIAL OF OTHER CASES - State Defendant

Plaintiff	Cause of Action	Demands of Plaintiff	Verdict or Judgment
Eldon W. Snow L-6757A County: Multnomah	Housing Additive		

The Court of Appeals affirmed the judgment of the Trial Court that denied a housing additive to Dr. Snow. The Court of Appeals also ruled that the only appeal available, if any, was limited to a petition under the Administrative Procedures Act.

Dr. Snow's house located in Haywood Park was acquired for right-of-way for I-205. He was ruled ineligible for a housing additive. Thereafter, he was given a hearing before the Relocation Review Board who denied his petition. Thereafter, the highway administrator affirmed the action of the review board. All of the administrative steps were approved. The case is now closed.

INSTITUTION OF LEGAL PROCEEDINGS FILED AGAINST DEPT. OF TRANSPORTATION

L-7147 Holly Dianne Hermanson v. Lane County and L-7148 Jennifer Stone v. Lane County: Both of these lawsuits arise out of the same accident. Holly Hermanson was the driver of the vehicle that collided with a vehicle driven by David Grange at the intersection of 19th and Franklin in a private drive in Lane County.

Jennifer Stone was a passenger in the car driven by Holly Hermanson.

The plaintiffs allege that the county and state were negligent in failing to properly inspect, maintain and construct and care for the intersection and approaches thereto of 19th Street and Franklin Boulevard. Case No. L-7147 is in the amount of \$300 and Case No. L-7148 is in the amount of \$4,102.75.

Both cases have been referred to the State's insurance carrier for the defense of the State.

January 22, 1975
Salem, Oregon

The Oregon Transportation Commission held their regular meeting at 10 a.m. in Room 122 of the State Highway Building in Salem, Oregon. Notice of the meeting was made by press release to newspapers of general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Carl O. Fisher, Vice Chairman
Robert L. Mitchell, Secretary
Anthony Yturri, Member
Robert E. Veatch, Member
George M. Baldwin, Director of Transportation
Sam Haley, Deputy Director
Walt Barrie, Chief Counsel
F. B. Klaboe, Administrator and State Highway Engineer
A. E. Johnson, Deputy State Highway Engineer
J. B. Boyd, Right of Way Engineer
David Talbot, State Parks Superintendent
Paul Burket, Administrator of Aeronautics
Dennis Moore, Administrator of Mass Transit
Chester Ott, Administrator of Motor Vehicles
C. W. Head, Supervisor, Commission Services

There were others present from the Department of Transportation and representatives from the news media.

The Commission approved the emergency telephone meeting of December 12, 1974, and the regular telephone meeting of December 18, 1974.

HIGHWAY DIVISION

A list of properties needed for highway and other uses was presented by Mr. Boyd. He requested the Commission to declare by resolution the necessity of said properties for the public use to which they are to be put and to authorize him to attempt to agree with the owners of said properties as to price. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful and thereupon adopted "Condemnation Resolution No. 2629," which resolution by this reference is made a part hereof and filed in the Commission's files.

In reply to Chairman Jackson's inquiry, Mr. Boyd indicated that there are approximately 50 signboards left to purchase which will be concluded within the next two weeks.

Mr. Barrie asked if there were any questions in connection with the informational reports previously submitted to the Commission on cases tried, cases settled and institution of legal proceedings filed against the Department of Transportation since the last Commission meeting. There were no questions. (See Exhibit G on file in the Commission's files in Salem.)

Mr. Barrie presented a quarterly report of property damage claims for the period of October 1, 1974, through December 31, 1974. During this period \$68,185.54 was collected.

Mr. Talbot presented for the Commission's consideration Notifications of Intent by property owners to make various types of improvements along the Rogue River Scenic Waterway. Mr. Talbot mentioned that the requests have been carefully investigated as to their compliance with the Scenic Waterways Act. The Commission acted on the following requests for reasons as stated in Mr. Talbot's letters to the Commission insofar as their authority under the Scenic Waterways Act is concerned.

- (1) Denied a request from Joe C. Martines to place two mobile homes within the Rogue River Scenic Waterway, Lots 420 and 426, Section 23, Township 35 South, Range 7 West, in Josephine County.
- (2) Denied a request from Corvallis R. Brown to construct a single-family residence within the Rogue River Scenic Waterway, Lots 2109 and 2300, Township 36 South, Range 7 West, just downstream from Finley Bend in river mile 88, Section 11, in Josephine County.
- (3) Denied a request from Robert S. Hastie to construct a cabin within the Rogue River Scenic Waterway, Township 34 South, Range 11 West, Section 31, approximately one-quarter mile upstream from the Coon Rock Bridge in Curry County.
- (4) A qualified approval of the concept withholding final approval until specific plans are submitted from Dennis Wheaton to construct a dwelling within the Rogue River Scenic Waterway in Curry County.

Consideration was given to an agreement with The Nature Conservancy for a Natural Area Study. Mr. Talbot said the study will consist of the following elements:

(continued on page 761)

- (1) Identify potential natural areas on private lands - statewide.
- (2) Evaluate those areas which are (a) ecologically most significant and (b) have obvious recreational potential.
- (3) Refine a system for categorizing these areas and evaluating them for their ecological significance and potential recreational and other compatible uses.
- (4) Define techniques for the creation of a coordinated natural area preserve system.
- (5) A survey and evaluation of natural area protective techniques on a nationwide basis and on evaluation of the status of these techniques in Oregon to result in strategy for the state.

The study elements will assist the State's recreation planners in refining and updating the statewide plan and will also provide a basic guide to local and state planners. The total project amounts to \$40,000 with half being donated by the Conservancy. The State will pay \$20,000, half of which will be reimbursed by the Bureau of Outdoor Recreation. Following his recommendation, the Commission approved the agreement.

Attention was given to adopting as a permanent rule an amendment to "Ocean Shore Resolution No. 10" 3 (d) regulating restriction of vehicles on the beach at Cannon Beach in Clatsop County. Mr. Talbot stated that the rule was published in the Secretary of State's Administrative Rule Bulletin on December 15, 1974, and no requests for a hearing were received. The Commission approved the following as a permanent rule as recommended by Mr. Talbot.

Amend "Ocean Shore Resolution No. 10" 3 (d) to read:

Motor vehicle travel is prohibited from March 1 through September 30 from Chapman Point, Y836,483, southerly to Hug Point, Y808,168 except as follows:

Between sunrise and sunset from Ecola Court Street in Cannon Beach, Y829,402, southerly to a point 60 ft. south of Center St., Y826,694, a distance of approximately 2,708 ft.

(The permanent rule was published in the Secretary of State's Administrative Rule Bulletin on February 15, 1975, to become effective February 25, 1975.)

Attention was given to the payment of the National Association of State Outdoor Recreation Liaison Officers' dues for 1975. Mr. Talbot indicated that the group which is to the Federal-aid recreation programs as AASHTO is to highways. Following his recommendation, the Commission approved the annual dues in the amount of \$150.

The Commission considered designating the Oregon Coast Trail between the Columbia River South Jetty and Tillamook Bay in Clatsop and Tillamook Counties as an Oregon Recreation Trail. Mr. Talbot mentioned that the Oregon Recreation Trails Advisory Council held a hearing in Tillamook concerning this designation on December 5, 1974, and there was no opposition to the proposal. Following the Trails Council's recommendation, the Commission approved the designation.

Mr. Klaboe reported on actions taken under delegated authority received for filing with the Commission records. These reports show the actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission files, Salem.)

Chairman of Oregon Transportation Commission	Exhibit A
Vice Chairman of Oregon Transportation Commission	Exhibit B
Administrator and Highway Engineer	Exhibit C
Director of Permits	Exhibit D
Right of Way Engineer	Exhibit E
State Parks Superintendent	Exhibit F
Chief Counsel	Exhibit G

The Commission approved increases in project authorizations on the following contracts as recommended by Mr. Klaboe.

- (1) Roy L. Houck Construction Company, Contract No. 8052, S. Fork Clackamas River-Bull Creek Section, Clackamas Highway in Clackamas County, for \$22,513.42. The overrun was due to fill replacement.
- (2) W. H. Gregory Company, Contract No. 7942, Modoc Point (Units C & D) on The Dalles-California Highway in Klamath County, for \$321,042. As the work progressed, changes from the plan had to be made to fit the actual ground conditions and to provide working access. These changes accounted for the overrun.

(continued on page 763)

- (3) Morse Bros. Inc., Contract No. 7859, Sanderson Bridge Approaches, Albany-Lyons Highway in Linn County, for \$70,446.95. The overrun was due to unanticipated work to stabilize the roadbed foundation and additional embankment material. The completion of the project was also delayed which contributed to an overrun in engineering charges.

Mr. Klaboe reported that under ORS 366.535 the counties are entitled to receive 20% of all funds received from motor vehicle taxes and fees for the period from October 1 through December 31, 1974. The amount credited to the counties totals \$7,434,698.27 and he stated this amount was released on January 17, 1975. (List of apportionment to counties on file in the Commission files, Salem.)

Upon the recommendation of Mr. Klaboe, the Commission approved the payment of \$5,050.39 for membership dues in the American Association of State Highway and Transportation Officials for the calendar year 1975.

The Commission considered approving requests from the Cities of Corvallis and Klamath Falls and the Counties of Klamath and Lane for six Urban System Projects. Mr. Klaboe stated that these projects have been investigated and are eligible for funding under the Federal Urban Aid Program. Upon his recommendation, the Commission approved the following projects and authorized him to sign the agreements when prepared:

JURISDICTION	SECTION	TOTAL COST	FEDERAL FUNDS	STATE SHARE
Corvallis	NW Witham Hill Dr.- NW Lantana Dr. NW Circle Blvd. FAU 2110	\$ 170,000	\$ 132,600	\$ 18,700

	TOTAL NEW PROJECTS	\$2,695,000	\$2,102,100	\$296,450
	- 763 -		January 22, 1975	

Attention was given to a request from the City of Roseburg to cancel a previously approved TOPICS Project (traffic operational procedures to increase capacity and safety) and to apply the funds to another project which has a higher priority ranking to the area. Upon Mr. Klaboe's favorable recommendation, the Commission approved the following request:

<u>CITY</u>	<u>SECTION</u>	<u>PROJECT ESTIMATE</u>	<u>FEDERAL SHARE</u>	<u>STATE SHARE</u>

Mr. Klaboe presented the following informational report of projects on which bids are to be received January 30, 1975. He mentioned the projects contain an explanation of plans concerning the establishment of footpaths and bicycle trails.

- (1) North Powder-Baldock Slough, Old Oregon Trail, Union and Baker Counties. Paving Project. Footpaths and bicycle trails will not be established under this project as per ORS Chapter 366, Section 2, subsection 2(b), which states that "Footpaths and trails are not required to be established...if the cost of establishing such paths and trails would be excessively disproportionate to the need or probable use."

(continued on page 765)

- (2) Benson Creek Interchange-Olds Ferry Interchange, Old Oregon Trail, Malheur County. Grade, Pave, Barriers and Signing Project.
Same as No. 1.
- (3) Pleasant Valley Interchange-Bubbs Ranch, Old Oregon Trail, Baker County. Grade, Pave, Guard-rail and Sign Project.
Same as No. 1.
- (4) SE Causey Avenue-Mt. Scott Creek, East Portland Freeway, Clackamas County. Roadside Improvement Project.
Footpaths or bicycle trails are not incorporated in this project as no new highway construction, reconstruction or relocation is involved.
- (5) Mt. Scott Creek-Lake Road Interchange, East Portland Freeway, Clackamas County. Roadside Improvement Project.
Same as No. 4.
- (6) Lake Road Interchange-Gladstone Interchange, East Portland Freeway, Clackamas County. Roadside Improvement Project.
Same as No. 4.
- (7) Forest Grove, Tualatin Valley Highway, Washington County. Paving, Signing and Traffic Signal Project.
AC surfacing of a Class I bikeway is included in the project.
- (8) Oswego Highway at Foothills Road (Lake Oswego), Oswego Highway, Clackamas County. Signal Project.
Same as No. 4.
- (9) Deadman Creek-Wilson River, Wilson River Highway, Tillamook County. Grade and Pave Project.
Bicycle trails will not be included as the project is basically an overlay with minor grading to obtain a 32-foot top width.
- (10) Nestucca Spit State Park, Tillamook County. Grading, Paving and Facilities Project.
Same as No. 4.
- (11) Cascadia State Park, Linn County. Grading, Paving and Facilities Project.
Same as No. 4.

The Commission considered a request from Wasco County for engineering assistance in replacing County Bridge No. 16 on the Fivemile Creek County Road No. 183. Mr. Klaboe stated that the funds required for this structure are estimated at \$30,000. The

County will assume all expenses except the bridge design, which is to be done at State expense. Following Mr. Klaboe's favorable recommendation, the Commission approved the engineering assistance.

Attention was given to another request from Wasco County for engineering assistance covering ten structures on Fivemile Creek on County Road No. 183. Mr. Klaboe said the estimated cost is \$150,000 to be financed from the Federal Disaster Assistance Administration at no cost to the State. The Commission approved the request as recommended by Mr. Klaboe.

Mr. Klaboe reported that an allocation of 12% of the Highway Fund to the cities for the period October 1 through December 31, 1974, in the amount of \$4,398,318.96 was released on January 24, 1975. (List of apportionment on file in the Commission's files, Salem.)

The Commission considered a request from Wallowa County for a Federal-aid Secondary Project to replace the Lower Bear Creek Bridge over Bear Creek on FAS 32-104. Mr. Klaboe stated that this request has been investigated and is eligible for FAS Funds. The Commission approved the following project and authorized the Administrator and State Highway Engineer to sign the agreement when prepared.

COUNTY & FAS NO.	SECTION & DESCRIPTION	PROGRAMED AMOUNT	STATE SHARE
Wallowa 32-104	Bear Creek (Bear Creek Road) Bridge. Structure.	\$100,000	\$11,000
	TOTAL	\$100,000	\$11,000

SUMMARY BY FISCAL YEARS
(FAS Funds)

	1974	1975	TOTAL
Allocated Funds	\$4,108,000	\$4,252,000	\$8,360,000
Approved Projects (corrected to date)	4,108,000	1,397,000	5,505,000
Unprogramed Balance	--	2,855,000	2,855,000
Project 1-22-75	--	100,000	100,000
Unprogramed Balance	\$ --	\$2,755,000	\$2,755,000

Consideration was given for finance approval of a Federal-aid Primary Rural Project on the Gellatly Summit-Wren Section of the Corvallis-Newport Highway in Benton County. Mr. Klaboe stated that the Division has met all Federal requirements for clearinghouse and environmental concerns. The project is 2.06 miles in length and involves reconstruction of the existing facility with improved roadway travel lane and shoulder width. Climbing lanes will be incorporated where needed. The total estimated cost for construction is \$1,100,000. The Commission approved the project as recommended by Mr. Klaboe.

The Commission considered finance approval for a Federal-aid Primary Rural Project of the West Approach, Willamette River (Harrisburg) Bridge Section, Albany-Junction City Highway in Lane County. Mr. Klaboe said the section is 0.32 mile in length and

(continued on page 767)

covers the deteriorated wooden trestle span of the westerly approach to the Harrisburg Bridge. The approach will be constructed on the existing alignment and provide a prestressed concrete slab span 1,706 feet long with a horizontal clearance of 32 feet and an 8-foot walk on the downstream side. Public hearings and additional right-of-way are not required. Clearinghouse review is exempt by working agreement and the estimated cost is \$2,500,000. Following his favorable recommendation, the Commission approved the project.

Following Mr. Klaboe's recommendation, the Commission adopted the following speed zones:

- (1) 40 MPH speed zone on the Mt. Hood Highway in the community of Mt. Hood from 0.11 mile north of Hess Road (M.P. 84.80) to 0.13 mile south of Aubert Road (M.P. 88.46) in Hood River County. (The proposed rule was published in the Secretary of State's Administrative Rule Bulletin on December 1, 1974, and no requests for a hearing were received. The permanent rule will be published in the February 15, 1975, issue of the Administrative Rule Bulletin to become effective February 25, 1975.)
- (2) Rescind "Speed Zone Resolution No. 518" dated November 22, 1966, and establish a 40 MPH speed zone on the Hood River Highway in the community of Mt. Hood from 300 feet west of the entrance to Dimmick State Park (M.P. 18.32) to the Mt. Hood Highway No. 26 (M.P. 19.07) in Hood River County. (The proposed rule was published in the Secretary of State's Administrative Rule Bulletin on December 1, 1974, and no requests for a hearing were received. The permanent rule will be published in the February 15, 1975, issue of the Administrative Rule Bulletin to become effective February 25, 1975.)
- (3) 40 MPH speed zone on the Netarts Highway No. 131 from 400 feet west of the Trask River (M.P. 8.25) to the west city limits of Tillamook (M.P. 8.56) in Tillamook County.
- (4) 50 MPH speed zone on the Salmon River Highway No. 39 near the community of Rose Lodge from the Bear Creek Bridge (M.P. 3.96) to 0.32 mile east of the Salmon River Bridge (M.P. 6.65) in Lincoln County.

(continued on page 768)

(5) Rescind "Speed Zone Resolution No. 175" dated December 7, 1954, and establish a 50 MPH speed zone on the Oregon Coast Highway in the vicinity of the community of Pleasant Valley from 0.19 mile north of Simmons Creek (M.P. 71.66) to 0.33 mile south of Munson Creek Road (M.P. 73.20) in Tillamook County. (The proposed rule was published in the Secretary of State's Administrative Rule Bulletin on December 15, 1974, and no requests for a hearing were received. The permanent rule will be published in the February 15, 1975, issue of the Administrative Rule Bulletin to become effective February 25, 1975.)

(6) Rescind "Speed Zone Resolution No. 97a" dated July 31, 1958, and establish the following speed zones on the Oregon Coast Highway just north of Tillamook in Tillamook County:

50 MPH from Juno Heights Road (M.P. 63.44) to 450 feet north of Goodspeed Road (M.P. 64.65)

45 MPH from 450 feet north of Goodspeed Road (M.P. 64.65) to 0.10 mile north of NCL of Tillamook (M.P. 65.40)

30 MPH from 0.10 mile north of NCL of Tillamook (M.P. 65.40) to NCL of Tillamook (M.P. 65.50)

(7) Rescind "Speed Zone Resolutions Nos. 214, 214a and 214b" and establish a 45 MPH speed zone on the Dallas-Rickreall Highway from the east city limits of Dallas (M.P. 0.55) to 0.54 mile east of Orchard View Lane (M.P. 2.42) in Polk County.

(8) Temporary Construction Speed of 25 MPH on the Center Street Bridge (Willamina-Salem Highway) from 400 feet west of the Wallace Road connection (M.P. 25.62) to Commercial Street (M.P. 26.13) in Salem, Polk and Marion Counties. (Speed zone to be in effect when appropriate signs are installed.)

The Commission considered adopting as a permanent rule a "No Parking Zone" on the Heppner Highway approximately 1.5 miles north of Heppner in Morrow County. Because of the restricted sight distance that exists in this area and in the interest of public safety, Mr. Klaboe recommended and the Commission approved the following no parking zone:

From 0.96 mile north of Dee Cox Road (M.P. 43.33) to 0.49 mile north of Dee Cox Road (M.P. 43.80)

(continued on page 769)

(The proposed rule was published in the Secretary of State's Administrative Rule Bulletin on November 15, 1974, and no requests for a hearing were received. The permanent rule will be published in the February 15, 1975, issue of the Administrative Rule Bulletin to become effective February 25, 1975.)

The Commission considered a request from the City of Portland for a four-way stop at the intersection of North Vancouver Avenue Highway and Schmeer Road. Mr. Klaboe stated that a study of the intersection indicates it is warranted. He recommended that "Through Highways and Stop Signs Resolution No. 13" dated September 21, 1949, with respect to the Vancouver Avenue Highway No. 122 be amended to add the following exception:

Except that at the intersection of North Vancouver Avenue Highway (M.P. 0.30) and North Schmeer Road all traffic shall stop before proceeding.

The Commission accepted his recommendation.

The Commission considered adopting as a permanent rule the installation of a two-phase, fully-actuated traffic signal at the pedestrian crossing on the Junction City-Eugene Highway in the vicinity of Spring Creek Drive (M.P. 8.24) in Lane County. Upon Mr. Klaboe's recommendation, the Commission adopted the signal installation as a permanent rule. (Proposed rule was published in the Secretary of State's Administrative Rule Bulletin on December 15, 1974, and no requests for a hearing were received. The permanent rule will be published in the February 15, 1975, issue of the Administrative Rule Bulletin to become effective February 25, 1975.)

Attention was given to an agreement with the City of Albany for the installation of a traffic signal at the intersection of the Albany-Junction City Highway and Albany Avenue, Linn County. Mr. Klaboe pointed out that the agreement provides for the State to prepare all plans and specifications and perform the work. The estimated cost to the State is \$48,000 to be charged to Federal Title II Funds. After completion of the project, the State will maintain the signal and the City is to pay for all power consumed. The Commission approved the agreement as recommended by Mr. Klaboe.

The Commission considered two agreements with the City of Oregon City covering the installation of pedestrian signals on the Cascade Highway South at Division Street and on the Pacific Highway East at 7th Street, Clackamas County. Mr. Klaboe indicated that both agreements provide that the City pay for the installation of the pedestrian signals and all future maintenance and power consumption be borne by the City. Following Mr. Klaboe's recommendation, the Commission approved the two agreements.

Consideration was given to an agreement with the City of Oregon City for the installation of a fire signal on the Cascade Highway South near Beaver Creek Road in Clackamas County. Mr. Klaboe stated that the agreement provides for the State to

supply materials estimated to cost \$2,500 to be charged to Minor Betterment Funds. The City shall provide materials estimated to cost \$1,000, make the installation, maintain the traffic signals, and pay for all electrical energy. Following Mr. Klaboe's recommendation, the Commission approved the fire signal agreement.

The Commission considered adopting a resolution authorizing a maximum allowable axle weight for any vehicle or combination of vehicles operating on the Federal Interstate Highway System to be 20,000 pounds for a single axle and 34,000 pounds for a tandem axle. Mr. Klaboe stated that the maximum weight on interstate highways is 18,000 and 32,000 pounds, respectively. Maximum weights of 20,000 pounds for a single axle and 34,000 pounds for a tandem axle are allowed on non-interstate routes. Recent amendments to the Highway Act now permit the higher weights on freeways. He indicated that the 1965 Oregon Legislature granted authority to the Commission to make the change by resolution should the Federal Government permit the increased weight. The new resolution is temporary until statutes concerning truck weights can be presented to the Legislature for review. Following Mr. Klaboe's recommendation, the Commission adopted "Permit Resolution No. 34," which resolution by this reference is made a part hereof and filed in the Commission's files.

The Commission considered an extension of time of an agreement with Howard, Needles, Tammen and Bergendoff covering the Third Salem Bridge Study in Marion and Polk Counties. Mr. Klaboe mentioned that an unanticipated additional workload placed on the consultant necessitates an extension of time on this project. He recommended the extension be changed from January 12 to April 1, 1975. There would be no increase in funds. The Commission approved the extension.

AERONAUTICS DIVISION

The Commission considered a resolution accepting a grant offer from the Federal Aviation Administration for financial assistance in the amount of \$93,941 for a current Airport Development Aid Program (ADAP) Project for the Siletz Bay State Airport in Lincoln County. Mr. Burket stated that this project is to acquire property rights surrounding the airport and to partially clear these properties of obstructions in accordance with FAA required runway transitional surfaces. Following his favorable recommendation, the Commission adopted "Aeronautics Miscellaneous Resolution No. 6," which resolution by this reference is made a part hereof and filed in the Commission's files. The Commission also authorized the Director to sign the resolution.

Attention was given to a request from the City of The Dalles for a sum not to exceed \$3,333.50 to provide 50% of the local matching funds involved in the proposed Airport Master Plan for The Dalles Municipal Airport in Wasco County. Mr. Burket stated that the total cost of the project is estimated at \$20,000 and he recommended approval. The Commission approved the request.

Attention was given to adopting a resolution transferring the ownership of the Pendleton State Heliport to the Pendleton Community Hospital in Umatilla County. Mr. Burket said the heliport was constructed by the State as an experimental project and as the first hospital heliport in the Northwest. He felt that it is in the best interests of the Pendleton Community Hospital and the State to transfer ownership to the hospital which has been determined to be a public entity within State law and therefore eligible to assume ownership of the heliport. Following his favorable recommendation, the Commission adopted "Aeronautics Miscellaneous Resolution No. 7," which resolution by this reference is made a part hereof and filed in the Commission's files. The Commission authorized the Director to sign the resolution.

The Commission considered a resolution concerning the permanent closure of the Stearns State Airport in Deschutes County. Mr. Burket said the State constructed the airport in 1951 and it is not adequate for aircraft of today. He said Sunriver has constructed an airport that is open to the public and is only approximately one mile away from the Stearns Airport which now serves the area adequately. Following Mr. Burket's recommendation, the Commission authorized the Director to sign the necessary documents for the closure, and adopted "Aeronautics Miscellaneous Resolution No. 5," which resolution by this reference is made a part hereof and filed in the Commission's files.

MASS TRANSIT DIVISION

Consideration was given to approving the criteria and granting the authority for Mr. Moore to appear before the Ways and Means Committee concerning the implementation of a new Urban Mass Transportation Administration capital grant program. Mr. Moore pointed out that the purpose of this program is to assist non-profit organizations in providing transportation to the elderly and handicapped. Upon his recommendation, the Commission approved the program and authorized Mr. Moore to appear before the Ways and Means Committee.

Mr. Moore presented copies of the Mass Transit Division's Annual Report for the year ending June 30, 1974, to the Commission. He said copies of the report have been distributed to the House and Senate Transportation Committees. (Copy of the report is on file in the Commission's files.)

MOTOR VEHICLES DIVISION

In reply to the Chairman's inquiry, Mr. Ott stated that the vehicle registration was down for November and December 1974. The year 1974 ended with 2% fewer passenger car registrations and 3½% fewer total registration of vehicles. The registration revenue increased about two-thirds due to the two-year registration period.

DEPARTMENT OF TRANSPORTATION Director's Report - Mr. Baldwin

The Commission set Wednesday, February 26, 1975, as the date for the next regular meeting.

The Commission considered the distribution and the use of State Funds for matching a Federal program for metropolitan planning for Oregon's urbanized areas for the fiscal year 1976. Mr. Baldwin stated that the Federal apportionment for the fiscal year is \$203,847 and the State's match is \$50,961.75. Mr. Baldwin indicated that in the past these funds have been matched by the State and he recommended continuance of this practice. The formula has been approved by the Federal Highway Administration. This formula distributes the funds on the following basis: Fifty percent of the funds will be divided evenly between the three urbanized areas and the remaining 50 percent will be distributed on the basis of SMSA population. The Commission accepted his recommendation and approved the distribution formula as follows contingent upon approval by the Legislature of this item in the next biennial budget:

TABLE I

<u>AREA</u>	<u>SMSA POPULATION</u> <u>(July 1, 1974)</u>	<u>PROPORTION</u>
Portland	931,200	67.8%
Salem	204,950	14.9%
Eugene- Springfield	237,000	17.3%
TOTAL	1,373,150	100.0%

TABLE II

<u>Area</u>	<u>Base</u>	<u>Distr. on</u> <u>Population</u>	<u>Total</u> <u>Federal</u> <u>Funds</u>	<u>State</u> <u>Match</u>	<u>Total</u>
Portland	33,974.50	69,104.13	103,078.63	25,769.65	128,848.28
Salem	33,974.50	15,186.60	49,161.10	12,290.28	61,451.38
Eugene- Springfield	33,974.50	17,632.77	51,607.27	12,901.82	64,509.09
TOTAL	101,923.50	101,923.50	203,847.00	50,961.75	254,808.75

Consideration was given to an agreement with Marion County, City of Salem, Polk County and the Mid-Willamette Valley Council of Governments covering the Operations Plan, which specifies the conduct of the continuing transportation planning process in the Salem area. Mr. Baldwin stated that costs will be developed within the annual unified work programs which will be submitted to the Commission as they are prepared. Following his favorable recommendation, the Commission approved the agreement and authorized the Director to sign it on behalf of the Commission.

The Chairman adjourned the meeting at 10:32 a.m.

SUBJECT: Confirmation of Telephone Action Taken
Under Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approved the following agreement and report this action for your official records:

On January 15, 1975, I approved by telephone an agreement with the State of Washington covering maintenance of the Biggs Rapids Bridge on the Sherman Highway in Sherwan County crossing the Columbia River. Washington is to perform the maintenance operations and bill Oregon for one half the costs thereof. The effective date of this agreement is contingent upon completion of certain maintenance obligations, retirement of all outstanding bridge bonds, and the removal of tolls.

TO: Oregon Transportation Commission
SUBJECT: Report of Actions Taken Under Delegated Authority

By duly adopted delegation order you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority and acting in accordance therewith for the Commission, I report the following for your official records:

On behalf of the Commission and under its authority delegated to me to make formal offers to purchase real property in preparation for condemnation, I approved making the following:

BARRON CREEK-SISKIYOU SUMMIT UNIT OF THE WALL CREEK-CALIFORNIA LINE SECTION OF THE PACIFIC HIGHWAY - JACKSON COUNTY

R-48253 - Albert T. King et al. 1.39 acres for right of way purposes. Offer \$1,300.00.

DRAIN-ANLAUF SECTION OF THE UMPQUA HIGHWAY - DOUGLAS COUNTY

R-42057 - Richard A. Duncan et ux. 0.32 acre for right of way purposes. Offer \$28,000.00.

ELK RIVER-PORT ORFORD SECTION OF THE OREGON COAST HIGHWAY - CURRY COUNTY

R-42590 - Stanley D. Lazz et al. 2.35 acres for right of way purposes. Offer \$3,700.00.

SILETZ RIVER (KERNVILLE) BRIDGE SECTION OF THE OREGON COAST HIGHWAY - LINCOLN COUNTY

R-44380 & 44381 - Corrine Senn et al. 0.65 acre for right of way purposes. Offer \$5,000.00.

VAIL CREEK-SWEET HOME SECTION OF THE SANTIAM HIGHWAY - LINN COUNTY

R-48140 - George F. Capwell et al. 0.04 acre for right of way purposes. Offer \$6,000.00.

WILSON RIVER SAFETY REST AREA SECTION OF THE WILSON RIVER HIGHWAY - TILLAMOOK COUNTY

R-47463 - Crown Zellerbach Corporation. 50 acres for a rest area. Offer \$60,000.00.

Dated this 26th day of December, 1974.

INSTITUTION OF LEGAL PROCEEDINGS FILED BY AND AGAINST DEPT. OF TRANSPORTATION

L-7149 State of Oregon v. Donald Hurd: This is an Injunctive proceeding to obtain a restraining order against Mr. Hurd so that the Highway Division may remove three outdoor advertising signs that have been purchased but are located on his property. We have been unable to settle with the landowner for his site or his interest in the outdoor advertising sign leases and Mr. Hurd will not allow us on his land to remove the billboards.

L-7157 Willamette Western Corporation v. State of Oregon: This is a complaint for Breach of Contract on Contract No. 7151 between the State and Guy F. Atkinson Company. The claim of Guy F. Atkinson Company has been transferred to the plaintiff, Willamette Western Corporation, and they are bringing lawsuit. The lawsuit alleges the defects in specifications that were prepared for certain portions of the concrete relating to the pouring of concrete footings and the plaintiff is asking for damages in the amount of \$129,523. This matter has been referred to the Attorney General's office for the defense of the State.

L-7158 Bruce L. Melkonian v. State of Oregon and L-7159 Kathleen Melkonian v. State of Oregon: These lawsuits arise out of an accident that occurred on December 20, 1972, on Sixth Street in Bend, Oregon. The plaintiff alleges that the automobile driven by Bruce Melkonian collided with a pile of rock, sand and asphalt that was left on the right of way by State Highway Division personnel. In L-7158 the plaintiff is seeking \$984.60 plus attorney fees and in L-7159 the plaintiff is seeking \$500 plus attorney fees. Both cases have been referred to the State's insurance carrier for the defense of the State.

L-7160 Margaret L. Hildre v. State of Oregon: This accident occurred at an intersection of a county road and Highway 224 on May 23, 1974, and involves the malfunctioning of a traffic signal. The complaint alleges that the traffic signal malfunction had stuck in red in one direction and green in another direction. The plaintiff evidently entered the highway against the stuck red light and was struck by another vehicle. The plaintiff is suing for \$44,000 general damages, \$3,065.95 special damages, and \$2,744 property damages to her vehicle. This matter has been referred to the State's insurance carrier for the defense of the State.

L-7161 United States of America v. State of Oregon, et al.: This is a condemnation case initiated by the Corps of Engineers in order to acquire rights along the edge of the Bonneville pool in order to raise the level of the pool. It involves some State Park land and some excess right of way land adjacent to the pool. The case has been referred to the Attorney General's office for handling and negotiations will be continued with the Corps in an effort to settle the case.

G

L-7162 Faydrex, Inc. v. State of Oregon, et al.: This case involves the dispute of the ownership of an outdoor advertising sign acquired under the Highway Beautification Act. The sign was purchased from Obie Outdoor Advertising Company and the plaintiff claims ownership. The case also involves the value of the sign site. The plaintiff is seeking \$4,600 for the sign and \$3,000 for the lessor's interest in the site. The case has been referred to the Attorney General's office for handling.

February 26, 1975
Salem, Oregon

The Oregon Transportation Commission held their regular meeting at 10 a.m. in Room 122 of the State Highway Building in Salem, Oregon. Notice of the meeting was made by press release to newspapers of general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Robert L. Mitchell, Secretary
Anthony Yturri, Member
George M. Baldwin, Director of Transportation
Sam Haley, Deputy Director
Walt Barrie, Chief Counsel
F. B. Klaboe, Administrator and State Highway Engineer
A. E. Johnson, Deputy State Highway Engineer
J. B. Boyd, Right of Way Engineer
David Talbot, State Parks Superintendent
Paul Burket, Administrator of Aeronautics
Dennis Moore, Administrator of Mass Transit
Harvey Ward, Deputy Administrator of Motor Vehicles
C. W. Head, Supervisor, Commission Services

There were others present from the Department of Transportation and representatives from the news media.

The Commission approved the minutes of the regular meeting of January 22, 1975.

HIGHWAY DIVISION

A list of properties needed for highway and other uses was presented by Mr. Boyd. He requested the Commission to declare by resolution the necessity of said properties for the public use to which they are to be put and to authorize him to attempt to agree with the owners of said properties as to price. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful and thereupon adopted "Condemnation Resolution No. 2630," which resolution by this reference is made a part hereof and filed in the Commission's files.

Mr. Boyd presented for approval three quitclaim deeds to the USA (Corps of Engineers) covering real property and easements on the John Day Dam Project in Gilliam, Morrow and Umatilla Counties. He stated these conveyances are under the provisions of an agreement dated October 25, 1961, between the State and USA. He also requested acceptance of a quitclaim deed from the USA to the State and that the Commission authorize the Chairman to sign the acceptance form. The Commission approved the conveyances and authorized the Chairman to sign the acceptance of the deed from USA to the State.

Mr. Boyd recommended that six delinquent rental accounts be abandoned totaling \$208. He stated that the people have moved and left no forwarding address or have no means to pay. The expense of locating them for collection is not justified. The Commission abandoned the following accounts:

<u>FILE NO.</u>	<u>NAME</u>	<u>AMOUNT</u>
41725	Amy Bottler	\$23.00
47742	Patrick Connolly	35.83
46672	Larry Dayton	64.17
45970	Pierre Jordan	50.00
45279	Richard Graf	20.00
38369	Don Knispel	15.00

Chairman Jackson asked Mr. Boyd to read a policy statement of the Oregon Transportation Commission into the record. The Commission adopted the policy statement which is summarized as follows: (A complete copy of the policy statement is on file in the Commission's files, Salem.)

- (1) The Oregon Transportation Commission strongly endorses the amendments to the Motorist Information Act of 1971 contained in Senate Bill 361.
- (2) The Commission endorses the amendments which will prohibit the erection of any more outdoor advertising signs visible from the State Highway System. The continuous zoning and rezoning of property adjacent to the State Highway System is eroding the effective control of outdoor advertising signs which was felt had been established under the Motorist Information Act of 1971.
- (3) The approximate 4½ million dollars spent on the removal of outdoor advertising signs will have served no useful purpose unless Senate Bill 361 is enacted as presently drafted.

Mr. Barrie asked if there were any questions in connection with the informational reports previously submitted to the Commission on cases tried, cases settled and institution of legal proceedings filed against the Department of Transportation since the last Commission meeting. There were no questions. (See Exhibit G on file in the Commission's files in Salem.)

Mr. Barrie commented on a Law that was passed by the last Legislature allowing the State to make a new written offer 30 days prior to trial on condemnation cases and if that offer was lower than the verdict, the State could avoid attorney fees and costs. He felt that this law would encourage settlements and cut down on State expense in attorney fee payments.

Mr. Talbot presented for the Commission's consideration a request from B. A. Hanten for construction of two guest cottages along the Rogue River Scenic Waterway in Josephine County. He mentioned that on October 23, 1973, the Commission had given conceptual approval for the expansion of Morrison's Lodge. Mr. Hanten has now submitted detailed plans for the first phase of his expansion. The approval of the cottages, which contain metal roofs, would require a variance to the Scenic Waterway Rules governing design and finish. Mr. Talbot recommended approval in the interests of consistency with the existing development and as they will not be readily visible from the river or the road. The Commission approved the request insofar as their authority under the Scenic Waterways Act is concerned.

An agreement with Oregon State University for a one-year study to evaluate archeological resources in coastal State Parks was presented by Mr. Talbot. The resources should be properly evaluated for their scientific information and later used for interest and enjoyment of the park visitors. He stated this study is also needed to coordinate archeological preservation with park development. The estimated cost will be \$20,521 and one half is reimbursable under the National Historic Preservation Act. The Commission approved the agreement.

Mr. Klaboe reported on actions taken under delegated authority received for filing with the Commission records. These reports show the actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission Files, Salem.)

Chairman of Oregon Transportation Commission	Exhibit A
Vice Chairman of Oregon Transportation Commission	Exhibit B
Administrator and Highway Engineer	Exhibit C
Director of Permits	Exhibit D
Right of Way Engineer	Exhibit E
State Parks Superintendent	Exhibit F
Chief Counsel	Exhibit G

The Commission approved increases in project authorizations on the following contracts as recommended by Mr. Klaboe:

- (1) Copeland Paving, Inc., Contract No. 7917, 4th St.-5th St. (Grants Pass), Josephine County, for \$6,816.25 (14.95%). The main reason for the overrun is an apparent error in the contract quantity of the asphaltic concrete item.
- (2) Ausland Construction Co., Contract No. 7932, Manzanita Safety Rest Area, Josephine County, for \$9,386 (6.4%). Increase was due to a change in fire ratings of the insulation material.

(continued on page 811)

- (3) Hamilton Construction Company, Contract No. 8088, Rogue River Bridge Repair, Oregon Coast Highway, Curry County, for \$70,000 (10.3%) for additional diver time, concrete and riprap costs.
- (4) Shur-Way Contractors, Inc., Contract No. 7949, Franklin Boulevard at 11th Avenue in Eugene, Lane County, for \$6,475.73 (14%). Several plan and quantity changes accumulated to cause the overrun.

Mr. Klaboe presented tabulations showing the distribution of the Fiscal Year 1976 Federal Aid Urban System Funds to urbanized and small urban areas of the State. He stated the allocation has been computed in accordance with Federal requirements and a formula developed in cooperation with the League of Oregon Cities. The State will continue its policy of providing one half of the required match funds for local agency projects from State Highway Funds. Total match funds for the fiscal year 1976 are estimated at \$1,840,000 of which the State's share would be approximately \$920,000. The Commission approved the following allocations:

FISCAL YEAR 1976 URBAN SYSTEM ALLOCATION
February, 1975

Oregon's Fiscal Year 1976 Urban System Apportionment	\$6,703,675
Less 1½% HPR Funds	\$100,555
Less ½% PR Funds	<u>33,518</u>
	(134,073)
TOTAL	\$6,569,602

*Less Allocation of Funds Attributable to Portland Urbanized Area (Over 200,000 Population) (3,819,076)

Funds Available to Balance of State \$2,750,526

Urban Area	Federal Population	Percent of Total	Fund Allocation
Eugene	139,255	25.4107	\$ 698,928
Salem	93,041	16.9777	466,976
25 Small Urban Areas	<u>315,722</u>	<u>57.6116</u>	<u>1,584,622</u>
Total	548,018	100.0000	\$2,750,526

*City of Portland's Fair and Equitable Allocation of Portland Urbanized Area Allocation:

$$\frac{\text{City of Portland Population } 382,519}{\text{Portland Urbanized Area Population } 751,756} = 50.8967\%$$

$$50.8967\% \times \$3,819,076 = \$1,943,784$$

(continued on page 812)

FISCAL YEAR 1976 URBAN SYSTEM ALLOCATION
Small Urban Areas
February, 1975

Urban Area	Dec., 1974 Population	Percent of Total	Federal Funds
Albany	21,950	6.1785	\$ 97,906

Woodburn	9,560	2.6909	42,640
Totals	355,267	100.0000	\$1,584,622

Note: Above funds allocated to small urban areas on per capita basis using latest State population figures as proposed by League of Oregon Cities.

A request from the City of North Bend, Coos County, was presented by Mr. Klaboe to cancel a TOPICS (traffic operational procedures to increase capacity and safety) Project on Broadway Street at Virginia Avenue (Cape Arago Highway). The traffic signal installation is estimated to cost \$40,000. The State's share would be \$4,500. He stated that the cancellation of the project is necessitated by the lack of TOPICS Funds available to the City. The Commission approved the cancellation.

Mr. Klaboe presented the following informational report of projects on which bids were taken February 20, 1975, and will be taken on February 27, 1975. He mentioned the projects contain an explanation of plans concerning the establishment of footpaths and bicycle trails:

(continued on page 813)

FEBRUARY 20, 1975 BID LETTING

- (1) Linn County Line-McKenzie River, Pacific Highway, Lane County. Grading, Paving and Signing Project. Footpaths and bicycle trails will not be established under this project as per ORS Chapter 366, Section 2, subsection 2(b), which states that "Footpaths and trails are not required to be established...if the cost of establishing such paths and trails would be excessively disproportionate to the need or probable use."
- (2) Multnomah Falls-Hood River County Line, Columbia River Highway, Multnomah County. Grading, Paving and Signing Project.
Same as No. 1.
- (3) Rock Creek, Sunset Highway, Clatsop County. Grade, Pave, Structure and Signing Project.
Same as No. 1
- (4) Main Street-Hawthorne Street (Forest Grove), Tualatin Valley Highway, Washington County. Traffic Signals Modification Project. Footpaths or bicycle trails are not incorporated in this project as no new highway construction, reconstruction or relocation is involved.
- (5) Pacific Highway East at Lincoln Street (Woodburn), Pacific Highway East, Marion County. Traffic Signal Project.
Same as No. 4.
- (6) Diamond Lake Blvd.-Lane Avenue (Roseburg), Oakland-Shady Highway, Douglas County. Traffic Signal Revision Project.
Same as No. 4.
- (7) S.E. 7th Street at S.E. L Street and N.E. 9th Street at N.E. F Street (Grants Pass), Redwood Highway, Josephine County. Traffic Signal Project.
Same as No. 4.
- (8) Oregon Coast Highway at 23rd Drive (Lincoln City), Oregon Coast Highway, Lincoln County. Grading and Paving Project. Bicycle trails will not be included as the project consists of minor grading and surfacing to obtain a left-turn refuge.
- (9) Adams Street at 4th Street (McMinnville), Pacific Highway West, Yamhill County. Traffic Signal Project.
Same as No. 4.

(continued on page 814)

FEBRUARY 27, 1975 BID LETTING

- (1) S.E. Foster Road-S.E. Causey Avenue, East Portland Freeway, Multnomah and Clackamas Counties. Paving, Signing and Traffic Signals Project.
Footpaths and bicycle trails were provided in conjunction with grading contract.
- (2) Curtis Avenue-Johnson Avenue (Coos Bay), Oregon Coast Highway, Coos County. Traffic Signals Modification Project.
Footpaths or bicycle trails are not incorporated in this project as no new highway construction, reconstruction or relocation is involved.
- (3) Tunnel Street-Biehn Street (Klamath Falls), Oregon Avenue, FAU 2363, Klamath County. Grade and Pave Project.
Sidewalks will be provided on a replacement-in-kind-basis.
- (4) Big Creek Bridge (M.P. 160.2), Oregon Coast Highway, Lincoln County. Grade, Pave and Structure Project.
Bicycle trails will not be included as the project is basically widening of an existing structure to obtain 32-foot top width.
- (5) Bullards Bridge, Oregon Coast Highway, Coos County. Maintenance Painting Project.
Same as No. 2.
- (6) Thomas Creek Bridge, Oregon Coast Highway, Curry County. Maintenance Painting Project.
Same as No. 2.
- (7) Taft Cemetery (Lincoln City), Oregon Coast Highway, Lincoln County. Maintenance and Retaining Wall Project.
Same as No. 2.

Consideration was given to the distribution of the allocation of Federal Aid Secondary Funds for the fiscal year 1976 to the individual counties in the state. Mr. Klaboe reported that this allocation has been computed in accordance with the formula developed by the Association of Oregon Counties, using the official 1970 US Rural Census and the January 1, 1975, rural county road mileages. The Commission approved the allocation as follows:

(continued on page 815)

FISCAL YEAR 1976 FAS ALLOCATION TO COUNTIES
February, 1975

<u>COUNTY</u>	<u>FEDERAL FUNDS</u>	<u>TOTAL FUNDS Including State's and Counties' Match Money (Rounded to Thousands)</u>
Baker	\$ 51,394	\$ 66,000
Benton	72,890	93,000

SUMMARY, ENTIRE STATE FISCAL YEAR 1976 COUNTY FAS FUNDS

Total Federal Funds for Construction	
(50% of Oregon's apportionment less planning	
survey funds)	\$3,121,000
Plus estimated required match money - State funds	440,000
Plus estimated required match money - County funds	440,000
TOTAL COUNTY FAS FUNDS	<u>\$4,001,000</u>

(continued on page 816)

February 26, 1975

NOTE: Above funds allocated to individual counties on basis of formula (25% equally, 60% on rural population, and 15% on rural county road mileage) proposed by Association of Oregon Counties and approved by Transportation Commission. Federal funds are estimated to represent approximately 78% of total county road FAS funds with State and County funds estimated to be approximately 11% each.

Mr. Klaboe presented a request from Linn County for the cancellation of a previously approved Federal Aid Secondary Project for the Hamilton Creek School-Berlin Section of FAS 214 at a total cost of \$110,000. The County has completed this work with its own forces and is applying these funds to the DeFord Creek Bridge Project on FAS 124. The Commission approved the cancellation.

Nine requests were recommended by Mr. Klaboe for Federal Aid Urban System Projects estimated at \$1,220,700 with the State providing approximately \$172,150 in match funds and an equal amount being contributed by the involved local units of government. The projects are eligible for funding under the Federal Aid Urban System Program. The Commission approved the following projects and authorized Mr. Klaboe to sign the agreements when prepared:

JURISDICTION	SECTION	TOTAL COST	FEDERAL FUNDS	STATE SHARE
Baker	Campbell Ave.- Auburn Ave., Birch St., FAU 4860	\$ 175,000	\$ 136,500	\$ 19,250
Clackamas County	Traffic Signals (7) Various County Roads	290,000	226,200	31,900
Dallas	Orchard Dr.- Washington St., Kings Valley Hwy., (FAU 6031) Washington St.-Clay St., Uglov Ave., FAU 6071	100,000	78,000	11,000
Eugene	Candlelight St.- Louis St., Royal Ave., FAU 1320	335,000	261,300	36,850
Newport	Lee St.-East City Limits, Bay Blvd., FAU 6850	100,000	78,000	11,000
Portland	Powell Blvd. (FAU 0640) at S.E. 47th & 69th Avenues	30,000	23,400	3,300
Springfield	Mill St.-5th St., Centennial Blvd., FAU 1140	220,000	171,600	24,200
Springfield	Traffic Signals (4) Various City Streets	170,000	132,600	18,700
Mc Dalles	Mill Creek Br., W. Tenth St., FAU 4020	145,000	113,100	15,950
TOTAL NEW PROJECTS		\$1,565,000	\$1,220,700	\$172,150
		- 816 -	February 26, 1975	

Mr. Klaboe recommended that three speed zones be adopted as permanent rules. He stated that all of the rules have been published in the Secretary of State's Administrative Rule Bulletin on December 1, 1974, and no requests for a hearing were received. The Commission adopted the following speed zones as permanent rules.

- (1) Rescind "Speed Zone Resolution No. 539" dated July 9, 1968, and establish the following speed zone in the vicinity of Banks on the Nehalem Highway in Washington County:

500 feet north of Banks Road (M.P. 82.75) to Banks Road (M.P. 82.85) 25 MPH

450 feet south of S.E. Wilkes Avenue (M.P. 83.35) to the south city limits of Banks (M.P. 83.58) 25 MPH

EXCEPT that between 450 feet south of S.E. Wilkes Ave. (M.P. 83.35) and 0.18 miles south of S.E. Wilkes Avenue (M.P. 83.44), the designated speed shall be 20 MPH when children are present as per the provisions of Subsection 1.a. of ORS 483.104.

Centerline of roadway coincident with city limits of Banks.

- (2) Establish a 50 MPH speed zone on the Wapinitia Highway in the community of Pine Grove in Wasco County from the westerly edge of Pine Grove (M.P. 12.58) to the easterly edge of Pine Grove (M.P. 13.80).
- (3) Establish a 40 MPH speed zone on the La Grande-Baker Highway north of Baker in Baker County from 0.4 mile north of Hughes Road (M.P. 49.56) to Hughes Road (North centerline of Baker, M.P. 49.76).

(The above rules were published in the Secretary of State's Administrative Rule Bulletin on March 15, 1975, to become effective on March 25, 1975.)

The Commission established the following speed zones as recommended by Mr. Klaboe:

- (1) Rescind "Speed Zone Resolution No. 357" dated September 15, 1961, and establish a 35 MPH speed zone on the Corvallis-Lebanon Highway from 500 feet west of 13th Street (M.P. 17.09) to the west city limits of Lebanon at 400 feet west of 9th Street (M.P. 17.44) in Linn County.

(continued on page 818)

- (2) Remove maximum speed of 55 MPH and establish a 50 MPH speed zone on the Woodburn-Estacada Highway from the Pacific Highway East (M.P. 0.00) to 1.30 mile east of the Pacific Highway East in Marion County.
- (3) 40 MPH speed zone on the Pacific Highway West from the south city limits of McMinnville (M.P. 39.06) to a point 50 feet south of the Salmon River Highway on-ramp (M.P. 39.30) in Yamhill County.

Mr. Klaboe recommended that the Commission adopt as a permanent rule the parking prohibition of vehicles on the highway shoulder along the east side of the Oregon Coast Highway from Oster Road (M.P. 19.15) to 200 feet south of Oster Road (M.P. 19.19) south of Gearhart in Clatsop County. He stated that an investigation of parking conditions and restricted sight distance was conducted which revealed that the poor sight distance was caused by vehicles parking in front of a small store. The store owner is in favor of the parking prohibition. The Commission adopted as a permanent rule the parking prohibition. (Rule was published in the Administrative Rule Bulletin on December 1, 1974, and no requests for a hearing were received. Permanent rule published in the Bulletin on March 15, 1975, to become effective March 25, 1975.)

The Commission adopted as a permanent rule the following warrants for parking and turning prohibitions as recommended by Mr. Klaboe:

WARRANTS FOR PARKING AND TURN PROHIBITIONS

Parking prohibitions and turn prohibitions shall be warranted if:

- (1) An engineering investigation indicates that such prohibitions will improve safe traffic operating conditions, or
- (2) An engineering investigation indicates that such prohibitions are necessary to increase the capacity of the roadway or to otherwise expedite the movement of traffic.

The engineering investigation will include a review and analysis of the past accident history, a study of the traffic volumes, patterns and turning movements when appropriate. A field investigation of the physical conditions will be made when required.

(The above rule was published in the Secretary of State's Administrative Rule Bulletin on January 1, 1975, and no requests for a hearing were received. The permanent rule will be published in the Bulletin on March 15, 1975, to become effective March 25, 1975.)

Consideration was given to an agreement with the City of Ontario and J. A. Albertson, an individual, for installation of a traffic signal at the intersection of S.W. 4th Avenue (Olds Ferry-Ontario Highway) and Verde Drive in Ontario, Malheur County. Mr. Klaboe commented that the State shall prepare all plans and specifications and perform the work. The State will maintain the signal and pay 50% of the estimated \$40,000 total cost of the project with Minor Betterment Funds. The City will pay for all power consumed and 37.5% of the project cost. Mr. Albertson will pay 12.5% of the cost, but is limited to \$5,000 and any difference will be paid by the City. Following Mr. Klaboe's recommendation, the Commission approved the agreement.

The Commission considered an agreement with the City of McMinnville for installation of a traffic signal at the intersection of Fourth and Adams Street (Pacific Highway West) in Yamhill County. Mr. Klaboe said the State shall prepare all plans, advertise, and receive bids for the installation. The City shall review all bids received and award the contract. The City will also be responsible for construction inspection, all costs involved in the installation, future power consumption and maintenance. The Commission approved the agreement as recommended by Mr. Klaboe.

Mr. Klaboe reported that the President of the United States had released \$2 billion of impounded highway funds. This was done to stimulate the construction industry and to help alleviate unemployment. He stated this release of money was coupled with a withdrawal of the State's outstanding Fiscal Year 1975 obligation authority and the total package of approximately \$4.6 billion in "spending authority" is now available on a first-come-first-serve basis. He explained that the funds are still limited by categorical grants and the bulk of the funds would be available only for Interstate Projects. He said in order to take full advantage of these funds, it has become necessary to accelerate the construction program and he recommended the following projects for Federal aid financing with contract lettings as soon as possible. The Commission accepted his recommendation.

PROJECT	FUND	AMOUNT
Chehalem Cr.-Dundee Sec., Pacific Hwy. West, Yamhill Co. Paving.	FA	\$ 110,000
Upper Salt Cr. Rd.-Dolph Corner Sec., Willamina-Salem Hwy., Polk Co. Paving.	FA	351,500

AERONAUTICS DIVISION

Mr. Burket presented for the Commission's consideration the proposed temporary administrative rules for administration of financial aid to municipalities program for airport development. He stated these rules provide for an allocation of available funds on a yearly basis, setting of priority of requests for projects according to the Aviation System Plan and other criteria, formalizes the application procedure and proposes a grant agreement signed by the municipality when granted funds. This program is presently being administered primarily on a first-come-first-serve basis. He mentioned that the rules will be published in the Secretary of State's Administrative Rule Bulletin. The Commission adopted the administrative rules as recommended by Mr. Burket. (Copy filed under "Aeronautics Rule No. 3," Commission Services' Files, Salem.)

Consideration was given to adopting a resolution accepting a Grant Offer from the Federal Aviation Administration for financial assistance in the amount of \$100,779 in the development of the Independence State Airport in Polk County. Mr. Burket stated that this project will pave the runway, provide additional drainage and construction of a turf aircraft parking area. The Commission adopted "Aeronautics Miscellaneous Resolution No. 8," which resolution is on file in the Commission Files, Salem, and authorized the Director to sign the resolution.

The Commission considered a request from the City of Redmond for a loan not to exceed \$20,000 at 6½% per annum to pay for the engineering and design of a run-way overlay and lighting project at Roberts Field in Deschutes County. Mr. Burket stated the loan would be repaid within one year and recommended approval. The Commission approved the request.

Mr. Burket presented an option (R. L. C. Investments, Inc., c/o Terry B. Lyons, File A-21) on a parcel of land taken by the Highway Right of Way Division on behalf of the Aeronautics Division for acquisition in fee for a cross-wind runway at the John Day State Airport in Grant County. The total price is \$33,677.50. The Commission accepted the option and authorized the Highway Right of Way Division to exercise the option. (See Right of Way Files, Salem, for specific details of option.)

DEPARTMENT OF TRANSPORTATION
DIRECTOR'S REPORT - Mr. Baldwin

The Commission set Wednesday, March 26, 1975, as the date for their next regular meeting. (Date later changed to March 31, 1975.)

Consideration was given to approving the distribution and use of State Funds for matching a Federal Program covering an additional allocation of \$5,559 for the fiscal year 1976 for metropolitan planning for Oregon's urbanized areas. Mr. Baldwin recalled that at the January 22, 1975, meeting, the Commission had given approval for an allocation of \$203,847 of Federal Funds and the State's match of \$50,961.75 to the metropolitan planning agencies. The Commission approved the additional allocation as follows subject to Legislative approval:

AREA	BASE	DISTR. ON POPULATION	TOTAL FEDERAL	STATE MATCH	TOTAL
Portland	926.50	1,884.50	\$2,811.00	\$702.75	\$3,513.75
Salem	926.50	414.15	1,340.65	335.16	1,675.81
Eugene	926.50	480.85	1,407.35	351.84	1,759.19
	2,779.50	2,779.50	\$5,559.00	\$1,389.75	\$6,948.75

Mr. Baldwin presented a resolution requesting that the economic instability of American airlines be relieved by avoiding increased fuel costs. The resolution stated that the appropriate means of avoiding increased fuel costs to American airlines is for the United States Congress to:

- (1) Allow a special exemption to the airlines from taxes on domestic crude oil.
- (2) Retain government price controls on domestic crude oil.
- (3) Allow tax credits for the airlines.

Mr. Baldwin recommended that the Commission adopt this resolution and that copies be sent to the President of the United States and Representative Al Ullman. The Commission accepted his recommendation by adopting "Aeronautics Miscellaneous Resolution No. 9," which resolution by this reference is made a part hereof and filed in the Commission's files, Salem.

A delegation from the City of Bandon appeared before the Commission requesting the installation of a traffic signal at the intersection of US101 and 11th Street in Coos County. Present were Otis Murray, Superintendent of Schools; Gordon Texley, Councilman; T. Goddard, Mayor; and W. M. Donahue, Manager of Utilities.

(continued on page 823)

Mr. Murray presented a map of the City to the Commission. He stated that the Bandon Highway Committee had previously applied for this traffic signal through the normal channels and were informed that it did not meet the criteria that had been established by the Division. He indicated that a bank and two office buildings have been recently established in this area and the Bandon Medical Center has been expanded. The Post Office will be located in the vicinity of this intersection which will increase vehicular and pedestrian traffic. He pointed out there are schools nearby with an enrollment of 926 students. There is a senior citizen village in the area, which 90% of them must cross 101 to reach a market and the Medical Center Building. The Committee is deeply concerned about the safety of the people in the City, especially the children and senior citizens. Eleventh Street is the major access for the local people and the tourists going to and from the Bandon beach area and three State parks. Mr. Murray presented petitions signed by 835 individuals and 90 letters supporting the City Council in their efforts to secure a traffic signal. (Petitions and letters on file in Commission files, Salem.)

Chairman Jackson advised the Committee that the Division has a backlog of approximately \$1,500,000 in applications for similar installations and funds for traffic signals are in short supply. There are a lot of cases that are comparable to Bandon and he indicated it is the State's obligation to install these signals as quickly as possible as funds are available.

Mr. Klaboe informed the delegation that if they would contact him later in the year when some of the projects have been completed in their City that the State would make another study to reevaluate the meeting of warrants.

A delegation representing the City of Lebanon came before the Commission requesting a bypass connecting Highway 20 and the Lebanon-Corvallis Highway No. 34 in Linn County. Present were: Mayor Martha Scroggin Gonzales; Lyle Winters, Councilman; and Jim Udell, Engineer. Mr. Winters said that District 4 of the Council of Governments Technical Advisory Committee gave this bypass project a ranking of 21 out of 96 projects. There is heavy vehicular and truck traffic using the City streets and a bypass is very much needed.

Mayor Gonzales presented petitions signed by 1,100 signatures requesting the bypass. (Petitions on file in Commission files, Salem.) The Mayor then read the following letter from the City:

WHEREAS, the City of Lebanon has seven intersections within the corporate limits which are traffic hazards due to the truck routes established in the City, and

WHEREAS, there are no other truck routes feasible or which would cause less hazards, and

WHEREAS, the upkeep of these streets for truck routes taxes the budget of the City, and

(continued on page 824)

WHEREAS, the citizens of Lebanon and the City Council are petitioning for a highway by-pass for Lebanon, the City Council is hereby giving notice that in the event a by-pass cannot be constructed we have no alternative but to prohibit trucks travelling the City streets.

We realize this will be a great disadvantage to the trucking business, but for the safety and best interests of our taxpayers we feel this is a necessity.

She said the various types of heavy truck traffic create a hazard in their turning movements at intersections and also to the school children in the area.

Jim Udell mentioned that a bypass would eliminate approximately 70% of the truck traffic through the City which has increased tremendously on Highways 34 and 20. The City is maintaining truck routes with no support except from the State Rule Tax Fund. This bypass has been talked about for 20 years and is overdue. From the planning standpoint, the City needs to know the corridor of the bypass route.

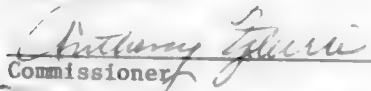

Chairman Jackson stated that the staff will be tied up for the next several months with the accelerated construction program. After this work has been completed which will be sometime in early July, the necessary surveys can then be made to determine the corridor, estimate the various costs and hold the hearings that are necessary to qualify this program for activation when funds are available.

Jim Singleton, Traffic Transportation Consultant for the Oregon Log Truckers Association, also appeared and said that the Linn-Benton Chapter Association is fully in accord with the necessity for a Lebanon Bypass.

The Chairman adjourned the meeting at 11 a.m.

TO: Oregon Transportation Commission

SUBJECT: Confirmation of Telephone Action Under Delegated
Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approved the following agreement and report this action for your official records:

On January 22, 1975, I approved an agreement with Photo-Art Commercial Studios, Inc., for completion of a 16 mm sound film of the construction of the Fremont Bridge. Preliminary work has been completed by State personnel, and final editing, sound track, etc., will be done by Photo-Art Commercial Studios. The cost of this work will be \$3,000 and the Federal Highway Administration has agreed to participate in this cost.

Dated this 3 day of Feb, 1975.

Glenn L. Jackson, Chairman
Oregon Transportation Commission

- 2) Agreement with Benton County concerning the Blodgett-Gellatly Summit Section of the Corvallis-Newport Highway. The County has agreed to accept jurisdiction of nearly one-half mile of existing highway alignment which will be bypassed by the new construction. Federal Aid Primary Funds will be utilized to finance the estimated \$1.5 million cost of the project. (County-City Unit)
- 3) Agreement with Benton County concerning the Gellatly Summit-Wren Section of the Corvallis-Newport Highway. The County concurs in the proposal and has agreed to cooperate in the normal manner to effect the relocation or adjustment of utility installations that may be in conflict with the plans for the project. This project is currently scheduled for contract in March utilizing Federal Aid Primary Funds. (County-City Unit)

EXHIBIT A

- 2) Direct sale of 19,462 sq. ft. of excess property to the City of Portland, or in case the City of Portland does not want it, by public auction for a minimum consideration of \$30,000. Purchaser would also acquire an air-rights easement to adjoining right of way being retained for possible ramp construction. North Portland Harbor-North Russell St. Section, Pacific Highway, Multnomah County. We have FHWA approval for the sale. Files 35121 to 35125 (Right of Way Branch) (See Real Property Resolution No. 671)
- 3) Public sale of 4,625 sq. ft., more or less, excess property for a minimum consideration of \$700, on the Oro Dell-Union Jct. Section of the Old Oregon Trail Highway in Union County. File 43741 (Right of Way Branch)
- 4) Right of Way Services Agreement with the City of Prineville covering acquisition for a City Park, Crook County. (Right of Way Branch)
- 5) Agreement with the Southern Pacific Transportation Company for the installation of grade crossing protection devices at the crossing of Madrona Avenue S.E. in Salem, Marion County. (Right of Way Branch)
- 6) Agreement with Portland General Electric Company for electrical service at Silver Falls State Park, Marion County. The agreement covers the removal of an existing overhead power system by Portland General Electric Company and the installation by State of an underground power system. This system will supply power to the Silver Falls Youth Camp. In order to minimize the cost of installation, State will install the underground power system in conjunction with the planned installation of an underground water system. (Parks Branch)

INSTITUTION OF LEGAL PROCEEDINGS FILED AGAINST DEPT. OF TRANSPORTATION

L-7163 Kenneth A. Trickle v. Union Pacific Railroad Company, et al.: This is a personal injury case involving the sum of \$79,000. The personal injury was allegedly incurred when the plaintiff's motorcycle wheel fell into a rut between some train tracks on N. Interstate Avenue near Thompson Street. The matter has been referred to the State's Insurance Carrier for the defense of the State.

L-7164 Violet B. Sparkman v. State of Oregon and Gary H. Blevel: This case arises out of an automobile accident in a parking lot and the plaintiff is seeking to recover the sum of \$388 for damages to her vehicle. This matter has been referred to the State's insurance carrier for the defense of the State. The accident occurred at the Hill Top Market parking lot, located at 4824 Highway 20, Sweet Home, Oregon.

L-7165 Nancy Grant v. Gary Sund, Fred Klaboe, Donna Rankin, Dennis Clark, the Oregon State Highway Division: This is a private action for damages in an unspecified amount and for injunctive relief. The complaint alleges various acts of discrimination in employment based upon sex, including failure to promote, failure to grant salary increase, retaliation for earlier complaints of discrimination, and a pattern of "harassment" in which each of the individual defendants has participated. The damage claims against the Division have been referred to the State's insurance carrier. The injunction action and the damage claims against the individually named defendants will be defended by the Attorney General's Trial Section in conjunction with the Highway Division Chief Counsel's office.

March 31, 1975
Salem, Oregon

The Oregon Transportation Commission held their regular meeting at 10 a.m. in Room 122 of the State Highway Building in Salem, Oregon. Notice of the meeting was made by press release to newspapers of general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Robert L. Mitchell, Secretary
Tom Walsh, Member
B. Gordon Coleman, Member
Michael P. Hollern, Member
George M. Baldwin, Director of Transportation
Sam Haley, Deputy Director
Walt Barrie, Chief Counsel
F. B. Klaboe, Administrator and State Highway Engineer
A. E. Johnson, Deputy State Highway Engineer
J. B. Boyd, Right of Way Engineer
David Talbot, State Parks Superintendent
Paul Burket, Administrator of Aeronautics
Dennis Moore, Administrator of Mass Transit
Chester Ott, Administrator of Motor Vehicles
C. W. Head, Supervisor, Commission Services

There were others present from the Department of Transportation and representatives from the news media.

Commissioners Walsh, Coleman and Hollern were sworn in at 9:30 a.m. today in the Governor's Ceremonial Office by Governor Straub.

Chairman Jackson and Commissioner Mitchell approved the minutes of the regular meeting of February 26, 1975. (Former Commissioners Yturri and Veatch approved the minutes by letter.)

HIGHWAY DIVISION

A list of properties needed for highway and other uses was presented by Mr. Boyd. He requested the Commission to declare by Resolution the necessity of said properties for the public use to which they are to be put and to authorize him to attempt to agree with the owners of said properties as to price. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful and thereupon adopted "Condemnation Resolution No. 2631," which resolution by this reference is made a part hereof and filed in the Commission's files.

In reply to the Chairman's inquiry, Mr. Boyd stated the signboard waivers will end December 31, 1975, and from the number of signs that have to come down they will probably start in September.

Mr. Barrie asked if there were any questions in connection with the informational reports previously submitted to the Commission on cases tried, cases settled and institution of legal proceedings filed against the Department of Transportation since the last Commission meeting. There were no questions. (See Exhibit G on file in the Commission's files in Salem.)

Mr. Barrie reported on two lawsuits filed by the City of Maywood Park within the last month in an attempt to stop construction on I-205 north of Foster Road. One lawsuit was filed in the U.S. District Court in Portland and the other in the Circuit Court of Multnomah County. A hearing was held on March 20, 1975, in the U.S. District Court in which Maywood Park sought to enjoin the environmental hearing that the State held on March 27, 1975. The Court refused to grant the injunction. The Circuit Court case involves a contract question concerning whether or not the State's throughway agreements with Multnomah County still pre-empt any attempt by Maywood Park to assert jurisdiction over the throughway which would run through its boundaries in view of the subsequent withdrawal of concurrence in those agreements by Multnomah County. A hearing has not yet been set on this case.

The Commission considered an agreement with John H. Atherton, Professor of Anthropology at Portland State University, for directing archeological investigations in Champoeg State Park in Marion County. Mr. Talbot stated that the objective is to recover data concerning daily life of inhabitants of the settlement for purposes of interpretation to park visitors. The investigations would cover a six-week period from May 12 to June 20, 1975, at a total cost of \$6,250. Following his favorable recommendation, the Commission approved the agreement.

Consideration was given to adopting as a temporary rule the amendment of "State Parks Resolution No. 33" dated May 16, 1972. Mr. Talbot said that the revised resolution updates and strengthens the existing rules for State parks and provides for some minor changes. He indicated that several new rules and fees have also been proposed briefly as follows:

- (1) Provide that all articles found in a park be turned over to the park for one year; and that metal detectors not be used in the park area.
- (2) Permit the Superintendent to establish special rules in a park area on an emergency basis for 30 days when needed to protect the park, visitors and resources environment.
- (3) Establish fees for day use group picnic reservations whereby the park will provide services and facilities.

(continued on page 859)

- (4) Establish a fee for firewood of 50 cents per two cubic feet of wood.

These changes have the approval of the State Parks and Recreation Advisory Committee. Following Mr. Talbot's recommendation, the Commission approved the temporary rules and adopted "State Parks Resolution No. 37," which resolution by this reference is made a part hereof and filed in the Commission's files in Salem. (The temporary rule was published in the Secretary of State's Administrative Rule Bulletin on April 15, 1975 and also as a proposed permanent rule.)

Attention was given to the reappointment of Warren McMinimee for a third term to the State Parks and Recreation Advisory Committee beginning April 15, 1975. Mr. Talbot indicated that Mr. McMinimee is agreeable to another four-year term and the reappointment has the endorsement of the Governor's office. The Commission approved the reappointment.

Mr. Talbot stated that the 1973 Legislative Assembly directed the Department of Transportation, cooperating with units of local government along the Willamette River, to prepare a plan for development and maintenance of the Willamette River Greenway. The consulting firm of Royston, Hanamoto, Beck & Abey, Landscape Architects and Land Planners, was employed to perform this job. Two publications were prepared. One is entitled "Preliminary Willamette River Greenway," which is a report of the study made by the consultants and presented to the other agencies, units of the local government and the public. The second publication entitled "Willamette River Greenway" represents the specific plan arising from the study, including the input from the public meetings and hearings. He indicated the chief effect of these changes is to permit the State a stronger voice in planning should that be necessary and desired. The Commission directed that a hearing be held as soon as possible on the plan prior to its approval and submission to the Land Conservation and Development Commission. (Notice of a hearing on the proposed adoption of the Willamette River Greenway Plan as an administrative rule was published in the April 15, 1975, issue of the Secretary of State's Administrative Rule Bulletin. The hearing later was scheduled for April 29, 1975.)

The Commission considered paying the travel expenses of a Special Projects Fund Advisory Committee. Mr. Talbot pointed out that the Committee is to assist in distributing a portion of the yearly Bureau of Outdoor Recreation funds to local agencies. The Committee is composed of eight members who will meet at least twice annually. The estimated annual expenses are \$300. The Commission approved paying the expenses of the Committee as recommended by Mr. Talbot.

Mr. Talbot presented for the Commission's consideration a request from Odell Miller to construct a single family dwelling and two 4-plexes within the Rogue River Scenic Waterway in Curry County. Mr. Talbot stated that the area is classified recreational

and existing density already exceeds the 4 per river mile. The proposed building site is not topographically screened from view from the river and he recommended denial. The Commission accepted his recommendation.

Consideration was given authorizing Chairman Jackson to sign on behalf of the Commission the plat in connection with the purchase of 1.1 acres of land in the Rogue Rim Subdivision in Josephine County. Mr. Talbot stated that the Josephine County Surveyor has requested the Transportation Commission's signature. He recommended that Chairman Jackson be given this authority. The Commission accepted his recommendation.

The East-West Highway Committee Delegation presentation appears on page 871.

Mr. Klaboe reported on actions taken under delegated authority received for filing with the Commission records. These reports show the actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission files, Salem.)

Chairman of Oregon Transportation Commission	Exhibit A
Vice Chairman of Oregon Transportation Commission	Exhibit B
Administrator and Highway Engineer	Exhibit C
Director of Permits	Exhibit D
Right of Way Engineer	Exhibit E
State Parks Superintendent	Exhibit F
Chief Counsel	Exhibit G

The Commission adopted Delegation Order No. 9 as follows:

Pursuant to the provisions of ORS 184.635, and in order to provide for a more efficient and expeditious operation of the Highway Division, the following power of the Commission is hereby delegated to the following officer or his designated representative:

To the Administrator and State Highway Engineer of the Highway Division:

Authority to approve the use of traffic control devices as required by ORS 483.044(3).

Attention was given to a request from Travel InfoCentres of Oregon, contractor for the rest area information plazas, for a rate increase in the charges for ads displayed in the plazas. Mr. Klaboe stated that the increased rates appear to be acceptable and he recommended approval. The Commission accepted his recommendation on the basis they are approved by the Travel Information Council. (Schedule of current and increased rates on file in the Commission's files.)

Consideration was given to the distribution of an additional allocation of Federal Aid Secondary funds for the fiscal year 1976 to the individual counties in the State. Mr. Klaboe reported that this allocation has been computed in accordance with the formula developed by the Association of Oregon Counties using the official 1970 U.S. Rural Census and the January 1, 1975, rural county road mileages. The Commission approved the allocation as follows:

ADDITIONAL FISCAL YEAR 1976 FAS ALLOCATION TO COUNTIES
FEDERAL AID HIGHWAY AMENDMENTS ACT 1974
March 1975

COUNTY	FEDERAL FUNDS	TOTAL FUNDS Including State's and Counties' Match Money (Rounded to Thousands)
Baker	\$ 6,425	\$ 8,000
Benton	9,112	12,000
Clackamas	24,418	31,000
Clatsop	8,604	11,000
Columbia	10,484	13,000
Coos	14,132	18,000

Washington	16,807	22,000
Wheeler	3,866	5,000
Yamhill	11,207	14,000
TOTAL	<u>\$390,193</u>	<u>\$500,000</u>

(continued on page 862)

SUMMARY, ADDITIONAL STATE FISCAL YEAR 1976 COUNTY FAS FUNDS

Total Federal Funds for Construction	\$390,194
(50% of Oregon's apportionment less planning survey funds)	
Plus estimated required match money - State funds	54,903
" " " " " - County funds	54,903
TOTAL COUNTY FAS FUNDS	<u>\$500,000</u>

NOTE: Above funds allocated to individual counties on basis of formula (25% equally, 60% on rural population, and 15% on rural county road mileage) proposed by Association of Oregon Counties and approved by Transportation Commission. Federal funds are estimated to represent approximately 78% of total county road FAS funds with State and County funds estimated to be approximately 11% each.

The Commission considered approving requests for Urban Systems projects from the Cities of Beaverton and Medford and the State. Mr. Klaboe mentioned that these projects have been investigated and are eligible for funding under the Federal Aid Urban System program. Upon his recommendation the Commission approved the following projects and authorized him to sign the agreements when prepared:

<u>Jurisdiction</u>	<u>Section</u>	<u>Total Cost</u>	<u>Federal Funds</u>	<u>State Share</u>
Beaverton	Hall Blvd.-Alice Lane Allen Blvd., FAU 0050	\$215,000	\$167,700	\$23,650
Medford	Barnett Rd. (FAU 2430) at I-5 Northbound Off-ramp & Highland Dr.	55,000	42,900	6,050
State	Diamond Lake Blvd.- Washington Ave., Oak- land-Shady Hwy., FAU 3035	135,000	105,300	29,700
	TOTAL NEW PROJECTS	\$405,000	\$315,900	\$59,400

Mr. Klaboe presented the following informational reports of projects on which bids were taken March 13, 20, and 27, 1975. He mentioned the projects contain an explanation of plans concerning the establishment of footpaths and bicycle trails.

MARCH 13 BID LETTING

- (1) Timber Junction, Sunset Highway, Washington County. Grade, Pave and Structure Project. Footpaths and bicycle trails will not be established under this project as per ORS Chapter 366, Section 2, Subsection 2(b), which states that "Footpaths and trails are not required to be established...if the cost of establishing such paths and trails would be excessively disproportionate to the need or probable use."

(continued on page 863)

- (2) Blodgett-Gellatly Summit, Corvallis-Newport Highway, Benton County. Grade, Pave and Structure Project.
Same as No. 1.
- (3) Hampton-Lake County Line, Central Oregon Highway, Deschutes County. Grade and Pave Project.
Same as No. 1.
- (4) North Yamhill River-12th Street (McMinnville), Pacific Highway West, Yamhill County. Paving Project.
Same as No. 1.
- (5) Lower Columbia River Highway at M.P. 80 (Brownmead Road), Lower Columbia River Highway, Clatsop County. Grade and Pave Project.
Bicycle trails will not be included as the project consists of minor grading and surfacing to obtain a left-turn refuge.
- (6) Oregon Coast Highway at Theil Creek Road, Oregon Coast Highway, Lincoln County. Grade and Pave Project.
Same as No. 5.
- (7) Alsea Highway at Eckman Creek Road, Alsea Highway, Lincoln County. Grade and Pave Project.
Same as No. 5.
- (8) Corvallis-Newport Highway at N.E. Harney Road, Corvallis-Newport Highway, Lincoln County. Grade and Pave Project.
Same as No. 5.
- (9) Santiam Highway at Cottonwoods, Santiam Highway, Linn County. Grade and Pave Project.
Same as No. 5.

MARCH 20 BID LETTING

- (1) Chas. H. Reynolds Safety Rest Area, Old Oregon Trail, Union County. Rest Area Improvement Project. Footpaths or bicycle trails are not incorporated in this project as no new highway construction, reconstruction or relocation is involved.
- (2) Willamette River (Harrisburg) Bridge, Albany-Junction City Highway, Linn and Lane Counties. Grade, Pave and Structure Approach Project.
An 8-foot Class II bikeway will be provided.

(continued on page 864)

- (3) Scottsburg-Golden Creek, Umpqua Highway, Douglas County. Paving Project.
Footpaths and bicycle trails will not be established under this project as per ORS Chapter 366, Section 2, subsection 2(b), which states that "Footpaths and trails are not required to be established...if the cost of establishing such paths and trails would be excessively disproportionate to the need or probable use."
- (4) Pilot Rock-Nye Junction, Pendleton-John Day Highway, Umatilla County. Paving Project.
Same as No. 3.
- (5) Santiam Highway at Milton Street (Lebanon) Santiam Highway, Linn County. Traffic Signals Modification Project.
Footpaths or bicycle trails are not incorporated in this project as no new highway construction, reconstruction or relocation is involved.
- (6) Fivemile Creek Road, County Road No. 183, Wasco County. Structures Project.
Same as No. 3.
- (7) Fivemile Creek Bridge, County Road No. 183, Wasco County. Structures Project.
Same as No. 3.

MARCH 27 BID LETTING

- (1) Myrtle Creek-Canyonville, Pacific Highway, Douglas County. Grade, Pave, Structure, Sign and Illumination.
Footpaths and bicycle trails will not be established under this project as per ORS Chapter 366, Section 2, subsection 2(b), which states that "Footpaths and trails are not required to be established...if the cost of establishing such paths and trails would be excessively disproportionate to the need or probable use."
- (2) Chehalem Creek-Dundee, Pacific Highway West, Yamhill County. Paving Project.
Same as No. 1.
- (3) Upper Salt Creek-Dolph Corner, Willamina-Salem Highway, Polk County. Paving Project.
Same as No. 1.
- (4) Mapleton-Austa, Florence-Eugene Highway, Lane County. Paving Project.
Same as No. 1.

(continued on page 865)

- (5) Clear Lake-Coos County Line, Oregon Coast Highway, Douglas County. Paving Project.
Same as No. 1.
- (6) Barnett Road at I-5 Northbound Ramps and Highland Drive (Medford), Barnett Road, Jackson County. Traffic Signal Project.
Footpaths or bicycle trails are not incorporated in this project as no new highway construction, reconstruction or relocation is involved.
- (7) Little Luckiamute River (Elkins Road), FAS 751, Polk County. Structures Project.
Same as No. 1.
- (8) Pacific Highway East at S.E. Rothe Road, Pacific Highway East, Clackamas County. Traffic Signal Project.
Same as No. 6.
- (9) Madrona Avenue S.E.-Browning Avenue S.E. (Salem), Pacific Highway East, Marion County. Grade and Pave Project.
Bicycle trails will not be included as the project consists of minor grading and surfacing to obtain a left-turn lane.
- (10) N. Pacific Boulevard-Albany Avenue, Albany-Junction City Highway, Linn County. Grade, Pave and Signal Project.
Same as No. 1.
- (11) South Yamhill River-Amity, Pacific Highway West, Yamhill County. Grade and Pave Project.
Same as No. 1.
- (12) Oregon Coast Highway at S.E. Marlin Avenue (Warrenton), Oregon Coast Highway, Clatsop County. Grade and Pave Project.
Bicycle trails will not be included as the project consists of minor grading and surfacing to obtain a left-turn refuge.

Nine requests were recommended by Mr. Klaboe from Columbia Region Association of Governments for Federal Aid Urban System projects from the Portland area. Mr. Klaboe pointed out that these projects can be initiated within a relatively short time frame and will allow approximately \$3,369,000 to be injected into the Oregon economy this summer. The estimated cost of the projects is \$2,627,820 with the State providing approximately \$407,990 in match funds and approximately \$333,190 being contributed by the involved local units of government. The Commission approved the following projects and authorized Mr. Klaboe to sign the agreements when prepared:

(continued on page 866)

Project	Total Cost	Federal Funds	State Share
Bus Acquisition (Tri-Met)	\$ 300,000	\$ 234,000	\$ --
River Road Improvement (Hillsboro)	967,000	754,260	106,370
Minter Bridge Road Improvement (Hillsboro)	205,000	159,900	22,550
Allen Avenue Signal (Beaverton)	40,000	31,200	4,400
Columbia Boulevard Improvement (Multnomah County)	600,000	468,000	66,000
Powell Boulevard Overlay (State)	640,000	499,200	140,800
Oatfield Road Overlay (Clackamas County)	255,000	198,900	28,050
Linnwood Avenue Overlay (Clackamas County)	42,000	32,760	4,620
Hawthorne Bridge Controls (Multnomah County)	320,000	249,600	35,200
TOTAL NEW PROJECTS	\$ 3,369,000	\$2,627,820	\$407,990

Mr. Klaboe reported that 14 surveys have been completed as a part of the State's accelerated construction program and he recommended approval of these projects for Federal Aid financing. The Commission approved the following projects:

PROJECT	FUND	AMOUNT
Chemawa Road-Hayesville Intchge. Sec., Pacific Hwy. E., Marion County. Grade and Pave.	PFA	\$2,000,000
S.W. Clay St.-S.W. Sheridan St., Pacific Hwy. W., Multnomah County. Roadside Improvement.	FAU	160,000
Junction City-Airport Rd. Sec., Pacific Hwy. W., Lane County. Grade, Pave and Structure.	FA	6,750,000
McNary-Diagonal Rd. Sec., Columbia River Hwy., Umatilla County. Paving.	FA	400,000
Fern Hill-Astoria Sec., Lower Columbia River Hwy., Clatsop County. Paving.	FA	1,000,000
N.W. 31st Ave.-N.W. 112th Ave. (Portland) Sec., Lower Columbia River Hwy., Multnomah County. Paving.	FAU	375,000

(continued on page 867)

PROJECT	FUND	AMOUNT
Ross Island Bridge Intchge. Sec., Oswego Hwy., Multnomah County. Paving.	FAU	\$ 155,000
Necanicum Hwy. Jct.-Brightons Sec., Oregon Coast Hwy., Tillamook County. Paving.	FA	650,000
Hunter Lodge (M.P. 140.95)-SCL Lakeview Sec., Fremont Hwy., Lake County. Paving.	FA	240,000
Link River-Homedale Rd. Sec., Klamath Falls-Lakeview Hwy., Klamath County. Paving.	FAU	500,000
Five Corners-Lakeview Sec., Klamath Falls-Lakeview Hwy., Lake County. Paving.	FAS	460,000
Lancaster Dr.-Deer Park O'Xing Sec., N. Santiam Hwy., Marion County. Paving.	FAU	240,000
	FAS	240,000
Ruch Sec., Jacksonville Hwy., Jackson County. Grade and Pave.	FAS	300,000
Jordan Valley-Jordan Creek Sec., I.O.N. Hwy., Malheur County. Grade and Pave.	FAS	1,500,000

Following Mr. Klaboe's recommendation, the Commission established the following speed zone:

- (1) 45 MPH speed zone on the Willamina-Sheridan Highway No. 157 from 0.14 mi. south of Willamina (M.P. 1.50) to the south city limits of Willamina (M.P. 170) in Polk County. (This action removes the 55 MPH maximum speed.)

The Commission considered prohibiting parking on the highway shoulder along both sides of the Corvallis-Lebanon Highway in the vicinity of the I-5 interchange from 0.34 mile west of I-5 (M.P. 9.80) to 0.30 mile east of I-5 (M.P. 10.44) in Linn County. Mr. Klaboe stated that an investigation was conducted which revealed that trucks parked along shoulders of the highway restrict the sight distance making it hazardous for customers to enter the highway from the businesses' parking lots. The Commission approved the parking prohibition as recommended by Mr. Klaboe.

The Commission considered a four-way stop on the Beaverton-Tualatin Highway at its intersection with Durham Road in Washington County. Mr. Klaboe stated that three legs of this intersection are now controlled by stop signs (the east, west, and south approaches). A recent engineering investigation indicates that a change in the present stop indication is warranted. He recommended that "Through Highways and Stop Signs Resolution No. 13," dated September 21, 1949, with respect to the Beaverton-Tualatin Highway No. 141 be amended to add the following exceptions:

(continued on page 868)

Except that at the intersection of Southwest Durham Road (M.P. 7.07) all traffic entering the intersection from the north and east shall stop with the exception of the right turn from the east which shall be permitted to be made without stopping.

The Commission accepted his recommendation.

The Commission considered a request from the City of McMinnville to abandon 0.5 mile of the Salmon River Highway Spur on Third Street in Yamhill County. Mr. Klaboe mentioned that the City initiated the request that the portion of the spur lying on Third Street between Adams and Johnson Streets be transferred to them as a city street deleting it from the highway system. Following his recommendation, the Commission approved the abandonment and thereupon adopted "Abandonment and Retention Resolution No. 549." (Copy on file in Commission files, Salem.)

Attention was given to the abandonment of 5.5 miles of the old highway route in the Wrights Point-Narrows Section of the Frenchglen Highway to Harney County. Mr. Klaboe mentioned that the present route on this section was completed in the early 1960's and the old route was never formally abandoned, and it is no longer needed for highway purposes. Upon his favorable recommendation, the Commission approved the abandonment and thereupon adopted "Abandonment and Retention Resolution No. 548." (Copy on file in Commission's files, Salem.)

Consideration was given to an agreement with the National Academy of Sciences to fund the National Cooperative Highway Research Program. Mr. Klaboe pointed out that each year 1.5% of the Federal Highway allocation is withheld from construction programs and dedicated to planning and research. Each of the States contributes to the national program on a corresponding basis and Oregon's share for the fiscal year 1976 is \$71,970. Upon his favorable recommendation, the Commission approved the agreement and authorized Mr. Klaboe to sign it.

The Commission considered an agreement with the City of Sweet Home covering the installation of a traffic signal at the intersection of 15th Avenue and Main Street and the upgrading of the existing signals at 12th Avenue and 18th Avenue intersections on the Santiam Highway in Linn County. Mr. Klaboe said the project is to be funded by State Bond money and the City will bear the cost for all future power. The Commission approved the agreement as recommended by Mr. Klaboe.

Consideration was given to an agreement with the City of North Bend covering installation of a traffic signal at the intersection of Virginia Avenue and Broadway Street on the Cape Arago Highway in Coos County. Mr. Klaboe stated that the agreement provides for the State to install the signal with its own forces, pay 11 percent of the cost of the project estimated at \$19,000 and maintain

the signal. The State's share of the installation cost will be charged to Minor Betterment funds. The City will pay for future power. Following his favorable recommendation, the Commission approved the agreement.

The Commission considered an agreement with Clackamas County covering the installation of a traffic signal at the intersection of Roethe Road and Pacific Highway East. Mr. Klaboe said that the State will prepare all plans, award the contract, and supervise the work. The project is to be funded by Title II funds and the State will maintain the traffic signal. The County will pay for all power consumed. Following his favorable recommendation, the Commission approved the agreement.

Attention was given to an extension of an agreement with the National Urban League, Inc. to provide services to support on-the-job training programs on Federal Aid Highway Projects. Mr. Klaboe mentioned that the State's consultant review committee has selected the National Urban League's proposal to provide these services again during Fiscal Year 1975. This extension agreement which is 100% Federally funded has the approval of the Federal Highway Administration. To preserve continuity of services and enable the League to retain existing staff, it is desirable that the agreement be extended 60 days. The Commission approved the extension.

AERONAUTICS DIVISION

The Commission considered adopting the Summary Report of the State Aviation System Plan. Mr. Burket stated that the Commission adopted the recommended policies of the plan at its November 25, 1974 meeting. He recommended adoption of the entire plan which will allow the Oregon Department of Transportation and the Aeronautics Division to initiate implementation of the plan. The Commission adopted the report. (Copy of report in the Commission's files, Salem.)

Consideration was given to adopting a resolution accepting a Grant Offer from the Federal Aviation Administration for financial assistance in the amount of \$16,575 for a current Airport Development Aid Program project for the Powers State Airport in Coos County. Mr. Burket said the project covers the removal of obstructions in the approach-departure areas of the airport and also fencing of the airport property to prevent animals on the runway. Following his favorable recommendation, the Commission adopted "Aeronautics Miscellaneous Resolution No. 10," which resolution by this reference is made a part hereof and filed in the Commission's files. The Commission also authorized the Director to sign the resolution.

Attention was given to a request from the City of Redmond for a grant not to exceed \$66,828 to provide 50% of the local sponsor's share of an Airport Development Aid Program project in the amount of \$812,000. Mr. Burket stated that the project will rehabilitate the runway to be capable of accepting DC-9 and the U.S. Forest

Service fire suppression aircraft, and also the installation of a new lighting system. The Commission approved the grant as recommended by Mr. Burket.

Consideration was given to accepting an option on a parcel of land taken by the Highway Right of Way Division on behalf of the Aeronautics Division for acquisition of an aviation easement including the removal of trees that are obstructions in the east transitional surface of the Siletz Bay State Airport in Lincoln County. Mr. Burket stated the total price of easement and removal of trees is \$16,500 and he recommended approval. The Commission approved the option. (See File No. A-3 -- Longview Fibre Company.)

Consideration was given to the purchase in fee of a parcel of land by the Highway Right of Way Division on behalf of the Aeronautics Division for a crosswind runway at the John Day State Airport in Grant County. Mr. Burket said the total price is \$1,375 and he recommended approval. The Commission accepted his recommendation. (See File No. A-22 -- Terry B. Lyons)

Attention was given to a request from the City of Roseburg for Financial Aid to Municipalities grant in an amount not to exceed \$5,000 to match the local sponsor's share of a Master Plan study of the Roseburg Airport in Douglas County. Mr. Burket pointed out that this would be a Federal project under the Federal Aviation Administration's Planning Grant Program and the FAA will pay two-thirds of the total cost of the project. Following his favorable recommendation, the Commission approved the project.

Consideration was given to a request from the Mid-Willamette Valley Council of Governments for Financial Aid to Municipalities grant in an amount not to exceed \$2,835 to match City of Salem funds in a like amount to develop a land-use plan for Salem's McNary Airport. Mr. Burket mentioned that this project will be a Planning Grant Program project from the Federal Aviation Administration with that agency providing two-thirds of the total funding. Upon his favorable recommendation, the Commission approved the request.

The Commission considered the adoption of Temporary Administrative Rules for the certification of forest spray pilots. Mr. Burket pointed out that under the present law, the Aeronautics Division is required to certify forest spray contractors as competent to perform such service. With the concurrence of the State Forestry Department, the Division has requested that this portion of the law be repealed, as State Forestry and U.S. Forest Service now demand a high degree of competence and experience before a contract for spraying is awarded. The Commission adopted the temporary rules. (Temporary rule printed in the Secretary of State's Administrative Rule Bulletin on April 15, 1975.) (Copy of Temporary Rule on file in the Commission's files.)

MASS TRANSIT DIVISION

Mr. Moore reported on actions taken by the Mass Transit Division Administrator under authority delegated to approve and sign contracts pursuant to the provisions of ORS 184.635. (See Exhibit H.)

Mr. Moore presented to the Commission copies of the final edition of the Governor's Recommended 1975-77 Budget for the Mass Transit Division. He said the budget totals \$6,395,781; \$3,149,466 is in State general funds and \$3,246,315 is in Federal or other fund sources. (Copy of budget in the Commission's files, Salem.)

Consideration was given authorizing a request to seek approval from the Joint Ways and Means Committee to apply for \$279,000 in operating assistance from the Urban Mass Transportation Administration for the Lane Transit District for this fiscal year.

Mr. Moore mentioned that Tri-Met, which represents an urbanized area over 200,000 population, will receive funds direct from Urban Mass Transportation Administration. The Governor has designated the Department of Transportation to receive and dispense the funds for the other two urbanized area transit systems in Eugene-Springfield (Lane Transit District) and the City of Salem. Funds are available this fiscal year. The City of Salem has elected not to seek funds, which will accumulate for future expenditures. Following his recommendation, the Commission approved the request.

MOTOR VEHICLES DIVISION

Mr. Ott reported the fuel tax returns for February are not complete, but January 1975 was above January 1974. Registration revenue on passenger cars for January and February this year was down approximately 46% from 1974, which was due to the two-year registration period.

DEPARTMENT OF TRANSPORTATION Director's Report - Mr. Baldwin

The Commission set Wednesday, April 30, 1975, as the date for the next regular meeting. (Meeting changed later to Tuesday, April 29, 1975.)

A delegation of approximately 75 persons representing the East-West Highway Committee from Coos and Douglas Counties appeared before the Commission concerning improvements to Highway 42.

C. W. Heckard, Secretary of the Committee from Coos Bay, acted as spokesman. He introduced Senator Jack Ripper. Senator Ripper stated that since the interstate system has taken all the attention and all the money, we find that it has strip development from one end to the other. Smaller towns throughout the state have declined in population as a result of the freeways and the young people are moving to the larger cities to seek employment. He said they would not be appeased until they see that 42 and Southern Oregon are given a chance for economic development in the same categories as northern Oregon and are asking for Legislative support.

(continued on page 872)

Representative Bill Grannell mentioned that the State must change from their funding techniques for freeways to other transportation modes in the State. The State needs to raise the standards of certain primary highways. The Legislature will cooperate with the Commission to do away with the statute which says the State must seek the maximum amount of match money. The Legislature is willing to talk to the congressional leaders to de-emphasize that program so that the matching money that is so desperately needed on the primary highways and other transportation needs of the State can be found.

Representative Ed Stevenson stated that a considerable amount of work has been done on Highway 42, although the Commission has not lived up to its 1959 commitment. The primary concern of the people in his area is the improvement of this highway.

Representative Cleatis Mitchell said that he was in full support of the need to upgrade Highway 42. He felt that this is the time and the elements are favorable for this proposition.

Representative Richard Bonebrake mentioned that the highway in Douglas County has had very little improvement in the past years. He urged that the straightening, widening and passing lanes again be placed high on the priorities for Highway 42. He also pledged his support to help the Commission to accomplish the task.

Representative Robert Stults stated Douglas County has benefited greatly north and south from the interstate system. Access to the coast for forest products and from a recreational standpoint is difficult due to the condition of this highway.

Anthony Kuhn, Executive Director of the Coos, Curry and Douglas Counties Economic Development Association, presented an overview of an economic analysis on the economic problems of Highway 42. He pointed out that this highway is a major commerce facility. Traffic has increased 57% between 1967 and 1973 which is higher than any other east-west lateral in the State. There is documented evidence that 70% of the accidents are not reported and are never included in the calculations of highway problems. The Commission and the Highway Division have said repeatedly that Highway 42 has a priority on it but there are no completed engineering surveys and environmental impact statements. Mr. Kuhn read excerpts from letters of several major trucking firms outlining their economic problems as a result of the inefficiencies of Highway 42.

Mr. Heckard stated their committee would like to have a construction schedule showing the completion of this highway.

Chairman Jackson informed the delegation that the problem was the availability of funds in the various Federal categories.

Mr. Klaboe explained the categorical grants. He pointed out that the interstate allocation from the Federal Government amounts to \$73,000,000 a year which is dedicated only to the

interstate highway system. The allocation from the government for rural primary highways is \$11,000,000 annually to be used on 3,400 miles of highway throughout the State, and Highway 42 is one of these highways. The Commission next year has allocated of the \$11,000,000 over \$7,500,000 for one project on 42 which is the Slater Creek-Mystic Creek Section. Mr. Klaboe presented a chart showing the areas that have been constructed during the past 13 years. The various projects amounted to \$33,500,000 which includes the programmed amount for Slater Creek-Mystic Creek Project.

Larry Perry of the ILWU (Longshoreman's Union) mentioned that he has made two phone calls to Washington D.C., to Major General Del Mar's office and obtained information that money would be available for Highways 42 and 38 as areas impacted by military importance. Mr. Perry left with the Commission a copy of a letter to Senator Packwood from General Del Mar. He suggested that the Commission write a letter to General Del Mar concerning this matter.

Mr. Baldwin mentioned that he had looked into this matter through the Federal Highway Administration. There is a provision in the law for assistance for areas that are impacted by defense activities. The information that was received back from the Federal Highway Administration is that money is not available under the terms of the law. He said the Defense Department was at a loss to know why the answer was given that money was available. Now that the names are available, Mr. Baldwin indicated another investigation would be made.

Mr. Heckard introduced the following individuals, all urging completion of Highway 42: Andy Nasburg, Chairman of Coos-Curry Council of Governments; Woodrow Robison, Chairman of Coos County Board of Commissioners; Mrs. LaVerne Brodie, representing Housewives of 42; Mayor Robert Hale of Coos Bay; Mayor Ervin Wilberger of Myrtle Point; Mayor Robert Bryan of Coquille; Arlan Fischer, Chairman of the Democratic Central Committee; Donald Williams, Coos Bay Planning Commission; Robert Pittam representing the City and Chamber of Commerce of North Bend.

Chairman Jackson said Oregon is approximately \$600,000,000 behind in critical needs for its 7,500 miles of primary and secondary highways. The State is not generating enough of the necessary funds to keep up with construction and maintenance needs. The percentage of funds coming out of the trust account at the Federal level devoted to interstate versus the State's primary system needs is unrealistic in the light of the problems of today. He stated it would be impossible at this time to present a schedule showing actual completion of Highway 42 since the availability of funds is so uncertain. He continued that the State expects to accelerate the surveys and environmental impact studies to be ready for any change in the availability of funds. Under the ultimate sale of \$150,000,000 in bonis, there would be approximately \$19,000,000 available for Coos, Curry and Douglas Counties. He said the Commissioners over the last 15 years have been very conscious of the Coos Bay needs.

The Chairman adjourned the meeting at 12:30 p.m.

TO: Oregon Transportation Commission

SUBJECT: Confirmation of action taken under delegated
authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approved the following item and report this action for your official records.

I approved on February 14, 1975, placing the Taft Cemetery Retaining Wall (Taft-Delake Section) Project on the Oregon Coast Highway in Lincoln County on the current construction schedule using Minor Betterment Funds, with a contract letting on February 27, 1975.

Dated this 24 day of Feb., 1975

Glenn L. Jackson, Chairman
Oregon Transportation Commission

TO: Oregon Transportation Commission

SUBJECT: Confirmation Report of Action Taken Under
Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approved the following items and report this action for your official records:

I gave approval to David Talbot on March 5, 1975, for a lease with Mr. and Mrs. George Ellesson covering the cafe and motel concession buildings at Bridal Veil Falls State Park, Crown Point Highway, Multnomah County.

At the same time, I accepted an option with the Ellessons for acquisition of 6.2 acres and the motel-restaurant complex in the Bridal Veil Falls State Park in the amount of \$70,000 (File 48287).

Dated this 18 day of March 1975

- 7) Agreement with Harney County transferring all the State's right, title, and interest in the former route of the Frenchglen Highway in the Wrights Point-Narrows Section consisting of approximately 5.5 miles. (County-City Unit)
- 8) Extension of an existing agreement (Misc. C and A 4892) with National Urban League, Inc. for providing services to support on-the-job training programs on Federal-Aid Highway Projects for a period of time not to exceed 60 days. Agreement was for a one-year period ending March 4, 1975. Consultant review committee has selected National Urban League's proposal to provide these services again during Fiscal Year 1975. It is desirable to preserve the continuity of these services and enable National Urban League, Inc., to retain existing staff for the anticipated period of time required to prepare and formalize new agreement. Funds for these services are 100% Federally funded in the amount of \$42,290 effective until June 30, 1975. Sufficient funds remain to cover anticipated costs for the additional time requested. (Construction Section)
(Approved in error. Approval of all members of Commission necessary. See March 31, 1975, minutes for approval. Page 869)
- 9) Supplemental agreement amending agreements of April 15, 1974, and June 24, 1974, with Friends of Tryon Creek Park, Inc., for the construction of a nature house in Tryon Creek State Park in Multnomah County. This supplement adds that in the event that changes in the work are required to complete the nature house, the State may provide up to an additional \$15,000 for said construction upon request and documentation of need by Corporation. REPORT OF CASES FILED BY AND AGAINST THE DEPT. OF TRANSPORTATION

L-7166 Gordon H. Ball, Inc. v. State of Oregon: This is a suit by a contractor against the State on Contract No. 7337. The contractor is seeking \$48,000 which is allegedly due because of the wrongful withholding of payments for "railroad protective costs" and \$51,000 in liquidated damages that was withheld from the final payment. The matter has been referred to the Department of Justice for the defense of the Department of Transportation. This case was filed in Union County.

L-7167 Adeline A. Stewart v. State of Oregon: This case was filed in the Jackson County Circuit Court and involves personal injury to the plaintiff when she allegedly tripped over a defective sidewalk adjacent to the State highway in the City of Ashland. The plaintiff is seeking \$4,410 in damages and the matter has been referred to the State's insurance carrier for the defense of the State.

L-7168 City of Maywood Park and Werner E. Zeller v. Claude S. Brinegar, et al: This case was filed by plaintiffs in Federal District Court in Portland on March 11, 1975. Motion by Maywood Park for leave to file a "Supplemental Complaint" supplementing the case already tried before the District Court and heard on appeal by the U. S. Ninth Circuit Court of Appeals. Names U. S. Secretary of Transportation and Oregon State Transportation Commissioners as parties defendant. Supplemental Complaint alleges inadequacy of draft Environmental Impact Statement for I-205 and inadequacy of notice for public hearing on EIS set for March 27, 1975. Also contends that State is required to get throughway agreement from Maywood Park prior to constructing I-205 through boundaries of Maywood Park. Plaintiff further requested an injunction enjoining State defendants from holding the March 27 public hearing.

Defense of this case on behalf of all State defendants has been retained by Walt Barrie, Counsel for the Department of Transportation.

The matter was argued before Judge Burns on Thursday, March 20, 1975. Judge Burns issued an order denying plaintiffs' request for an injunction. Judge Burns refused to allow plaintiffs to file a supplemental complaint at this time.

L-7169 City of Maywood Park v. Glenn L. Jackson, et al: This case was filed by plaintiff Maywood Park against Oregon State Transportation Commissioners and Multnomah County in Multnomah County Circuit Court on or about February 26, 1975. Plaintiff asks the court for a declaratory judgment declaring that plaintiff is entitled to control the streets inside its corporate limits despite throughway agreements between State and Multnomah County entered into prior to the incorporation of Maywood Park. Plaintiff further asks the court to declare that the State defendants acquisition of right of way within the corporate limits of plaintiff is illegal and void and to enjoin defendants from any further activity in regard to I-205 within its corporate limits.

EXHIBIT

EXHIBIT G

Defense of this case on behalf of State defendants has been retained by Walt Barrie, Counsel for the Department of Transportation. A preliminary response has been made on behalf of State defendants but the matter has not yet been set for hearing.

L-7170 Tracy K. Belway v. State of Oregon, acting by and through its Department of Transportation, and Omer Richard Loganbill: This claim arose out of a collision between the plaintiff's vehicle and a State Highway Division truck on March 9, 1973, on U. S. Highway 101. The plaintiff is seeking \$50,750 in damages plus attorney fees. The matter has been referred to the State's insurance carrier for the defense of the State.

L-7171 Jarrad Belway, by Tracy K. Belway, his guardian v. State of Oregon, acting by and through its Department of Transportation, and Omer Richard Loganbill: This case arose out of the same accident situation as L-7170 and the plaintiff is seeking \$50,000 in damages. The case has been referred to the State's insurance carrier for the defense of the State.

MEMORANDUM

March 26, 1975

ROBERT W. STRAUB
GOVERNOR

DENNIS H. MOORE
Division
Administrator

TO: Oregon Transportation Commission
FROM: *Dennis H. Moore*
Dennis H. Moore, Administrator
Mass Transit Division

SUBJECT: Report of Actions taken under Delegated Authority

On behalf of the Commission and under its authority delegated to me to approve and sign contracts, I have approved and signed the following:

- A \$4,493 contract with Mid-Columbia Economic Development District for the funding of demonstration public transportation systems by non-profit corporations in Sherman and Wasco Counties as a part of the Division's Special Transportation Program.
- A \$26,448.73 contract with the City of Portland for the funding of Metro Mobility, a demonstration transportation project for elderly and handicapped persons as a part of the Division's Special Transportation Program.
- An amendment to the Mass Transit Division and Columbia County Council of Seniors, Inc. agreement which eliminates the monthly reimbursement ceiling of \$733 for funding under the Division's Special Transportation Program.
- A \$2,000 contract with Jackson County to provide the matching funds for a Transit Development Study under the Division's Special Transportation Program.

April 29, 1975
Salem, Oregon

The Oregon Transportation Commission held their regular meeting at 10 a.m. in Room 122 of the State Highway Building in Salem, Oregon. Notice of the meeting was made by press release to newspapers of general and local circulation throughout the State. Present were.

Glenn L. Jackson, Chairman
Robert L. Mitchell, Secretary
Tom Walsh, Member
B. Gordon Coleman, Member
Michael P. Hollern, Member
George M. Baldwin, Director of Transportation
Sam Haley, Deputy Director
Walt Barrie, Chief Counsel
F. B. Klaboe, Administrator and State Highway Engineer
A. E. Johnson, Deputy State Highway Engineer
John R. Oakes, Assistant Right of Way Engineer
David Talbot, State Parks Superintendent
Paul Burket, Administrator of Aeronautics
Dennis Moore, Administrator of Mass Transit
Chester Ott, Administrator of Motor Vehicles
C. W. Head, Supervisor, Commission Services

There were others present from the Department of Transportation and representatives from the news media.

The Commission approved the minutes of the regular meeting of March 31, 1975.

HIGHWAY DIVISION

A list of properties needed for highway and other uses was presented by Mr. Oakes. He requested the Commission to declare by resolution the necessity of said properties for the public use to which they are to be put and to authorize him to attempt to agree with the owners of said properties as to price. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful and thereupon adopted "Condemnation Resolution No. 2632," which resolution by this reference is made a part hereof and filed in the Commission's files.

Mr. Barrie asked if there were any questions in connection with the informational reports previously submitted to the Commission on cases tried, cases settled and institution of legal proceedings filed against the Department of Transportation since the last Commission meeting. There were no questions. (See Exhibit G on file in the Commission's files in Salem.)

Mr. Barrie presented a Quarterly Report of Property Damage Claims for the period of January 1, 1975 through March 31, 1975. During this period \$102,831 was collected.

Attention was given to the abandonment of 12 damage claims totaling \$3,416.26. Mr. Barrie indicated that these claims do not warrant further collection. Following his favorable recommendation, the Commission approved the abandonment of these claims: (For further detail see report on file in Commission files, Salem.)

CAO NO.	NAME	AMOUNT	KIND OF DAMAGE
74-51	Dennis B. Goertzen	\$ 158.68	Vehicle
74-162	Larry L. Rhinehart	92.36	Fence
74-174	Marion L. Usher	105.79	Vehicle
74-218	Thomas N. Tucker	300.86	Vehicle
74-245	Bennie J. Brown	187.87	Guardrail
74-249	F-B Truckline Company	76.50	Vehicle
74-254	Lois J. Voepel	86.09	Vehicle
74-263	Moore Business Forms, Inc.	129.60	Vehicle
74-324	Gerald L. Wilson and Blane J. Blood	174.92	Guardrail
73-339	Richard L. Kilbourne	844.99	Bridge
74-385	Wayne Robinson	1,083.30	Property
74-418	Unable to locate	175.30	Vehicle

The Commission considered a request from Forrest Solomon to construct a bridge across the John Day River in Wheeler and Jefferson Counties. Mr. Talbot stated that a report had been submitted to the Commission on April 18, 1975, concerning this matter and that the staff had recommended denial based on the assumption that the bridge itself would be basically an impairment of the natural scene as described in the law; also, from the long-term implications of development on the other side of the river which is now very largely undeveloped. If approved, he felt a precedent would be established for similar projects. Mr. Talbot introduced Mr. Jack B. Liveley, Attorney representing Mr. Solomon. Mr. Liveley referred to Statutes 390 and 845 saying it does not say to restrict the uses of property in such a manner that the agricultural uses are totally uneconomical. It states "and permit compatible agricultural, forest and other uses." He said that it is their position that the continued use of the agricultural properties in such a manner that it could be an economic unit is an essential part of conducting any agricultural program. Mr. Liveley stated Mr. Solomon owns three ranches near Mitchell. One is the Dollarhide Ranch having approximately 14,000 acres; the Cherry Creek Ranch, which is involved in

this application; the other is directly across the river, which he has recently acquired and is the property that is not accessible. He pointed out that Mr. Solomon needs this bridge to reach this property to produce hay for his cattle. The only access to the property now is by fording the river, and this can be accomplished only two months out of the year. He showed the Commission a map of the proposed bridge crossing and surrounding area. The bridge would serve 7,800 acres and the hay would be consumed on the Cherry Creek Ranch. Mr. Liveley called on Mr. Carl Byers, Engineer, to describe the proposed bridge. Mr. Byers indicated that they plan two spans of laminated beams with a single ten-foot lane, one span of 110 feet and another one of 90 feet. There would be no superstructure on the bridge outside of the beams themselves, the deck and small rail. It is anticipated that the bridge would cost \$50,000. Chairman Jackson mentioned that the Transportation Commission is charged with the responsibility of carrying out the intent of the Scenic Rivers Act and in view of the relationship of the bridge to an agricultural operation, the Commission can not make a determination at this time. The Commission deferred action until their next meeting and instructed the staff to make another investigation.

Mr. Klaboe reported on actions taken under delegated authority received for filing with the Commission records. These reports show the actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission files, Salem.)

Chairman of Oregon Transportation Commission	Exhibit A
Vice Chairman of Oregon Transportation Commission	Exhibit B
Administrator and Highway Engineer	Exhibit C
Director of Permits	Exhibit D
Right of Way Engineer	Exhibit E
State Parks Superintendent	Exhibit F
Chief Counsel	Exhibit G

Mr. Klaboe reported that an allocation of 12% of the Highway Fund to the cities for the period of January 1 through March 31, 1975, in the amount of \$3,800,415.91 was released on April 25, 1975. (A list of apportionment to the cities on file in the Commission files, Salem.)

Mr. Klaboe reported that under ORS 366.525 the counties are entitled to receive 20% of all funds received from motor vehicle taxes and fees for the period from January 1 to March 31, 1975. The amount credited to counties totals \$6,457,723.91 and he stated that this amount was released on April 18, 1975, as apportioned by law. (List of apportionment to counties on file in Commission files, Salem.)

The Commission considered approving a request from the City of Portland for approval of two Urban Extension Projects. Mr. Klaboe stated that these projects would utilize Urban Extension

Funds transferred from CRAG's allocation of Urban System Funds. Federal Urban Extension Funds for these projects are estimated at \$419,000 with the State and City providing approximately \$58,500 each in match funds. Following Mr. Klaboe's recommendation, the Commission approved the following projects and authorized him to sign the agreement when prepared.

North City Limits-South City Limits Section
Cascade Hwy. (82nd Ave.), FAP-41
Signals; 6.00 mi.; \$286,000

Broadway-Holladay & Clay-Harrison Sections
Pacific Hwy. E. (Grand Ave.), FAP 26
Grading, paving; 1.00 mi.; \$250,000

The Commission considered the "D" River log problem in Lincoln City on the Oregon Coast Highway in Lincoln County. Mr. Klaboe called on Mr. Coulter, Assistant State Highway Engineer, to explain the problems and the Division's proposal.

Mr. Coulter showed the Commission an aerial photograph of "D" River and pointed out that the river is an outlet of Devils Lake and passes under the Oregon Coast Highway through a concrete structure built in 1949. The river lies adjacent to and northerly of the "D" River Wayside. He stated the proximity of the river to the ocean and the relative wide-open configuration of the outlet makes the river susceptible to jamming of logs carried by the tides and winds. A log jam blocks the channel of the river restricting the flow and causing a rise in the level of Devils Lake. When this rise occurs it causes damage to the houses and boat docks along the lake. The Division has been spending approximately \$7,500 each year in clearing logs from the river and around the bridge. The City, County and property owners have requested assistance from the Highway Division.

In 1939 and in 1954 the use of dolphins was tried to keep the logs out of the river and to eliminate log jams, but each time was not successful. Last year the Corps of Engineers studied the problem and have found a solution that would involve Lincoln County, the Corps of Engineers and the State. One plan involves reinforced concrete piers at the mouth of the river to keep the logs out, while the other plan calls for a curved riprap channel between the ocean and the bridge. The estimated cost to the Corps would be approximately \$300,000. The State would purchase the required right-of-way at an estimated cost of \$40,000, and Lincoln County or the City would provide the required annual maintenance for the facility.

The Commission approved the cooperative plan.

The Commission considered approving a request from the City of Astoria for a Federal Aid Urban project to widen and improve a 0.42 mile section of Niagara Avenue (FAU 4370) in Clatsop County. Mr. Klaboe stated that the project has been investigated and is available for funds under the Federal Aid Urban System program. The Federal Aid Urban Funds for the project are estimated at \$81,900

with the State providing approximately \$11,550 in match funds and an equal amount being contributed by the City. Upon his recommendation, the Commission approved the project and authorized him to sign the agreement when prepared.

The Commission considered requests from Benton and Lake Counties for Federal Aid Secondary Projects. Mr. Klaboe pointed out these projects have been investigated and are eligible for FAS-C Funds. Upon his favorable recommendation, the Commission approved the following projects and authorized Mr. Klaboe to sign the agreements when prepared.

COUNTY & FAS NO.	SECTION & DESCRIPTION	PROGRAMMED AMOUNT	STATE'S SHARE
Benton 205	Frazier Cr. (Independence Rd.) Bridge	\$ 70,000	\$ 7,700
Benton 830	Evergreen Cr. (Bellfountain Rd.) Bridge	90,000	9,900
Lake 19-107	Cox Cr. (County Rd. No. 2-16) Bridge	32,000	3,500*
Lake 19-107	Thomas Cr. (County Rd. No. 2-16) Bridge	32,000	3,500*
	TOTAL	\$224,000	\$24,600

*Figures rounded to nearest hundred dollars.

Mr. Klaboe presented the following informational report of projects on which bids were taken April 10 and 24, 1975. He mentioned the projects contain an explanation of plans concerning the establishment of footpaths and bicycle trails.

APRIL 10, 1975 BID LETTING

- (1) Gellately Summit-Wren, Corvallis-Newport Hwy., Benton County. Grade and Pave Project. Footpaths and bicycle trails will not be established under this project as per ORS Chapter 366, Section 2, subsection 2(b), which states that "Footpaths and trails are not required to be established...if the cost of establishing such paths and trails would be excessively disproportionate to the need or probable use."
- (2) Douglas County Line-Hauser, Oregon Coast Hwy., Coos County. Paving Project. Same as No. 1.
- (3) M.P. 22-M.P. 2.8, Salem-Dayton Hwy., Yamhill County. Grade and Pave Project. Same as No. 1.

(continued on page 914)

- (4) Succor Cr. and Cow Cr. Bridges, I.O.N. Hwy.,
Malheur County. Structures Project.
Same as No. 1.
- (5) Cherry Heights Rd.-Wright St. (The Dalles), The
Dalles City Street, Wasco County. Structure
Project.
Five-foot sidewalks will be provided on the structure.
- (6) Jacksonville-Medford Bikeway, Jacksonville
Hwy., Jackson County. Grade and Pave Project.
Class III bike lanes will be provided throughout
the project.
- (7) Necanicum Hwy. Junction, Oregon Coast Hwy.,
Tillamook County. Grade, Pave and Sign Project.
Same as No. 1.
- (8) Elk Cr. Bridge, McKenzie Hwy., Lane County.
Grade, Pave and Structure Project.
Same as No. 1.
- (9) Ford Lane-The Dalles-California Hwy., Culver
Hwy., Jefferson County. Grade and Pave Project.
Same as No. 1.

APRIL 24, 1975 BID LETTING

- (1) Pacific Hwy. E. U'Xing-N. Columbia Blvd.,
Pacific Hwy., Multnomah County. Grade, Pave,
Sign and Illumination.
Footpaths and bicycle trails will not be estab-
lished under this project as per ORS Chapter 366,
Section 2, subsection 2(b), which states that
"Footpaths and trails are not required to be
established...if the cost of establishing such
paths and trails would be excessively dispropor-
tionate to the need or probable use." Nonmotor-
ized vehicles are prohibited south of the Delta
Park Interchange.
- (2) Fountain Slide, Columbia River Hwy., Hood River
County. Road restoration and warning system
project.
Footpaths and bicycle trails will not be estab-
lished under this project as per ORS Chapter 366,
Section 2, subsection 2(b), which states that
"Footpaths and trails are not required to be
established...if the cost of establishing such
paths and trails would be excessively dispropor-
tionate to the need or probable use."

(continued on page 915)

- (3) S.W. Canterbury Lane-Tualatin River, Pacific Hwy. W., Washington County. Grade, Pave and Signals Project.
Same as No. 2.
- (4) Oregon City-New Era, Pacific Hwy. E., Clackamas County. Grade and Pave Project.
Same as No. 2.
- (5) Vale-Cairo Junction, Central Oregon Hwy., Malheur County. Grade and Pave Project.
Same as No. 2.
- (6) Oak Crest Farm, Salem-Dayton Hwy., Polk County. Grade and Pave Project.
Same as No. 2.
- (7) N. Unit, Richmond Jct.-Girds Cr. Rd., Service Cr.-Mitchell Hwy., Wheeler County. Grade, Oiling and Structures Project.
Same as No. 2.
- (8) N.W. Park Ave.-N.W. 2nd Ave. (Portland), W. Burnside St., Multnomah County. Grade, Pave, Signal and Landscape Project.
Same as No. 2.
- (9) Orchard Dr.-Washington St. (Dallas), Kings Valley Hwy., Polk County. Grade, Pave and Flasher Project.
Same as No. 2.
- (10) N. Fork Walla Walla River Bridge, FAS 30-115, Umatilla County. Structure Project.
Same as No. 2.
- (11) Astoria Area Safety Projects, 3 Highways, Clatsop County. Signing and Illumination Project.
Footpaths or bicycle trails are not incorporated in this project as no new highway construction, reconstruction or relocation is involved.
- (12) Portland Area Signal Projects, City Streets, Multnomah County. Signals Project.
Same as No. 11.
- (13) Catherine Cr., La Grande-Baker Hwy., Union County. Grade and Pave Project.
Same as No. 2.

(continued on page 916)

- (14) Oregon Coast Hwy. at W. Devils Lake Rd., Lincoln County. Grade and Pave Project.
Bicycle trails will not be included as the project consists of minor grading and surfacing to obtain a left-turn refuge.
- (15) Veneta-Middle Fork Coyote Cr., Florence-Eugene Hwy., Lane County. Grade and Pave Project.
Same as No. 14.
- (16) Fossil Sec., Shaniko-Fossil Hwy., Wheeler County. Rock Production Project.
Same as No. 11.
- (17) Richland Sec., Baker-Copperfield Hwy., Baker County. Rock Production Project.
Same as No. 11.
- (18) Bullards Bridge, Oregon Coast Hwy., Coos County. Maintenance Painting Project.
Same as No. 11.

Following Mr. Klaboe's favorable recommendation, the Commission established the following speed zones:

- (1) 45 MPH speed zone on the Redwood Highway No. 25 Spur from the east city limits of Grants Pass at 200 feet east of Terry Lane (MP Y1.28) to 100 feet east of Agness Avenue (MP Y1.52) in Josephine County.

- (2) Establish various speed zones on the Scholls Highway No. 143 in the vicinity of the cities of Beaverton and Tigard in Washington County:

45 MPH from 500 feet southwest of Old Scholls Ferry Rd. (M.P. 7.37) to 0.57 mile east of S.W. 121st Avenue (M.P. 8.87).

Except that in the following sections, designated speed shall be 20 MPH when children are present as per the provisions of Subsection 1.a. of ORS 483.104:

From 50 feet west of S.W. 130th Avenue (M.P. 7.77) to 450 feet east of S.W. 130th Avenue (M.P. 7.87).

Portions of this section are within city limits of Beaverton and Tigard.

(continued on page 917)

35 MPH from 0.57 mile east of S.W. 121st Avenue (M.P. 8.87) to the south city limits of Beaverton (Fanno Creek) (M.P. 10.65).

Except that in the following sections, designated speed shall be 20 MPH when children are present as per the provisions of Subsection 1.a. of ORS 483.104:

From 150 feet south of access to Whitford Jr. High (M.P. 10.00) to 150 feet north of access to Whitford Jr. High (M.P. 10.06).

From 150 feet south of S.W. Marjorie Lane (M.P. 10.18) to 350 feet north of S.W. Marjorie Lane (M.P. 10.28).

30 MPH from S.W. 92nd Avenue (M.P. 10.87) to the Beaverton-Hillsdale Highway (M.P. 12.48).

Except that in the following sections, designated speed shall be 20 MPH when children are present as per the provisions of Subsection 1.a. of ORS 483.104:

From 400 feet northeast of S.W. Northvale Way (M.P. 11.91) to 50 feet northeast of S.W. Montclair Drive (M.P. 12.01).

- (3) Temporary construction speed zone of 45 MPH in Portland from the North Tigard Interchange to the West Marquam Interchange on the Pacific Highway and Stadium Freeway:

On Pacific Highway No. 1:

45 MPH from the north end of the North Tigard Interchange (M.P. 294.04) to the Stadium Freeway Highway No. 61 (M.P. 299.54).

On Stadium Freeway Highway No. 61:

45 MPH from the Pacific Highway No. 1 (M.P. 0.00) to Stadium Freeway Highway Connection No. 1 (M.P. 0.27).

On Stadium Freeway Highway Connection No. 1:

45 MPH from the Stadium Freeway Highway (M.P. 100.27) to the Sheridan Street overcrossing (M.P. 100.52).

This speed zoning is to be in effect only on those sections where signs are in place and only for the duration of the construction project.

Consideration was given to a resolution abandoning to the abutting property owner 400 feet of old right-of-way of the Middle Unit, Richmond Junction-Girds Creek Road Section of the Service Creek-Mitchell Highway in Wheeler County. Mr. Klaboe said that this short segment is no longer needed for highway purposes and he recommended abandonment. The Commission accepted his recommendation by adopting "Abandonment and Retention Resolution No. 551." (Copy on file in Commission files, Salem.)

Attention was given to an agreement with the City of Salem covering the installation of a traffic signal at the intersection of Summer and Union Streets (Pacific Highway East) in Marion County. Mr. Klaboe stated that the State will prepare the plans, specifications, perform the work and pay for the total cost with Title II Funds. After completion of the project the City will care for all power and maintenance costs. Following his recommendation, the Commission approved the agreement.

The Commission considered an agreement with Lane County covering the revision of a traffic signal at the intersection of River Road (Junction City-Eugene Highway) and Irving Road. Mr. Klaboe mentioned that the estimated cost of the project is \$20,000 which would be shared equally between the State and the County. The State's portion of the project is to be charged to Region Minor Betterment Funds and, after completion of the project, the State will maintain the traffic signals. The Commission approved the agreement as recommended by Mr. Klaboe.

Upon the recommendation of Mr. Klaboe, the Commission approved subscribing to the Transportation Research Board (Research Correlation Service) for the fiscal year 1976 in the amount of \$22,000. The expenditure is eligible for Federal-aid reimbursement as highway planning and research.

(Presentation of Six-Year Construction Program on page 923.)

AERONAUTICS DIVISION

Consideration was given to adopting a resolution accepting a Grant Offer from the Federal Aviation Administration for financial assistance in the amount of \$20,000 for a Master Plan of the Aurora State Airport in Marion County. Mr. Burket stated the Master Plan will determine the future role of the airport, the ultimate length, land requirements for aircraft parking, servicing, and public areas for aircraft operations. The total cost of the Master Plan Project is \$30,000. Following his recommendation, the Commission adopted "Aeronautics Miscellaneous Resolution No. 11" which resolution by this reference is made a part hereof and filed in the Commission files.

The Commission considered authorizing the Administrator to schedule and conduct a public hearing to consider amendments to Administrative Rule 1 OTC 46, Minimum Standards for Airports. Mr. Burket mentioned that the purpose of the hearing is to receive public comments on changes and additions to the definition section of the Rule. Following his recommendation, the Commission authorized the hearing and designated the Administrator as the hearings officer.

Attention was given to a request from the City of Ashland for a grant not to exceed \$3,334 as one half of the local sponsor's share of an Airport Master Plan under the Federal Aviation Administration's Planning Grant Program. Mr. Burket mentioned that the Ashland Airport was constructed in 1967 and has experienced rapid growth in based aircraft and operations since 1967. Additional aircraft parking and hangars are needed. The total cost of the plan is \$20,000 with the Federal Aviation Administration furnishing two-thirds of the cost. Upon his favorable recommendation, the Commission approved the request.

MASS TRANSIT DIVISION

Mr. Moore requested authority to submit a final application for \$246,000 from the Urban Mass Transportation Administration (UMTA) for the Elderly and Handicapped Non-Profit Association Capital Equipment Program. Mr. Moore mentioned that the State is administering the program and this year Oregon's allocation from UMTA was \$246,000 in Federal Funds to purchase equipment for private non-profit corporations and associations. The program provides 80% Federal match funds for buses, wheelchair lifts, radios, etc. To meet the deadline date, a preliminary application was submitted April 15, 1975. With the local 20% matching funds, the grant request totals \$307,500. The Commission granted Mr. Moore the authority to submit the application and approved the following list of applications.

<u>REQUESTED</u>	<u>APPLICANT REQUEST</u>	<u>STATE REQUEST</u>
Columbia Co. COS	\$ 30,360.00	\$ 30,360.00
Metro Mobility Inc.	51,902.40	51,902.40
Treasure Valley Opp	15,736.00	15,736.00
Washington Co. SMS	44,098.00	44,098.00
Lincoln Co. COA	6,600.00	6,600.00
Yamhill Co. COA	12,760.00	12,760.00
Mid Will. Valley COA	9,567.92	9,567.92
Clackamas Co. SMS	18,089.38	18,089.38
Sunrise Enterprises	10,188.00	10,188.00
Senior Activity Center	6,160.00	6,160.00
Hood River Workshops	17,056.00	17,056.00
Shangri-La Corp.	7,612.36	7,612.36
Associated Consultants	26,694.58	26,694.58
New Day Enterprises	6,127.47	6,127.47
Willamette Rehab.	13,200.00	13,200.00

(continued on page 920)

<u>REQUESTED</u>	<u>APPLICANT REQUEST</u>	<u>STATE REQUEST</u>
S.C.A.T.	\$ 64,790.00	\$ 31,347.89
Waverly Childrens	6,089.17	
Benton Co. SCC	5,500.00	
Bend Senior Citizens	13,750.00	
Easter Seal	5,700.00	
SUBTOTAL REQUESTS	\$391,981.28	\$307,500.00
 <u>UNRATED</u>		
Rogue Valley COA - Withdrawn	\$150,480.00	
Florence Opp Center - ineligible (non-urban)	16,000.00	
Eastern Oregon Dev. Com - ineligible (intercity)	60,000.00	
TOTAL REQUESTS	\$618,461.28	\$307,500.00

In reply to Commissioner Hollern's request, Mr. Moore explained the evaluation system of the above projects and handed to the Commission a letter with attachments which was sent to potential applicants. (Copy on file in the Commission files.)

MOTOR VEHICLE DIVISION

Mr. Ott reported that fuels tax collections for January and February, 1975, are \$900,000 higher than for the same period in 1974. Registrations through March, 1975, for passenger cars was 68% fewer than for 1974, due to the two-year registration period. Driver's license transactions for January, February, and March, 1975, have increased approximately 9% over the same period in 1974.

DEPARTMENT OF TRANSPORTATION Director's Report - Mr. Baldwin

The Commission set Friday, May 30, 1975, as the date for the next regular meeting.

Stan Ego, Chairman, Highway 20 Committee, and David Crutcher, City Manager of Sweet Home, appeared before the Commission concerning improvement to Highway 20 between Sweet Home and Lebanon in Linn County. Mr. Ego mentioned the traffic density continues to be heavy on this highway especially with log trucks, chip trucks and recreational type vehicles. Mr. Crutcher stated that when the Division's first draft of the 6-year construction program came out for scrutiny by the public last fall, no new construction was scheduled on Highway 20. The meetings that followed gave the Committee, City Council, Chamber of Commerce, Service Clubs and other interested citizens an opportunity to let it be known that some work on Highway 20 should be planned even if money was not

available for the entire project. He pointed out that their testimony at meetings, letters and efforts on behalf of Highway 20 improvement were considered by the Division and an East Unit was included in the proposed 6-year program. He urged construction of the Vail Creek-Sweet Home Section in the spring of 1976, and that this project not be delayed. The Chairman thanked them for appearing and stated that this project is in the Suggested Six-Year Program for the fiscal year 1976-77.

A delegation from Astoria came before the Commission requesting improvements to Highway 30. Present were J. W. Forrester, Jr., Editor of the Daily Astorian; Robert Chopping, Mayor, City of Astoria; George Grove, Manager, Port of Astoria; Don Webster, Chairman of Chamber of Commerce Highway Committee; Ted Blair, Chairman, Chamber of Commerce Tourist Promotion Committee; and Roy Hammond, Manager, Chamber of Commerce.

Mr. Forrester stated good highway transportation is of tremendous importance to the economic development and growth of the Lower Columbia area.

Mr. Chopping said Astoria's greatest hope for growth is based on the future of the Port, industrial sites and tourism. In order for the Port to expand there is a need for industrial property and a good transportation system. He indicated that the citizens of Clatsop County have never been more united than they are at this time. Mr. Chopping presented a 240 lineal foot petition bearing 6,000 signatures asking for major improvements to Highway 30.

George Grove asked for an early start on improvement of the highway between Astoria and Portland. The Port believes there is an urgent need for such action and that the public interest will be served if the improvement to the present substandard highway is accomplished.

Chairman Jackson informed the delegation that the proposed 6-year plan now under consideration contemplates contracting a section of Highway 30 during the Fiscal year 75-76, involving approximately 6½ million dollars. This is contingent upon final approval of the proposed 6-year plan and the availability of funds.

A delegation representing the East-West Highway Committee appeared before the Commission to discuss construction schedules for Highway 42 and the imbalance of highway improvement vs. the highway revenue expenditures in Douglas County in Southern Oregon. Present were Andy Nasburg, Tony Kuhn, Robert Pittam and Representative Ed Stevenson. Mr. Nasburg said their Committee has a study that was prepared by the Coos-Curry-Douglas Economic Improvement Association. The report is entitled "East-West Highway (ORE 42) Economic Analysis, Phase 2, April, 1975." Copies of the report were presented to the Commission and staff. (Copy on file in the Commission's files.)

(continued on page 922)

Mr. Kuhn explained some of the implications, ramifications and some of the facts that are contained in the report. The primary focus of the analysis includes:

- (1) A detailed examination of the physical inadequacies and "Bottleneck" nature of ORE 42.
- (2) An analysis of the extent to which the highway's inadequate status adversely affects commercial, recreational and other traffic using the highway and thereby restrains the economic well-being of the Region.
- (3) An examination of the relationship between the historically underdeveloped bottleneck areas of ORE 42 and the historically compounding adverse economic impacts on the Region.
- (4) An analysis of the relationships between the historical flow of road user fees away from the Southwestern Oregon Region, the continuing inadequacy of ORE 42 and the depressed economic conditions in the Region.
- (5) A response to six questions posed by the Highway Division concerning economic data that the State determined would be required before extensive improvement of ORE 42 could be undertaken.

He asked the Commission to review the report and he stated the Committee is hopeful the information will be useful in making policy decisions.

Representative Ed Stevenson asked the Commission to re-prioritize the improvement projects on Highway 42 to deal with the areas that are causing the most problems as far as bottlenecks for transportation over that Highway and further that the Commission use the study to consider the financing, how it has been used, and the fairness of the distribution of the Highway Fund so that their area can have fair consideration.

Chairman Jackson mentioned that a review of past allocations indicate that the distribution throughout the State has been on an equitable basis. The 6-year plan now under consideration by the Commission involves four major contract areas: Slater Creek, Remote, Mystic Creek, and Camas Valley-Muns Area starting in the fiscal year '75-'76 and ending in '79-'80 involving some \$22,000,000 of funds allocated to Highway 42. If approved by the Commission, it will be subject to the availability of that much money for the next four years.

Mr. Pittam, a member of the Economic Development Commission, said that he was pleased to hear that \$22,000,000 has been allocated to Highway 42. He pointed out that the Oregon coast is nearly 400

miles long from California to Washington. Forty percent of the entire population of that 400 miles lives within a 25-mile radius of the Port of Coos Bay and is dependent on the Port of Coos Bay for its livelihood. He indicated that a group of people from Oregon are in Washington, D.C. today appearing before the House Appropriations Committee asking for funding to deepen the harbor in Coos Bay and this is vital to the whole State of Oregon.

Chairman Jackson thanked the group for their presentation and the report.

Jack Steiwer, Secretary, Oregon Historical Society of Fossil and Millard McClung, Associate Director of the Oregon Historical Society of Portland, appeared before the Commission concerning a proposal for a bicentennial program for permanent marking of Old Oregon Trails and Memorials. He mentioned that the BLM and the U.S. Forest Service have a signing program in honor of the bicentennial. Mr. McClung said this proposal will agument a permanent Statewide program for marking historical or significant sites in the 36 counties and two Indian reservations within the State. A minimum of four and a maximum of six markers per County and Reservation will be installed along Federal, State or County Routes. He requested the Department of Transportation to undertake the installation of 228 signs and stated the Society would present a definite program of the proposal at a later date to the Commission.

The Commission took no action.

The Commission considered approving the Six-Year Construction Program. Mr. Klaboe mentioned that approximately two years ago the Division started developing the Action Plan, which went into effect on November 1, 1974. This plan requires that the State develop in open public meetings and for dissemination to all the public, a program of projects that the Division will be doing in the next several years. He asked Chuck Fredrickson, Region 2 Engineer, to explain what the Division did as far as citizen participation.

Mr. Fredrickson said on October 22 last year the preliminary construction program for a six-year period, including fiscal year 1975, was presented to the Region Engineers and the Region Federal Aid Engineers. This program consisted of a group of proposed projects to take advantage of the anticipated State and Federal highway planning that would be available over this six-year period. This program was then taken to the people through a series of public meetings throughout the State to receive from them their opinions of the proposed projects and their suggestions on changes and projects that they felt should be added or taken from the program. Invitation letters were sent to the public, the subdivisions of government, legislators, councils of government and the Chambers of Commerce. This was done at a series of 32 meetings statewide beginning on November 13, 1974, and was completed on December 16, 1974. He indicated five meetings were held in Region 2. At these meetings, highway personnel explained to the public the projects being considered

for inclusion in this plan, the basic systems and programs in the Federal Aid Law and discussed the anticipated funding levels from the Federal Government and from State revenues. These meetings were advertised through the newspaper, radio and television. The total statewide attendance of these meetings was approximately 1400 people. The response from the public was very beneficial in letting the Division know what the people wanted. As a part of the Action Plan activity, there has been two citizens advisory groups formed to help in planning the proposed projects in location and design phases.

Larry Rulien, Project Management Engineer, explained the Suggested Six Year Construction Program by referring to the booklet. (Copy on file in Commission Files, Salem.)

The Commission gave approval to proceed with projects on the accelerated program for the 1974-1975 fiscal year and authority to proceed with the planning process for the Six Year Construction Program. The Commission deferred action on the Six-Year Plan for another month and at its May meeting will give the Division some direction for the next fiscal year's program (1975-1976) and authority to contract for projects for the 1975-1976 Fiscal Year.

The Chairman adjourned the meeting at 12:47 p.m.

TO: Oregon Transportation Commission

SUBJECT: Report of Confirmation of Telephone Action Under
Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority and acting in accordance therewith for the Commission, I approved the agreement listed below and report this action for your official records.

Agreement with State, Murphy-Pacific Corporation and Adhesive Engineering Corporation facilitating the closing out of Murphy-Pacific's work on the Fremont Bridge Project. Adhesive Engineering Company, as a subcontractor for Murphy-Pacific, installed an epoxy asphalt paving surface on the bridge. This surface has not met specification requirements relating to wearability, although there has been no safety hazard. The balance of the Murphy-Pacific job has been approved, and this contract will permit the release of Murphy-Pacific and its bond by substituting Adhesive Engineering as the sole guarantor of performance of the epoxy asphalt surface. Adhesive Engineering is given two years to demonstrate that its surface does meet specification requirements. Adhesive will post a bond in the amount sufficient to cover the costs of replacement of the surface, if necessary, at the end of the two-year period. (Telephonic approval given to F. B. Klaboe, Administrator and State Highway Engineer, on March 19, 1975, by Chairman Jackson)

- 4) Agreement with City of Salem covering improvement of the Chemawa Road-Hayesville Interchange Section of the Pacific Highway East in Marion County. The City agrees to cooperate with State to effect the adjustment of any utility installations that may be in conflict with the plans. This is a priority primary route eligible for Federal Aid financing. The project is scheduled for contract at the May 22, 1975, bid opening. (County-City Unit)
- 5) Agreement with City of Hillsboro to effect the improvement of the Oak Street-Tenth Avenue Intersection of the Tualatin Valley Highway in Washington County. The agreement stipulates that the City is to obtain the right of way, which has been done, and be responsible for removal of buildings, tanks, structures, and any utility adjustments. It has been suggested that the road work be performed by State forces at an estimated cost of \$19,000. (County-City Unit)
- 6) Agreement with Lane County covering improvement of the Junction City-Airport Road Section of the Pacific Highway West in Lane County. Several County road connections are to be revised and any property outside the access control lines will be transferred to County upon completion of construction. The County has agreed to cooperate with State, in the usual manner, to effect the adjustment of any utility installations that may be in conflict with the plans for the project. (County-City Unit.)
- 7) Letter-form agreement with City of Baker for installation of railroad crossing protection for Campbell Street at the mainline tracks of the Union Pacific Railroad Company (Crossing 2A-241.70). This project is eligible for 90% Federal Aid funding under Section 203 of Title II, Highway Safety Act of 1973. Total estimated cost for the work is \$96,000. City will provide the 10% (\$9,600) matching funds with no expense to State. (County-City Unit)
- 8) Agreement with U.S. Forest Service for snow removal and roadway maintenance by the Highway Division at the snowmobile parking area on Cascade Lakes Highway in Deschutes County. Annual cost of this service is estimated to be \$750. (Region 4 Office)

EXHIBIT A

- 6) The State Transportation Commission executed an agreement dated July 22, 1974 with the City of Medford for assistance in acquisition of properties along the Bear Creek Greenway Project in Jackson County.

The agreement provided "upon acquisition of the land and approval by State of City's title thereto, State shall pay to City \$71,250, subject to the following conditions: The foregoing amount to be paid by State is for a portion of the actual purchase price of land and not for incidental costs for such acquisition, and the amount of such payment by State, regardless of the figure above stated, shall not in any event exceed 25 percent of either the actual purchase price of the land, or the appraised value of the land as approved by State, whichever is the lesser."

This provision of the original agreement needs to be amended to comply with the present funding system as approved by the BOR on incidental expenses they should be allowed. A supplemental agreement has been prepared for amendment to the original agreement. (Parks Branch)

- 7) For the past twenty-two years, the Parks and Recreation Branch has employed several resident boy's crews from the MacLaren School in park projects. It has been a very successful program from the standpoint of training and work experience for the boys and in terms of park projects accomplished.

Our current agreement with MacLaren provides that the boys be paid 75¢ an hour. As a result of recent discussions with school officials, we are now proposing to increase the hourly rate to \$1.00. The total annual increase would be approximately \$10,000. (Agreement is with the Children's Services Division) (Parks Branch)

- 5) Supplemental agreement to the contract with the Exhibigraphics Group for interpretive work along the Old Oregon Trail. It will enable this Utah-based firm to undertake work on this project for the State Highway Division, Parks and Recreation Branch, without having to be registered with the State Corporation Division. This agreement places the consultant under the jurisdiction of the Courts of the State of Oregon should any legal question arise concerning the contract. (Parks Branch)
(From Ontario to The Dalles)
- 6) Letter-form agreement with Jackson County for installation of railroad crossing protection for Ehrman Way at the Siskiyou Mainline tracks of the Southern Pacific Transportation Company, Crossing C-443.90. This project is eligible for 90% Federal Aid funding under Section 230 of Title II, Highway Safety Act of 1973. Total estimated cost of the work is \$45,000. County is to provide the 10% (\$4,500) matching funds; there will be no expense to State. (County-City Unit)
- 7) Letter-form agreement with City of Springfield for installation of railroad crossing protection for Second Street at the Cascade Mainline tracks of the Southern Pacific Transportation Company, Crossing No. CF-620.70, Lane County. This project is eligible for 90% Federal Aid funding under Section 230 of Title II, Highway Safety Act of 1973. Total estimated cost of the work is \$77,000. City will provide the 10% (\$7,700 matching funds); there will be no expense to State. (County-City Unit)
- 8) Cooperative construction finance agreement with City of Portland to provide a left-turn refuge at the intersection of Macadam Avenue and Pendleton Street (Oswego Highway No. 3). The City will provide right of way and install a traffic signal. The State is to perform the necessary road work and striping. Minor Betterment Funds are to be utilized for State's portion of the project. (County-City Unit)

SUBJECT: Confirmation Report of Actions Taken Under
Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approved the following items and report this action for your official records:

- 1) I gave approval to J. B. Boyd on March 26, 1975, for a Memorandum of Understanding with the United States Postal Service concerning the Post Office at Mapleton on the Saunders Creek-Mapleton Section of the Florence-Eugene Highway in Lane County. (File 48243)
- 2) I gave approval to J. B. Boyd on April 10, 1975, to accept the following two options for acquisition of right of way:
File 48011, Robert E. Poole, \$6,300
File 48020, Pauline L. Rilance, \$10,892
- 3) I gave approval to F. B. Klaboe on April 11, 1975, for agreements with the Oregonian and Oregon Journal relating to the rates to be charged for advertising placed by the State in the newspapers. These contracts will save a considerable amount of money in advertising costs.

L-7181 State of Oregon v. Robert G. Cairns: This case was filed in District Court in Multnomah County. It is an FED to get possession of the property and also to collect \$260 in delinquent rent from Mr. Cairns. The defendant has not paid his rent and refused to move from the house owned by the State.

The matter is being handled by the Attorney General's office.

May 30, 1975
Salem, Oregon

The Oregon Transportation Commission held their regular meeting at 10 a.m. in Room 122 of the State Highway Building in Salem, Oregon. Notice of the meeting was made by press release to newspapers of general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Robert L. Mitchell, Secretary
Tom Walsh, Member
Michael P. Hollern, Member
B. Gordon Coleman, Member
George M. Baldwin, Director of Transportation
Sam Haley, Deputy Director
Walt Barrie, Chief Counsel
F. B. Klaboe, Administrator and State Highway Engineer
H. S. Coulter, Assistant State Highway Engineer
John R. Oakes, Assistant Right of Way Engineer
David Talbot, State Parks Superintendent
Paul Burket, Administrator of Aeronautics
Dennis Moore, Administrator of Mass Transit
Chester Ott, Administrator of Motor Vehicles
C. W. Head, Supervisor, Commission Services

There were others present from the Department of Transportation and representatives from the news media.

The Commission approved the minutes of the regular meeting of April 29, 1975.

HIGHWAY DIVISION

A list of properties needed for highway and other uses was presented by Mr. Oakes. He requested the Commission to declare by resolution the necessity of said properties for the public use to which they are to be put and to authorize him to attempt to agree with the owners of said properties as to price. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful and thereupon adopted "Condemnation Resolution No. 2633," which resolution by this reference is made a part hereof and filed in the Commission's files.

Mr. Barrie asked if there were any questions in connection with the informational reports previously submitted to the Commission on cases tried, cases settled and institution of legal proceedings filed against the Department of Transportation since the last Commission meeting. There were no questions. (See Exhibit G on file in the Commission's files, Salem.)

Attention was given to continuing the membership in the National Recreation and Park Association for 1975. Mr. Talbot mentioned that the membership provides participation in a professional organization which offers a voice in Washington for the park and recreation movement which provides research, library and book center services, etc. Following his favorable recommendation, the Commission approved the annual dues in the amount of \$350.

Consideration was given to approving an agreement with the ExhibiGraphics Group of Salt Lake City for the planning and design of interpretive displays for a Visitor Center at Champoege State Park in Marion County. Mr. Talbot stated that the park is one of Oregon's most historic places and the proposed Visitor Center is the State Parks and Recreation Branch's major Bicentennial Project. Under this agreement this group will review and update the existing National Park Service interpretive plan for the Champoege Visitor Center, assist the Highway Division personnel in the design of the building, prepare preliminary and final designs for the interpretive displays, and prepare a design package of plans, working drawings, specifications, and bidding documents ready for bid by prospective displayers. The total cost for services will be \$14,840. Upon his recommendation, the Commission approved the agreement.

The Commission considered relinquishing to the City of Sodaville the Sodaville Springs State Park in Linn County. Mr. Talbot stated the property consists of a square block of land which the State obtained jurisdiction of through a Legislative Joint Resolution in 1947. The site had originally been dedicated for public use in 1871, and it became a City Park when the Legislature granted a charter to the town of Sodaville in 1880. In 1890 the State Board of Control assumed jurisdiction over the park, and continued to contribute toward its maintenance. Following his favorable recommendation, the Commission approved the Relinquishment of Title.

Mr. Talbot presented for the Commission's consideration Notifications of Intent by property owners to make various types of improvements along the Rogue, Agness, and John Day Rivers Scenic Waterways. Mr. Talbot mentioned that the requests have been carefully investigated as to their compliance with the Scenic Waterways Act. The Commission acted on the following requests for reasons as stated in Mr. Talbot's letters to the Commission insofar as their authority under the Scenic Waterways Act is concerned.

- (1) Approved a request from Sundance Expeditions, Inc. to convert a single-family dwelling to part-time headquarters for a commercial guide service and kayak school within the Rogue River Scenic Waterway located adjacent to and downstream from Alameda County Park in River Mile 69, Josephine County.

(continued on page 970)

- (2) Approved preliminary exploration only of a request from Homestake Mining Company for the possible reopening of the Almeda Mine on the Rogue River in Josephine County.
- (3) Approved the concept only from Shirley Shorb to establish a transient public trailer park within the Agness River Community area approximately 100 yards upstream from the Illinois River in Curry County.
- (4) Denied a request from Forrest Solomon to construct a bridge across the John Day River in Township 9 South, Range 19 East, Section 24 between Wheeler and Jefferson Counties. It was the Commission's judgment that a bridge would substantially impair the natural beauty of the scene.

Consideration was given to the Willamette River Greenway Plan as directed by the 1973 Legislature. Mr. Talbot stated the staff recommends approval for the purpose of transmitting to the Land Conservation and Development Commission. The Commission delayed action on this matter until after the delegations. Mr. Ken Johnson, Deputy Director of the Executive Department, was present. Mr. Johnson mentioned that he was representing Governor Straub and stated the Governor supports the staff's recommendation of the plan and for forwarding to the Land Conservation and Development Commission. He indicated the procedure the State has used is proper and this plan has had more opportunity for citizen participation than most of the matters that appear before the Legislature with the hearings, consultant's report, staff review and staff recommendation.

Mr. Klaboe reported on actions taken under delegated authority received for filing with the Commission records. These reports show the actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission files, Salem.)

Chairman of Oregon Transportation Commission	Exhibit A
Vice Chairman of Oregon Transportation Commission	Exhibit B
Administrator and Highway Engineer	Exhibit C
Director of Permits	Exhibit D
Right of Way Engineer	Exhibit E
State Parks Superintendent	Exhibit F
Chief Counsel	Exhibit G

The Commission approved an increase in the project authorization on the following contract as recommended by Mr. Klaboe.

(continued on page 971)

- (1) Donald W. Thompson, Inc., Contract No. 7979, Coos Bay Office Building, Coos County, for \$53,985.24. The increase was due to enlarging the parking lot, construction of a three-bay storage building, installation of gas tanks, pumps and providing an emergency power generator.

The Commission considered approving requests from the Cities of Corvallis, Forest Grove, Portland and the State for Federal Aid Urban System Projects. Mr. Klaboe mentioned that these projects have been investigated and are eligible for Federal funding under the Federal Aid Highway Program. Upon his recommendation, the Commission approved the projects and authorized him to sign the agreements when prepared.

<u>JURISDICTION</u>	<u>SECTION</u>	<u>TOTAL COST</u>	<u>FEDERAL FUNDS</u>	<u>STATE'S SHARE</u>
Corvallis	NW 9th St.-S. Pacific Railroad NE Seavy Ave., FAU 2110	\$ 265,000	\$ 206,700	\$ 29,150
Forest Grove	Gales Cr. Rd. at "E" St. FAU 5020	60,000	46,800	6,600
Forest Grove	Williamina Ave.- Main St. Connec- tor, FAU 5055	50,000	39,000	5,500
Portland	W. City Limits-N. Burr Ave., N. Columbia Blvd., FAU 0944	200,000	156,000	22,000
Portland	N. Oswego Ave.- N. Burr Ave., N. Columbia Blvd., FAU 0944	900,000	702,000	99,000
State	NE Union Ave.-NE 82nd Ave., Columbia River Hwy., FAP 45 (Develop exclusive high occupancy, bus-carpool express lanes on Banfield Freeway)	1,155,000	901,000	254,000
TOTAL NEW PROJECTS		\$2,630,000	\$2,051,500	\$416,250

Attention was given to a request from Wallowa County for a project to replace the Wolfe Creek Bridge over the Lostine River on FAS 32-106 and cancellation of a previously approved project requested by Lake County for the grading portion of the New Idaho School Loop Section on FAS 19-106 and 19-107. Mr. Klaboe stated that Lake County has also requested that the State transfer \$19,971 from their FAS funds to State funds to reimburse the Division for preliminary engineering costs. Following his favorable recommendation, the Commission approved the requests and authorized the Administrator and State Highway Engineer to sign the agreement when prepared:

<u>COUNTY FAS PROJECT</u>			
<u>COUNTY & FAS NO.</u>	<u>SECTION AND DESCRIPTION</u>	<u>PROGRAMMED AMOUNT</u>	<u>STATE'S SHARE</u>
Wallowa 32-106	Lostine River (Wolfe) Bridge Section. Structure and Approaches	\$ 100,000	\$ 11,000
TOTAL NEW PROJECTS		\$ 100,000	\$ 11,000

<u>CANCELLATION OF PROJECT</u>		
<u>COUNTY & FAS NO.</u>	<u>SECTION AND DESCRIPTION</u>	<u>PROGRAMMED AMOUNT</u>
Lake 19-106 & 19-107	New Idaho School Loop Section	\$208,000
TOTAL CANCELLATION		\$208,000

The Commission considered approving a revised policy and procedure for administering the Special City Allotment Program which has the approval of the League of Oregon Cities. Mr. Klaboe pointed out the basic content of the revised policy has not been significantly changed from the previous policy other than the grant portion which has been added at the request of the League to afford the cities the option to administer the project. The purpose of the grant option is to reduce red tape, overhead and engineering expense. Following his favorable recommendation, the Commission adopted the revised policy and procedure to be implemented with the 1977 program. (Copy of Policy and Procedure on file in Commission files.)

Mr. Klaboe presented the following informational report of projects on which bids were taken May 1, 8, 15, 22 and 29, 1975. He mentioned the projects contain an explanation of plans concerning the establishment of footpaths and bicycle trails.

(continued on page 973)

MAY 1, 1975 BID LETTING

- (1) McKenzie River-Willamette River, Pacific Highway, Lane County. Pave and Sign Project.
Footpaths and bicycle trails will not be established under this project as per ORS Chapter 366, Section 2, subsection 2(b), which states that "Footpaths and trails are not required to be established...if the cost of establishing such paths and trails would be excessively disproportionate to the need or probable use."
- (2) Anlauf Interchange-Elkhead Road Interchange, Pacific Highway, Douglas County. Grade, Pave and Guardrail Project.
Same as No. 1.
- (3) Tongue Point-Fern Hill, Lower Columbia River Highway, Clatsop County. Grade and Pave Project.
Same as No. 1.
- (4) Doherty Slide Section, Warner Highway, Lake County. Rock Production Project.
Footpaths or bicycle trails are not incorporated in this project as no new highway construction, reconstruction or relocation is involved.
- (5) Spray Section, John Day Highway, Wheeler County. Rock Production Project.
Same as No. 4.
- (6) Seneca Section, John Day-Burns Highway, Wheeler County. Rock Production Project.
Same as No. 4.

MAY 8, 1975 BID LETTING

- (1) Elkhead Road Interchange-Rice Hill, Pacific Highway, Douglas County. Grade, Pave and Sign Project.
Footpaths and bicycle trails will not be established under this project as per ORS Chapter 366, Section 2, subsection 2(b), which states that "Footpaths and trails are not required to be established...if the cost of establishing such paths and trails would be excessively disproportionate to the need or probable use."
- (2) Glendale Junction-N. Wolf Creek Interchange, Pacific Highway, Douglas and Josephine Counties. Grade, Pave and Sign Project.
Same as No. 1.

(continued on page 974)

- (3) Neil Creek Section, Pacific Highway, Jackson County. Grade and Pave Project.
Same as No. 1.
- (4) Mitchell Point-E. Hood River Interchange, Columbia River Highway, Hood River County. Pave and Sign Project.
Same as No. 1.
- (5) Pleasant Hill and Rattlesnake Road, Willamette Highway, Lane County. Grade and Pave Project. Bicycle trails will not be included as the project consists of minor grading and surfacing to obtain a left-turn refuge.
- (6) Cecil Section, Heppner Highway, Morrow County. Rock Production Project. Footpaths or bicycle trails are not incorporated in this project as no new highway construction, reconstruction or relocation is involved.
- (7) Paulina Section, Paulina Highway, Crook County. Rock Production Project.
Same as No. 6.

MAY 15, 1975 BID LETTING

- (1) N. Wolf Creek Interchange-Sunny Valley Interchange, Pacific Highway, Josephine County. Grade, Pave and Sign Project. Footpaths and bicycle trails will not be established under this project as per ORS Chapter 366, Section 2, subsection 2(b), which states that "Footpaths and trails are not required to be established...if the cost of establishing such paths and trails would be excessively disproportionate to the need or probable use."
- (2) Siskiyou Safety Rest Area, Pacific Highway, Jackson County. Improvement and Sewer Project. Footpaths or bicycle trails are not incorporated in this project as no new highway construction, reconstruction or relocation is involved.
- (3) Fifteenmile Creek-Celilo, Columbia River Highway, Wasco County. Grade, Pave and Sign Project.
Same as No. 1.
- (4) St. Johns Bridge-N.W. 31st Avenue, Columbia River Highway, Multnomah County. Pave Project.
Same as No. 1.

(continued on page 975)

- (5) Sage Hen Hill-Hines, Central Oregon Highway, Harney County. Grade and Pave Project. Same as No. 1.
- (6) W. Illinois Street at N. Main Street (Newberg), Yamhill-Newberg Highway, Yamhill County. Grade, Pave and Sign Project. Same as No. 1.
- (7) M.P. 102.0-Otis Junction, Oregon Coast and Salmon River Highways, Tillamook and Lincoln Counties. Guardrail and Signing Project. Same as No. 2.
- (8) Pacific Highway East at Union Street N.E. (Salem), Marion County. Traffic Signal Project. Same as No. 2.
- (9) Pine Grove-Wapinitia Road, Wapinitia Highway, Wasco County. Grade, Pave and Structure Project. Same as No. 1.
- (10) Canby (Elm and Grant Streets), City Streets, Clackamas County. Grade and Pave Project. Same as No. 1.
- (11) Government Camp Section, Mt. Hood Highway, Clackamas County. Rock Production Project. Same as No. 2.

MAY 22, 1975 BID LETTING

- (1) Goshen Interchange-Cottage Grove, Pacific Highway, Lane County. Grade, Pave, Guardrail and Sign Project.
Footpaths and bicycle trails will not be established under this project as per ORS Chapter 366, Section 2, subsection 2(b), which states that "Footpaths and trails are not required to be established...if the cost of establishing such paths and trails would be excessively disproportionate to the need or probable use."
- (2) North Oakland Interchange, Pacific Highway, Douglas County. Grade, Pave, Structure and Sign Project. Same as No. 1.
- (3) E. Hood River Interchange-Rowena, Columbia River Highway, Hood River and Wasco Counties. Grade, Pave and Sign Project. Same as No. 1.

(continued on page 976)

- (4) Necanicum Highway Junction-Brighton, Oregon Coast Highway, Tillamook County. Grade and Pave Project.
Same as No. 1.
- (5) Barkley Springs-Algoma, The Dalles-California Highway, Klamath County. Grade, Pave and Shoulder Barrier Project.
Same as No. 1.
- (6) Lancaster Drive S.E.-Deer Park Drive S.E., North Santiam Highway, Marion County. Pave Project.
Same as No. 1.
- (7) N.W. Park Avenue-N.W. Second Avenue (Portland), W. Burnside Street, Multnomah County. Grade, Pave, Signals and Landscape Project.
Same as No. 1.
- (8) Neawanna Creek (Sundquist) Bridge, FAS 607, Clatsop County. Structure Project.
Same as No. 1.
- (9) Region I Area Safety Project, 6 Highways, 4 Counties. Attenuators, Guardrail and Sign Projects.
Footpaths or bicycle trails are not incorporated in these projects as no new highway construction, reconstruction or relocation is involved.
- (10) Salem, Hubbard Area Safety Projects, 4 Highways, Marion and Polk Counties. Attenuator, Guardrail and Sign Projects.
Same as No. 9.
- (11) Corvallis, Albany, Lyons Area Safety Projects, 5 Highways, Benton and Linn Counties. Guardrail, Sign and Illumination Projects.
Same as No. 9.
- (12) Lower Columbia River Highway at Columbia Avenue, Columbia County. Traffic Signal Project.
Same as No. 9.
- (13) Santiam Junction Section, 4 Highways, Linn, Lane and Marion Counties. Rock Production Project.
Same as No. 9.
- (14) Odell Lake Section, Willamette Highway, Klamath County. Rock Production Project.
Same as No. 9.

(continued on page 977)

- (15) Elgin Section, Weston-Elgin and Wallowa Lake Highways, Union County. Rock Production Project. Same as No. 9.
- (16) Enterprise Section, Enterprise-Lewiston Highway, Wallowa County. Rock Production Project. Same as No. 9.

MAY 29, 1975 BID LETTING

- (1) Seven Oaks-S. Ashland Interchange, Pacific Highway, Jackson County. Grade, Pave and Sign Project.
Footpaths and bicycle trails will not be established under this project as per ORS Chapter 366, Section 2, subsection 2(b), which states that "Footpaths and trails are not required to be established...if the cost of establishing such paths and trails would be excessively disproportionate to the need or probable use."
 - (2) Celilo-Rufus, Columbia River Highway, Wasco and Sherman Counties. Grade, Pave and Sign Project. Same as No. 1.
 - (3) Ruch Section, Jacksonville Highway, Jackson County. Grade and Pave Project. Same as No. 1.
 - (4) Riley-Lake County Line (M.P. 5.3-15.5), Lakeview-Burns Highway, Harney County. Grade and Pave Project. Same as No. 1.
 - (5) Irrigon Junction-Washington State Line, Columbia River Highway, Morrow and Umatilla Counties. Guardrail Project.
Footpaths or bicycle trails are not incorporated in this project as no new highway construction, reconstruction or relocation is involved.
 - (6) Beaver Creek Bridge, Oregon Coast Highway, Lincoln County. Grade, Pave and Structure Project. Same as No. 1.
 - (7) Meacham Section, Old Oregon Trail, Umatilla County. Rock Production Project. Same as No. 5.
-

Following Mr. Klaboe's favorable recommendation, the Commission established the following speed zones:

- (1) 45 MPH speed zone on the Umpqua Highway No. 45 from 0.18 mile west of Wells Creek (M.P. 18.87) to 0.18 mile east of Wells Creek (M.P. 19.23) through the community of Greenacres in Douglas County.
- (2) 50 MPH speed zone on the Lower Columbia River Highway No. 2W in Multnomah County from a point 0.17 mile southeast of Burlington Drive (M.P. 12.42) to 0.10 mile northwest of Cornelius Pass Road (M.P. 13.32), except that the designated speed shall be 20 MPH when children are present from McNamee Road (M.P. 13.03) to 250 feet southwest of Cornelius Pass Road (M.P. 13.17).
- (3) 50 MPH speed zone in the community of Deer Island on the Columbia River Highway No. 2W in Multnomah County from a point 0.3 mile south of Canaan Road (M.P. 33.89) to 0.26 mile north of Canaan Road (M.P. 34.45).
- (4) Temporary construction speed zone on the Columbia River Highway (Banfield Freeway) in the City of Portland as follows: 45 MPH from N.E. Union Avenue (M.P. 0.46) to a point 0.26 mile east of N.E. 82nd Avenue (M.P. 5.27). This speed zoning is to be in effect only on those sections where signs are in place and only for the duration of the construction project for the high-occupancy vehicle lanes project.

The Commission considered prohibiting parking on the Cascade Highway North from S.E. Duke to S.E. Lambert Streets (82nd Avenue) in the City of Portland. Mr. Klaboe stated that the removal of parking is required for the installation of a continuous two-way left-turn lane. The City will care for the parking prohibitions inside the city limits and the State outside the city limits. The left-turn lane will provide safer traffic conditions and the warrants for parking prohibitions are met. The Commission approved the parking prohibitions as follows:

On the west side of the highway from S.E. Duke Street (M.P. 6.24) to S.E. Flavel Street (M.P. 6.73). On both sides of the highway from S.E. Flavel Street (M.P. 6.73) to S.E. Lambert Street (M.P. 6.86).

Consideration was given to approving an agreement and adopting a resolution rescinding "Survey Resolution No. 213" of June 3, 1960, on the Hermiston-Hinkle Section of the Hermiston Highway in Umatilla County and the City of Hermiston. Mr. Klaboe

mentioned that the City considers the route adopted for relocation as detrimental to the growth of the community and it also restricts the expansion of the Hinkle railroad yards. Upon his recommendation, the Commission approved the agreement and adopted "Survey Resolution No. 213C", rescinding "Survey Resolution No. 213". Mr. Klaboe was authorized to sign the agreement when prepared.

Consideration was given to an agreement with Jackson County for the realignment of Lozier Lane (a county road) to form a cross-type intersection with the Jacksonville Highway and Ross Lane (a county road) and the installation of traffic signals at this intersection. Mr. Klaboe stated the agreement provides the State shall do all the work on the project and maintain the traffic signal and the roadway within the highway right of way. The County will be responsible for all power consumed. The cost of the project is to be shared equally which is estimated at \$80,000 including the right of way. The State's cost to be charged to Region Minor Betterment Funds. The Commission approved the agreement as recommended by Mr. Klaboe.

Attention was given to an agreement with the City of Scappoose covering the installation of a traffic signal at the intersection of the Columbia River Highway and Columbia Avenue in Columbia County. Mr. Klaboe mentioned that the State will prepare all plans and perform the work. The total cost of the project is estimated to be \$51,000 to be borne by the State and charged to Bond Funds. The State will maintain the traffic signal and the City will pay for all power consumed. Following his recommendation, the Commission approved the agreement.

The Commission considered approving an agreement with Clatsop County for traffic signals at the intersection of Oregon Coast Highway and Avenue "U" near Seaside. Mr. Klaboe said the agreement provides that the State shall do the work and pay installation costs estimated at \$30,000 (State Bond Project). The State will maintain the traffic signals and the County will pay for power consumed. The Commission approved the agreement as recommended by Mr. Klaboe.

Attention was given to Supplemental Agreement No. 3 with the Oregon Graduate Center for Study and Research extending the completion date of Supplemental Agreement No. 2 to April 1, 1975. Mr. Klaboe stated that this study is to determine the relative contribution of transportation sources to the ambient air concentrations of gaseous and particulate pollutants. There would be no additional costs to the State and he recommended approval. The Commission accepted his recommendation.

The Commission considered an agreement with CH2M-Hill, Inc. to prepare the final environmental impact statement and technical appendix on the I-505 project in the City of Portland. Mr. Klaboe pointed out that there are not sufficient personnel at the present time within the Division to perform this study in a timely manner. The cost is \$106,082.87 which will be funded from

the Interstate Highway preliminary engineering funds. Following his favorable recommendation, the Commission approved the supplemental agreement.

Consideration was given to an agreement with Howard, Needles, Tammen and Bergendoff covering the Salem Bridge Project Draft Environmental Impact Statement in Marion and Polk Counties. Mr. Klaboe stated that the consultant is requesting an additional \$33,050 to complete the work on this contract, and to extend the agreement for a completion date of July 1, 1975. The Commission approved the agreement as recommended by Mr. Klaboe.

The Commission gave consideration to temporarily amending "Through Highways and Stop Signs Resolution No. 13" dated September 21, 1949. Mr. Klaboe said it is necessary to revise the stop indications on the Corvallis-Newport Highway due to construction of the Gellatly Summit-Wren Section in Benton County. To facilitate the movement of traffic on a detour, he recommended that the "Through Highways and Stop Signs Resolution No. 13" be amended as follows:

On the Corvallis-Newport Highway No. 33:

At the intersection with Priest Road (M.P. 44.53), west-bound traffic on the Corvallis-Newport Highway shall be required to stop. Traffic entering the Corvallis-Newport Highway from Priest Road shall not be required to stop.

Eastbound traffic on the Corvallis-Newport Highway at the Kings Valley Highway (M.P. 45.53) shall be required to stop. Traffic entering the Corvallis-Newport Highway from the Kings Valley Highway shall not be required to stop.

This temporary amendment shall be in effect only when the detour is required during the life of the construction project and only when appropriate signs are installed.

The Commission accepted his recommendation.

Mr. Klaboe requested the Commission to adopt the Six-Year Program and to approve the projects listed for Fiscal 1976 for construction. He also requested approval to do all the necessary work on the remaining five years of the program to bring these projects up to a position where they are ready to contract. The Commission approved the requests. *

Upon the recommendation of Mr. Klaboe, the Commission added the Burnt Woods-Dudley Hill Section of the Corvallis-Newport Highway to the Primary Rural Program and deleted the Austin Road Interchange Section of the Sunset Highway from the Urban Extension Program. *(Copy of Six-Year Construction Program (Blue Cover) January 1975 to June 30, 1981 on file in the Commission files.)

The Commission considered approving the guidelines for implementing the Off System Roads Program as established in the 1974 amendments to the 1973 Highway Act. Mr. Klaboe said that this provides that funds may be expended for improvements on roads that are not on any Federal Aid System and are located in a rural area under the jurisdiction of and maintained by a public authority. Oregon's fiscal 1976 apportionment for this new system is \$4,678,615. In consulting with staff representatives of the League of Oregon Cities and the Association of Oregon Counties, the Division has developed suggested interim guidelines for expenditure of these funds under this program. Upon his recommendation, the Commission approved the procedural guidelines. (Copy of Guidelines on file in the Commission's files, Salem.)

The Commission considered assisting Tri-Met in the Portland Metropolitan area for construction of a temporary transit bus service and storage facility within the I-205-Mt. Hood Highway Interchange in Portland (I-205 at Powell Boulevard). Mr. Klaboe said this would cover the construction of a 100' x 320' maintenance service building, paving of bus parking area, security fencing, illumination and landscaping. He indicated this will be a nonhighway public mass transit project which will use General Funds in lieu of Federal Aid Urban System Funds. Oregon's Urban System funds will be reduced by \$1,731,900 and the project will be developed with General Funds under Urban Mass Transit Administration Capital Grant procedures. Following Mr. Klaboe's favorable recommendation, the Commission approved the project.

Attention was given to an agreement with the City of Roseburg and Kaiser Aetna covering installation of a traffic signal on the Oakland-Shady Highway (North Stephens Street) at the Kaiser Aetna Shopping Center in Roseburg. Mr. Klaboe stated that the agreement provides that the State will do the work with its own forces. The estimated cost of the project is \$28,000 which will be paid by Kaiser Aetna. After completion of the project the State will maintain the signals and the City will pay for all power consumed. The Commission approved the agreement as recommended by Mr. Klaboe and authorized him to sign it.

AERONAUTICS DIVISION

Mr. Burket reported that a public hearing is scheduled for June 23, 1975, on the adoption of Temporary Administrative Rule 1 OTC 52 as a permanent rule concerning financial aid to municipalities program rules and procedures.

Following Mr. Burket's recommendation, the Commission approved requests for financial aid to municipalities grants as follows:

(continued on page 982)

- (1) To the City of Ashland for purchase and installation of two visual approach slope indicators. Total cost of project is \$2,354.95 with the amount of the grant \$1,000.
- (2) To the City of Roseburg an amount not to exceed \$17,720 which is 50% of the cost of slurry sealing the pavement on the runway, taxiway and aircraft parking areas, and painting the required markings on these areas.
- (3) To the City of La Grande an amount not to exceed \$1,583 as one-half of the local sponsor's share of an environmental impact study for the La Grande Municipal Airport. The total cost of the study is \$9,500 with the Federal Aviation Administration furnishing \$6,333. Also an amount not to exceed \$28,072 for an Airport Development Aid Program project with a total cost of \$341,100. The Federal Aviation Administration will participate in an amount of \$284,072 and the City will match the amount of this request. Total funds requested by the City are \$29,655.

MASS TRANSIT DIVISION

Upon the recommendation of Mr. Moore, the Commission approved the procedures now being followed by the Mass Transit Division concerning applications for the Rural Highway Public Transportation Demonstration Program. (Copies of the procedures were mailed to the Commission for review on May 23, 1975. Copy on file in the Commission's files, Salem.)

MOTOR VEHICLE DIVISION

No report.

DEPARTMENT OF TRANSPORTATION
Director's Report - Mr. Baldwin

The Commission set Monday, June 30, 1975, as the date for the next regular meeting.

DELEGATIONS

Representative Jack Sumner representing the Estacada area appeared before the Commission concerning Highway 224 between Eagle Creek and Clackamas in Clackamas County. Representative Sumner urged improvement of this curvy, narrow, heavily traveled highway. He then introduced Mr. Terry McCauley, Estacada Chamber of Commerce. (There were approximately 20 other people present from the Estacada area.) He said the population has increased in the Estacada and Eagle Creek areas and the highway is being used more and more by commuters and for recreational purposes. He suggested a corridor from Rock Creek towards Damascus then southeasterly to the Eagle Creek area. Chairman Jackson informed the delegation that the Commission is aware of the need for improvement of this highway and would investigate the route suggested. The improvement of this highway is dependent on the availability of funds. Mr. McCauley presented copies of his report to the Commission. (Copy on file in Commission's files, Salem.)

Mr. Andy Nasburg, Chairman of the East-West Highway Committee, and others were present. Mr. Nasburg stated their committee has studied the Six-Year Construction Plan and notes that the projects on Highway 42 between Remote and Muns Creek are included. He indicated the Committee recognizes there are a number of deficient miles on this highway that need upgrading, but this section is the worst portion. He suggested that the next most important project is the China Marsh-Coquille re-route section. Mr. Nasburg commended the Commission for adopting the plan. He said their group will continue to provide public input at future hearings.

A delegation came before the Commission concerning the Willamette River Greenway plan. John Blake, Acting Chairman, Green Rights Association of Gervais, stated he operates the Beaver Island farm at Wheatland Ferry. A group of landowners along the river have formed an association to distribute factual information so they could understand and participate in the development of the Greenway. He indicated individuals in their association spent many hours of input to help develop the Greenway which all of the landowners could live with.

Mr. Blake mentioned it was the group's understanding the end product was to be a large preliminary plan book and some additional input might be added by city and county officials as a result of the last special meeting. He said it was their understanding that the Parks staff made some modification of the preliminary plan which is being submitted to the Commission today for submission to the LCDC. The question is what authority was the plan revised?

(continued on page 984)

A petition was submitted by Mr. Blake signed by 115 individuals which states "We the undersigned property owners and/or residents and/or operators in North Marion County do hereby wish to express our belief that the revised Willamette River Greenway plan is unacceptable and unworkable because of its many flaws, its violation of the LCDC rules and their guidelines 2, 3, and 4 and its lack of consideration of the river, its banks and the communities along them. We, in our opinion, do believe that the understandings of December 11 and 12, 1974, did make a much better plan if carried out to its completion but find the revised plan is completely unacceptable in its present form."

Bob Potter said it has been the Staff's position from the beginning that the Division is not producing a second or alternate plan but simply continuing the refinement of the preliminary draft published last November. Both books must be studied together if the proposed plan is to be understood.

Mrs. Liz VanLeeuwen of Halsey stated the plan should have been approved by the Commission last fall. She stated that the three major changes from the first plan to the revised plan is change of the scenic easement concept, change in local jurisdiction and change in farm use definition. She indicated it was time for the Department of Transportation and the Green Rights Association to start working together and urged that the first plan be submitted to LCDC for approval. She stated if the revised plan was submitted to LCDC, this would destroy the faith of the public and many legislators.

Mrs. Roy Hathaway of Corvallis referred to page 35 of the plan of which her farm land is colored as an area of critical concern described as being public use potential. She said she objects to her farm being designated as such. Mrs. Hathaway presented pictures which shows her land as being farmed. She said most of Centennial Island has been farmed for more than 15 years. She also presented maps showing the middle channel of the Willamette and adjacent land. (Pictures and maps on file in Commission's files.) (See page 986 for additional speaker concerning the WRG plan.)

There was considerable discussion between the Commission and the Chief Counsel. Chairman Jackson informed the group the Commission would defer action on this matter until after lunch.

A delegation of approximately 25 people from Newport and Lincoln County appeared before the Commission concerning improvement to Highway 20 between Newport and Corvallis. (Representative Max Rijken was unable to be present as he was called out of town.)

Mel Preisz, President, US 20 Association, thanked the Commission for the Wren Junction-Gellatly Canyon and Gellatly Canyon-Blodgett Section projects now under construction. He requested the

Commission to reinstate the Coast Range Summit to Burnt Woods Section on the Six-Year Construction Program. He mentioned that the Georgia-Pacific Corporation of Toledo has a large installation and is shipping 10-12,000 loads of chips over Highway 20 each year and with their new paper machine, trucking will increase. It's almost certain that the Northwest Natural Gas Company will install a liquefied natural gas plant in the Newport area which will generate additional traffic on this highway. He pointed out several dangerous curves, especially Cline Mountain as being one of the worst sections.

He read a letter from Donald Davis, City Manager of Newport, to the Department of Transportation. The letter pointed out that it's an economic necessity for the Newport area that the reconstruction of US20 between the Willamette Valley and Newport be kept on an accelerated schedule until the remaining 30 miles of highway is brought up to modern highway standards.

Mr. Preisz suggested that the Division construct pullout areas for the safety of the motoring public. (See page 986 for additional speakers.) Chairman Jackson acknowledged the need for improvement of this highway and he indicated that funding is the big problem.

A delegation from the Chambers of Commerce of Tillamook County and Pacific City and the Hang Gliders Association appeared before the Commission regarding hang gliding. Mr. Jack Madison introduced Mr. John Bamford, President of Oregon Hang Gliders. Mr. Bamford mentioned that they want to establish a better line of communication into their Association and the Department of Transportation to better solve their flying site needs. National membership in the Association has grown from 118 in 1972 to approximately 20,000. The growth rate is estimated at 1,000 per month. He said their group has been unable to find a suitable site which property owners and officials will allow flying. The Association has had fine cooperation from the Department of Transportation and the Parks Branch concerning usage of Cape Kiwanda. However, the usage of Cape Kiwanda in the rules and regulations that have been presented for the Cape are acting as a temporary hindrance to the growth of the sport. He estimated that there are 700 hang glider owners in the State at this time. The safety record has been fairly good but the present growth rate without cooperation and direct line of communication with the State, it is felt the lives of potential hang gliders coming into the sport will be in danger.

Dick Wade, Accident Prevention Chairman of the Association, said Cape Kiwanda is the number 1 basic flying site in the State, especially for beginners. In order to prevent accidents there is a need to direct the people to other locations for safe flying. The Association has looked at a location which would be good for the intermediate and advanced flyers located on the south side of Netarts Bay. This site would take the influx of flyers that are accumulating at Cape Kiwanda.

(continued on page 986)

Mr. Bob Wilkins, President of Pacific City Chamber of Commerce, requested that the hang gliders be allowed to use the south side of Cape Kiwanda as it would be a good tourist attraction. He mentioned a letter from Representative Paul Hanneman also favoring the use of the south side by hang gliders. (Letter on file in Commission's files.)

Mr. Talbot informed the delegation that the proposed rules to allow hang gliding at Cape Kiwanda will be considered by the Commission at their next meeting.

Chairman Jackson recessed the meeting at 12:30 p.m. for lunch.

The Chairman reconvened the meeting at 1:45 p.m. and called on several people that did not have an opportunity to speak at the morning session.

Highway 20 Delegation:

Mr. Jack Postle, Lincoln County Commissioner, mentioned that there are 35 State Parks in Lincoln County not counting parcels of State property for future parks. The County is in favor of these parks as they do bring in tourists. At the present time, Lincoln County's population is 26,000. In the summer the population increases between 200 and 300,000. There is need to have a better highway between Newport and Philomath.

Gene Magee, Executive Director of the Oregon Coast Association, stated several years ago their group moved their top priority from the improvement of Highway 101 to the improvement of connecting links from the valley to the coast. The Association requests that all of these east-west highways be placed as high as possible on the State's priority list.

Matt Spellman of Newport also asked improvement of Highway 20.

Willamette River Greenway Plan Delegation:

Ron Blodgett of Wilsonville requested the Commission not accept the small revised version of the Willamette Greenway plan. He suggested the original plan be sent to the LCDC or instruct the State Parks staff to work with a group of citizens to iron out the problem areas in the revised edition before the Commission takes any action. He felt that the revised plan violates ORS 390.318 in that it had not been presented to the local units of government that have lands along the Willamette River.

Chairman Jackson stated the Willamette River Greenway responsibility was placed in the Department of Transportation by an act of Legislature. This matter has been gone over many times

within the Department with the Commission, legal staff and with those at the Legislative level who have been the leaders in the development of this plan through the Legislature. The Commission will look into this matter and will make a final decision at the June meeting of the Commission.

Chairman Jackson adjourned the meeting at 2:05 p.m.

DATE 5-20-75

- (4) Construction agreement with Jackson County providing for realignment of the Poormans Creek Bridge Section of the Jacksonville Highway. The County agrees to cooperate in the adjustment of utilities and concurs with State's recommendations for road closures. Forest Creek County Road will be revised slightly to provide a safer connection to the highway. It is planned that 1974 Bond Program funds will be used to finance construction of this project. (County-City Unit)
- (5) Agreement with Umatilla County providing for State to remove snow from the Lehman Hot Springs County Road for approximately one mile after snow is removed from the adjacent state highway. Records to be kept of expenses incurred for reimbursement to State by County. (County-City Unit)
- (6) Agreement with Polk County providing for construction of the Ritner Creek Bridge which rescinds an earlier agreement on Pedee-Ritner Creek Section no longer valid and provides for contribution by State of \$15,000 toward relocation and repair of the existing covered bridge for recreational purposes by County. (County-City Unit) (Kings Valley Highway)
- (7) Letter-form agreement with the City of Lake Oswego for installation of railroad crossing protection for SW Lower Boones Ferry Road at the Newberg Branch tracks of the Southern Pacific Transportation Company, Crossing P-763.60. This project is eligible for 90% Federal Aid funding under Section 203 of Title II, Highway Safety Act of 1973. Total estimated cost for the work is \$48,000. City will provide the 10% (\$4,800) matching funds with no expense to State. (County-City Unit)
- (8) Letter-form agreement with the City of Lake Oswego for installation of railroad crossing protection for SW Lower Boones Ferry Road at the Tillamook Branch tracks of the Southern Pacific Transportation Company, Crossing PD-747.90. This project is eligible for 90% Federal Aid funding under Section 203 of Title II, Highway Safety Act of 1973. Total estimated cost for the work is \$50,000. City will provide the 10% (\$5,000) matching funds with no expense to State. (County-City Unit)
- (9) Letter-form agreement with the City of Eugene for installation of railroad crossing protection for Roosevelt Blvd. at the Beaverton-Eugene Branch tracks of the Burlington Northern Railroad, Crossing No. 3E-140.40. This project is eligible for 90% Federal Aid funding under Section 203 of Title II, Highway Safety Act of 1973. Total estimated cost for the work is \$55,000. City will provide the 10% (\$5,500) matching funds with no expense to State. (County-City Unit)
- (10) Agreement with the Travel Information Council providing for the repayment by the Council of funds previously advanced or to be advanced by the Highway Division for the installation of LOGO backboards on the Interstate system and the installation of LOGO's on those backboards. The agreement provides that the Council will pay all monies to be borrowed after the date of this agreement no later than July 1, 1977, and if funds are available, to also pay back monies already advanced by the same date. Dated this 6th day of May, 1975.

J. B. BOYD, Right of Way Engineer

Re: Report of Offers Tendered - 14

REPORT OF ACTION UNDER DELEGATED AUTHORITY BY
STATE PARKS SUPERINTENDENT

NO REPORT

REPORT OF CONDEMNATION CASES SETTLED

Defendant	State's Offer	State's Highest Appraisal	Amount of Settlement
Rex Kessinger L-7153 R-44380 & 44381 Section: Siletz River Bridge Highway: Oregon Coast County: Lincoln Approved by: Walter L. Barrie	\$5,000 (partial)	\$14,750	\$36,500
		Date: May 13, 1975	
Gilman D. Duffy L-6885 R-47260 Section: Sanderson Bridge Highway: Albany-Lyons County: Linn Approved by: Walter L. Barrie	\$3,350	\$8,000	\$11,000
		Date: May 14, 1975	
J. A. West L-6968 R-46047 Section: North Tigard Interchange-Hubbard Interchange Highway: Pacific County: Washington Approved by: Walter L. Barrie	\$ 120 revised to \$1,200	\$1,200	\$ 2,000
		Date: May 9, 1975	

REPORT OF CONDEMNATION CASES SETTLED

Defendant	State's Offer	State's Highest Appraisal	Amount of Settlement
Bonita J. Balzhiser L-7118 R-48167 Section: Redmond-Bend Highway: The Dalles-California County: Deschutes	\$ 50		Dismissed
Glenn Lee Hilyard L-6554 R-44999 Section: Patterson Street, Klamath Falls-Malin Junction Highway: Klamath Falls-Lakeview County: Klamath	\$2,350		Dismissed
Don Kenyon L-6678 R-45127 Section: Patterson Street, Klamath Falls-Malin Junction Highway: Klamath Falls-Lakeview County: Klamath	\$1,000		Dismissed
Martha Rapp L-7127 R-44149 Section: N.E. 60th Avenue-N.E. Sandy Boulevard Highway: Northeast Portland County: Multnomah	\$ 650		Dismissed

(The above cases were settled by the Right of Way Department.)

REPORT OF SETTLEMENT OR DISPOSITION OF CASES OTHER THAN CONDEMNATION

<u>Plaintiff</u>	<u>Defendant</u>	<u>Cause of Action</u>	<u>Demand of Plaintiff</u>
Nancy Grant L-7165 U.S. District Court	Gary Sund, et al.	Injunction and damages - unlaw- ful employment practices	Order, Back Wages & Damages

Disposed of by: Settlement of \$3,000.00.

REPORT OF TRIAL OF OTHER CASES - State Plaintiff

<u>Defendant</u>	<u>Cause of Action</u>	<u>Demands of Plaintiff</u>	<u>Verdict or Judgment</u>
Thomas Gaither L-7106	Property Damage	\$349.67	\$349.67
Attorney Fees: \$150.00 County: Multnomah		Court Costs: \$32.30	

REPORT OF CASES FILED BY AND AGAINST THE DEPARTMENT OF TRANSPORTATION

L-7191 Edgar D. Wize v. David C. Oliver, et al: In the purchase of property for Dexter Dam State Park the State also acquired a mortgage by assignment. There was a mortgage foreclosure suit already filed and the State will dismiss the case without prejudice.

L-7194 Ervin E. Johnson and Inez M. Johnson v. State of Oregon: This is a suit for declaratory decree to eliminate a use restriction on land adjacent to highway right of way which was acquired in 1948. The plaintiff seeks a decree voiding the use restriction. The defense of the matter will be handled by the Attorney General's office. This case was filed in Lane County.

L-7204 The Berman Corporation v. State of Oregon: This is an inverse condemnation in the amount of \$20,342.97 for alleged taking of the plaintiff's use of highway and frontage road on the Garden Valley Road-Fairgrounds Road Section of I-5. The defense of the case will be handled by the Attorney General's office.

June 30, 1975
Salem, Oregon

The Oregon Transportation Commission held their regular meeting at 10 a.m. in Room 122 of the State Highway Building in Salem, Oregon. Notice of the meeting was made by press release to newspapers of general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Robert L. Mitchell, Secretary
Tom Walsh, Member
Michael P. Hollern, Member
B. Gordon Coleman, Member
George M. Baldwin, Director of Transportation
Sam Haley, Deputy Director
Mary Deits, Assistant Attorney General
F. B. Klaboe, Administrator and State Highway Engineer
A. E. Johnson, Deputy State Highway Engineer
J. B. Boyd, Right of Way Engineer
David Talbot, State Parks Superintendent
Paul Burket, Administrator of Aeronautics
Dennis Moore, Administrator of Mass Transit
Chester Ott, Administrator of Motor Vehicles
C. W. Head, Supervisor, Commission Services

There were others present from the Department of Transportation and representatives from the news media.

The Commission approved the minutes of the regular meeting of May 30, 1975.

HIGHWAY DIVISION

A list of properties needed for highways and other uses was presented by Mr. Boyd. He requested the Commission to declare by resolution the necessity of said properties for the public use to which they are to be put and to authorize him to attempt to agree with the owners of said properties as to price. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful and thereupon adopted "Condemnation Resolution No. 2634," which resolution by this reference is made a part hereof and filed in the Commission's files.

The Commission considered a request from Coos County for a connection for a County Road known as Kadora Drive, on the easterly side of the Oregon Coast Highway in the vicinity of Hauser north of North Bend in Coos County. Mr. Boyd mentioned that this is a standard road approach permit, 50 feet in width and located at Station 49+32. Following his favorable recommendation, the Commission approved the request.

Mary Deits asked if there were any questions in connection with the informational reports previously submitted to the Commission on cases tried, cases settled and institution of legal proceedings filed against the Department of Transportation since the last Commission meeting. There were no questions. (See Exhibit G on file in the Commission's files, Salem.)

Mr. Talbot reported that the popularity of hang gliding has increased to the point that the Staff and Legal Counsel feel it is necessary to adopt some general rules for the operation of hang gliders in State Parks and to establish rules specific to hang gliding at Cape Kiwanda in Tillamook County. He stated that Cape Kiwanda State Park is considered the best learning area for beginning glider pilots due to the soft sand landing areas, high dune predictable and stable winds. The general rules pertaining to hang glider operation in the parks would close all State Park areas to hang gliding unless approved and designated by the Commission. Potential sites can be evaluated on a case-by-case basis. He indicated that the hang gliding rules and the Cape Kiwanda State Park hang gliders zones have been approved by the Oregon Hang Gliders Association. Following Mr. Talbot's recommendation, the Commission approved the temporary rules by adopting State Park Resolution No. 38 which resolution by this reference is made a part hereof and filed in the Commission's files in Salem. (The temporary rules were filed with the Secretary of State on June 30, 1975, and were published in the Administrative Rule Bulletin on July 15, 1975. Notification of a hearing concerning the proposed adoption of hang gliding rules was set later for July 28, 1975, and also published in the Secretary of State's bulletin on July 15, 1975.) (John Bamford and Dick Wade, Portland, were present at the meeting but did not wish to make a statement concerning hang gliding.)

Consideration was given to the Willamette River Greenway plan as directed by the 1973 Legislature. Mr. Talbot mentioned that the Chief Counsel confirmed his opinion that correct procedures were followed in drafting the plan. The Commission delayed action on this matter until after the delegations. (See pages 1046 - 1048)

Attention was given to acquiring 6.5 acres in Portland known as the Multnomah Plywood property located just south of the Old Journal building site as an extension to the Willamette River Greenway in Multnomah County. Mr. Talbot stated that the present building is to be removed by the sellers within one year and this purchase would give an extension to the existing Greenway waterfront. The total acquisition cost is \$1,280,500. The State's portion would be \$282,500 with the City of Portland paying \$433,000 and the Federal Bureau of Outdoor Recreation paying \$565,000. He mentioned that this project has been approved by the Willamette River Greenway Committee. The Commission approved an agreement with the City of Portland covering this acquisition as recommended by Mr. Talbot.

The Commission considered approving the expenses of a special advisory committee to assist in the planning for the restoration and operation of the historic Wolf Creek Tavern north of

Grants Pass in Josephine County. Mr. Talbot mentioned that it is anticipated the Committee will meet at least three times within one year. Upon his favorable recommendation, the Commission approved expenses not to exceed \$500. The Committee members are:

Mr. John Gray
Omark Industries
Portland

Mr. Robert Hull
The Village Green
Cottage Grove

Mr. John Miele, Superintendent
Oregon Caves National Monument
Oregon Caves

Mr. Robertson Collins
Medford

Prof. Marion Dean Ross, Chairman
Dept. of Art History
School of Architecture & Art History
University of Oregon
Eugene

Senator Eugene Debbs Potts
Grants Pass

Mr. P. M. Stephenson, Chairman
Salem

Mr. Klaboe presented to the Commission copies of the proposed program for the dedication ceremonies marking the completion of I-80N (Old Oregon Trail) on July 3, 1975. The ceremonies will be conducted at the Baker Valley Safety Rest Area in Baker County.

Mr. Klaboe reported on actions taken under delegated authority received for filing with the Commission records. These reports show the actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission files, Salem.)

Chairman of Oregon Transportation Commission
Vice Chairman of Oregon Transportation Commission
Administrator and Highway Engineer
Director of Permits
Right of Way Engineer
State Parks Superintendent
Chief Counsel

Exhibit A
Exhibit B
Exhibit C
Exhibit D
Exhibit E
Exhibit F
Exhibit G

Consideration was given to establishing three mid-block crosswalks on the Santiam Highway in the City of Sweet Home in Linn County at the following locations:

Between 10th and 12th Avenues
Between 13th and 15th Avenues
Between 15th and 18th Avenues

Mr. Klaboe stated that repaving the section of the Santiam Highway on which these crosswalks are located will obliterate them. To

properly re-establish them as legal mid-block crosswalks, the Commission must approve them as required by ORS 483.210(6). Upon his recommendation, the Commission approved the crosswalks.

Mr. Klaboe presented the following informational report of projects on which bids were taken June 5, 12, 19 and 26, 1975. He mentioned the projects contain an explanation of plans concerning the establishment of footpaths and bicycle trails.

JUNE 5, 1975 BID LETTING

- (1) Pacific Highway East U'Xing-N. Columbia Boulevard, Pacific Highway, Multnomah County. Grade, Pave, Sign and Illumination Project. Footpaths and bicycle trails will not be established under this project as per ORS Chapter 366, Section 2, subsection 2(b), which states that "Footpaths and trails are not required to be established...if the cost of establishing such paths and trails would be excessively disproportionate to the need or probable use". Ten-foot shoulders are available throughout the section.
- (2) Rowena-The Dalles, Columbia River Highway, Wasco County. Grade, Pave, Sign and Illumination Project.
Same as No. 1.
- (3) Hilgard-LaGrande, Old Oregon Trail, Union County. Grade, Pave and Sign Project.
Same as No. 1.
- (4) McVay Highway at Pacific Highway O'Xing, Lane County. Signal Project. Footpaths or bicycle trails are not incorporated in this project as no new highway construction, reconstruction or relocation is involved.
- (5) Oregon Coast Highway at W. Devils Lake Road, Lincoln County. Grade and Pave Project. Bicycle trails will not be included as the project consists of minor grading and surfacing to obtain a left-turn refuge. Four-foot shoulders will be provided throughout the project.
- (6) NW Elks Drive-NW Conifer Boulevard (Corvallis), Pacific Highway West, Benton County. Grade and Pave Project.
Same as No. 1, except that 6-foot shoulders will be provided.

(continued on page 1035)

- (7) Poormans Creek Bridge, Jacksonville Highway, Jackson County. Grade, Pave and Structure Project. Same as No. 1, except that 4-foot shoulders will be provided.

JUNE 12, 1975 BID LETTING

- (1) W. Marquam Intchge.-N. Tigard Intchge., Pacific Highway, Multnomah County. Grade, Pave, Sign and Illumination Project.
Footpaths and bicycle trails will not be established under this project as per ORS Chapter 366, Section 2, subsection 2(b), which states that "Footpaths and trails are not required to be established...if the cost of establishing such paths and trails would be excessively disproportionate to the need or probable use". Non-motorized vehicles are prohibited throughout the project.
- (2) SW Clay Street-SW Sheridan Street, Pacific Highway West, Multnomah County. Roadside Improvement Project.
Footpaths or bicycle trails are not incorporated in this project as no new highway construction, reconstruction or relocation is involved.
- (3) Link River-Bisbee Street, Klamath Falls-Lakeview Highway, Klamath County. Paving Project.
Footpaths and bicycle trails will not be established under this project as per ORS Chapter 366, Section 2, subsection 2(b), which states that "Footpaths and trails are not required to be established...if the cost of establishing such paths and trails would be excessively disproportionate to the need or probable use". Five-foot sidewalks exist.
- (4) Smith Point (Astoria), Oregon Coast Highway, Clatsop County. Roadside Improvement Project.
Same as No. 2.
- (5) Interstate Avenue Grade Separation, Pacific Highway West, Multnomah County. Guardrail Project.
Same as No. 2.

JUNE 19, 1975 BID LETTING

- (1) Bellevue Street SE-Mission Street SE (Salem), FAUS 1555, Marion County. Grade, Pave, Structure and Illumination Project.
An 8-foot Class II bikeway will be provided.

(continued on page 1036)

- (2) Chehalem Creek (Newberg), Pacific Highway West, Yamhill County. Grade, Pave and Structure Project. Five-foot sidewalks will be provided.
- (3) Sharps Corner-Diagonal Road, Columbia River Highway, Umatilla County. Grade and Pave Project. Footpaths and bicycle trails will not be established under this project as per ORS Chapter 366, Section 2, subsection 2(b), which states that "Footpaths and trails are not required to be established...if the cost of establishing such paths and trails would be excessively disproportionate to the need or probable use". Four-foot shoulders will be provided.
- (4) Jordan Valley-Jordan Creek, I.O.N. Highway, Malheur County. Grade and Pave Project. Same as No. 3.
- (5) Hogback Summit-Lake Abert, Lakeview-Burns Highway, Lake County. Grade and Pave Project. Same as No. 3.
- (6) S. Fork Big Butte Creek (Butte Falls) Bridge, FAS 15-101, Jackson County. Structure Project. Same as No. 3.
- (7) Middle Fork Malheur River (Acton Bridge), FAS 458, Harney County. Grade, Base and Structure Project. Same as No. 3, except that 2-foot shoulders will be provided.
- (8) McMinnville-Willamina-Sheridan Area Safety Projects, Pacific Highway West and Salmon River Highway, Polk and Yamhill Counties. Attenuators, Guardrail and Sign Projects. Footpaths or bicycle trails are not incorporated in this project as no new highway construction, reconstruction or relocation is involved.
- (9) Simpson Creek, Corvallis-Newport Highway, Lincoln County. Grade, Pave and Culvert Project. Same as No. 3.
- (10) Daisy Street-SPRR (Springfield), Springfield-Creswell Highway, Lane County. Grade and Pave Project. An 8-foot, Class I or Class II bikeway will be provided.
- (11) Aumsville (N. Fifth Street), City Street, Marion County. Grade and Pave Project. Four-foot sidewalks will be provided.

(continued on page 1037)

JUNE 26, 1975 BID LETTING

- (1) Winchester Intchge.-Garden Valley Boulevard, Pacific Highway, Douglas County. Grade, Pave and Sign Project.
Footpaths and bicycle trails will not be established under this project as per ORS Chapter 366, Section 2, subsection 2(b), which states that "Footpaths and trails are not required to be established...if the cost of establishing such paths and trails would be excessively disproportionate to the need or probable use". Ten-foot shoulders are available throughout this section.
- (2) Motorist Service Signing Project, S. Unit, Pacific Highway, 3 Counties. Signing Project. Footpaths or bicycle trails are not incorporated in this project as no new highway construction, reconstruction or relocation is involved.
- (3) Motorist Service Signing Project, N. Unit, Pacific Highway, 6 Counties. Signing Project. Same as No. 2.
- (4) Motorist Service Signing Project, Columbia River Highway, 9 Counties. Signing Project. Same as No. 2.
- (5) NE Union Ave.-NE 82nd Ave., Columbia River Highway, Multnomah County. Grade and Pave Project. Footpaths and bicycle trails will not be established under this project as per ORS Chapter 366, Section 2, subsection 2(b), which states that "Footpaths and trails are not required to be established...if the cost of establishing such paths and trails would be excessively disproportionate to the need or probable use". Non-motorized vehicles are prohibited throughout this section.
- (6) SW 72nd Ave. Intchge.-SW Boones Ferry Road, Beaverton-Tigard, Pacific and FAS 943 Highways, Washington and Clackamas Counties. Grade and Pave Project.
An 8-foot Class I bikeway will be provided.
- (7) Five Corners-Lakeview and Hunters Lodge Road-Lakeview Klamath Falls-Lakeview and Fremont Highways, Lake County. Grade and Pave Project. Same as No. 1, except that 4-foot shoulders or 5-foot sidewalks in curbed areas are available.

(continued on page 1038)

- (8) Lyons (14th and 15th Streets), City Street, Linn County. Paving Project.
Same as No. 1, except that two 12-foot paved travel lanes and 6-foot gravel shoulders will be provided.
- (9) Veneta (Second Street), City Street, Lane County. Grade and Pave Project.
Same as No. 1, except that 8-foot shoulders will be provided.
- (10) Detroit (D and Patton Streets), City Streets, Marion County. Grade and Pave Project.
Same as No. 1, except that 4-foot shoulders will be provided.
- (11) Rooster Rock State Park, Multnomah County. Beach Restoration and Erosion Control Project.
Same as No. 2.

The Commission considered a request from Wasco County for a Federal Aid Secondary Project covering a bridge over Fifteenmile Creek. Mr. Klaboe mentioned that this project has been investigated and is eligible for FAS-C funds. Upon his favorable recommendation, the Commission approved the following project and authorized Mr. Klaboe to sign the agreement when prepared.

<u>County & FAS No.</u>	<u>Section and Description</u>	<u>Programmed Amount</u>	<u>State's Share</u>
Wasco 310	Fifteenmile Creek (Boyd Market Road) Bridge	<u>\$90,000</u>	<u>\$9,900</u>
	TOTAL	\$90,000	\$9,900

Attention was given to a request from the City of Medford for a Federal Aid Urban System Project covering the 4th Street-Front Street Truck Route in Jackson County. Mr. Klaboe indicated that this project has been investigated and is eligible for funding under the Federal Aid Urban System Program. The Commission approved the following project as recommended by Mr. Klaboe and authorized him to sign the agreement when prepared.

<u>Jurisdiction</u>	<u>Section</u>	<u>Total Cost</u>	<u>Federal Funds</u>	<u>State's Share</u>
Medford	Central Ave.-8th St. 4th St.-Front St. FAU 2431 and 2441	\$120,000	\$93,600	\$13,200
	TOTAL	\$120,000	\$93,600	\$13,200

The Commission approved increases in project authorizations on the following contracts as recommended by Mr. Klaboe:

- (1) Freedom Construction, Contract No. 8126, Big Creek Bridge on the Oregon Coast Highway in Lincoln County for \$29,084.59 (21.68%). The overrun is due to additional piling length needed in the extended footings.
- (2) Hamilton Electric, Inc., Contract No. 7983, Marine Drive at Columbia Avenue and Bond Street traffic signals (Astoria) in Clatsop County for \$4,005.47 (10.64%). The main reason for the overrun is due to the cost of new traffic striping, painting crosswalks and the removal of existing traffic lines.

Consideration was given to approving five projects not listed in the Six-Year Construction Program. Mr. Klaboe indicated that these projects are either final stages of previous work or specialized work not previously anticipated. Following his favorable recommendation, the Commission approved the financing of the following projects.

SECTION	FUNDING	AMOUNT
N. Albany Intchge.-Lebanon Rd. Intchge., Pacific Hwy., Linn County. Roadside Improvement.	FAI	\$196,300
Old Oregon Trail Sign Shelters, Columbia River Hwy. & Old Oregon Trail. Shelters, Landscape.	FAI	100,000
Bubbs Ranch-Weatherby, Old Oregon Trail, Baker County. Rock Fallout Fencing.	FAI	155,000
Ontario Intchge., Old Oregon Trail, Malheur County. Roadside Improvement.	FAI	85,000
Neil Creek-California State Line, Pacific Hwy., Jackson County. Truck Escape Ramps.	FAI	550,000

Attention was given to approving the construction of the Oswego Lake Outlet Bridge on McVey Avenue in the City of Lake Oswego in Clackamas County. Mr. Klaboe stated that the Federal Highway Administration has redistributed Special Bridge Replacement Funds to the various States with the stipulation that the funds be obligated by June 30, 1975. This project has been selected for construction with the special funds which have a matching ratio of 75% Federal and 25% local funds. Local matching funds will be paid by the City of Lake Oswego. Upon his recommendation, the Commission approved the project at an estimated cost of \$350,000.

The Commission considered contracting a safety project on the Modoc Point Section of The Dalles-California Highway in Klamath

County. Mr. Klaboe mentioned that there are four rock fall areas that have been creating a hazard between Modoc Point and Shady Pine Road for a number of years. There have been several contracts on this section and there is still a need for immediate work to improve two critical locations for additional protection to the traveling public. The estimated cost for the additional work is \$300,000. He requested authorization to proceed utilizing Federal Aid where applicable and State Construction funds for any necessary work not eligible for Federal Aid. The Commission approved the expenditure.

Following Mr. Klaboe's recommendation, the Commission established the following speed zones:

- (1) Various speed zones on the Drain-Yoncalla Highway in the vicinity of Yoncalla in Douglas County.

45 MPH from a point 0.14 mile north of Halo Trail (M.P. 4.85) to a point 400 feet north of First Street (M.P. 5.14).

30 MPH from a point 400 feet north of First Street (M.P. 5.14) to First Street (NCL of Yoncalla) (M.P. 5.22).

30 MPH from Fourth Street (M.P. 5.50) to a point 25 feet south of Fifth Street (M.P. 5.56).*

*Portions of this section are within the Yoncalla city limits.

(This action rescinds "Speed Zone Resolution No. 180" dated March 2, 1955.)

- (2) 45 MPH speed zone on the Jefferson Highway in Marion County from the south city limits of Jefferson (M.P. 6.24) to 100 feet south of the south end of the Santiam River Bridge (M.P. 6.36).

The Commission considered prohibiting parking on the Hillsboro-Silverton Highway at Mission Creek Bridge just east of St. Paul in Marion County. Mr. Klaboe mentioned that this area is a popular fishing location and vehicles are being parked along the highway shoulders causing congested conditions. The Commission approved the following parking prohibition as recommended by Mr. Klaboe:

(continued on page 1041)

Along the south side of the Hillsboro-Silverton Highway from 200 feet west of Mission Creek (M.P. 28.51) to 300 feet east of Mission Creek (M.P. 28.61).

Attention was given to the abandonment of 0.2 mile of old highway to the City of Coos Bay on the Cape Arago-Central Avenue Section of the Empire-Coos Bay Highway in Coos County. Mr. Klaboe stated that construction of the new highway is now completed. Upon his favorable recommendation, the Commission approved the abandonment and thereupon adopted "Abandonment Resolution No. 523". (Copy on file in Commission's files in Salem.)

Consideration was given to transferring Harbor Way, a frontage road, of the Pacific Highway West in the Steel Bridge-Sheridan Street (Front Avenue) Section to the City of Portland. Mr. Klaboe indicated that this transfer is covered in an agreement of December 19, 1973, with the City. Following his recommendation, the Commission approved the abandonment and thereupon adopted "Abandonment Resolution No. 552". (Copy on file in the Commission's files in Salem.)

The Commission considered an agreement with the City of Portland for the revision and interconnection of traffic signals at the intersections of SE 47th Avenue and Powell Boulevard and SE 69th Avenue and Powell Boulevard (Mt. Hood Highway) in the City of Portland. Mr. Klaboe said the State would do all the work on the project and pay all costs which are estimated at \$30,000 (FAUS Funds). The City is to pay all power and maintenance costs. Following his favorable recommendation, the Commission approved the agreement.

Attention was given to an agreement with the City of Creswell covering the installation of a traffic signal at the intersection of Oregon Avenue and the Goshen-Divide Highway in Lane County. Mr. Klaboe indicated that the State shall prepare all plans and specifications and perform the work. The State will also pay for the total cost, estimated at \$39,500 which will be charged to State Bond Funds. After completion of the project, the State will maintain the traffic signal and the City will pay for the power. The Commission approved the agreement as recommended by Mr. Klaboe.

Consideration was given to an agreement with DAN INC. OREGON covering the installation of a traffic signal at Molalla Avenue (Cascade Highway South) at the Beaver Creek Road Junction in the City of Oregon City, Clackamas County. Mr. Klaboe pointed out that this signal will serve the Beaver Creek Road Intersection as well as the shopping center. The agreement provides that the State shall install the signal with its own forces. The estimated cost of the project is \$30,000 which is to be paid by DAN INC. OREGON. After completion of the project the State will maintain the signal and supply the power. Upon his recommendation, the Commission approved the agreement.

Attention was given to an agreement with National Urban League, Inc., providing for services to support on-the-job training programs on Federal Aid Highway Projects for a one-year period. Mr. Klaboe said funds for these services are 100% Federally funded in the amount of \$78,272. Following his recommendation, the Commission approved the agreement.

The Commission considered approving Supplemental Agreement No. 7 with CH2M-Hill, Inc., for traffic analysis work covering the completion of the final Environmental Impact Statement for I-505. Mr. Klaboe stated it has now been determined that the traffic analysis work to design I-205 will utilize more time and manpower than previously estimated. It has therefore become necessary in order to complete the EIS for I-505 in a timely manner to add the traffic analysis work to the agreement. It is estimated the additional work item will cost \$29,478.11 which will be covered by Interstate Highway preliminary engineering funds. The lack of traffic data has already resulted in delay to the consultant. It is requested the due date for the draft of the EIS be extended from September 15 to October 15, 1975. The Commission approved the agreement and extension of time.

Mr. Klaboe called on Gary Sund to present the next two items.

Mr. Sund reported that the agreement with Oregon Welcome, Inc., to provide special tourist promotion services for the Department of Transportation will expire on June 30, 1975. He stated that Oregon Welcome, Inc., provides special services in the area of developing vacation packages, fly-drive tours and travel by commercial carriers. It uses Highway Funds in conjunction with funds raised from a variety of private sources and, in addition, is provided with a great amount of in-kind by travel-related businesses. Oregon Welcome, Inc., is a non-profit corporation and the only Oregon corporation qualified to handle this promotional effort. Following his favorable recommendation, the Commission renewed the agreement in the amount of \$50,000 for the 1975-76 fiscal year.

The Commission considered approving the assignment of two contracts with Richardson Associates and with the Turner Group from the State Fair Commission to the Highway Division. Mr. Sund stated that these contracts cover an advertising program and a public relations program for the Oregon State Fair. The 1975 Legislature assigned to the Division the responsibility of providing \$100,000 in promotional funds for the State Fair in the 1975-77 biennium and the contracts are currently in effect. To work cooperatively with the State Fair Commission and the Fair Staff and to avoid any delay in promotional efforts for the 1975 Fair, he recommended that the contracts be assigned from the State Fair to the Division effective July 1, 1975. The estimated cost for the first fiscal year is \$40,000 to be taken from the Travel Information Section budget. The Commission approved the assignments of the two contracts.

The Commission considered a study of a six-block area near Montgomery Ward on the old I-505 Route in the City of Portland. Mr. Klaboe said this study is to see what can be done to upgrade the area and to make it a viable community. The city of Portland will select the consultant to do the study. The cost is \$25,000 to be shared \$2,500 by the industrial community, \$2,500 by the residential community, \$10,000 from the City and \$10,000 by the State. In reply to the Chairman's inquiry, Mr. Klaboe stated the value of the State's ownership in the area is approximately \$969,000. He also mentioned the property should not be disposed of until the State gets final approval of the corridor. Upon the recommendation of Mr. Klaboe, the Commission approved the study. (The cost reported to the Commission of \$30,000 to be shared \$5,000 by the industrial community and \$5,000 by the residential community was in error.)

Mr. Klaboe introduced Mr. Louis Lybecker, Regional Administrator, Region 10, Federal Highway Administration. Mr. Lybecker presented five plaques to the Highway Division in the "7th Annual Awards 1974 - The Highway and Its Environment" contest sponsored by the U. S. Department of Transportation, Federal Highway Administration. The awards are as follows:

"Outstanding Bridge, Overpass, Tunnel Approach, Interchange Structures or Other Highway Structural Features" category, first place award to the B. A. Martin Bridge over the Chetco River (U. S. 101) near Brookings and second place award to the Fremont Bridge in Portland. He also presented certificates to the consultant, Parsons, Brinckerhoff, Quade and Douglas, Inc., and to the contractor, Murphy-Pacific Enterprises, for work on the Fremont Bridge. He asked that the Commission submit these certificates to the consultant and contractor.

First place Deadman's Pass Safety Rest Area located approximately 20 miles easterly of Pendleton, adjacent to I-80N in the "Outstanding Safety Rest Area or Information Center" category.

First place award for the Independence Junction-West Salem Bikeway, adjacent to the Willamina-Salem Highway in Polk County in the "Outstanding Example of Landscape Treatment Along Roadsides and Interchanges" category.

Third place award to the Mini-Park at 14th and Hall Streets in Portland in the "Outstanding Example of Multiple Use of Highway Right of Way in Urban or Rural Areas" category. Mr. Lybecker complimented the Oregon Department of Transportation and its Highway Division for the outstanding contribution to the enhancement of the environment.

Chairman Jackson thanked Mr. Lybecker for the awards on behalf of the Commission and the Division and also complimented Mr. Klaboe for dominating the award category. Mr. Klaboe thanked the Chairman on behalf of all the Highway Division.

AERONAUTICS DIVISION

The Commission considered adopting a resolution declaring the necessity of acquiring certain real property for public purposes at the Lebanon State Airport in Linn County and authorizing condemnation. Mr. Burket mentioned the property involved is for the south approach-departure area. All possible negotiations with property owners have been unsuccessful. Following his recommendation, the Commission adopted "Aeronautics Condemnation Resolution No. 2635," which resolution by this reference is made a part hereof and filed in the Commission's files, Salem.

MASS TRANSIT DIVISION

Mr. Moore presented to the Commission an abstract of the applications from Oregon for the Rural Highway Public Transportation Demonstration Program dated June 24, 1975. He indicated there is an excellent possibility of some Federal support to conduct these programs in the future. The abstract is divided into three sections as follows:

- I. An Introduction containing: (a) a general description of Oregon, (b) a review of the Mass Transit Division's involvement in rural public transportation and (c) a discussion of the means by which the Division will administer the proposed program.
- II. Seven local project proposals each preceded by a summary prepared by the Division.
- III. Three State-submitted proposals.

(Abstract on file in the Commission's files, Salem.)

MOTOR VEHICLES DIVISION

Following Mr. Ott's recommendation, the Commission approved the following items prior to submitting to the Emergency Board for approval:

- (1) To continue a Federally funded Alcohol Safety Action Project through calendar year 1976 for an evaluation process to determine the effectiveness of various types of rehabilitation programs developed for the problem drinking driver. No State matching funds are required. The amount is \$11,033. Follow-up evaluation to be completed in the fall of 1976.
- (2) One-year funding for fiscal year 1976 in the amount of \$122,500 for personal service suspension orders. With the anticipation of passing Senate Bill 1, the Legislative Ways and Means Committee eliminated this item from the Division's budget. The services will not be required after July 1, 1976.

Mr. Ott reported the recent Legislature passed Senate Bill 898 which sets up the requirement for mechanical safety inspection up to 10 percent of the registered passenger vehicles each year. The Division will have to select those vehicles by random choice from the total population of vehicles. A certificate will have to be furnished to the Division with the renewal application for registration. The certificate may be made by the owner or by a garage. The Division will then have to follow-up on certain number of self-certifiers and those that are done at garages. Standards will have to be established for the inspection which will include brakes, steering, suspension, tires and lights. He said the estimated cost is \$264,000. If the Division does not get this before the Emergency Board promptly, it runs the risk of not being able to get the Federal funding to start inspections on January 1, 1976. The Federal Department of Transportation has been sharing two-thirds of the cost of these inspection systems as they have been instituted by the States. The request to the Emergency Board is only for the authority to ask the Federal Government to share two-thirds of the cost on the basis of this current estimate. If it is approved by the Federal Department of Transportation, the Division would again have to go before the Emergency Board with approval of the Commission to get the expenditure authority to carry out the program. Following his favorable recommendation, the Commission gave their approval to submit to the Emergency Board.

Mr. Ott reported on new Legislation specifically affecting Motor Vehicles Administration as follows:

- (1) Senate Bill 1 - Enacts new substantive and procedural provisions governing motor vehicles, bicycles, motorcycles and pedestrians. It brings Oregon rules of the road into closer conformity with the National Uniform Vehicle Code. It also abolishes criminal penalties for most traffic offenses.
- (2) House Bill 3219 - 55 MPH maximum speed limit.
- (3) House Bill 3291 - Increases weight-mile tax and motor vehicle fuel tax from 7¢ to 8¢ per gallon.
- (4) House Bill 2432 - Authorizes a mass transit district to levy a tax not more than \$10 on motor vehicle registrations of vehicles within the district.
- (5) Senate Bill 817 - Changes the form of the driver's license to include a color photograph of the licensee.

Mr. Ott mentioned there were some 30 bills passed by the 1975 Legislature which require the Division to make changes in procedures. He presented charts to the Commission showing the Motor Vehicles Division revenue and expenditure for the fiscal year ending June 30, 1974. (Copy of detailed report in the Commission's files, Salem.)

DEPARTMENT OF TRANSPORTATION

Director's Report - Mr. Baldwin

The Commission set Wednesday, July 30, 1975, as the date for their next regular meeting.

The Commission adopted Delegation Order No. 10 as follows:

OREGON TRANSPORTATION DELEGATION
ORDER NO. 10

Pursuant to the provisions of ORS 184.635 and in order to provide for a more efficient and expeditious administration of the Department of Transportation, the following portion of the authority of the Commission to adopt rules as set out in ORS 184.619 is hereby delegated to the Director of the Department of Transportation or his designees:

1. Prepare proposed rules.
2. Publish notice of hearings on the proposed rules.
3. Conduct hearings on the proposed rules.
4. Prepare a written summary of statements given, and exhibits and other data received or observed together with a recommendation for action, and present to the Commission.

Mr. Baldwin reported that A. E. Johnson, Deputy State Highway Engineer, is retiring today after 42 years of service with the State Highway Division. Chairman Jackson thanked Mr. Johnson for his outstanding service and the part that he has played in the development of the Interstate System and the engineering on the Fremont Bridge in Portland. Mr. Baldwin also expressed his appreciation to Mr. Johnson for his many years of service to the Division. Mr. Baldwin recommended the appointments of E. S. Hunter as Acting Deputy State Highway Engineer to replace Al Johnson and Robert Bothman as Acting Assistant State Highway Engineer. He stated this also comes as a recommendation from Mr. Klaboe. The Commission endorsed both recommendations.

Mrs. Eunice Endicott of Corvallis, representing the Oregon Farm Bureau Federation, appeared before the Commission concerning the Willamette River Greenway plan. She said the plan developed by Royston, Hanamoto, Beck and Abey is more representative of the Willamette River Greenway of the two plans under consideration. The preliminary plan received input and revisions of landowners along the river as well as interested citizens at the four public meetings held in Eugene, Corvallis, Salem and Portland.

Some of the major changes in the revised plan the Federation object to is that the word "scenic" has been omitted where easements are considered, local government involvement has been deleted and on the maps many changes have been made. The existing land use maps have been eliminated completely. She indicated changes have also been made on the existing condition maps. Proponents of the Greenway have continually stated that agricultural land would be preserved. However, on the plan map section the use has been changed removing farming completely in six locations totaling 234.5 acres.

Mrs. Endicott urged the Commission to consider these points of differences in the two plans and adopt the original plan by Royston, Hanamoto, Beck and Abey.

Chairman Jackson said no agency of the government has the power to actually convert farm land today into a public classification. The Commission has to come to a conclusion as to the type of planning guideline that is to be adopted.

Mr. Hubert Wilson of Dayton, representing the land-owners, showed pictures of the vandalism and erosion along the Willamette. He mentioned the 100 acres of State-owned land is full of the tansy weed. He felt the farmers can control these items much better than the State and opening up the river banks to trails and bike paths will certainly increase vandalism and litter.

The Chairman mentioned that the Commission recognizes the problem of vandalism but it is a joint county or city responsibility and this could not be considered as a negative factor.

Mr. Herbert Anderson of Dayton referred to the two books which have been prepared, one as a result of a \$250,000 study and the smaller edited book with revisions made by Staff. He said both books have some deficiencies and they fail to coordinate with the Yamhill County Comprehensive Plan.

A great deal of study was given to access points. The Dayton Planning Advisory Committee also studied the section from Wheatland Ferry down almost to Newberg. The access should not be extended beyond what it is at the present time. This would include accesses at Wheatland Ferry, near St. Paul in Marion County, and at Newberg. These three accesses will allow people to get down to the river at convenient locations.

The Yamhill County Comprehensive Plan is for the present access areas to be enlarged with parks in areas contiguous to these points as additional facilities become necessary but not to make new accesses which would destroy a part of the natural area.

He mentioned several items which were included in the original plan but omitted from the revised plan, such as:

- (1) All references to decisions to be made by local jurisdictions
- (2) Travel should be on the water rather than adjacent banks
- (3) Descriptions of the nature of the river
- (4) Vandalism to land owners and
- (5) Changes the agency charged with coordination from the LCDC to the Department of Transportation.

The Chairman stated the administration of this act will have to be based upon prudent judgment with the advice of counsel and people that are going to be affected at the State and County level and the adjacent landowners.

In reply to Mr. Anderson's questions, the Chairman said the small book is to be formally presented to the Land Conservation and Development Commission and the second book is to be included as a reference. The Commission is making no specific recommendation and are submitting the guidelines for the development of the Greenway concept. It will vary materially depending on the particular area involved, the location, the accessibility, character of the bank, soil, etc. There is no way to come up with a solid plan because the flood plain changes every year. Mr. Anderson urged that the original plan be the recommendation of the Commission.

Doug Ward, an attorney from Salem, stated he was representing the property owners and speaking on behalf of the Farm Bureau. He mentioned anyone who reads these two books and compares them can see that the second book is not a condensation of the first, but rather is a separate entity in and of itself because it removes all control of the local government which the law requires. He suggested from a legal standpoint that the Commission take this into consideration before adopting the revised plan.

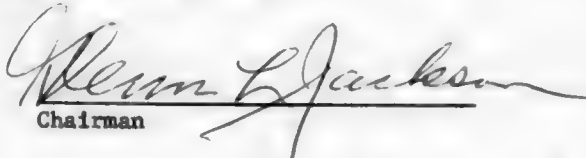

Chairman Jackson said that counsel has advised the Commission that it has conformed to the law passed by the Legislature in terms of public input, hearings and release of the material to the public.

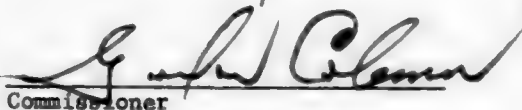

The Chairman called for a vote on presenting the revised plan with the original plan as backup material to the Land Conservation and Development Commission. Commissioners Hollern, Mitchell, Walsh and Jackson voted yes and Commissioner Coleman voted no.

After a 10-minute recess the Chairman reconvened the meeting at 11:40 a.m.

Mr. Eli Bangs of Newport showed a video tape film concerning the removal of logs from the beach area. He said his plan was formally presented to the Commission at its June 26, 1974, meeting requesting a statement of support from the Commission but so far, has received no answer. The Chairman told Mr. Bangs that the Park Division is conducting a study and the Commission will await its report.

The Chairman adjourned the meeting at 12 noon.

TO: Oregon Transportation Commission

SUBJECT: Report (Confirmation) of Telephone Actions Taken
Under Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approved all actions listed below and report this action for your official records:

Dated this 23 day of June, 1975

Glenn L. Jackson, Chairman
Oregon Transportation Commission

- 1) On June 17, 1975, approved a Supplemental Agreement with the U. S. Department of Transportation, Federal Highway Administration, Modification No. 5 to Contract DOT-FH-11-7950, "Speed Advisory Information for Reduced Visibility Conditions." This is an extension of the present fog research study in the amount of \$75,000. This research project is funded entirely by Federal Funds.
- 2) On June 17, 1975, approved renewal of a Cooperative Agreement with the U. S. Department of Agriculture, Soil Conservation Service, for the State Highway Division to make a reconnaissance study for relocation of the Haines-Anthony Highway on the North Powder Dam Project in Baker County. The United States agrees to pay to the State the actual cost of making such reconnaissance study and cost estimate up to a maximum of \$5,000.
- 3) On May 12, 1975, approved \$10,000 payment to clear up the final bills concerning the operation of the Oregon exhibit at Expo '74 in connection with an agreement with the Executive Department dated May 15, 1974.
- 4) On June 17, 1975, approved an agreement with RCN Productions to have a 26 minute 16 MM color and sound motion picture depicting scenic and recreational areas of Oregon prepared for Travel Information Section. The cost is \$15,000 and 70% will be paid upon the delivery of a work print and preliminary sound track with the balance to be paid upon delivery of a final product.

SUBJECT:

Detour
Oakland-Shady Highway No. 234

Because of the heavy construction activity on the Mt. Nebo Section of Interstate 5 near Roseburg, it has become necessary to use a portion of the Oakland-Shady Highway No. 234 as a detour. Because of the heavy flow of traffic during the summer season and the congestion of traffic on this detour, and in order to make the detour safe for motorists, it is necessary to establish a temporary speed limit of 40 miles per hour.

Pursuant to the authority granted me by the Highway Commission on February 22, 1972, I hereby designate a temporary construction speed limit of 40 miles per hour from 250 feet south of South Main Street (M.P. 18.54) to the south end of the Interstate 5 interchange (M.P. 21.16) on the Oakland-Shady Highway in Douglas County.

Suzanne Uding	State of Oregon	Personal Injury	\$42,700
<p>L-7108 County: Multnomah Disposed of by: Settled for \$750 by State's insurance carrier.</p>			

EXHIBIT G

INSTITUTION OF LEGAL PROCEEDINGS FILED BY AND AGAINST DEPT. OF TRANSP.

L-7211 Charles L. McKenzie, et ux v. State of Oregon, Department of Transportation, by and through the Aeronautics and Highway Divisions: This is a lawsuit in the amount of \$75,000 which was filed in Lincoln County for the alleged Breach of Contract by the defendants. The alleged Breach of Contract relates to the completion of a variety of construction items that were to be completed in conjunction with the improvement of the Siletz Bay State Airport.

The matter has been referred to the State's insurance carrier and also to the Attorney General for the defense of the State.

L-7212 John M. Schoonover v. Brooks-Scanlon, Inc., and State of Oregon: This is a suit for Declaratory Judgment filed in Klamath County and relates to two points of access granted by the Highway Division to some timber land many years ago. The accesses were restricted to the removal and transportation of forest products only. Mr. Schoonover has purchased some property from one of the lumber companies and is now attempting to have the logging roads used by the lumber companies declared public roads and the access to the highway be declared a public access.

The matter has been referred to the Attorney General's office for the defense of the State.

L-7213 Richard Compton, et ux v. Oregon State Highway Commission: This is an injunctive proceeding brought against the State Highway Commission, the Attorney General and various other individuals and institutions alleging improper appraisal practices in acquisition of land in 1966 and 1967 in Multnomah County.

The matter has been referred to the Attorney General's office for defense of the Highway Commission and Mr. Jackson.

July 30, 1975
Salem, Oregon

The Oregon Transportation Commission held their regular meeting at 10 a.m. in Room 122 of the State Highway Building in Salem, Oregon. Notice of the meeting was made by press release to newspapers of general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Tom Walsh, Member
Michael P. Hollern, Member
B. Gordon Coleman, Member
George M. Baldwin, Director of Transportation
Sam Haley, Deputy Director
Jack Sollis, Assistant Attorney General
F. B. Klaboe, Administrator and State Highway Engineer
Ed Hunter, Deputy State Highway Engineer
Warren Gaskill, Deputy State Parks Superintendent
Paul Burket, Administrator of Aeronautics
Dennis Moore, Administrator of Mass Transit
Harvey Ward, Deputy Administrator of Motor Vehicles
C. W. Head, Supervisor, Commission Services

There were others present from the Department of Transportation and representatives from the news media.

The Commission approved the minutes of the regular meeting of June 30, 1975.

HIGHWAY DIVISION

A list of properties needed for highways and other uses was presented by Mr. Boyd. He requested the Commission to declare by resolution the necessity of said properties for the public use to which they are to be put and to authorize him to attempt to agree with the owners of said properties as to price. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful and thereupon adopted "Condemnation Resolution No. 2636," which resolution by this reference is made a part hereof and filed in the Commission's files.

Chairman Jackson inquired about the sign removal program. Mr. Boyd stated that there are approximately 30 signs yet to purchase because of questions whether they are in commercial or industrial zones. He indicated there are approximately 300 signs remaining to come down which should be completed by the end of September, 1975.

Mr. Sollis asked if there were any questions in connection with the informational reports previously submitted to the Commission on cases tried, cases settled and institution of legal proceedings filed against the Department of Transportation since

the last Commission meeting. There were no questions. (See Exhibit G on file in the Commission's files, Salem.)

Mr. Sollis presented a quarterly report of property damage claims for the period of April 1, 1975 through June 30, 1975. During this period \$58,581.65 was collected.

Mr. Sollis reported on the experimental sign program. He stated that the Division submitted a proposal to the Federal Highway Administration and has received a report indicating that if some changes are made there is a very good chance that the State will get an experimental program for right-of-way signing for the primary highway system in three experimental areas.

The Commission considered the expenditure of \$55,000 for repairing and reconstruction costs of the "Kam Wah Chung Co." building in the City of John Day, Grant County. Mr. Gaskill said the building was constructed in 1866 and served as the local Chinese community trading post, doctor's office, pharmacy, hotel, post office, bank, etc. For several years the Division has been working with citizens in the John Day area and they are willing to assume the long-term problems of operation and maintenance if the State can repair the building. The State will have to take title to the property, make the repairs, then lease back to the City for operation. One-half of the cost will be reimbursed by the Federal Government. Upon his favorable recommendation, the Commission approved the expenditure and authorized the Administrator and State Highway Engineer to sign an agreement with the City.

Consideration was given to adopting as permanent rules "State Parks Resolution No. 37" covering the revised rules and regulations for State Parks. Mr. Gaskill stated that the Commission approved these rules and regulations as temporary rules at their March 31, 1975, meeting and they were filed with the Secretary of State on April 4, 1975. A public hearing was held on July 24, 1975, to consider the adoption of these regulations as permanent rules. Following his favorable recommendation, the Commission adopted "State Parks Resolution No. 37" as permanent rules. (The permanent rule was published in the Secretary of State's Administrative Rule Bulletin on August 15, 1975 to become effective August 25, 1975.)

Attention was given to a request from Trenor Scott to establish a gravel processing operation within the Rogue River Scenic Waterway across the river from Hogg Creek boat landing in Josephine County. Mr. Scott has informed the State that this would be a commercial operation by a contractor or lessee. The BLM has been negotiating with Mr. Scott for several years in an effort to attain a scenic easement in this area. Mr. Gaskill recommended that his request be denied as an operation of this nature would substantially impair the natural scenic beauty of this area and would be incompatible with the qualities of the scenic waterway. The Commission accepted his recommendation.

Mr. Klaboe reported on actions taken under delegated authority received for filing with the Commission records. These reports show the actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission files, Salem.)

Chairman of Oregon Transportation Commission	Exhibit A
Vice Chairman of Oregon Transportation Commission	Exhibit B
Administrator and Highway Engineer	Exhibit C
Director of Permits	Exhibit D
Right of Way Engineer	Exhibit E
State Parks Superintendent	Exhibit F
Chief Counsel	Exhibit G

Consideration was given to replacing the deck overlay and waterproofing membrane on Bridge No. 7794B in the Hubbard Interchange on the Pacific Highway, (I-5) in Clackamas County. Mr. Klaboe stated that this deck is failing and needs replacement. It was originally installed under an experimental project, Category 2, and has Federal Highway Administration approval for use of Interstate funds for removal and replacement. Upon his recommendation, the Commission gave finance approval of this project at an estimated cost of \$60,000.

Consideration was given to confirming the appointment of six additional members to the Travel Advisory Committee effective August 1, 1975. Mr. Klaboe mentioned that in January of this year the Governor suggested the Division's travel activities be given slightly new direction. His suggestions, acting upon a report of the Travel Advisory Committee, included a proposal for soliciting funds from the private sector as a part of the State's tourist advertising campaign and a proposal for increasing the membership of the Advisory Committee. He stated as directed by the Commission Chairman and the Governor, the staff has solicited nominations for the additional industry representatives on the Committee from various tourist promotional organizations throughout the State. Mr. Klaboe said that he had consulted with the Governor and his staff and with the Chairman of the Travel Advisory Committee on the nominations. The Governor's office concurs in these recommendations and the individuals have indicated a willingness to serve. With the additional six members, this will raise the number of members on the Committee to 19. The terms of four of the "public" members will expire in October 1975 after which the Committee will number 15. The Commission confirmed the appointment of the following individuals to the Committee.

Transportation - Glenn Ferris, Manager, Western Airlines, Portland.

Hotels/Motels - Robert Hull, Village Green Management Co., Cottage Grove.

Destination Resorts - Sidney K. Tworoger, Owner, Surftides Beach Resort, Lincoln City.

(continued on page 1109)

Tour Operators - Paul Niskanen, President, Tour Marketing, Portland-Bend.

Chambers of Commerce - Allan Crisler, Executive Vice-President, Bend Chamber of Commerce.

Outdoor Recreation (a sixth category requested by the Governor) - Keith Petrie, Manager, Anthony Lakes Ski Area, Baker.

Attention was given to requests from Washington County, the State and the City of Bend for Federal-Aid Urban System Projects. Mr. Klaboe pointed out that these projects have been investigated and are eligible for funding under the Federal Aid Program. The Commission approved the following projects as recommended by Mr. Klaboe and authorized him to sign the agreements when prepared.

<u>Jurisdiction</u>	<u>Section</u>	<u>Total Cost</u>	<u>Federal Funds</u>	<u>State's Share</u>
Washington Co.	SW McEwan Rd.-SPRR Crossing, FAU 0150	\$ 40,000	\$ 40,000	\$ --
State	Beaverton-Tigard Hwy. (Multnomah & Washington Counties), Portland Central Business Dist. Section, Sunset Hwy., FAP 27 (transit corridor study)	290,000	226,000	32,000
State	Pacific Hwy.-E. Portland Freeway Sec.-Columbia River Hwy., (Multnomah County), FAP 45 (transit corridor study)	490,000	382,000	54,000
Bend	Lafayette Ave.-Newport Ave., NW Wall St., FAU 3317	110,000	85,800	12,100
	TOTAL	\$930,000	\$733,800	\$98,100

Consideration was given to the realignment of Front Avenue (Pacific Highway West) between Burnside and Hawthorne Bridges as the first phase of the City of Portland's Waterfront Development Plan using Federal Aid Urban Extension funds. Mr. Klaboe said the Federal funds are estimated at \$312,000 with the State providing approximately \$88,000 in matching funds. Following his favorable recommendation, the Commission approved the project and authorized Mr. Klaboe to sign the project agreement when prepared.

Attention was given to requests from Lane and Washington Counties for Federal Aid Secondary County Projects and cancellation of two projects in Washington County. Following his recommendation, the Commission approved the requests and authorized Mr. Klaboe to sign the agreements when prepared.

COUNTY & FAS NO.	SECTION & DESCRIPTION	PROGRAMMED AMOUNT	STATE'S SHARE
Lane 20-502 (formerly 777)	Muddy Cr. (Coburg N. Rd.) Br. Structure	\$110,000	\$12,000 (rounded)

	TOTAL	\$230,000	\$12,000

CANCELLATION OF
PREVIOUSLY APPROVED PROJECTS

COUNTY & FAS NO.	SECTION & DESCRIPTION	AMOUNT
Washington 566	Sunset Hwy.-SW 87th Place Sec., Barnes Rd. Grade, Base, Pave and Curb	\$188,000 (rounded)
Washington 944	SW Hunziker St.-Lower Boones Ferry Rd., 72nd Avenue Structure, Grade, Base and Pave	650,000
	TOTAL	\$838,000 (rounded)

The Commission considered approving requests for Off-System Roads Projects on rural roads and streets. Mr. Klaboe stated Federal Aid funds apportioned to Oregon under Section 219, Title 23, US Code, shall be matched by local funds. The participation rate is currently 78% Federal plus 22% local. The total estimated cost of these projects is \$3,104,800 of which \$2,421,744 will be Federal costs and \$683,056 will be the responsibility of the local agencies. There will be no cost to the State. The Chairman asked to what degree of responsibility does the State retain in reference to these Off-System Projects. Mr. Klaboe mentioned that the State does not have any financial responsibility but does have the obligation to see that the work is properly done in accordance with the specifications. Upon his recommendation, the Commission approved the projects. (List of projects in the Commission's files, Salem.)

Mr. Klaboe reported that under ORS 366.525 the counties are entitled to receive 20% of all funds received from motor vehicle taxes and fees for the period from April 1 to June 30, 1975. The amount credited to the counties totals \$6,000,818.82 and he stated that this amount was released on July 25, 1975, as apportioned by law. (List of apportionment to counties on file in Commission's files, Salem.)

Mr. Klaboe stated that an allocation of 12% of the Highway Fund to the cities for the period of April 1 to June 30, 1975 in the amount of \$3,600,491.28 was released on July 30, 1975. (A list of apportionment to the cities on file in the Commission's files, Salem.)

Mr. Klaboe presented the following informational report on projects on which bids are to be received July 31, 1975. He mentioned the projects contain an explanation of plans regarding establishing footpaths and bicycle trails.

- (1) Baldock Safety Rest Area, Pacific Highway, Clackamas County. Expansion Project. Footpaths or bicycle trails are not incorporated in this project as no new highway construction, reconstruction or relocation is involved.
- (2) North Albany Interchange-Lebanon Road Interchange, Pacific Highway, Linn County. Roadside Improvement Project. Same as No. 1.
- (3) Chemawa Road-Hayesville Interchange, Pacific Highway, Marion County. Grading, Paving and Signing Project. Existing bikeway to be replaced in kind.
- (4) Grand Ronde River (Island City) Bridge, Waldo Lake Highway, Union County. Grading, Paving and Structure Project. An 8-foot wide sidewalk, which may be used by pedestrians and bicyclists, will be provided.
- (5) Ritner Creek Bridge, Kings Valley Highway, 30 Miles \pm Southwest of Salem, Polk County. Grading, Paving and Structure Project. Footpaths and bicycle trails will not be established under this project as per ORS Chapter 366, Section 2, subsection 2(b), which states that "Footpaths and trails are not required to be established...if the cost of establishing such paths and trails would be excessively disproportionate to the need or probable use". Four-foot shoulders will be provided.

(continued on page 1112)

- (6) Bear Creek Bridge, FAS 32-104, 2 Miles ⁺ Southerly of Wallowa, Wallowa County. Structure Project. Footpaths and bicycle trails will not be established under this project as per ORS Chapter 366, Section 2, subsection 2(b), which states that "Footpaths and trails are not required to be established...if the cost of establishing such paths and trails would be excessively disproportionate to the need or probable use".
- (7) Ridge Road and Pacific Way (Gearhart), Fort Stevens and Oregon Coast Highways, in Gearhart and Hammond, Clatsop County. Traffic Signal Project.
Same as No. 1.
- (8) Oregon Coast Highway at "U" Avenue (Seaside), Clatsop County. Traffic Signal Project.
Same as No. 1.
- (9) 9th Avenue-18th Avenue (Sweet Home), Santiam Highway, Linn County. Grading, Paving and Signal Project.
Footpaths and bicycle trails will not be established under this project as per ORS Chapter 366, Section 2, subsection 2(b), which states that "Footpaths and trails are not required to be established...if the cost of establishing such paths and trails would be excessively disproportionate to the need or probable use". Eight-foot and 10-foot sidewalks exist.
- (10) 7th Street (Lafayette), City Street, Yamhill County. Grading and Paving Project.
Same as No. 6.
- (11) SW 5th Street (Canyonville), City Street, Yamhill County. Grading, Paving and Curbing Project.
Footpaths and bicycle trails will not be established under this project as per ORS Chapter 366, Section 2, subsection 2(b), which states that "Footpaths and trails are not required to be established...if the cost of establishing such paths and trails would be excessively disproportionate to the need or probable use". Sidewalks exist.
- (12) Saginaw Avenue (Hines), City Street, Harney County. Grading and Paving Project.
Same as No. 6.

(continued on page 1113)

- (13) Park Street (Burns), City Street, Harney County. Grading and Paving Project. Footpaths and bicycle trails will not be established under this project as per ORS Chapter 366, Section 2, subsection 2(b), which states that "Footpaths and trails are not required to be established...if the cost of establishing such paths and trails would be excessively disproportionate to the need or probable use". Four-foot shoulders will be provided.
- (14) Chiloquin Rock Production Project, 37 Miles \pm North of Klamath Falls on The Dalles-California Highway, Klamath County. Same as No. 1.
- (15) SW 4th Avenue at Verde Drive (Ontario), Olds Ferry-Ontario Highway, Malheur County. Traffic Signal Installation. Same as No. 1.
- (16) Bullards Beach State Park, 3 Miles \pm North of Bandon, Coos County. Riprap Protection Project. Same as No. 1.

The Commission considered continuing the membership in the Pacific Northwest Travel Association at an annual cost of \$4,000. Mr. Klaboe stated that the Division has been a member of the association for 40 years. As a participating member, Oregon is represented in a variety of travel shows, travel writer tours, and other promotional efforts for Oregon and the other Pacific Northwest states. Upon his favorable recommendation, the Commission approved the fee and to continue participation in the program.

Upon the recommendation of Mr. Klaboe, the Commission established the following speed zones:

- (1) 40 MPH speed zone on the Pacific Highway West in the City of Amity from 0.22 mile north of the Amity north city limits (M.P. 43.93) to the north city limits (M.P. 44.15) in Yamhill County. (Speed Zone Order No. 704)
- (2) 40 MPH speed zone on the Beaverton-Tualatin Highway in the City of Tualatin in Washington County from 300 feet north of SW Killarney Lane (M.P. 10.50) to SW Killarney Lane (M.P. 10.56) also

From 500 feet south of SW Killarney Lane (M.P. 10.66) to SW Blake Street (M.P. 10.76) (Speed Zone Order No. 706)

(continued on page 1114)

- (3) 50 MPH speed zone on the Oregon Coast Highway in the community of Arch Cape in Clatsop County from a point 0.20 mile north of Hemlock Street (M.P. 34.41) to the Arch Cape Creek Bridge (M.P. 35.57). This action rescinds "Speed Zone Resolution No. 405" dated July 18, 1963. (Speed Zone Order No. 705)

Commissioner Walsh inquired if speed zones could be handled by delegated authority. Jack Sollis stated that under the statute the Commission can delegate any authority. It was moved by Commissioner Coleman and seconded by Commissioner Walsh that the establishment of speed zones be delegated to the Administrator and State Highway Engineer. Motion carried unanimously. (See Delegation Order No. 12 on file in Commission's files, Salem.)

Attention was given to an agreement with the US Geological Survey providing for cooperative investigation of the water resources in Oregon. Mr. Klaboe stated that for approximately 20 years the Division has been involved in this cooperative project which provides stream gauging and flood runoff data for small drainage basins of 10 square miles or less throughout the state. A report cataloging the stream flow data is published each year. Currently the program is financed through HPR funding and \$30,000 has been allocated from these funds for the fiscal year 1975-76. Following his favorable recommendation, the Commission approved the agreement.

Consideration was given to approving an agreement with the University of Oregon, Museum of Natural History, during the fiscal year 1976 to hire an archaeologist to investigate highway projects which result in new disturbances of areas with archaeological potential. Mr. Klaboe mentioned that the Division does not presently have an archaeologist on its staff. As a part of the environmental process under the National Environmental Policy Act, the Department of the Interior requires that a professionally trained archaeologist investigate highway projects. He indicated that the Division has approximately 30 to 40 projects annually which requires such investigations. The cost is estimated at \$30,000 and will be financed with HPR funds. Upon his recommendation, the Commission approved the agreement.

The Commission considered an agreement with the City of Hammond for the installation of a four-way flashing beacon at the Fort Stevens Highway and Ridge Road in Clatsop County. Mr. Klaboe pointed out that the State will do the work and pay all costs which is estimated at \$6,830 and will be financed with State Bond money. The State will maintain the beacon after installation and the City will pay for all power costs. The Commission approved the agreement as recommended by Mr. Klaboe.

Consideration was given to an agreement with the City of Gearhart covering the installation of a traffic signal at the intersection of Highway 101 and Pacific Way in Clatsop County. Mr. Klaboe

said the project is estimated to cost \$45,795 and will be financed with State Bond Funds. The State will pay all costs of installation and maintenance and the City will pay for the power consumption. Upon his recommendation, the Commission approved the agreement.

Attention was given to an agreement with the City of Lake Oswego for the revision of a traffic signal installation at "A" Avenue and 8th Street in Clackamas County. Mr. Klaboe stated that the State will prepare all plans, award the contract and supervise the work of the project. The estimated cost of the traffic signal revision is \$11,800 of which the City will pay the total cost. The City will also continue to maintain the traffic signal and pay for all power consumed. Following his favorable recommendation, the Commission approved the signal agreement.

The Commission considered submitting a request to the Emergency Board to increase the Parks Branch expenditure limitation by \$125,000. Mr. Klaboe stated that since the Department of Transportation was reorganized in 1973, increased DOT planning responsibilities, increased Highway Division responsibilities, (development of the Environmental Section) and other organizational realignments have contributed to crowded office space conditions in the Highway Building. He indicated the most feasible solution is to move the Parks Branch to leased space and move some units now in leased space back to the Highway Building. Following his favorable recommendation, the Commission approved the request.

AERONAUTICS DIVISION

See Page No. 1117 for Commuter Air Service Report.

The Commission considered an easement granting to the Gleneden Sanitary District the perpetual right, privilege and authority to construct, maintain and repair a sanitary sewer pumping station on a portion of the Siletz Bay State Airport property in Lincoln County. Mr. Burket mentioned that the easement will not conflict with present or future utility of the airport property by the Division. Consideration to be received by the Division is \$400. Following his favorable recommendation, the Commission approved the easement.

Attention was given to an option to acquire property rights for parcels of land adjacent to the Siletz Bay State Airport from Mr. Brooks Johnston in Lincoln County. Mr. Burket stated that this option covers a portion of the property that must be acquired on both sides of the airport to protect, what are called, transitional surfaces. Cash consideration for acquiring property rights is \$4,250. The Commission accepted the option (File No. A-6 and A-7).

MASS TRANSIT DIVISION

Mr. Moore gave a brief review of the Mass Transit Division's 1975-77 \$3,033,000 budget. (Copy of Mass Transit Division's budget on file in the Commission's files, Salem.)

Mr. Moore also gave a progress report on the Analysis of Alternatives for the Willamette Valley Experimental Transportation Project. (Copy of progress report dated July 14, 1975, on file in the Commission's files, Salem.)

MOTOR VEHICLES DIVISION

Mr. Ward reported that the gas tax revenue is approximately six percent above last year. This is in the second half of the two-year registration period and revenues are down from last year.

DEPARTMENT OF TRANSPORTATION Director's Report - Mr. Baldwin

The Commission set Wednesday, August 27, 1975, as the date for their next regular meeting.

Following Mr. Baldwin's recommendation, the Commission approved the following items prior to submitting to the Emergency Board for approval:

- (1) To participate in the 1976 National Transportation Study, the Department is requesting \$14,694 for this study allocation plus \$10,333.22 in unspent funds from the 1974 National Transportation Study. Total limitation increase of \$25,027.22 would apply to the limitation for the Office of Planning in the Oregon Department of Transportation. (Copy of abstract of the study on file in the Commission's files, Salem.)
- (2) The 1975 Legislature approved but did not fund three positions in the amount of \$121,166 for the Department of Transportation. Requesting that the limitation for the Office of Planning and Program Analysis be decreased by \$121,166 and the limitation for the Office of Administration be increased by the same amount. This action will fund these three positions.

The Commission adopted Delegation Order No. 11 as recommended by Mr. Baldwin as follows:

(continued on page 1117)

DELEGATION ORDER NO. 11

Pursuant to the provisions of ORS 184.635 and in order to provide for a more efficient and expeditious administration of the Aeronautics Division, authority is hereby delegated to the Aeronautics Administrator, Oregon Department of Transportation, to execute all deeds, contracts, agreements, ingress/egress permits, or other documents pertaining to all real property transactions.

After a 10-minute recess the Chairman reconvened the meeting at 10:40 a.m.

AERONAUTICS DIVISION

Mr. Burket showed slides to the Commission and gave a short briefing on the Oregon Commuter Air Service Project report. Copies of the summary report were previously submitted to the Commissioners. He stated that the goal of the Commuter Air Service Project was to define an intrastate air service system that would satisfy the public needs of communities throughout Oregon and define the specific policies necessary to develop the system. The major objectives of the project were to (1) provide a reliable, convenient and safe air service system within Oregon, which is coordinated with other transportation modes and community planning and development programs (2) provide a fuel-efficient service to minimize the consumption of energy (3) assist communities in obtaining local commitments (4) provide for State-level support and (5) develop and promote the defined air service. In reply to Mr. Jackson's inquiries, Mr. Burket stated that the Division is receiving support from the local community on the existing third-level lines. The La Grande-Baker operation is an excellent example of what can be done. The Crescent City-Medford service started the first of July of this year and appears to be operating satisfactorily. These airlines are generally carrying a co-pilot in instrument conditions. The Commission approved the report and complimented Mr. Burket and staff for an excellent report. (Copy of Summary Report dated May, 1975 on file in Commission's files, Salem.)

The Chairman adjourned the meeting at 11:10 a.m.

REPORT OF CASES FILED BY AND AGAINST THE DEPT. OF TRANSPORTATION

L-7219 Kurt Link v. Raymond Massie; Elton D. Slate, Evan E. Anderson, and James N. Leinbach, dba Fred H. Slate Co. and State of Oregon: This is an action for wrongful death arising out of an accident that occurred on March 30, 1973, on the Oregon Coast Highway in the city of Coos Bay. The section of highway was under construction at the time under Contract No. 7867 and two cars collided in the construction area. The defendant, Raymond Massie, was the driver of the other car and Johanna Link was a passenger in the vehicle that collided with the one driven by Mr. Massie. The representative of the Estate of Johanna Link has asked for \$265,311 in damages.

The matter has been referred to the State's insurance carrier for the defense of the State.

L-7220 William Joseph Stephens, by his guardian ad litem, Barbara J. Schmidtke v. State Highway Commission: This claim arises out of an accident that occurred on March 13, 1974 on I-5 near mile post 165 in Lane County. The alleged cause of the accident is due to slick and icy conditions of the highway. The alleged negligence of the State is the failure to place sand or gravel on the highway to reduce the slick and icy condition. The plaintiff is seeking \$50,000.

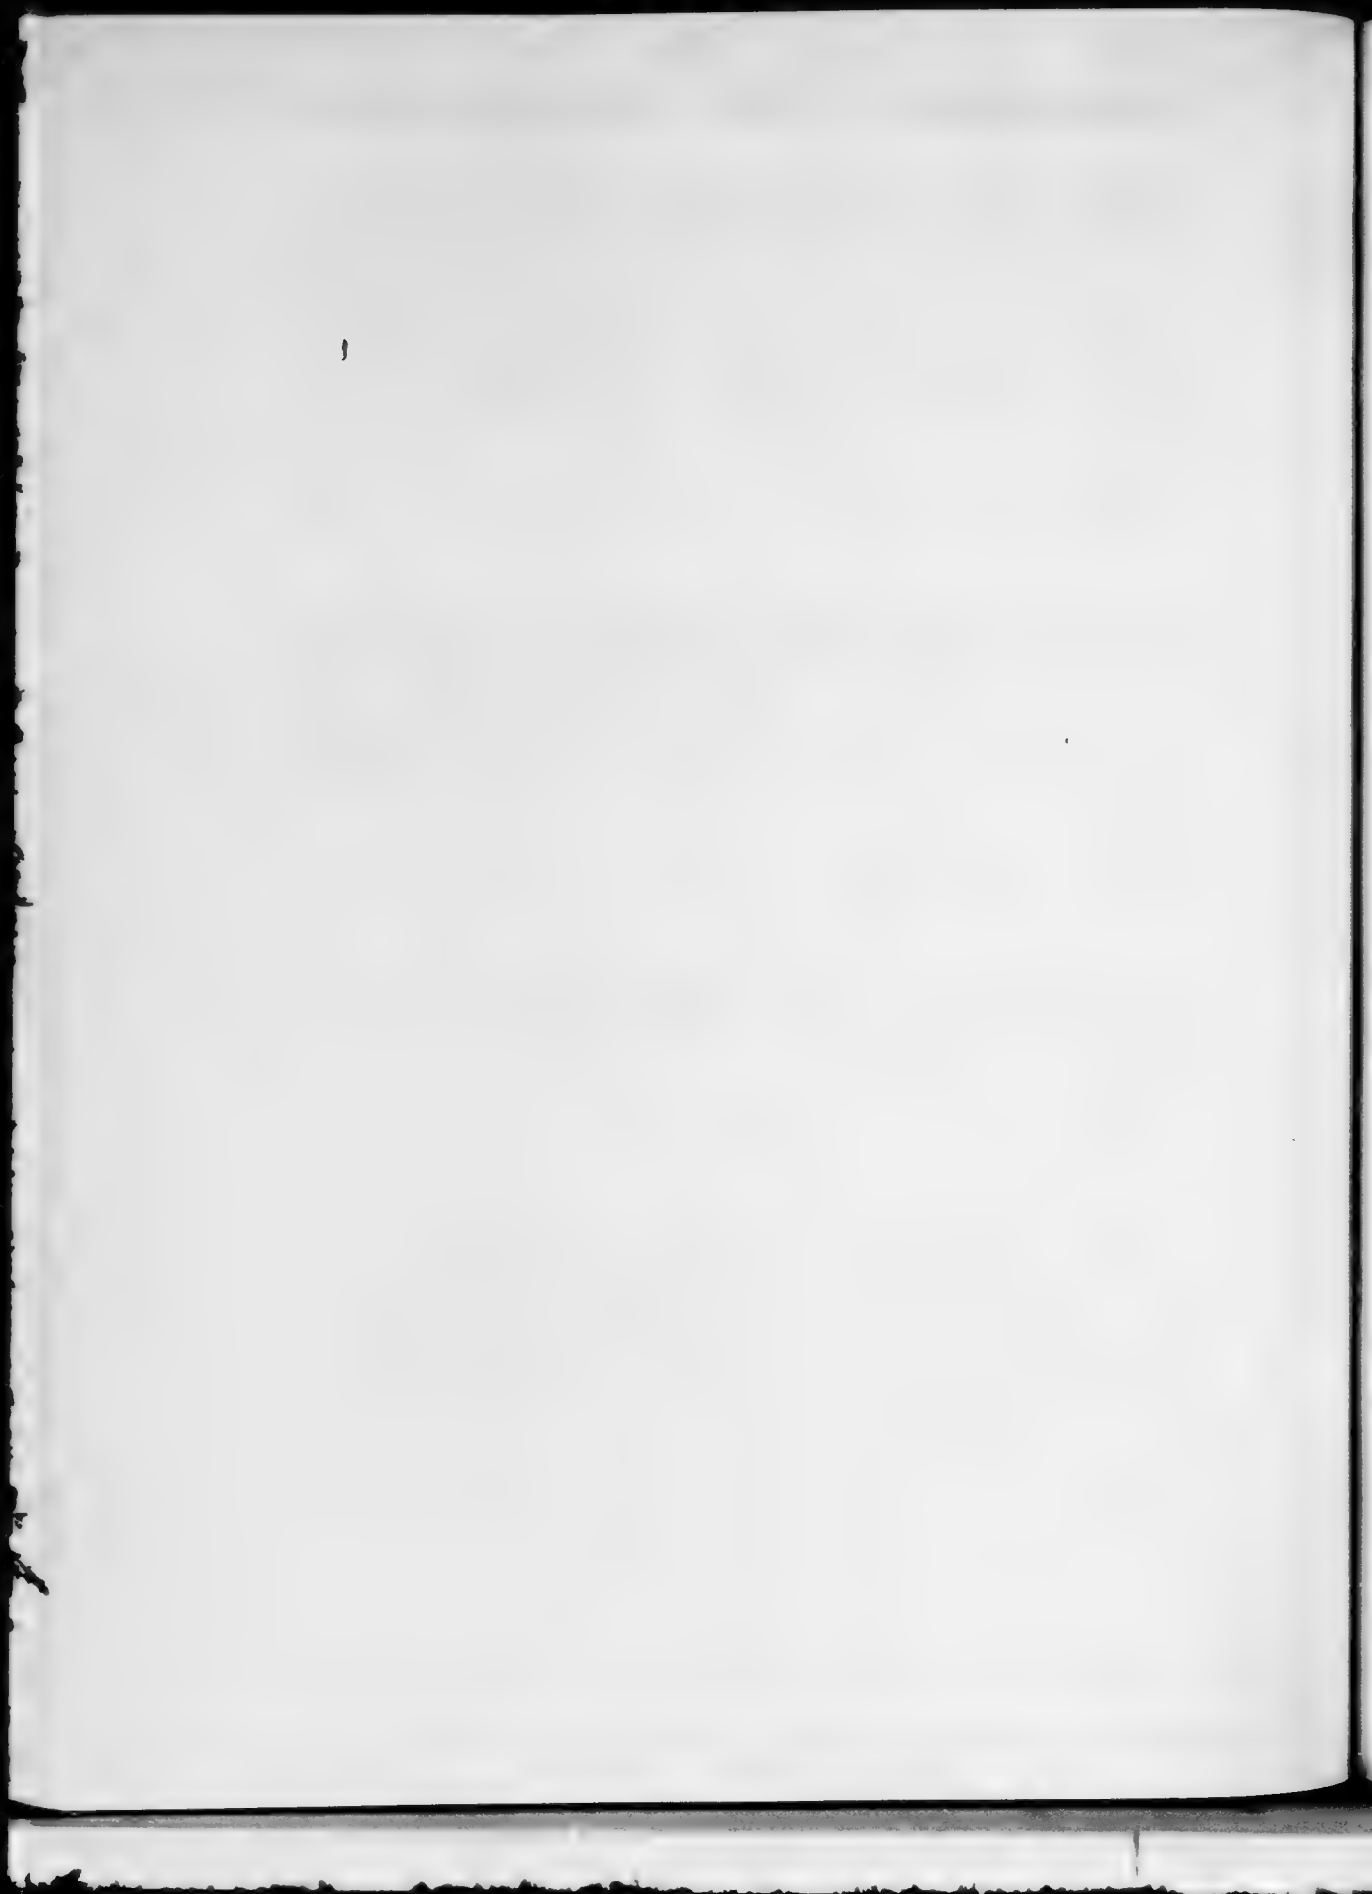

The matter has been referred to the State's insurance carrier for the defense of the State.

L-7221 Barbara J. Schmidtke, personal representative of the Estate of Jack Laverne Stephens v. State Highway Commission: This suit arises out of the same accident as L-7220 and resulted in the death of Jack Laverne Stephens. The plaintiff is seeking \$50,000 in damages.

The matter has been referred to the State's insurance carrier for the defense of the State.

L-7222 Phillip K. Settecase, et al v. Southern Pacific Transportation Co., et al: This is a suit for a declaratory judgment to determine the interest of the various parties in a parcel of land that is being condemned by the City of Salem for a highway project. The State Highway Division is acquiring the land for the City of Salem and has instituted condemnation proceedings. This lawsuit is to have an easement for a roadway established from a public roadway into a portion of property that would otherwise be landlocked.

The matter has been referred to the Attorney General's office for handling.

G

L-7223 Anthony J. Maksym and Karalee Maksym v. State of Oregon: This lawsuit arises out of an accident which occurred on Interstate 5 at milepost 293.53 on April 12, 1973, in Multnomah County. The alleged negligence of the highway employee is that he walked across a highway in front of an oncoming vehicle causing the driver to slam on his brakes and skid off of the highway into the ditch. The lawsuit is in the amount of \$746.75.

The matter has been referred to the State's insurance carrier for the defense of the State and its employee.

L-7224 Joe D. Sproles v. George D. Spencer and State of Oregon: This lawsuit arises out of an accident which occurred on March 24, 1975, when the plaintiff was a passenger in an automobile and was struck by a rock that fell from a cliff in the vicinity of Mt. Nebo on I-5, in Douglas County. The lawsuit is in the amount of \$550,000. The contractor on the job, George D. Spencer, dba S. D. Spencer & Son, has also been named defendant.

The matter has been referred to the State's insurance carrier for the defense of the State.

August 27, 1975
Salem, Oregon

The Oregon Transportation Commission held their regular meeting at 10 a.m. in Room 122 of the State Highway Building in Salem, Oregon. Notice of the meeting was made by press release to newspapers of general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Robert L. Mitchell, Secretary
Tom Walsh, Member
Michael P. Hollern, Member
B. Gordon Coleman, Member
George M. Baldwin, Director of Transportation
Walt Barrie, Chief Counsel
F. B. Klaboe, Administrator and State Engineer
E. S. Hunter, Acting Deputy State Highway Engineer
J. B. Boyd, Right of Way Engineer
David Talbot, State Parks Superintendent
Paul Burket, Administrator of Aeronautics
Dennis Moore, Administrator of Mass Transit
Chester Ott, Administrator of Motor Vehicles
C. W. Head, Manager, Commission Services

There were others present from the Department of Transportation and representatives from the news media.

The Commission approved the minutes of the regular meeting of July 30, 1975.

HIGHWAY DIVISION

A list of properties needed for highway and other purposes was presented by Mr. Boyd. He requested the Commission, by resolution the necessity of said properties for the public use to which they are to be put and to authorize him to attempt to negotiate with the owners of said properties as to price. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful and thereupon adopted "Condemnation Resolution No. 2637," which resolution by this reference is made a part hereof and filed in the Commission's files.

The Commission considered an agreement with Multnomah County for studies on a functional replacement of Rocky Butte Jail (Phase I) due to the location of the Washington State line N.E.-Siskiyou Street Section of the East Portland Freeway (I-505 corridor). Mr. Boyd stated that Sheriff Lee Brown of Multnomah County will be in charge of the project and with a rational study over the next twelve months determine the physical plant along with correctional programs under the replacement concept. The total cost of the study shall not exceed \$130,000. The functional replacement is a concept under the Federal Program Manual. This study has been coordinated with the Federal Highway Administration and he recommended approval. The Chairman approved the agreement on behalf of the Commission and authorized Mr. Klaboe to sign the agreement.

The Commission considered a report and recommendation which had previously been mailed to them by Mr. Boyd concerning the disposal of properties presently owned by the Commission on the Mt. Hood Freeway in the City of Portland and Multnomah County. Mr. Boyd mentioned that the State has possession of 415 parcels of real property of which 248 have had their improvements removed and 167 are being rented. The properties cost \$7,800,000 to acquire which includes all identifiable costs, appraisal, relocation, closing costs, etc. It is estimated a value remaining of \$5,000,000 against which will be the cost to sell and will include appraisals, advertising, closing costs, etc. Following Mr. Boyd's recommendation, the Commission authorized Mr. Klaboe to appoint a task force to study the possible methods of disposal for consideration before the Commission at some future date. The Commission accepted his recommendation. (Copy of report and recommendation on file in the Commission files, Salem.)

Mr. Barrie asked if there were any questions in connection with the informational reports previously submitted to the Commission on cases tried, cases settled and institution of legal proceedings filed against the Department of Transportation since the last Commission meeting. There were no questions. (See Exhibit C on file in the Commission's files, Salem.)

Consideration was given to adopting the temporary rules as permanent rules pertaining to the use of hang gliders in State Parks and specifically at Cape Kiwanda State Park in Tillamook County. Mr. Talbot stated that a public hearing was held in Tillamook on July 28, 1975, to obtain public testimony. The testimony received from the participants was generally supportive of the proposed rules and regulations. Following his recommendation, the Commission approved the adoption of permanent rules pertaining to the use of hang gliders. See "State Parks Resolution No. 38" for rules and regulations on file in Commission's files, Salem. (Permanent rules were published in the Secretary of State's Administrative Rule Bulletin on September 15, 1975, to become effective on September 25, 1975.)

Consideration was given to an agreement with the Oregon Fish and Wildlife Commission covering management of Molalla State Park in Clackamas County and adjacent Willamette River Greenway properties in Marion, Yamhill, Polk and Multnomah Counties for wildlife habitat. Mr. Talbot mentioned that the agreement will expand the original agreement to include other lands presently owned by the Commission or lands which may be acquired in the future. The Commission approved the agreement as recommended by Mr. Talbot.

The Commission considered a petition to allow dory launching at Oceanside State Wayside in Tillamook County. Mr. Talbot mentioned that public hearings were held on June 17 in Tillamook and

June 18, 1975, in Portland pertaining to preliminary development plans for the Wayside property and for allowing vehicle use in launching and retrieving dories. There were approximately 60 persons that attended the Tillamook hearing and only a few spoke in support of opening the area to allow dory launching and there was no one representing the petitioners that spoke. The majority of individuals speaking were in favor of the present vehicle closure. The Portland hearing was attended by approximately 70 persons and all who spoke were in favor of the present closure. There were no speakers in favor of opening the beach to dory launching. Mr. Talbot recommended that the present "Ocean Shore Resolution No. 11a" of June 22, 1971, be retained and the request to allow dory launching at Oceanside State Wayside be denied. The Commission accepted his recommendation.

Attention was given to a request to present to the Emergency Board the creation of 20 temporary positions for cleaning up the older military installations along the Columbia River at Fort Stevens State Park in Clatsop County. Mr. Talbot stated that the staff has been working with Executive Department and have been successful in securing a \$200,000 Federal grant for the project. He indicated that the Emergency Board approved an increased expenditure in the Parks budget at their June 1975 meeting for this project. Most of the people hired would be from the Clatsop County area. Upon his recommendation, the Commission adopted the resolution authorizing Mr. Klaboe to sign and file an application with the Pacific Northwest Regional Commission for a grant. The Commission accepted the Offer of Grant and granted authority to present the request to the Emergency Board.

The Commission considered an agreement with Bardsley and Haslach to conduct an Outdoor Recreation Activity participation telephone survey for the Statewide Comprehensive Outdoor Recreation Plan. Mr. Talbot said the basic service provided by the consultant will include questionnaires, development of Statewide random data on special forms and a ten percent accuracy and authenticity report. The cost of the agreement is not to exceed \$6,000. The Commission approved the agreement as recommended by Mr. Talbot.

Mr. Klaboe reported on actions taken under delegated authority received for filing with the Commission records. These reports show the actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission files, Salem.)

Chairman of Oregon Transportation Commission	Exhibit A
Vice Chairman of Oregon Transportation Commission	Exhibit B
Administrator and Highway Engineer	Exhibit C
Director of Permits	Exhibit D
Right of Way Engineer	Exhibit E
State Parks Superintendent	Exhibit F
Chief Counsel	Exhibit G

Mr. Klaboe reported that under ORS 366.525 the counties are entitled to receive 20 percent of all funds received from motor vehicle taxes and fees. For the month of July 1975 the amount credited to the counties totals \$2,212,322.47 which amount was released on August 22, 1975 as apportioned by law. (List of apportionment to counties on file in the Commission's files, Salem.)

Mr. Klaboe stated that an allocation of 12 percent of the Highway Fund to the cities for the month of July 1975 in the amount of \$1,327,393.48 was released on August 25, 1975. (A list of apportionment to the cities on file in the Commission's files, Salem.)

The Commission considered renovation of the large Conference Room in the State Highway Building in Salem. Mr. Klaboe stated the estimated cost of the proposal is \$6,000 which would include new chairs with folding tablet arms, carpeting, replacing the present microphone system, replacing the non-matching doors and woodwork, and painting. Chairman Jackson said he couldn't see how the Commission could justify these expenditures after telling delegations that the State does not have any money to spend on various projects. The Commission deferred action on this matter due to the current financial situation.

Consideration was given to approving seven Off-System Road projects on rural roads and streets. Mr. Klaboe stated the total estimated cost of these projects is \$2,219,000 of which \$1,713,660 will be Federal Aid costs and \$505,340 will be the responsibility of the local agencies. There would be no cost to the State. Upon his favorable recommendation, the Commission approved the following projects and authorized the Administrator to sign the agreements when prepared.

COUNTY OR CITY	PROJECT	AMOUNT
Clackamas	Petes Mountain Rd. (Weis Br.)	\$462,000
Clatsop	Klaskaninie River (Rock Bluff and Smiley's Hole Bridges)	\$190,000
Douglas	South Umpqua River (Gazley Br.)	\$345,000
Grant	Oxbow Section of the Middle Fork, John Day River Road	\$500,000
Lane	North Fork, Siuslaw Rd.	\$500,000
Canby	N. Second Ave., N. Third Ave., and N. Juniper St. Sections	\$102,000
Coquille	Collier St. (10th St. to 16th St.)	\$120,000

Mr. Klaboe presented the following informational report on projects on which bids were received August 14 and on bids to be received August 28, 1975. He mentioned the projects contain an explanation of plans regarding establishment of footpaths and bicycle trails.

AUGUST 14, 1975 BID OPENING

- (1) Barnett Rd. Undercrossing Sec., Pacific Hwy., Jackson County. Grade, Pave and Structure. Five- to eight-foot sidewalks will be provided.
- (2) Modoc Point (Units C and D) Sec., The Dalles-California Hwy., Klamath County. Grade, Pave and Rock Fallout Protection. Footpaths and bicycle trails will not be established under this project as per ORS Chapter 366, Section 2, subsection 2(b), which states that "Footpaths and trails are not required to be established...if the cost of establishing such paths and trails would be excessively disproportionate to the need or probable use." Four-foot shoulders will be provided.
- (3) Malheur River Br. Sec., Olds Ferry-Ontario Hwy., Malheur County. Grade, Pave and Structure. Same as No. 2. Eight-foot shoulders will be provided.

AUGUST 28, 1975 BID OPENING

- (1) Nelson Point Intchge.-Spout Cr. Sec., Old Oregon Trail, (I-80N), Baker County. Rock Protection Fence Project. Footpaths or bicycle trails are not incorporated in this project as no new highway construction, reconstruction or relocation is involved. Ten-foot shoulders exist on I-80N.
- (2) Bluff Rd.-Teneyck Rd. (Sandy) Sec., Mt. Hood Hwy., Clackamas County. Grading, Paving and Signals Project. Grading and paving incidental to signalization. Sidewalks exist. Curb ramps are being provided.
- (3) "A" Ave. at 8th St. (Lake Oswego) Sec., FAS 680 (City Street), Clackamas County. Signal Modification Project. Footpaths or bicycle trails are not incorporated in this project as no new highway construction, reconstruction or relocation is involved.

(continued on page 1159)

- (4) Oswego Cr. Br. Sec., FAUS Rt. 0205, Clackamas County. Grading, Paving and Structure Project. Grading and paving incidental to bridge construction. Six-foot sidewalks will be provided.
- (5) Hubbard Intchge., (Southbound O'Xing Structure), Pacific Hwy. (I-5), Clackamas County. Paving Project (replacement of bridge deck surface). Ten-foot shoulders are provided on the structure.
- (6) Oregon Coast Hwy. at "U" St., Seaside, Clatsop County. Traffic Signal Project. No highway work. Class III bike lane exists on US101 in this area.
- (7) Scappoose (SE Second St.) Sec., Columbia County. Grading and Paving Project. Footpaths and bicycle trails will not be established under this project as per ORS Chapter 366, Section 2, subsection 2(b), which states that "Footpaths and trails are not required to be established...if the cost of establishing such paths and trails would be excessively disproportionate to the need or probable use".
- (8) Green Springs Hwy. Junction-Walker Ave. (Ashland) Section, Rogue Valley Hwy., Jackson County. Illumination Project. Same as No. 3.
- (9) Front St.-Mill St. (Creswell) Sec., Goshen-Divide and Springfield-Creswell Hwys., Lane County. Grade, Pave and Signals Project. Asphaltic concrete sidewalk exists. Four-foot shoulders provided.
- (10) Miller Rd.-Stemple Cr. Sec., Siletz Hwy., Lincoln County. Grading and Placing Aggregate Project. No surfacing being placed under this contract.
- (11) 13th St. SE at Hines St. SE (Salem) Sec., FAUS 5051, Marion County. Signals Project. Footpaths or bicycle trails are not incorporated in this project as no new highway construction, reconstruction or relocation is involved. Sidewalks exist.
- (12) Rural Ave.-Vista Ave. (Salem) Sec., Pacific Hwy. E., Marion County. Signals Project. Same as No. 11.
- (13) Memaloose Safety Rest Area-Idaho State Line Sec., Columbia River Hwy. and Old Oregon Trail between M.P. 73 and M.P. 378 (I-80N), Five Counties. Sign Shelters Project. Same as No. 3.

(continued on page 1160)

- (14) Tualatin Valley Hwy. at SW 198th Ave. Sec.,
Tualatin Valley Hwy., Washington County.
Grading, Paving and Signals Project.
Grading and paving incidental to signalization
project. Six-foot sidewalks provided.
- (15) Park St. (Burns) Sec., City Street, Malheur
County. Grading and Paving Project.
Same as No. 7.
- (16) Saginaw Ave. N. (Hines) Sec., City Street, Harney
County. Grading and Paving Project.
Same as No. 7.
- (17) Siletz River Bridges, Lincoln County. Maintenance
Painting.
Same as No. 3.

The Commission approved increases in the project authorizations on the following contracts as recommended by Mr. Klaboe:

- (1) Morse Bros., Contract No. 8177, Orchard Dr.-
Washington St. (Dallas) Section on the Kings
Valley Hwy. in Polk County for \$35,770.03 (14.9%).
The major increase was due to additional work on
one of the TOPICS segments which involved an
extension of the project limits on Miller Ave.
at the request of the City.
- (2) Salem Road & Driveway Co., Contract No. 8176,
Oak Crest Farm Section on Salem-Dayton Hwy. in
Polk County for \$30,211.09 (13.6%). The general
excavation and the aggregate base items will
overrun because the cut to fill quantities did
not balance during the separate traffic handling
stages. Also the excavation material required
lime treatment at subgrade level and the addition
of pit run rock.

The Commission considered adopting the following proposed rule under the Administrative Procedures Act:

The establishment of a truck route which would route Swan Island truck traffic from and to I-5 south through the Broadway-Weidler Interchange during the hours of 11 p.m. to 6 a.m. in the City of Portland. The route would utilize NE Broadway, N. Interstate Avenue (ORE99W), N. Greeley Avenue and N. Going Street. Approval subject to the provision that the City of Portland will bear the cost of signing, traffic controls, lane revisions, curb revisions at 90-degree turns and street improvements necessary to reduce hazards on the truck route.

(continued on page 1161)

Mr. Robert Schroeder, Assistant State Highway Engineer, said this matter was previously presented to the Commission in September of 1974 and was referred back to the City of Portland for recommendation based on the Highway Division's evaluation. As a result of this, the City formed a Task Force Committee composed of business representatives on Swan Island, the Trucking Association, the Union, the neighborhoods, the City and the State. The main objective was to eliminate truck traffic during the hours from 8 p.m. to 6 a.m. on Going Street between I-5 and Greeley. The result of the Task Force is the recommendation which is being presented today. However, the truck route would be in operation between the hours of 11 p.m. and 6 a.m. instead of the hours 8 p.m. to 6 a.m. and would only affect the trucks which approach the Going Street interchange from the south. The result of this is that rather than having approximately 325 trucks utilizing this route, many of which would have been way out of direction, there would be approximately 125 trucks using this route. The additional costs to the truckers have been estimated at approximately \$20,000. He stated that it is the State's recommendation at this time to hold a public hearing in conformance to the Administrative Procedures Act and a final report be given to the Commission for action at a later date after the hearing has been held. The Commission accepted his recommendation. (Notice of the proposed rule was published in the Secretary of State's Administrative Rule Bulletin on September 1, 1975. A public hearing will be held at 7:30 p.m., September 10, 1975, in the Weyerhaeuser Room, Memorial Coliseum in Portland.)

Consideration was given to the improvement of the Grabb Creek-Stony Brook (westbound) Section passing bays in the vicinity of Scottsburg on the Umpqua Highway in Douglas County. Mr. Klaboe stated the estimated cost of this improvement is \$300,000. He recommended this project be contracted this summer and requested authority for the use of State Construction Funds. The Commission accepted his recommendation.

Due to recent retirements and organizational change, Mr. Klaboe said it was necessary to revise the list of individuals of the Highway Division to sign Federal reimbursement vouchers on behalf of the Commission. Following his recommendation, the Commission authorized the following personnel to sign the Federal reimbursement vouchers:

F. B. Klaboe
E. S. Hunter
L. W. Rulien
V. E. Skoog
D. E. Swan

Consideration was given to adopting a resolution transferring from Marion County to the State 0.5 mile of a county road providing access into Champoeg State Park in Marion County. Mr. Klaboe pointed out that this transfer to the State will permit relocation of the park entrance and improvement of access through the park. Upon his recommendation, the Commission adopted "Abandonment Resolution No. 554," which resolution by this reference is made a part hereof and filed in the Commission's files, Salem.

The Commission considered deleting a 1964 amendment (Through Highways and Stop Signs Resolution No. 13N) to "Through Highways and Stop Signs Resolution No. 13" dated September 21, 1949, covering the Yamhill-Newberg Highway at the intersection of Main and Illinois Streets in Newberg in Yamhill County as follows:

Except that at the intersection of Main and Illinois Streets in Newberg all traffic eastbound on the Yamhill-Newberg Highway No. 151 shall stop with the exception of that making the right turn from west to south.

Mr. Klaboe said that recent construction has greatly improved the radius of this turn and a left-turn refuge has been provided for drivers proceeding onto Main or Illinois Streets from the highway. The stop sign is no longer needed. The Commission approved the revision as recommended by Mr. Klaboe.

The Commission considered amending "Through Highways and Stop Signs Resolution No. 4" dated April 27, 1943. Mr. Klaboe mentioned that an investigation had disclosed that a combination of traffic conditions and existing highway alignment warrant the installation of a stop sign on the McKenzie Highway at the junction with the Santiam Highway in Sisters in Deschutes County. He recommended that this resolution be amended as follows:

Eastbound traffic on the McKenzie Highway No. 15 (M.P. 92.28) at the junction with the Santiam Highway No. 16 (M.P. 100.36) in Deschutes County shall be required to stop.

The Commission accepted his recommendation.

Attention was given to an agreement with the City of Sandy covering traffic signal installations at the following intersections in Clackamas County:

Mt. Hood Highway at Bluff Road
Mt. Hood Highway (Main Street) at First Street
Mt. Hood Highway at Teneyck Street
Mt. Hood Highway (Proctor Street) at First Street

Mr. Klaboe mentioned that the State would do all of the work and pay all costs of the project which is estimated at \$160,000 to be funded with State Bond money. The State will maintain the traffic signals after installation and the City will pay all power costs. Following his recommendation, the Commission approved the agreement.

Consideration was given to an agreement with Lane County and the City of Junction City covering the installation of traffic signals at the intersection of Ivy Street (Pacific Highway West) and First Avenue. Mr. Klaboe said the State will do all of the work on the project and maintain the traffic signals after installation. The estimated cost is \$40,000 which will be shared equally by the State and County. The State's share of the project will be funded by FAP-Rural funds. The City will pay for all power consumed after installation. Following his favorable recommendation, the Commission approved the agreement.

The Commission considered an agreement with the City of Phoenix covering traffic signals at the intersection of the Rogue Valley Highway and Fern Valley Road in Jackson County. Mr. Klaboe stated that the State will do all of the work on the project and maintain the signals after installation. The estimated cost is \$34,000 of which the State will pay all costs using State Bond money. The City will pay all power costs after installation. Upon his recommendation, the Commission approved the traffic signal agreement.

Attention was given to an agreement with Jackson County for a traffic signal at the intersection of the Rogue Valley Highway and Valley View Road. Mr. Klaboe pointed out that the State will do all of the work and maintain the signal after installation. The estimated cost is \$38,000 and the State will pay all costs to be funded by State Bond money. The County will pay for all power consumed after installation. Following his favorable recommendation, the Commission approved the agreement.

Consideration was given to an agreement with the City of Pendleton for the installation of traffic signals at the intersection of the Pendleton-John Day Highway with S.W. Nye Avenue in Umatilla County. Mr. Klaboe indicated that the State will do all of the work and maintain the signals after installation. The estimated cost is \$8,900 which will be shared equally by the State and City. The State's share will be funded by Region Minor Betterment funds. The City will pay all power costs after installation. The Commission approved the agreement as recommended by Mr. Klaboe.

The Commission considered the continuation of an agreement with McCann-Erickson, Inc., for the Keep Oregon Livable Program. Mr. Klaboe mentioned that for the past six years the Commission, in cooperation with the Governor's Office, has conducted an environmental education and information program called, "Keep Oregon Livable." The program seeks to create an awareness by the general public of a number of environmental issues relating to the activities of the Highway Division and to encourage all Oregonians to make an individual commitment toward the preservation of the State's unique livability. The Division is not sufficiently staffed to conduct these activities on its own. McCann-Erickson, Inc., has been engaged by an agreement for the past two years to assist with this program. The current contract expired on June 30, 1975. The Governor's Office has reviewed the program proposal and recommends

continuation. The total cost of continuing the program through June 30, 1976, is not to exceed \$46,200. The funds for the program are available within the Division's General Administration account. Upon his favorable recommendation, the Commission approved the continuation of this program.

Attention was given to a Supplemental Agreement No. 1 with the Oregon Graduate Center for Study and Research project relative to the contribution of transportation sources to ambient air concentrations of gases and particulate pollutants. Mr. Klatka stated this agreement extends the completion date of the original agreement to November 30, 1975, in order for the consultant to complete the study and prepare the final report. There is no additional cost to the State. Following his recommendation, the Commission approved the supplemental agreement.

The Commission considered adopting a resolution allowing the operation of certain vehicles on highways presently required to obtain special permits. Mr. Hamilton, Permit Engineer, presented the resolution. Mr. Hamilton stated the resolution has been in existence for approximately twenty years. The most common types of trucking equipment are authorized to operate on Oregon's highways by this resolution. Periodically, it is necessary to update and revise the resolution to stay in keeping with the advancements of the industry. The revised resolution would put the State in closer accord with the adjoining States and will decrease the amount of permit issuance. The principal effect of the revised resolution is as follows:

- (1) Allow the operation of 60-foot overall length tractor-semitrailer combinations where the semitrailer is 45 feet in length. Presently special permits are required for these combinations which have been in operation on designated highways for several years. It should be noted that the present resolution allows this combination at 60 feet overall length on designated highways. This length will not change; the revision is to the trailer length, increasing it under the resolution from 40 feet to 45 feet on designated highways.
- (2) Presently, logging-type truck and trailer combinations may have an overall length of 75 feet when transporting logs, poles, piling, and structural timbers. For other commodities the overall length is held to 55 feet. The revision will allow 75 feet overall length when transporting any commodity. This will eliminate the need for special permits in transporting commodities not of forest product nature.

(continued on page 116)

- (3) Eliminates the need for special permits for auto transporters by allowing 48-foot load length and 14-foot height under the revised resolution. The existing overall permissible length of 75 feet for this vehicle combination will remain unchanged. Permits have routinely been issued for this vehicle. It is appropriate that it operate under resolution.
- (4) Updates highway route system for vehicle combinations of various lengths.

The vehicles affected by the proposed resolution have been operating on Oregon highways for several years under special permits, and there have been no safety problems. Allowing the operations under the blanket authority of the resolution will allow a substantial savings in paper transactions. He indicated that a public hearing was held on August 6, 1975, and the industry is very much in favor of the resolution. Following his favorable recommendation, the Commission adopted as a permanent rule "Permit Resolution No. 35," which resolution by this reference is made a part hereof and filed in the Commission's files, Salem. (Permanent rule was filed in the Secretary of State's Administrative Rule Bulletin on September 15, 1975.)

Attention was given to an agreement with Washington County for the installation of a traffic signal at the intersection of the Tualatin Valley Highway and S.W. 198th Avenue. Mr. Klaboe mentioned that the State will prepare all plans and specifications and perform the work. The State will also pay the total cost of the project which is estimated at \$55,000 and will be charged to Title II high hazard funds. After completion, the State will maintain the signal and the County will pay for all power consumed. Following his favorable recommendation, the Commission approved the agreement.

Consideration was given to an agreement with the City of Medford for the installation of a traffic signal at the intersection of Biddle Road and the interchange ramps in the southeast quadrant of the Crater Lake Highway Interchange in Jackson County. Mr. Klaboe said the State will prepare all plans and specifications and perform the work. The State will pay the total cost of the project which is estimated at \$45,000 and will be charged to Title II high hazard funds. After completion of the project, the State will maintain the signal and the City will pay for all power consumption. Upon his favorable recommendation, the Commission approved the agreement.

AERONAUTICS DIVISION

The Commission complimented Mr. Burket on his report regarding the third level air carrier program.

MASS TRANSIT DIVISION

Mr. Moore reported on the Willamette Valley Experimental Transportation Project. He stated that during the budget process the Division proposed and the Governor approved a recommendation to the Legislature to add one additional round trip of Amtrak service within the Willamette Valley for 22 months and the Division sought an appropriation of general funds in the amount of \$620,000. The Legislature placed this money in the Emergency Fund stating that this appropriation is primarily for the purpose of demonstrating the feasibility of extending Amtrak service, however, because alternatives have not been explored by the agency to the subcommittee's satisfaction, the Emergency Board may select a different mode depending upon the study findings. In the appropriation law to the Division, it says the \$620,000 may be released to the Mass Transit Division for expenditure on an inter-city transportation project, after the Division submits to the Emergency Board a detailed evaluation of alternative modes including economic analysis, technical feasibility and efficiency. The Division's proposal was based on the fact that Oregon had gone through a rather substantial energy crisis. In addition to Amtrak, the Division proposed other inter-city services and improvements, city bus system improvements, etc. Mr. Moore said the idea was to develop increased public transportation and encourage people to use it so there would be a network of public transportation in case of an energy crisis and also as an energy conservation measure. After the Legislative action, a team was organized to study the different alternatives. There were two public hearings held within the Willamette Valley and additional alternatives were received as a result of these hearings. The Division is looking at (1) car, van and bus pools (2) inter-city bus, (3) rail and (4) bus/rail combinations which seem to be the more realistic alternatives. The car, van and buspools did not receive much support from the public. He indicated there probably should be a marketing program to make the public aware of what service is now available and what service might be added as a result of the demonstration project. Mr. Moore proposed that the studies be continued and he would give a status report to the Emergency Board's September meeting and then report back to the Commission at a future meeting with a recommendation.

The Chairman asked what the degree of interest is from the public and from the various subdivisions of government. Mr. Moore replied that it was difficult to analyze as there were only about 180 people in attendance at the five hearings. Chairman Jackson pointed out that the Commission is charged with the responsibility of setting up alternate programs to take the place of automobiles and trucks if there is a matter of national policy that the use of petroleum products will have to be reduced. It does not appear that there will be much public cooperation until there is another crisis. The Chairman said the program should be continued and asked Mr. Moore to report back to the Commission.

Mr. Moore introduced Marvin Gragg, Director of Greyhound Lines from Phoenix, Arizona, and John Sanderson, Jr.,

General Manager, Western Division of Greyhound Lines in Portland. Mr. Gragg said his main purpose in appearing is to state that Greyhound Lines is the principal common carrier of passengers in the Eugene and Portland area. The company went through the experience last year during the energy crisis and is aware that something similar could occur in the future. He indicated his company is willing to meet with Mr. Moore and staff regarding the type of service Greyhound could provide. Chairman Jackson thanked Mr. Gragg for his cooperation in trying to work out a feasible solution to what might be a critical situation in transportation.

MOTOR VEHICLE DIVISION

Mr. Ott presented to the Commission graphs of the motor vehicles registration fee revenue (1972 to 1975) and vehicle fuels tax cumulative net revenue (1970 to 1975). The Chairman thanked Mr. Ott for the graphs and said the Commission would be interested in receiving future reports. (Copies of graphs on file in Commission's files.)

Mr. Baldwin mentioned the Finance staff is working on a new system of revenue forecasting which will be more precise in giving a better financial picture. He indicated regular reports will be submitted to the Commission.

DEPARTMENT OF TRANSPORTATION
Director's Report

The Commission set Wednesday, September 24, 1975, as the date for the next regular meeting.

The Commission considered a consulting agreement with Robert A. Burco for conducting an analysis of the Mt. Hood Freeway alternatives and the State transportation planning policy in Multnomah County at a cost of \$1,678.04. Mr. Baldwin stated this amount includes his consulting fee, air travel, meals and lodging for five days in June and July 1975. Consideration also was given to approving Mr. Burco's (new Deputy Director of Transportation) moving allowance from Berkeley, California, to Salem in the amount of \$2,500. The Commission deferred action on these two items. After further discussion, both items were unanimously approved by the Commission. The Commission authorized the Director to sign the consultant agreement.

The Chairman adjourned the meeting at 10:50 a.m.

- (2) Demolition contract with Heard Construction Company for low bid of \$6,450 for a demolition project clearing the East Portland Freeway in Portland, Multnomah County. (Right of Way Branch)
- (3) Construction agreement and easement with the Oregon-Washington Railroad and Navigation Company (Union Pacific) for relocation of railroad crossing during detour phase and lights at the permanent location of the Grand Ronde River Bridge at Island City, Wallowa Lake Highway, Union County. Consideration for easement is \$250, File 48443. (Right of Way Branch)
- (4) Sewer Line connection agreement and supplement with the City of Ashland for the Siskiyou Safety Rest Area on the Pacific Highway in Jackson County. Costs include a connection fee of \$1,425, sampling station \$950 and capital reimbursement of \$3,035. (Right of Way Branch)
- (5) Letter-form agreement with City of St. Helens for installation of railroad crossing protection at the North 17th Street crossing of the Astoria Branch tracks of the Burlington Northern Railroad, Crossing 5A-027.95. This project is eligible for 90% Federal Aid Funding under Section 230 of Title II, Highway Safety Act of 1973. Total estimated cost of the work is \$40,000. City will provide the 10% (\$4,000) matching funds with no expense to State. (County-City Unit) (Columbia County)
- (6) Supplemental throughway agreement with the City of Newberg concerning a revision of the plans for construction of the Chehalem Creek (Newberg) Section of Pacific Highway West in Yamhill County. The revision eliminates the need for closure of First Street and construction of a cul-de-sac. The original agreement of April 21, 1975, remains in full force and effect, except as expressly modified by ~~APPROVED~~ APPROVED E. S. Hunter. (County-City Unit)

Subject: Confirmation of Telephonic Action Taken Under Delegated Authority

By your duly adopted Delegation Order you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority and acting in accordance therewith for the Commission, I approved the following agreement and report this action for your official records:

On July 15, 1975, I gave approval to George Baldwin, Director of the Department of Transportation, for a supplemental professional services agreement with Lawrence Grupp for additional consulting services for the development of the Willamette Valley Transportation Plan. Cost of this supplemental agreement will not exceed \$20,000 and the term is for less than one year.

Dated 29 of July, 1975

Glenn Jackson, Chairman
Oregon Transportation Commission

REPORT OF CASES FILED BY AND AGAINST THE DEPARTMENT OF TRANSPORTATION

L-7232 Homer L. Wright, et al. v. State of Oregon, by and through its Department of Transportation: This is a Petition for Declaratory Relief, filed in Marion County, contesting the procedure followed by the Department of Transportation in adopting Plan B relating to the Willamette River Greenway Plan. The Petition questions the validity of several procedures followed by the Department of Transportation in approving Plan B. The Petition asks that Plan B be considered in violation of law and for their attorney fee and costs.

The matter has been referred to the Attorney General's office for the defense of the State.

L-7233 Jordan S. Wells v. Department of Transportation, by and through its Aeronautics Division: This is an Inverse Condemnation case brought against the Department of Transportation and relates to interference with the property owner's property rights adjacent to the Siletz Bay State Airport. The plaintiff is seeking \$25,000 in damages for noise vibration, loss of sleep, general annoyance and aggravation, and \$25,000 as diminution in value to plaintiff's property.

The matter has been referred to the Attorney General's office for the defense of the State.

L-7235 Veeta J. Housen v. Morse Brothers Sand and Gravel Company, Inc., and Oregon State Highway Commission: This is a wrongful death lawsuit arising out of an accident that occurred on August 8, 1972, on the Sodaville Road-Vale Creek Section of the Santiam Highway in Linn County which was under construction by a private contractor. The driver of the vehicle was killed in the accident and the lawsuit is based on the alleged negligence of the contractor and the State to provide adequate warning signs indicating where to detour and warning that construction was taking place in the area. The amount of the lawsuit is \$151,369.60.

The matter has been referred to the State's insurance carrier for the defense of the State.

L-7236 Sarah R. Eichbaum v. The City of Lincoln City and the State of Oregon Highway Division, et al: This lawsuit arises out of an accident that occurred on January 14, 1974. The defendant alleges that a sidewalk in Lincoln City was defective and as a result she fell and suffered substantial injuries. The amount of the lawsuit is \$10,420.70.

The lawsuit has been referred to the State's insurance carrier for the defense of the State.

September 24, 1975
Salem, Oregon

The Oregon Transportation Commission held their regular meeting at 10 a.m. in Room 122 of the State Highway Building in Salem, Oregon. Notice of the meeting was made by press release to newspapers of general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Robert L. Mitchell, Secretary
Tom Walsh, Member
Michael P. Hollern, Member
B. Gordon Coleman, Member
George M. Baldwin, Director of Transportation
Robert A. Burco, Deputy Director
Walt Barrie, Chief Counsel
F. B. Klaboe, Administrator and State Highway Engineer
E. S. Hunter, Deputy State Highway Engineer
J. B. Boyd, Right of Way Engineer
David Talbot, State Parks Superintendent
Dennis Moore, Administrator of Mass Transit
Chester Ott, Administrator of Motor Vehicles
Paul Burket, Administrator of Aeronautics
C. W. Head, Manager, Commission Services

There were others present from the Department of Transportation and representatives from the news media.

The Commission approved the minutes of the regular meeting of August 27, 1975.

HIGHWAY DIVISION

A list of properties needed for highways and other uses was presented by Mr. Boyd. He requested the Commission to declare by resolution the necessity of said properties for the public use to which they are to be put and to authorize him to attempt to agree with the owners of said properties as to price. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful and thereupon adopted "Condemnation Resolution No. 2638," which resolution by this reference is made a part hereof and filed in the Commission's files.

Mr. Boyd reported that there are approximately 26 signs yet to be purchased under the sign removal program. He said it was anticipated that this program would be completed by the end of September, but now it looks like the end of October.

Mr. Barrie asked if there were any questions in connection with informational reports previously submitted to the Commission on cases tried, cases settled and institution of legal proceedings filed against the Department of Transportation since the

last Commission meeting. (See Exhibit G on file in the Commission's files, Salem.)

Mr. Barrie asked the Commission to defer action on abandoning 13 damage claims totaling \$9,386.67. He indicated the Secretary of State's Audit Division is questioning the right of the Department to settle these matters or compromise them without their approval. An Attorney General's opinion is now being written on this question. The Commission deferred action on the abandonment of the claims as recommended by Mr. Barrie.

In reply to the Chairman's inquiry, Mr. Barrie reported on the Silver Point Slide suit south of Cannon Beach on the Oregon Coast Highway in Clatsop County. (Barbara Settum case, L-7096). He stated in this particular case the property owner's property was damaged by a slide and that many years before the State had taken some gravel from near the property. There was a question as to whether or not the State was responsible for the slide which damaged the property. The State's highest testimony was \$35,000 based upon the property appraisal after the slide. The property owner asked for \$175,000. The jury awarded \$113,500 which on its face appears to have exceeded by some \$80,000 the State's highest testimony. The State's appraisal value of the property before the slide damage was within \$5,000 of the jury verdict. The big question was whether or not the State was responsible for the slide. It was the State's contention that it was not responsible. The property owner was the kind of person that juries sympathize with. In this case the jury found the State was responsible for the slide. The award of \$113,500 was based upon the pre-slide value of the property.

The Commission considered a request from Estacada Rock Products, Inc., and River Island Sand and Gravel Co. to continue aggregate mining and processing within the Clackamas River Scenic Waterway in Clackamas County. Mr. Talbot said both firms are operating in compliance with current permits. He recommended that these firms be given interim approval pursuant to the Scenic Waterways Act so that their operations may continue during the next few months while the State prepares a management plan for the new scenic waterway. This approval should stipulate that the matter will be reconsidered after the Commission's adoption of a management plan expressed in rules and regulations. This will probably take several months. The Commission accepted his recommendation.

The Commission considered approving an agreement with Alfred M. Staehli for architectural services for the restoration work of the Kam Wah Chung Company Building in the City of John Day, Grant County. Mr. Talbot mentioned that the Department is financing the restoration of this historical building and will turn it back to the City for operation when completed. The cost is not to exceed \$5,000, one-half of which is refundable under the National Historic Preservation Act of 1966. Following his favorable recommendation, the Commission approved the agreement.

Mr. Klaboe reported on actions taken under delegated authority received for filing with the Commission records. These reports show the actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission files, Salem.)

| | |
|---|-----------|
| Chairman of Oregon Transportation Commission | Exhibit A |
| Vice Chairman of Oregon Transportation Commission | Exhibit B |
| Administrator and Highway Engineer | Exhibit C |
| Director of Permits | Exhibit D |
| Right of Way Engineer | Exhibit E |
| State Parks Superintendent | Exhibit F |
| Chief Counsel | Exhibit G |

The Commission approved increases in project authorizations on the following contracts as recommended by Mr. Klaboe.

- (1) F. H. McEwen Construction, Contract No. 8011, Lebanon Road Interchange-Halsey Interchange Section of the Pacific Highway in Linn County, for \$179,191.78 (6.9%). The overrun was due to embankment in place and furnishing and placing topsoil.
- (2) William D. McBee and Hi Lo Roads, Inc., Contract No. 8024, Silver Point Slide Section, Oregon Coast Highway in Clatsop County, for \$32,844.56 (5.72%). Additional funding on this project is necessary to cover a late overrun mainly attributable to an added State Force Order charged to the project. The actual contract work was completed September 30, 1974, within the amount allowed. In March 1975 a State Force Order in the amount of \$62,400 chargeable to the contract was approved to perform investigative work on the slide including furnishing and placing additional slope indicators, horizontal drains, minor corrective drainage and additional area photography. The Federal Highway Administration is participating 100% in these costs. The work performed on this project was considered a temporary repair with the understanding that the slide area would be studied and a permanent corrective plan be undertaken in the future. Part of the late State Force Order work is to provide some of the needed information.
- (3) S. D. Spencer & Son, Contract No. 8003, Garden Valley Road-Fairgrounds Interchange Section of the Pacific Highway in Douglas County, for \$1,818,477.62 (14.25%). The major increases are a general excavation quantity overrun, a price agreement haul adjustment for disposing of excess material and a price agreement to utilize excess excavation material from this project and crush it for future use on an adjacent project.

Mr. Klaboe reported that an allocation of 12 percent of the Highway fund to the cities for the month of August 1975 in the amount of \$1,302,070.12 will be released on September 26, 1975. (A list of apportionment to the cities on file in the Commission's files, Salem.)

Mr. Klaboe mentioned that under ORS 366.525 the counties are entitled to receive 20 percent of all funds received from motor vehicle taxes and fees. For the month of August 1975 the amount credited to the counties totals \$2,170,116.86 which amount was released on September 19, 1975, as apportioned by law. (List of apportionments to counties on file in the Commission's files, Salem.)

Attention was given to requests from Lincoln, Lane, Malheur, Sherman and Umatilla Counties for Federal Aid Secondary County Projects and cancellation of a project in Malheur County. Following his recommendation, the Commission approved the requests and authorized the Administrator to sign the agreements when prepared.

Mr. Klaboe presented a report and recommendation covering the program of street work in cities having a population of less than 5,000 under the \$250,000 fund appropriated by law for the year 1976. He mentioned that 52 applications had been received and all were carefully analyzed. There were 12 projects selected for approval as being meritorious and are all that can be covered by funds available. The Commission approved the projects in the following cities and authorized the Administrator to sign the agreements when prepared. (Specific projects shown on file in Commission's files, Salem.)

| TOTALS | \$265,621 | \$121,395 | \$387,016 |

The Commission adopted Delegation Order No. 13 as recommended by Mr. Klaboe as follows:

OREGON TRANSPORTATION COMMISSION DELEGATION ORDER NO. 13

Pursuant to the provisions of ORS 184.635 in order to provide for more efficient and expeditious administration of the Highway Division, the following power of the Commission is hereby delegated to the Administrator and State Highway Engineer or his designated representatives within the Highway Division:

Determine the length of time for which permits for triple trailer combinations as authorized pursuant to ORS 483.520 (4) may be issued.

In response to an inquiry from the Chairman, Bob Hamilton, Director of Permits, reported that the State has 39 companies at the present time that have current permission for triple trailer operations which represents 1,080 vehicles. The routes (interstate and primary) are tested before operation is permitted. At present there are approximately 2500 miles of approved routes in the State.

Attention was given to the abandonment of two units approximately 2.3 miles of the old highway on the Jones Ranch-Mitchell Section of the Ochoco Highway in Wheeler County. Mr. Klaboe said the abandonment will be to the abutting property owners resulting from an agreement with Wheeler County on June 4, 1952, and modified by a letter-form agreement with the County. This will clarify the records which have not been formally resolved previously. Following his favorable recommendation, the Commission adopted "Abandonment Resolution No. 259." (Copy on file in the Commission's files, Salem.)

The Commission considered an agreement with Douglas County for the installation of traffic signals at the intersection of Garden Valley Boulevard and Broad Street-Steward Parkway. Mr. Klaboe stated that all costs related to the project will be paid by Douglas County. The traffic signal installation is not on the State highway system; however, the County has requested that the State do all engineering work and award the contract. The Commission approved the agreement as recommended by Mr. Klaboe.

Attention was given to signing a consent form consenting to a vacation of a portion of an unopened dedicated street in the City of Reedsport in Douglas County. Mr. Klaboe mentioned that this will enable the Southern Pacific Company to utilize the full width of its right of way. In a previous vacation proceeding, the Department of Transportation had consented to the vacation but the description was incorrect and the street through the total width of the railroad right-of-way was not vacated. Following his favorable recommendation, the Commission approved the vacation and granted authority for the Administrator to sign a consent form.

Mr. Klaboe reported on the Public Utility Commissioner Port of Entry installations. He pointed out that the 1973 Legislature authorized the Public Utility Commissioner to build a Port of Entry Station near Ashland in Jackson County which station has been in operation for eight months. The trucks are checked 24 hours a day, seven days a week and there have been a lot of PUC violations. A station costs between one million and 1.2 million dollars to construct. The Public Utility Commissioner is now proposing to go to the Emergency Board to get authorization to build additional stations at Klamath Falls and Ontario which would cost more than \$2,000,000 for construction. The operations cost would be between \$250,000 and \$300,000 a year. The Division has eleven weighmasters assigned to the Public Utility Commissioner and they have twelve employees that issue PUC permits, etc. He indicated there is a lot of good in this operation but the money will all come out of the Highway Fund. He stated the results of the referendum initiative concerning the one-cent gas tax is now being counted by the Secretary of State. A report will be submitted next month and information on how the Division could stand the financing if there is additional revenue. Mr. Klaboe mentioned that, if the revenue is not forthcoming, he would have to recommend that the Commission oppose construction of the two Port of Entry Stations. In reply to Commissioner Walsh's inquiry, Mr. Klaboe indicated that during the first eight-month period of operation in Ashland, it would appear that approximately \$600,000 of additional PUC fees and fines will be collected in the first year of operation.

AERONAUTICS DIVISION

No report.

MASS TRANSIT DIVISION

Mr. Moore reported on actions taken under delegated authority received for filing with the Commission's records. This report shows the actions taken by Mr. Moore on behalf of the Commission pursuant to its adopted delegation order. (See Exhibit H.)

Mr. Moore submitted a report to the Commission entitled Analysis of Alternatives for the Willamette Valley Experimental Transportation Project. He asked the Commission for authority to go to the Emergency Board for its consideration in the release of \$620,000 approved by the 1975 Legislature. He recommended a 14-month experimental combination bus and rail service project within the Willamette Valley and an 18-month marketing program to promote the current and proposed public transportation services within the Valley. The total State Fund expenditure including contingencies is \$618,000. Mr. Moore said both programs would be monitored and evaluated and recommendations for continuance or discontinuance

would be forthcoming prior to June 1977. He referred to the summary of seven recommendations as follows:

- (1) An aggressive marketing program for existing public transit service, new service and car-pooling.
- (2) Promotion and coordination of intercity transit to special events.
- (3) Continuing program of coordinating intercity and urban transit systems.
- (4) One additional daily Amtrak round trip between Eugene, Albany, Salem, Woodburn and Portland, with service continuing to Seattle.
- (5) Two daily shuttle bus round trips between Corvallis and Albany, connecting with the additional Amtrak run at Albany.
- (6) One additional bus round trip between Eugene, Corvallis, Albany, Salem, Woodburn, and Portland that makes connections with another Portland to Seattle Amtrak train in Portland.
- (7) An ongoing program of monitoring and evaluation of both the new and the existing intercity transit services to determine the effectiveness of the recommended experiment.

The report covered financial estimates, operating characteristics, proposed schedules, rail fares and trip times, other alternatives, citizen participation, marketing and monitoring and evaluation. Mr. Moore indicated a final project report which will include complete background information will be finished within two weeks. After considerable discussion and upon Mr. Moore's recommendation, the Commission approved the report and authorized him to present it to the Emergency Board for funding. (Summary report on file in the Commission's files, Salem.)

MOTOR VEHICLES DIVISION

Mr. Ott presented to the Commission graphs of the Motor Vehicles Registration Fee Revenue and Vehicle Fuels Tax Cumulative Net Revenue for the period of January 1970 through July 1975. (Copies of graphs on file in the Commission's files, Salem.)

DEPARTMENT OF TRANSPORTATION
Director's Report

The Commission set Wednesday, October 29, 1975, as the date for their next regular meeting. (Date changed later to Tuesday, October 28, 1975.)

The Commission confirmed the approval of a consultant agreement with Robert Burco for conducting an analysis of the Mt. Hood Freeway alternatives in Multnomah County and the State transportation planning policy at a cost of \$1,678.04. (See page 1167, August 27, 1975, Commission meeting minutes.)

Mr. Baldwin stated Mr. Burco's moving allowance from Berkeley, California, to Salem in the amount of \$2,500 was intended to be an informational report at the August 27th Commission meeting as he had approved this matter. (See page 1167, August 27, 1975, Commission meeting minutes.)

DELEGATION

A delegation from Clackamas County Department of Public Works and the Hoodland Chamber of Commerce representing 14 organizations appeared before the Commission concerning the installation of a rest and information center in the Zigzag Area on the Mt. Hood Highway in Clackamas County. Present were Thomas D. Telford, Bill Simmons, Bob Pierce, Stan Skoko, Bob Shumacher, Neil Johnson, John McIntyre, Patty Griffin, and Mary Ann Hill.

Thomas Telford stated that staff members of the County have been working with the Hoodland organizations in developing a conceptual plan to fulfill the needs of a rest facility and visitor's information center in the Mt. Hood Corridor. He indicated the County is ready to deed the necessary property to the State at no cost, and in addition commits maintenance of the associated facilities which will complement the visitor's center.

Bill Simmons said there is a narrow corridor of approximately 18 miles from Alder Creek to Government Camp on Highway 26. This represents private land available in this immense wilderness. Aside from some forest product activities, the economy is based on recreation and tourism. As Oregonians hosting one of the State's major gateways to recreation, he indicated their problems as hosts are taxed because of the lack of rest facilities and guidance information.

He read a letter from Jim Olson, District Manager, U. S. Department of Agriculture, the Mt. Hood National Forest Zigzag Ranger District. The letter states the need for public rest room facilities in the Zigzag area. The Forest Service facilities at the Zigzag Ranger's Office are inadequate to meet the present tourist demand. He said their agency will cooperate with the proposed

information center to provide current information concerning national forest lands and facilities.

Bob Pierce mentioned the Hoodland Chamber of Commerce is initiating programs for the betterment of the community on the mountain. He stated the Hoodland area is second only to the Oregon Coast insofar as recreation is concerned. Based on Columbia Region Association of Government's projection of two million people in the Portland metropolitan area, in the year 2000, there is a need for recreational facilities. He indicated the Mountain Players Organization have invested \$12,000 in a historic log theater building (old St. Johns log church) which was moved from the Welche's turnoff to the present site in the proposed rest area. The Mountain Players are ready to donate this structure in this particular area to the State.

Chairman Jackson informed the group that the Commission accepts their offer of cooperation and would place the project on the rest area priority list for consideration as funds become available. He indicated that future State funds are uncertain due to the current action to refer the gas tax increase to the public.

The Chairman stated that due to the open meeting law and in view of the fact that the Commission has other business to transact, the meeting will recess for lunch and will reconvene in the Director's Office at 12 o'clock.

Recessed at 11:18 a.m.

The Commission reconvened at 12:40 p.m. in the Director's Office, Room 135, State Highway Building, Salem. Present were:

Glenn L. Jackson, Chairman
Robert L. Mitchell, Secretary
Tom Walsh, Member
B. Gordon Coleman, Member
Michael P. Hollern, Member
George M. Baldwin, Director of Transportation
Robert A. Burco, Deputy Director
F. B. Klaboe, Administrator and State Highway Engineer
Fred Miller, Special Assistant for Policy Research
and Special Studies
Larry Rulien, Project Management Engineer
Jack L. Sollis, Assistant Attorney General
R. N. Bothman, Assistant State Highway Engineer
Gary Sund, Special Assistant for Public Affairs
Leonard Bergstein, Administrative Assistant, Office
of the Governor
Steve McCarthy, Assistant General Manager of Tri-Met
C. W. Head, Commission Services

Fred Miller presented to the Commission copies of a report, "An ODOT Policy for Matching Federal-Aid". He stated the report covers a description of the existing DOT policies for matching Federal-Aid Programs concerning the history, the important policy issues and some policy recommendations. (Copy of report in Commission's files, Salem.)

Mr. Miller mentioned that House Bill 3291 included the gas tax increase and weight-mile tax increase. The last section of the bill included an Interim Committee to carry out a study of how the State Highway Fund is shared with counties and cities, which is now 12% to the cities and 20% to the counties.

Steve McCarthy stated it appears that the Commission's problems would be in urban areas which would be units of local government with specialized responsibility, such as mass transit districts, which probably should be consistent with the Commission's policy toward other units of local government on Federal-aid contributions. He indicated Tri-Met's main objective over the next several years is working with the Commission in trying to figure out where the local share for these items is going to come from so it won't have to be done on a case-by-case basis. Bonding is an item that may have to be considered. Another source of funding is urban mass transit administration. He said Tri-Met has been fairly successful in getting Federal urban mass transit administration money on an 80-20 basis and, in their five-year forecast, \$25,000,000 of that money is for capital improvements, primarily for transit stations.

Fred Miller suggested that he and Steve McCarthy work together to come up with a proposal to present at a future meeting that would help the Commission and Tri-Met. The Commission accepted his suggestion.

Steve McCarthy pointed out that Tri-Met is purchasing 100 new buses to provide enough vehicles to effectively utilize all these facilities that are going to be constructed. He stated that Tri-Met would like to use the vacant right-of-way located at 99th and S.E. Powell in Multnomah County to build and operate a bus garage substation. This Eastside Substation is an integral part of expanding the fleet; there would be a savings of approximately \$300,000 a year in deadhead time by running part of the fleet out of the Eastside garages. Hopefully the substation will have direct access to I-205. In order for Tri-Met to buy these buses, the substation would have to be in operation, as there is no place to park them at the 17th and Holgate facility. He mentioned one problem is the local share of construction and the other problem is the conditions under which the land will be made available. Can the land be conveyed to Tri-Met at a nominal charge or at no charge? He stated Tri-Met is willing to reimburse the State now for the local share of the cost of acquiring the land at 8 percent, the basis under which it was acquired. If this land question can be resolved soon, Tri-Met can proceed with street vacation procedures, etc.

Mr. Klaboe asked Mr. Sollis if the State needs economic rent on the total market value of all the land or economic rent on the State's share of that market value, which is estimated to be eight percent of \$250,000 or \$20,000. The Federal Government has contributed 92 percent of the money to purchase the property. Mr. Sollis stated the economic rent based on the value of the property as it now sits is what the Commission should get and was not necessarily related to how much money the State has spent on it because that went into the houses and everything that has been torn down. The rent on all the houses the State is renting now in Portland and elsewhere is based on a determination on what the market rental value of the property is - the total property, even though the Federal Government gets 92 percent of it. You can get market value rent from it. He said in conserving the Highway Fund that is what you have to get. If all the money from the economic rent goes into the State Highway Fund and on the open market you can get \$20,000 for that property, that is conserving the Highway Fund. The fact that the Federal Government has money invested in the purchase of the property has nothing to do with what we can get from it as economic rent.

Commissioner Walsh moved that the State lease the property to Tri-Met for \$1,600 per year for five years. Motion was seconded by Chairman Jackson. The motion was carried unanimously.

At the request of Chairman Jackson, Larry Rulien explained the Federal cash flow of funds available for Interstate construction. He explained the funding by referring to the Interstate Funding Study Chart (6-year program). He mentioned that the bulk of the projects on the six-year program are on I-205; one project on I-505; three projects on I-82 and several in the early stages that are upgrading the projects on I-5 and I-80N. There was considerable discussion concerning the scheduling and financing, including escalation costs on these proposed projects.

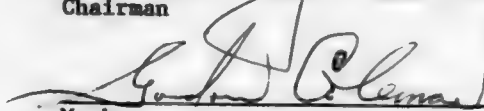

Mr. Bothman reported that he met with the Vice President of Union Pacific concerning the widening of the Banfield corridor and a very cooperative attitude existed. He mentioned that the State has two choices - staying close to the railroad or acquiring property to the south side of the highway. Going to the south would be costly and time-consuming as it would involve 134 houses, 10 businesses, one church, etc.

Chairman Jackson said if the Commission has the assurance of cooperation from the President of the Railroad, the chance of expediting this project looks good, providing the environmental impacts, hearings, etc., go ahead simultaneously. He felt it would most likely reduce the impact of escalation and there would probably be less public reaction on the north side of highway (railroad property) compared to the south side.

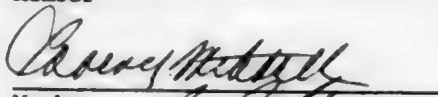

Mr. Klaboe mentioned that the Federal Environmental Protection Agency, as well as the State Department of Environmental Quality, must pass on this project. He indicated Mr. Bothman and staff will do everything possible to expedite this project.

The Chairman adjourned the meeting at 2:30 p.m.

REPORT OF CONFIRMATION OF TELEPHONE ACTION UNDER DELEGATED AUTHORITY

No. 1 Project Barnett Road Undercrossing Section
(Contract No. 8278)
Type of Work Grade, Pave, Structure & Sign F.A. Proj. No. I-5-1(87)28
County Jackson Highway Pacific
No. of Bidders 5 Low Bidder Ross Bros Construction Inc., Salem
Low Bid \$ 756,438.50

Engineer's Recommendation: Award to low bidder as soon as approval from FHWA is received.

No. 2 Project Modoc Point (Units C & D) Section
(Contract No. 8279)
Type of Work Grade, Pave & Rock Fallout Protect. F.A. Proj. No. HHS-26(10)
County Klamath Highway The Dalles-California
No. of Bidders 3 Low Bidder Klamath Paving Co., Klamath Falls
Low Bid \$ 188,929.70

Engineer's Recommendations: Award to low bidder as soon as approval from FHWA is received.

No. 3 Project Malheur River Bridge Section
(Contract No. 8280)
Type of Work Grading, Paving, Structure F.A. Proj. No. US-DP-23-010(2)
County Malheur Highway Olds Ferry-Ontario
No. of Bidders 11 Low Bidder Douglas S. Coats Const. & Hall Int., Bend
Low Bid \$ 874,334.00

Engineer's Recommendations: Award to low bidder as soon as right-of-way clearance is received and approval from FHWA is received.

On August 19, 1975, I accepted the Administrator and State Highway Engineer's recommendations for award of the above three projects on which bids were received August 14, 1975, and authorized him to sign the contracts when conditions for the awards have been met.

TO: Oregon Transportation Commission

Subject: Report (Confirmation) of Action Taken Under
Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approved the following item and report this action for your official records:

On September 16, 1976, I gave approval for a contract with the Corps of Engineers to restore the lighthouse at the mouth of the Coquille River (Bullards Beach State Park) in Coos County. Corps will do design work, engineering and award contract for restoration project. Total cost estimated at \$30,000 and Corps will fund 50%.

G

REPORT OF CASES FILED BY AND AGAINST DEPARTMENT OF TRANSPORTATION

L-7237 State v. Donald L. Turnidge, et al: This is a suit to quiet title to some property purchased by the Highway Division as a part of the Willamette Greenway program. The defendants in the case claim title to a portion of the property purchased from Crown Zellerbach Corporation and the purpose of the lawsuit is to eliminate the claim of the defendants. The matter is taking place in Polk County.

The case will be handled by the Attorney General's Office.

L-7238 John H. Wilson, et al. vs. Neil Goldschmidt, Robert W. Straub and Fred Klaboe: This is an action in the Circuit Court of the State of Oregon for Multnomah County to restrain the named defendants from taking any further action to withdraw the federal funds available for the construction of the Mt. Hood Freeway and divert them to other uses. The lawsuit stems from an initiative measure scheduled for election in May, 1976, in the City of Portland. The measure is for the purpose of determining whether the voters in Portland approve of the action by the City Council on July 25, 1974, rescinding previous approval by the city of the construction of the Mt. Hood Freeway in favor of mass transit.

The matter has been referred to the Attorney General's office for the defense of the State.

L-7239 Driftwood Shores Inc. vs. F. B. Klaboe, State Highway Engineer: This is a lawsuit to restrain the Highway Division from removing an outdoor advertising sign that was purchased under the beautification program. The sign is a back to back sign and one side of the sign was purchased under the beautification program and the other sign is on waivers. The sign was purchased from Casey and Stone Outdoor Advertising Company and the landowners site interest was also purchased. The plaintiff had leased space on the board for outdoor advertising and is seeking to restrain the Highway Division from removing the sign because he does not have any other directional signs available to direct tourists to his establishment. He has requested the court to restrain the Highway Division from removing the outdoor advertising sign until such time as they have provided other directional signs to his business. The sign is located at the intersection of U. S. Highway 101 and Heceta Beach Road in Lane County.

The case has been referred to the Attorney General's office for the defense of the State.

L-7240 Lucille Miller vs. State of Oregon: This is a suit for specific performance to enforce the alleged conditions in a deed given to the Highway Department in 1947. The provisions of the deed are vague and uncertain and the interpretation is not clear. The problem relates to a service road that was to be constructed by the State adjacent to the grantor's property. The suit is taking place in Lane County.

The matter has been referred to the attention of the Attorney General's Office for handling.

L-7241 Ann Raygurt vs. State: This is a lawsuit for personal injury arising out of an accident that occurred on September 2, 1973, where the plaintiff fell while walking down toward the beach in Cape Blanco State Park. The lawsuit is in the amount of \$51,895.50.

The matter has been referred to the State's insurance carrier for the defense of the State.

L-7242 John H. Stevenson vs. HAC Trucking Co., Ltd.: This case arose out of an accident that occurred on January 8, 1975, and involved a collision between a truck and semi-trailer and two cars, one of which was being towed by the other. The plaintiff was a passenger in the car being driven by his fiancée. The two cars stopped on the edge of the bridge due to icy conditions and were struck by the truck and semi-trailer. The lawsuit alleges that the Highway Division was negligent in failing to inspect and make sure that the highway was not icy or warn the drivers of the icy conditions. (I-5 in Lane County)

The matter has been referred to the State's insurance carrier for the defense of the state.

SUBJECT: Report of Actions Taken under Delegated Authority

On behalf of the Commission and under its authority delegated to me to approve and sign contracts, I have approved and/or signed the following since my last report to you on March 26, 1975:

- An agreement to transfer the transit planning function from the Jackson County Public Transportation Service District to the Rogue Valley Transportation District.
- A contract agreement with the Rogue Valley Transportation District to provide \$2,000 in matching funds for a Transit Development Study under the Division's Special Transportation Program.
- An \$18,000 contract with the Rogue Valley Transportation District for planning, research, coordination and development as prescribed under Special Payments of the Division's 1975-77 budget.
- An amendatory agreement with the Urban Mass Transportation Administration for the Division to receive \$41,000 of federal funds to continue a Technical Resource Program for transit planning assistance to smaller communities.

H

Oregon Transportation Commission
Page Two

- A \$3,600, three-month Supplemental Professional Services Agreement with Lawrence Grupp, which was approved by the Chairman of the Transportation Commission and signed by the Administrator, for the purpose of consulting services for Willamette Valley transportation planning.
- A contract (acting as the recipient) with the Urban Mass Transportation Administration to receive and disburse \$279,000 of federal operating assistance funds to the Lane Transit District (the grantee).
- A Memorandum of Agreement with the Oregon District 4 Council of Governments specifying the Division's participation in an Albany-Corvallis transit study.

bcc: ✓ Mr. Cecil W. Head, Supervisor
Commission and Staff Services

October 21, 1975
Salem, Oregon

The Oregon Transportation Commission held a special meeting at 9:30 a.m. in Room 135 of the State Highway Building in Salem, Oregon. Notice of the meeting was made by press release to newspapers of general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Robert L. Mitchell, Secretary
Tom Walsh, Member
B. Gordon Coleman, Member
Michael P. Hollern, Member
George M. Baldwin, Director of Transportation
Robert A. Burco, Deputy Director
F. B. Klaboe, Administrator and State Highway Engineer
Fred Miller, Special Assistant for Policy Research
and Special Studies
Don Streun, Assistant Director for Administration
Robert Royer, Assistant Director for Planning
John Earley, Public Information Officer
Warren Gaskill, Deputy State Parks Superintendent
C. W. Head, Manager, Commission Services

Mr. Baldwin stated the meeting today is to discuss policy development including the framework for policy development. He asked Fred Miller to give some background on what has happened in the past. Mr. Miller distributed the following materials to the Commission for their review:

- Attachment 1 - Letter to the Commission dated July 23, 1975, with enclosures.
- Attachment 2 - Oregon Narrative Report for the 1974 National Transportation Study, Volume 1, State Report.
- Attachment 3 - Administrative Order No. 8, Establishment of Transportation Policy Advisory Committee.
- Attachment 4 - Standard Operating Procedure for Processing Policy Recommendations.
- Attachment 5a - Suggested Format for Policy Paper.
- Attachment 5b - Suggested Policy Paper for Governor Straub's Consideration.
- Attachment 6 - Report on Transportation Policy Advisory Committee Progress.
- Attachment 7 - Transportation Policy Inventory.
- Attachment 8a - Responses to AASHTO Policies for Continuing Transportation Program.
- Attachment 8b - Letter to Michigan Department of State Highways and Transportation dated July 10, 1975, from Robert Royer.
- Attachment 8c - Letter to Governor Straub dated June 11, 1975, from George McGovern, United States Senate, and Governor Straub's reply of July 7, 1975, to George McGovern.
- Attachment 9 - Policy Questions or Issues.

(The above material is on file in the Commission's files, Salem.)
- 1248 - October 21, 1975

Mr. Miller said the objective at this moment is to identify Department Policy Development to this point. The attachments give a comprehensive background on what the Department would like to accomplish and what the Commission's involvement might be. He reported briefly on the nine attachments which was followed by general discussion.

Mr. Baldwin mentioned that he and Mr. Klaboe will be attending a meeting next week in Chicago, Illinois, of Department of Transportation's Directors. One of the major topics is the administration of the Highway Bill.

Mr. Burco said the Transportation Policy Advisory Committee has had several meetings during the last month and has been operating under the responsibilities that are outlined in Administrative Order, Attachment 3. The Committee is composed of the following members: Deputy Director; Assistant Director for Planning; Special Assistant for Transportation Policy Research; Administrator, Highway Division; Administrator, Aeronautics Division; Administrator, Mass Transit Division; Administrator, Motor Vehicles Division; Special Assistant for Public Affairs; Assistant Director for Administration; Legal Counsel and Parks Branch.

Mr. Miller handed to the Commission a report entitled, Issues for Consideration by the Transportation Commission. He mentioned the report covers five major points as follows:

- (1) What should be the role of the Transportation Commission in Department relations with federal and local governments, with other state agencies, and with the public?
- (2) What should be the role of the Transportation Commission in determining ODOT policy and future directions for the Department? To what extent should the Commission be involved in Departmental activities?
- (3) What is ODOT's role as a state agency?
- (4) How and at what level should future transportation improvements be financed?
- (5) What are the future internal directions for the Department?

The report also covered what should be the role of the Transportation Commission in Department relations with federal and local governments, with other state agencies and with the public. Mr. Miller mentioned the Department maintains contact with the Legislature, Executive Department's program, other State agencies, commissions and boards, local governments, the public and the

private sector. There was considerable discussion concerning this report. (Copy of report in Commission's files, Salem.)

Mr. Streun showed two charts to the Commission and presented a brief overview covering internal written communications. (The Commission's system and the Department's system.)

Mr. Miller showed the following charts:

- (1) Gross weight mile tax and collections transferring to Highway Division;
- (2) Employment by place of work on gross weight mile tax;
- (3) Gross highway user fee revenues and purchasing power.

Mr. Streun presented to the Commission copies of the ODOT Highway Division budget regarding projected cash balance at June 30, 1977. (Copy of detailed report in the Commission's files, Salem.)

Mr. Klaboe pointed out several areas where the Highway Division's budget could be cut if it has to as follows: Maintenance - 5.5 million, Parks - 1 million, and Construction - 5.2 million. He mentioned another way to reduce the budget would be by reducing the pavement striping from a four inch to a three inch stripe. This would save approximately \$600,000. Sanding operations could be reduced during the winter resulting in a saving of approximately \$440,000. The sign replacement program could be reduced. The overtime for maintenance personnel could be reduced during the winter season which could result in a saving of approximately \$100,000 during the biennium. He indicated that the Division could cut down on the garbage pickup and the purchasing of materials, lumber, timber, rock, etc. There was discussion concerning snow plowing in the ski areas, contract payments, and money going to the State Police.

Warren Gaskill reported that the Parks' budget could be cut in the acquisition of construction programs (Willamette River Corridor). Another program is the Youth Corps which is a legislative directive. This was funded to the Highway Division for approximately \$750,000 and half of that money remains for next year. There was some discussion concerning park fees.

Mr. Baldwin asked the Commission if they wanted a full-scale reexamination of the budget or a presentation by Mr. Klaboe and Mr. Gaskill at the next meeting. Commissioner Coleman said he would like to see the staff evaluate the possibility of getting a little more money for the Parks' budget.

Chairman Jackson commented that the Commission must assume the responsibility of evaluating and making a decision on anything that affects the quality of service that the taxpayer receives. Commissioner Hollern stated that with approximately 12 million

dollars less the Commission should be involved. He indicated the staff should present some alternatives with a recommendation.

Chairman Jackson recessed the meeting for lunch at 12:10 p.m.

The meeting reconvened at 12:45 p.m. The same people were present; also, Dennis Moore, Chester Ott, Paul Burket and Leonard Bergstein.

Mr. Royer said what his staff has tried to do is respond to the policy that was directed by House Bill 3166 and also the Action Plan which states there should be more citizen and local government involvement early in the process of planning. He briefed the Commission on where the Department stands in the statewide plan now. He indicated they contemplate holding a series of five meetings throughout the State between July 1975 and July 1976. The first series of meetings was held last July. It was explained to the people the purpose of the meeting, the new organization, the new Commission, the fact that one Commission now serves over all different modal administrations in the Department. Mr. Royer handed to the Commissioners a report consisting of basic communications, letters that were used in this program since the beginning, a description of the modally-oriented programs like the commuter project and the inter-city bus project, and a letter to the Governor's office explaining what the Department is doing in advance, etc. (Report on file in DOT Planning Section.)

Commissioner Hollern suggested that staff report to the Commission at its next regular meeting with a suggested schedule in terms of timing, time commitments and order of priorities.

Commissioner Mitchell mentioned it appears the number one item would be the fiscal problem.

Chairman Jackson mentioned there are two areas on which a policy determination should be made. The first is a cutback in the budget that is going to affect the public in a major way and the second is the degree of participation in the three existing transit districts and the Commission's policies relative to either leadership, cooperation or otherwise in the implementation of a mass transit program affecting the balance of the State.

Commissioner Walsh said possibly the place to start would be the role of the Commission. How does the role of the Commission change it, partially because of the change of the old Highway Commission to the multi-modal, changes in personalities, and changes in the terms of demands from the Department to the Commission.

Chairman Jackson asked that the staff give the Commission a schedule of the time necessary to carry out Commissioner Hollern's recommendations and also a specific report on his (Chairman Jackson's) two items for the Commission's regular meeting in November.

The Chairman adjourned the meeting at 1:35 p.m.

October 28, 1975
Salem, Oregon

The Oregon Transportation Commission held their regular meeting at 10 a.m. in Room 122 of the State Highway Building in Salem, Oregon. Notice of the meeting was made by press release to newspapers of general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Robert L. Mitchell, Secretary
Tom Walsh, Member
Michael P. Hollern, Member
B. Gordon Coleman, Member
George M. Baldwin, Director of Transportation
Robert A. Burco, Deputy Director
Walt Barrie, Chief Counsel
F. B. Klaboe, Administrator and State Highway Engineer
E. S. Hunter, Deputy State Highway Engineer
J. B. Boyd, Right of Way Engineer
David Talbot, State Parks Superintendent
Paul Burket, Administrator of Aeronautics
Dennis Moore, Administrator of Mass Transit
Harvey Ward, Deputy Administrator of Motor Vehicles
C. W. Head, Manager, Commission Services

There were others present from the Department of Transportation and representatives from the news media.

The Commission approved the minutes of the regular meeting of September 24, 1975.

HIGHWAY DIVISION

A list of properties needed for highways and other uses was presented by Mr. Boyd. He requested the Commission to declare by resolution the necessity of said properties for the public use to which they are to be put and to authorize him to attempt to agree with the owners of said properties as to price. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful and thereupon adopted "Condemnation Resolution No. 2639," which resolution by this reference is made a part hereof and filed in the Commission's files.

Mr. Barrie asked if there were any questions in connection with the informational reports previously submitted to the Commission on cases tried, cases settled, and institution of legal proceedings filed against the Department of Transportation since the last Commission meeting. There were no questions. (See Exhibit G on file in the Commission's files, Salem.)

Mr. Barrie reported on the case Helen R. Scott vs. State Highway Division, No. L-6935. The case involved the challenge of the Oregon Scenic Waterways Act and the regulations of the

Department. The plaintiff wanted to build two houses along the Rogue River in Josephine County and paint them white. Under the State's regulations and statutes, the application was reviewed and denied. Plaintiff then brought an inverse condemnation proceeding claiming that because the State refused her the right to construct and paint her houses in the manner she desired, the State had in effect taken her land and she wanted compensation. The State prevailed in the trial court. Plaintiff appealed to the Oregon Court of Appeals and the Court of Appeals sustained the constitutionality of the Scenic Waterways Act and the validity of the regulations of the Division to implement the law.

Mr. Barrie presented a quarterly report of property damage claims for the period of July 1, 1975, through September 30, 1975. During this period \$64,409.99 was collected.

Attention was given to the abandonment of 15 damage claims totaling \$9,891.52. Mr. Barrie mentioned that these claims do not warrant further collection. He said this item was deferred at the September 24, 1975, meeting pending an Attorney General's opinion. The Attorney General issued his opinion and it sustains the Department's right to abandon these claims without going to the Secretary of State's Audit Division on the basis that damage claims are not debts owed. Only debts actually owed pursuant to a judgment or liquidated claims such as rent past due need be taken to the Secretary of State's Audit Division. Following his favorable recommendation, the Commission approved the abandonment of the following claims. (For further details see report on file in the Commission's files, Salem.)

| FILE NO. | NAME | KIND OF DAMAGE | AMOUNT |
|------------|---|----------------|------------|

Consideration was given to adopting as a permanent rule a procedural rule in accordance with Oregon Laws to provide a reasonable opportunity for persons to be notified of the Oregon Transportation Commission's proposed actions. Mr. Barrie stated that this rule is necessary due to an amendment to the Administrative Procedures Act. A notice was published in the Secretary of State's Administrative Rule Bulletin on October 1, 1975, and there was no request received for a public hearing. Upon his favorable recommendation, the Commission adopted the following proposed rule as a permanent rule:

Rule in accordance with Oregon Laws 1975 ch 759 § 6 to provide a reasonable opportunity for interested persons to be notified of the Oregon Transportation Commission's proposed actions:

Prior to the adoption, amendments or repeal of any rule, the Oregon Transportation Commission shall give notice of the proposed adoption, amendment or repeal:

- 1) In the Secretary of State's Bulletin referred to in ORS 183.360 at least fifteen (15) days prior to the effective date.
- 2) By mailing a copy of the notice to persons on the Oregon Transportation Commission's mailing list established pursuant to ORS 183.335(6).
- 3) By mailing a copy of the notice to the following organizations or publications:
 - a) United Press International and Associated Press.
 - b) Oregon Labor Press.
 - c) Associated Oregon Industries.
 - d) Associated General Contractors.

(Copy of rule was forwarded to the Attorney General for approval prior to filing with the Secretary of State.)

Mr. Barrie reported that the State has been paid \$2,684,512.87 as a result of an anti-trust settlement of asphalt cases. He indicated there is a question as to how much the Federal Highway Administration will participate in this because of their

financing some of these programs in which federal funds were expended under the asphalt contracts. Contact will be made with the Federal Highway Administration to determine what percentage they will receive and how much the State will retain.

Mr. Talbot presented for the Commission's consideration Notifications of Intent by property owners to make various types of improvements along the Rogue River Scenic Waterway. He pointed out that these requests have been carefully investigated as to their compliance with the Scenic Waterways Act. The Commission acted on the following requests for reasons as stated in Mr. Talbot's letters to the Commission insofar as their authority under the Scenic Waterways Act is concerned.

- (1) Approved a request from Kenneth Klar to construct a house within the Rogue River Scenic Waterway on the left bank of the river directly across from Finley Bend in River Mile 88, Township 36 South, Range 7 West, Section 11, Lot 2108 in Josephine County.
- (2) Denied a request from John J. Ingalls to place a three bedroom mobile home on Lot 2, Township 35 South, Range 7 West, Section 11 of the Rogue Rim Subdivision in Josephine County.
- (3) Denied a request from Dennis Wheaton to construct an access road to building sites located on his property on the right river bank of the Rogue River just upstream from the Coon Rock Bridge near Illahee, Township 34 South, Range 11 West, Section 31, Lot 500 in Curry County.
- (4) Consideration was given to a request from George Echols to construct a two-story house located on the left bank of the Rogue River downstream from Finley Bend on River Mile 88, Township 36 South, Range 7 West, Section 11, Lot 2112 in Josephine County. Mr. Talbot said this is a request for a variance in the density standard. The house if constructed as proposed would be very visible from the river as there is no existing natural vegetation and the staff recommends denial. Mr. Talbot informed the Commission that Mr. Echols was present and would like to speak on his behalf before the Commission takes action on this matter.

Mr. Echols said his main purpose of being at the meeting was to see if something could be worked out so he could build his home. He indicated that if the house is built part of it would be visible from the river. He indicated he would be willing to plant some natural screen planting and trees on his property line, and would also be willing to dig down several feet so the roof line would be lower. Chairman Jackson mentioned the intent of the law and the

regulations are pretty clear that the responsibility of the Commission is to eliminate any possibility of any change in the environment of this river. He stated the Commission has tried to be realistic in its application of the goal that's set up in the Scenic River Law and the Commission must depend largely on the investigations made by its staff in whether or not a request is approved or denied. The Commission deferred action on Mr. Echols' request and asked the staff to confer with him in an attempt to work out an agreeable solution to the problem. Commissioner Coleman asked for some photographs of the area in question for the Commission to review at the November meeting.

Attention was given to an agreement with Dr. Stephen Dow Beckham to make an inventory of historic property in Oregon in order to participate in the National Register Preservation Program. Mr. Talbot mentioned that his staff is not able to undertake the project in the time frame required by the Federal Government. The project has been discussed with several possible contractors and a highly qualified person has been found to perform this work. The total cost is \$26,661 of which \$13,330 is reimbursable. The Commission approved the agreement as recommended by Mr. Talbot.

Mr. Talbot reported on the Willamette Greenway and the Land Conservation Development Commission's activities concerning the adoption of the Greenway Plan. He said after their staff analysis and many public hearings, it appears as if LCDC is going to find that the plan is generally inadequate. They are proposing to adopt a preliminary boundary which in effect would allow limited approval of local government grant and aid projects. They are proceeding toward adoption of a goal under their law which would then provide a measure of protection through local zoning to protect the river. They are also requesting that an entirely new plan be put together outlining ultimate uses for individual pieces of land along the river. The proposals that they have now in essence place the responsibility for the Greenway under local control as it was at one time. He said a Parks Staff person has been assigned to work half time with LCDC so that they understand the Department of Transportation's problems as they adopt rules and regulations. The LCDC have set up public workshops for November 1, 1975, in Salem, and the other one in Eugene on November 15, 1975.

Mr. Klaboe introduced Mr. Dick Carroll, District Engineer (Vancouver District) Washington Department of Highways.

Mr. Klaboe reported on actions taken under delegated authority received for filing with the Commission records. These reports show the actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission's files, Salem.)

(continued on page 1258)

Chairman of Oregon Transportation Commission
Vice Chairman of Oregon Transportation Commission
Administrator and Highway Engineer
Director of Permits
Right of Way Engineer
State Parks Superintendent
Chief Counsel

Exhibit A
Exhibit B
Exhibit C
Exhibit D
Exhibit E
Exhibit F
Exhibit G

Consideration was given for finance approval of bus turnout areas on the Sunset and Tualatin Valley Highways in Washington and Multnomah Counties. Mr. Klaboe said that eleven bus-loading sites are proposed on a 6.7 mile section of the Tualatin Valley Highway and three sites on a 0.6 mile section of the Sunset Highway. Tri-Met will construct bus shelters at eight of the project sites. This project is to be financed with Federal Aid Urban Extension Funds at an estimated cost of \$150,000. He mentioned the project was not anticipated and, therefore, not included in the Six-Year Program. Following his favorable recommendation, the Commission approved the construction of the bus turnout areas and placing this project on the Six-Year Construction Program.

Attention was given to the annual assessment of \$5,000 to the AASHTO Materials Reference Laboratory for the fiscal year 1976. Mr. Klaboe indicated that the reference library works in the fields of aggregate, soils, and bituminous materials. Its function is to tour various highway department laboratories to check testing procedures and to calibrate testing machines. It has provided a service in standardizing procedures and machinery through the National Bureau of Standards. Following Mr. Klaboe's recommendation, the Commission approved the annual payment.

Consideration was given to the revision of force account equipment rental rates. Mr. Klaboe mentioned that the rental rates was last revised on February 1, 1974, and following that adjustment work began on developing a computer program to reduce the amount of hand-computation required to make these adjustments. As a result of the rapid inflation of fuel prices and new equipment costs, a 15 percent, across-the-board interim increase was made with Commission approval on November 1, 1974. The computer program, developed jointly with the Washington Department of Highways, is now completed and a new schedule compiled. He indicated that these new rates have the concurrence of both the Oregon-Columbia Chapter of the Associated General Contractors and the Federal Highway Administration. The revision will increase the equipment rental rates approximately 8 percent over the November 1, 1974, rental adjustment. Following his favorable recommendation, the Commission approved the new rates effective November 1, 1975.

The Commission considered approving a mid-block crosswalk at M.P. 28.75 in the City of Cave Junction on the Redwood Highway in Josephine County. Mr. Klaboe said this is in a business area between two markets. He recommended approval due to the number of pedestrians now crossing at this location and the fact that the nearest intersection is 500 feet away. The Commission approved the crosswalk.

Attention was given to a request from the Public Utility Commissioner to construct additional Ports of Entry at Ontario and at Klamath Falls. Mr. Klaboe mentioned that he had given a report to the Commission at the September 24, 1975, Commission meeting. He stated that initial construction at current costs could reach \$1½ million to construct a Port of Entry facility. Annual operating costs would amount to \$200,000 to \$300,000. The Public Utility Commissioner has assembled statistical data which, based upon the first nine months of operation at Ashland, indicates over \$600,000 will be generated in the first year from additional fees and taxes collected due to the operation of that facility on a 24-hour, 7 day-week basis. There are additional benefits such as vehicle safety inspections, closer enforcement of size and weight laws, and a greatly increased service to the trucking industry. Mr. Klaboe said that, although the additional Ports are desirable, the Department must face the fact that higher priorities appear necessary for every available maintenance dollar due to the success of the fuel tax referendum initiative. Mr. Klaboe recommended that the construction of additional Ports of Entry be withheld at this time due to the financial situation. The Commission accepted his recommendation.

Consideration was given to approving an Off-System Roads Project in Washington County to replace the bridge over McKay Creek on Hornecker Road. Mr. Klaboe stated the estimated cost of the structure is \$241,800 of which \$188,604 will be Federal costs and \$53,196 will be the responsibility of the County. There will be no cost to the State. The Commission approved the project as recommended by Mr. Klaboe.

Mr. Klaboe reported that an allocation of 12 percent of the Highway Fund to the cities for the month of September, 1975, in the amount of \$1,328,744.91 will be released on October 31, 1975. (A list of apportionment to the cities on file in the Commission's files, Salem.)

Mr. Klaboe pointed out that under ORS 366.535 the counties are entitled to receive 20 percent of all funds received from motor vehicle taxes and fees. For the month of September, 1975, the amount credited to the counties totals \$2,214,574.86 which amount will be released on October 24, 1975, as apportioned by law. (A list of apportionment to the counties on file in the Commission's files, Salem.)

The Commission considered adopting as a permanent rule the establishment of a truck route which would route Swan Island truck traffic from and to I-5 south through the Broadway-Weidler Interchange in the City of Portland during the hours of 11 p.m. to 6 a.m. The State held a hearing on this proposal last month in Portland and the City of Portland has held six hearings concerning this truck route. The Commission referred the truck route back to the City for reconsideration in September 1974. He indicated there were several reasons for objecting to the proposal, but the basic reason was the truck route would be in conflict with the

Coliseum events and it had a longer time span from 7 p.m. to 6 a.m. A Task Force was formed to restudy the route. The truckers were members of this Task Force and also Mr. Robert Bothman, Assistant State Highway Engineer. Mr. Klaboe called on Mr. Bothman to comment on this matter. Mr. Bothman reported that the truckers had not agreed with the Task Force as a whole and they did provide an alternative to limit the trucks only in one direction going downhill into Swan Island. This was discussed at the Portland City Council and at the Task Force meeting and neither groups went along with the truckers. He stated that this proposal removes about 125 southbound trucks each night from Going Street. There are approximately 53 trucks each night using Going Street to and from the north. The Commission adopted the following as a permanent rule as recommended by Mr. Klaboe:

Establishment of a truck route which would route Swan Island truck traffic from and to I-5 south through the Broadway-Weidler Interchange in Portland during the hours of 11 p.m. to 6 a.m. The route would utilize N.E. Broadway, N. Interstate Avenue (ORE99E), N. Greeley Avenue and N. Going Street. Approval subject to the provision that the City of Portland will bear the cost of signing, traffic control, lane revisions, curb revisions at 90-degree turns and street improvements necessary to reduce hazards on the truck route.

(The permanent rule was published in the Secretary of State's Administrative Rule Bulletin on November 15, 1975, and will become effective on November 25, 1975.)

The Commission considered establishing October 28, 1975, as the legal date for use of studded tires in Oregon. Mr. Klaboe pointed out that under ORS 483.516, the Commission has authority to shorten or lengthen the period for the permissible use of studded tires in any area of the State. The legal date to use studded tires was November 1, which this year is also the opening date of the elk hunting season. A number of requests have been received from hunters that they be allowed to use studded tires a day or two early to enable them to get to their hunting areas in the mountains prior to opening day. Upon the recommendation of Mr. Klaboe, the Commission approved the legal date for use of studded tires as October 28, 1975.

Attention was given to requests from Curry, Wasco and Washington Counties for Federal-aid Secondary County Projects. Following Mr. Klaboe's recommendation, the Commission approved the requests and authorized the Administrator to sign the agreements when prepared.

(continued on page 1261)

The Commission considered the abandonment of the Princeton-Malheur County Line Section of the Steens Highway in Harney County. Mr. Klaboe stated that by an agreement of July 10, 1952, Units A and B were to be abandoned to the County as the respective sections were reconstructed and Units C through L to the abutting property owners. Only Unit A has been formally abandoned and the remaining units will be abandoned by this resolution formalizing the agreement and clarifying the records. Approximately 2.5 miles are transferred to the County and approximately 20 miles of the old right of way to the abutting property owners. The Commission approved the abandonment as recommended by Mr. Klaboe and thereupon adopted "Abandonment Resolution No. 263," which resolution by this reference is made a part hereof and filed in the Commission's files.

Attention was given to an abandonment of a segment of the Forest Grove Section (0.5 mile) of the Tualatin Valley Highway to Washington County. Mr. Klaboe pointed out that the new section is now open to traffic and as provided in the agreement of January 30, 1974, the old highway may now be transferred to the County for County road purposes. Following Mr. Klaboe's recommendation, the Commission approved the abandonment and thereupon adopted "Abandonment Resolution No. 468," which resolution by this reference is made a part hereof and filed in the Commission's files.

Consideration was given to adopting a resolution redesignating the Nehalem and Tualatin Valley Highways in and through the City of Forest Grove in Washington County. Mr. Klaboe mentioned that the resolution provides:

- (1) That the portion of the present Tualatin Valley Highway on Pacific Avenue between the northerly end of the bypass and College Way, including that portion of 19th Avenue consisting of the eastbound leg of the couplet, be designated as the Tualatin Valley Highway Spur.
- (2) That the Nehalem Highway be extended from its terminus at 19th Avenue and Council Street westerly on 19th Avenue-Pacific Avenue couplet

(Continued on page 1263)

to "B" Street and southerly on "B" Street to the south connection of the bypass.

- (3) That Council Street between 19th Avenue and Pacific Avenue be designated as one-way north-bound only to relieve a sight distance restriction.
- (4) "B" Street between Pacific Avenue and 19th Avenue would be the southbound leg of the Nehalem Highway Couplet.

The Commission approved the redesignation as recommended by Mr. Klaboe and thereupon adopted "Secondary Highway Designation Resolution No. 77," which resolution by this reference is made a part hereof and filed in the Commission's files.

The Commission considered adopting a resolution transferring The Dalles Bridge, its connections and approaches, to the State of Oregon from Wasco County. Mr. Klaboe pointed out that all of Wasco County's right, title, interest, jurisdiction, maintenance and control will pass to the State to complete this transfer as provided in an agreement between the County and the State dated May 29, 1973, and clarify its status as part of The Dalles-California Highway and the State Highway System. Following Mr. Klaboe's recommendation, the Commission adopted "Abandonment Resolution No. 555," which resolution by this reference is made a part hereof and filed in the Commission's files.

Attention was given to an agreement with Clackamas County for the maintenance of traffic signals on the Clackamas Highway at Rusk Road, Lake Road, Pheasant Court and Johnson Road. Mr. Klaboe indicated that maintenance of these intersections, together with the interconnect equipment, has become very complex in nature making it desirable that the State assume the maintenance responsibility. The agreement reassigns the maintenance responsibility to the State and the County will continue to be responsible for electrical energy consumed. Following Mr. Klaboe's favorable recommendation, the Commission approved the agreement.

Consideration was given to an agreement with Jackson County concerning the installation of traffic signals at the intersection of the Rogue Valley Highway at Ehrman Way. Mr. Klaboe mentioned that the State will prepare all plans and specifications and perform the work. The State will pay the total cost of the project estimated at \$42,000 and will be charged to Title II High Hazard Funds. After completion of the project, the State will maintain the traffic signals and the County will pay for all power. Upon Mr. Klaboe's recommendation, the Commission approved the agreement.

Mr. Klaboe called on Mr. R. N. Bothman, Assistant State Highway Engineer, for a report on the status of I-205 (East Portland Freeway). Mr. Bothman reported that following the hearing in April 1975, Multnomah County and the City of Portland adopted resolutions

and established a series of policies and guidelines on the design of I-205. This covered a section between Foster Road on the south and the north shore of the Columbia River on the Washington side. He indicated there were approximately 300 people in attendance at the hearing and considerable testimony received. A technical advisory committee was formed about a month following the hearing, consisting of the County, City, Tri-Met, DEQ, CRAG, and the Highway Division. He mentioned that the Committee has been working on taking those policies and guidelines and putting them into a revised plan. The current schedule calls for completion of the traffic analysis on a plan this month. He stated it will take about 2½ months to complete an air-noise analysis and about 1½ months to finish the draft statement, which leads to the hearing now scheduled in April 1976. The concept that has been developed at the request of the County and City is basically a six-lane freeway with a bypass facility. He said this has been accomplished in two ways:

- (1) By adding a separated busway to the facility and therefore reducing the auto lanes from eight to six;
- (2) By reducing the number of interchange connections to the freeway and therefore reducing the number of autos that have access to the freeway.

Mr. Bothman said that this meets the basic criteria of a good design as evaluated from a traffic standpoint.

Mr. Klaboe reported on an offer of settlement in the amount of \$55,000 concerning damage to the Astoria Bridge in Clatsop County on December 8, 1973. He pointed out that a ship hit the fender protection on one of the big piers (Pier 169). The State's claim to the owners of the ship was \$114,278.83. The State's forces tried to fix the damage but it did not work and as a result, time and money were lost. On the positive side, the State did receive a betterment from the repair work. Steel piles were added to compensate for loss of the timber piles resulting in a stronger fender system. The State's legal counsel and bridge engineers have been negotiating with the attorneys of the ship owners and it is felt that the offer of \$55,000 to settle this claim is fair and equitable. Following Mr. Klaboe's favorable recommendation, the Commission approved the settlement.

AERONAUTICS DIVISION

No report.

MASS TRANSIT DIVISION

See Page 1269 for small area transit matching grant programs.

MOTOR VEHICLES DIVISION

Mr. Ward placed before the Commission graphs of the motor vehicle registration fee revenue and vehicle fuels tax cumulative net revenue for the period of January 1970 through August 1975. (Copies of graphs on file in Commission's files, Salem.)

Based upon Mr. Ward's recommendation, the Commission approved the following items prior to submitting to the November 1975 Emergency Board meeting for their approval:

- (1) To secure increase in budget in the amount of \$166,267 in order to implement Senate Bill 1, which relates to the suspension and reinstatement of driver's privileges and the coordination with the courts. A major portion of the cost is for printing to acquaint the public with the provisions of the new law.
- (2) An additional expenditure of \$699,076 to implement Senate Bill 817 relating to color photo for driver's licenses over the next four years commencing July 1, 1976. (This bill will provide approximately \$1,500,000 of additional revenue to the Highway Fund during the current biennium.)

DEPARTMENT OF TRANSPORTATION Director's Report

The Commission set Tuesday, November 25, 1975, as the date for the next regular meeting.

Mr. Baldwin introduced Mel Makin, Urban Traffic Engineer, Department of Transportation, Planning Staff. He mentioned that Mr. Makin recently returned from the Pan-American Games in Mexico City where he won three gold medals and one silver medal in pistol competition.

See Page 1266 for policy development.

Mr. Baldwin called upon Don Streun, Assistant Director for Administration, to present the following items prior to submitting to the Emergency Board for approval: The Commission approved these items.

- (1) To fund an internal audit position from personal services savings, which eliminates a Fiscal Manager 1 position from the Office of Administration and a Clerk 2 position from the Highway Division. The increase in limitation for the Office of the Director would be \$14,859 and a decrease in Highway Division limitation by the same amount.

(continued on page 1266)

- (2) Increase the expenditure limitation for the Office of the Director and decrease the Motor Vehicles Division expenditure limitation to transfer two positions, one in support of the Citizens Participation Program and the other in support of the internal audit program, a transfer in limitation of \$56,323.
- (3) Increase the expenditure limitation for the Office of the Director by \$2,601,107 and reduce the expenditure limitation for the Motor Vehicles Division by \$2,523,869 to provide for the transfer of the budget and operating expenses for the computer center from the Motor Vehicles Division to the Office of Administration effective January 1, 1976, for the remainder of the biennium. The difference of \$77,238 represents space costs which will be billed to the Office of the Director and accounted as revenue in the Motor Vehicles Division's budget. This increases the Motor Vehicles Division's limitation by \$1,825,572 so that all the expenditure from the Data Processing Center from the Office of the Director can bill Motor Vehicles Division that amount for data processing services that they use. (The following costs were reported to the Commission in error at the meeting: increase the expenditure limitation of the Office of the Director by \$2,640,000 and decreasing the Motor Vehicles Division limitation by that and increasing the Motor Vehicles Division limitation by \$1,710,000.)

The Chairman recessed the meeting at 11:10 a.m. and reconvened at 11:25 a.m.

Mr. Burco presented to the Commission a tentative schedule for Commission policy development activities outlined as follows:

A twenty-one month period of fundamental policy development and refinement is envisioned involving staff, Commission, Governor's Office, Legislature and public leading up to, and through, the coming 1977 legislative session.

A four-month preliminary discussion and background period leading to recommendation of a policy framework and decision-making delegations for policy running from October 1975-January 1976 might be the first stage of such an effort. The end product of this period would be an adopted framework (outline) for a policy document to be delivered to the Legislature in January 1977, a clear consensus on plan and budget processes, a prioritizing of policy issues to be analyzed, and a delegation of authority delineating responsibilities of Commission, Governor's Office, Director, Transportation Policy Committee, Operations Policy Committee and divisions.

(continued on page 1267)

During February and March, 1976, the Commission may choose to hold hearings around the state as part of the criteria development portion of the plan. The Commission may choose to participate with staff in the future workshop-conference that has been under consideration by the Department for some time. Formal adoption of policy framework and decision-making delegations could follow this period.

A third stage of policy development would involve participation of the Commission in developing and refining policy, plan, budget and individual policy issues from April-December 1976. Interaction with the Governor's Office and other departments would take place during this period. Public hearings before recommending alternative plan and policy might be held by the Commission during the fall.

A fourth stage would involve delivery of a policy document, plan and budget to the 1977 Legislature, defense and negotiation of them through the legislative process, and adoption of agreed upon guidelines for ODOT programs in 1977-79 and future program development in a policy, plan and resource framework.

He suggested the following schedule for Commission meeting policy agendas during the period October 1975-January 1976.

| | |
|--------------------|---|
| October 28, 1975 | Regular meeting.
Tentative schedule of policy development activities.
Discussion paper on issue categories.
Background discussion on transit.
Land use example - Willamette Greenway. |
| Mid November, 1975 | Policy development meeting.
Discussion on issue categories.
Guidance for policy framework. |
| November 25, 1975 | Regular meeting.
First draft policy framework.
Background discussion on intergovernmental relations, land use. |
| December 9, 1975 | Policy development meeting.
Discussion on policy framework.
Guidance on intergovernmental relations, land use, transit.
Discussion on delegations of authority in policy development. |
| December 23, 1975 | Regular meeting.
Second draft policy framework.
Background discussion on financing, decentralization, regulation. |

(continued on page 1268)

| | |
|------------------|---|
| January 13, 1976 | Policy development meeting.
Guidance on financing, decentralization,
regulation.
Strategy development on plan, budget. |
| January 27, 1976 | Regular meeting.
Staff recommendation on policy framework,
plan, delegations, budget development. |

Mr. Fred Miller, Special Assistant, Transportation Policy Research and Special Studies, distributed to the Commission for their information a report concerning some major transportation policy areas for discussion. He said this report is not intended to be discussed today but was submitted to them for discussion at their next meeting. The report covers the following items:

- (1) The negotiation of the role of transportation on the State level.
- (2) Intergovernmental relations.
- (3) How and at what level should future transportation improvements be financed?
- (4) Priorities in ODOT's operating Divisions.
- (5) Public transportation.
- (6) ODOT's role with the private sector.
- (7) What are the future internal directions for the Department?

(Copy of report on file in the Commission's files, Salem.)

Mr. Moore distributed to the Commission a document entitled "Overview on Public Transportation in Oregon Related to Potential Policy Issues." He mentioned that this paper covers a number of activities, events and influences, both internal and external, which have highlighted some potential policy issues concerning public transportation in Oregon. He discussed the document which includes subjects concerning the establishment and purpose of the Mass Transit Division; transportation disadvantaged; transit development; federal funding; operations; facility development, such as park and ride stations, transit lanes, etc.; State employee-carpool projects; marketing; and goals. He said these subjects have raised policy issues on public transportation at the State level and that policies should be established. (Copy of document in Commission's files, Salem.)

There was discussion regarding the Experimental Transportation Project within the Willamette Valley which the Commission approved at its September 24, 1975, meeting to send to the Emergency Board. (A final report was recently mailed to the Commission.) Mr. Moore said this item was placed on the Emergency Board's October

agenda. The Budget Division, Executive Department, made a recommendation for deferral of the project pointing out that they did not have time to consume the full project in its entirety. The final report at that time was not available although it was made available to the Board within 24 hours thereafter. The Legislative Fiscal Office questioned the availability of Federal Funds the State was proposing to seek as part of the project. Subsequently, because there was some questions from the Governor's Office and the Executive Department, the Directors of the Executive Department and the Department of Transportation pulled the project for a month to re-evaluate. Mr. Moore recommended the project be placed on the November Emergency Board agenda if the Commission has no objections. There were no objections.

The Commission received a memo dated October 27, 1975, from Mr. Moore relative to the small area transit matching grant program. (Copy of memo on file in Commission's files, Salem.) He stated the purpose of this memo is to seek the Commission's initial approval of general guidelines for the expenditure of \$96,000 from the Mass Transit Division 1975-77 Biennial Budget for small area matching grants. There was some question as to the Legislative intent upon approval of the \$96,000 appropriation. In the opinion of legal counsel, the funds can be used only to match bus grants. He mentioned that the State has received two requests: (1) from the City of Roseburg to use approximately \$20,000 of the funds to match Federal funds to purchase buses; (2) from the City of Ontario for \$4,000 to continue an experimental transportation project which was late in getting underway in the 1973-75 biennium. He indicated the Governor has asked the Department to explore the availability of funding for the Western Lane County Bus Project for a two-day a week bus service from Florence to Eugene. He recommended that the Commission adopt the following tentative guidelines for approval of bus grants in small areas:

- (1) Match funds only be made available to municipal corporations having a population of less than 50,000 or districts which contain no cities of larger than 50,000 populations.
- (2) That the recipients of the grant fulfill all the planning requirements and all the capital grant requirements of the Urban Mass Transportation Administration (UMTA). Additionally, the recipients should have preliminary approval of an 80 percent capital grant from UMTA.
- (3) State match grants would be limited to \$8,000 per bus or 20 percent of project costs, whichever is less.
- (4) State funds would be for buses, with normal accessories, such as fare boxes, tires, air conditioning, wheelchair ramps and lifts and radios as part of the bus purchase prices.

(continued on page 1270)

- (5) In order to receive State funds, buses should be made available for use by the general public within the operating system of the recipient.
- (6) State funds would not go to any individual community within a transit district or a transportation district boundary. Only the district may receive funding. The district will not be funded if it contains a city of over 50,000 population.
- (7) All requests for such funds must be approved by the Transportation Commission before funds can be released to the recipients.

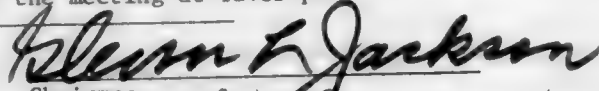

The Commission approved these seven guidelines.

Mr. Moore requested approval to go to the Emergency Board to request up to \$16,000 for experimental transportation projects within smaller urban areas or regions. He stated the recipients would be cities, counties or non-profit corporations representing areas that generally have a population of less than 50,000. This would not preclude the possibility of providing services from a small urban or rural area into a larger urbanized area. If approved by the Emergency Board, each project would be submitted to the Commission for approval. The Commission approved Mr. Moore's recommendation to submit this project to the Emergency Board.

Mr. Burco stated that the Department would like to go ahead with transit as one policy area and begin to activate a task force to generate some alternatives and some analysis to bring back to the Commission. The Commission approved the Tentative Schedule Policy Development Activities as shown on Pages 1266 through 1268.

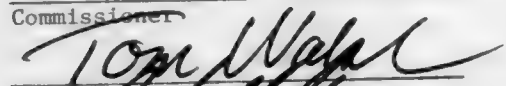

The Commission set the date of Thursday, November 13, 1975, for their next policy development meeting.

The Chairman adjourned the meeting at 12:35 p.m.

TO: Oregon Transportation Commission

SUBJECT: Confirmation Report of Actions Taken Under Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority and acting in accordance therewith for the Commission, I approved all actions listed below and report this action for your official records:

- 1) On October 9, 1975, rescinded Speed Zone Resolution No. 232 dated September 27, 1956, so that the basic rule will prevail on the Otter Crest Loop Road (Oregon Coast Frontage Road) from M.P. F 129.69 to M.P. F 132.74) in Lincoln County. (See Speed Zone Order No. 707)
- 2) On October 17, 1975, establishing a 30 MPH speed zone on the Netarts Highway east of Bayview Road to Happy Camp Road in the community of Netarts, Tillamook County. (See Speed Zone Order No. 708)
- 3) On October 21, 1975, approved the issuance of permits for triple trailers for a period of one year.

INSTITUTION OF LEGAL PROCEEDINGS FILED BY AND AGAINST DEPARTMENT OF TRANSPORTATION

L-7243 Kenneth W. Rains vs. Burlington Northern Inc., et al.: This lawsuit arises out of an accident that occurred on December 27, 1974, when the vehicle driven by the plaintiff collided with a freight train operated by Burlington Northern. The plaintiff is alleging that Burlington Northern and the Department of Transportation were negligent in authorizing inadequate protection at the grade crossing. The amount of the lawsuit is \$54,296.25. (City of Beaverton, Washington County)

The matter has been referred to the State's insurance carrier for the defense of the state.

L-7244 Floyd D. Knorr vs. State: This is a suit for personal injuries in the amount of \$55,260.60. The lawsuit arises out of an accident that occurred on September 21, 1973, in which the plaintiff allegedly collided with an unmarked pile of dirt on the edge of the Mt. Hood Highway near Government Camp. (Clackamas County)

The matter has been referred to the State's insurance carrier for the defense of the state.

L-7245 Maude E. Knorr vs. State: This lawsuit arises out of the same accident as reported above under L-7244. This is a lawsuit by the wife of the driver of the vehicle and is for personal injuries in the amount of \$51,679.15. (Clackamas County)

The matter has been referred to the State's insurance carrier for the defense of the state.

L-7246 Cathleen Steinke v. State: This is a lawsuit for personal injuries allegedly resulting from the malfunction of a traffic signal at the intersection of Webster Road and State Highway 224. The amount of the lawsuit is \$38,200.00. (Multnomah County)

The matter has been referred to the State's insurance carrier for the defense of the state.

L-7247 Gerlinger Industries vs. State: This case is based on alleged damage to the plaintiff's land by reason of dirt sloughing from a fill on the freeway project immediately north of Salem. The plaintiff has named both the contractor and the state as a party defendant and is asking \$5,800 in damages.

The matter has been referred to the State's insurance carrier for the defense of the state.

G

L-7248 George Westover vs. City of Oregon City, et al.: This case arises out of an accident that occurred on November 15, 1974, when the plaintiff allegedly dropped the front wheel of his bicycle into a catch basin and was thrown from the bicycle. The lawsuit is in the amount of \$50,000.

The matter has been referred to the State's insurance carrier for the defense of the State. (City of Oregon City, Hwy. 213, Clackamas Co.)

L-7256 Marie L. Monteith, Personal representative of the estate of Raymond A. Monteith, deceased, vs. State, et al.: This is a lawsuit for wrongful death arising out of an accident that occurred on January 30, 1975, on Highway 26 approximately 4 miles west of Government Camp. The alleged negligence of the Highway Division involves plowing snow in such a manner that the shoulder of the road was dangerous because the snow was plowed over the guardrail and created a ramp. The vehicle in the accident skidded on the road, went over the alleged ramp created by the snowplowing and down a steep hillside. The plaintiff also alleges the Highway Division was negligent in not providing effective protective barriers and failing to plow the snow with a vertical wall. The lawsuit is in the amount of \$68,799.25.

The matter has been referred to the State's insurance carrier for the defense of the State.

November 13, 1975
Salem, Oregon

The Oregon Transportation Commission held a policy development meeting at 10 a.m. in Room 135 of the State Highway Building in Salem, Oregon. Notice of the meeting was made by press release to newspapers of the general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Robert L. Mitchell, Secretary
Tom Walsh, Member
B. Gordon Coleman, Member
Michael P. Hollern, Member
George M. Baldwin, Director of Transportation
Robert A. Burco, Deputy Director
E. S. Hunter, Deputy State Highway Engineer
Chester Ott, Administrator of Motor Vehicles
Dennis Moore, Administrator of Mass Transit
Paul Burket, Administrator of Aeronautics
Fred Miller, Special Assistant for Policy Research and
Special Studies
Robert Royer, Assistant Director for Planning
David Talbot, State Parks Superintendent
Don Streun, Assistant Director for Administration
Mary Deits, Assistant Attorney General
Len Bergstein, Administrative Assistant, Governor's Office
John Earley, Public Information Officer
C. W. Head, Manager, Commission Services

There were others present and representatives from the news media.

Mr. Baldwin reported that he had written letters to 30 States that have Departments of Transportation asking what they are doing concerning policy development. He stated quite a few replies were received and that he had several inquiries at a recent meeting in Chicago.

Mr. Miller handed to the Commission copies of the letter, with attachments, that Mr. Baldwin sent out to the various States and brief summaries of some of their responses. (Copy of letter and attachments on file in the Commission's files, Salem.)

Mr. Burco commented on the tentative schedule of the special and regular meetings that the Commission adopted last month. He said Task Forces have been developed at the staff level to get background material to bring to the Commission. The Chairmen of the Task Forces are present at today's meeting. He then reported to the Commission on policy issues and the concerns of the Department of Transportation and pointed out a need for a policy manual regarding operations inside the Department. The manual will be built out of policy actions taken by the Commission at these workshop meetings.

Mr. Burco presented to the Commission a report entitled "Some Major Transportation Policy Areas for Discussion". He stated this report was submitted to the Commission at its regular meeting of October 28, 1975, for their review.

Mr. Miller mentioned that the staff needs Commission input in terms of priorities and direction concerning policy issues mentioned in the above report presented by Mr. Burco.

There was general discussion relative to the State's goals, objectives and policies. There were comments concerning House Bill 3166, Section 12, which states in part that the Commission shall develop and maintain a State transportation policy and a comprehensive long-range plan for a multi-modal transportation system.

There was discussion regarding the Land Conservation and Development Commission's program and the coordination of planning with other State agencies.

The Chairman commented on the validity of the Transportation Department attempting to set goals and guidelines without regard to the overall goal which has to be set sooner or later under those programs that are initiated by the Legislature and similar goals that have to be set by the Federal Government. It was the Chairman's feelings to use the most practical steps to insure that people and goods could be moved over the existing facilities of the State, but be ready in case of an emergency.

There was discussion concerning the Willamette Valley Experimental Transportation Project. The Chairman said the Department should reestablish its emphasis on the creation of a Willamette Valley Transportation System based on tires. He felt the needs of the valley and a planning program are highly valid, but it was important that this planning be on a practical concept that the public will use. Commissioner Coleman recommended working with the bus companies.

Mr. Burco brought up the issue of funding. There was discussion on a pay-as-you-go plan and the feasibility of State and/or Federal programs.

Chairman Jackson said that since there are funds still available which had originally been earmarked for the Amtrak program, these could be used to work up a program on the Willamette Valley Transportation System.

Mr. Talbot referred to the material which was mailed to the Commission on November 7, 1975, concerning the Willamette Greenway. He handed to the Commission material entitled "Drafts for LCDC Consideration for Approval of a Preliminary Willamette Greenway Plan and Approval of a Draft Greenway Goal." He also presented to the Commission a copy of LCDC's Statewide Planning Goals and Guidelines. (Copies on file in the Commission's files, Salem.)

He reported briefly on the status of the Greenway Plan and that his staff is working with LCDC to allow changes in the draft materials. He said LCDC plans to formally adopt their version of the plan on November 21, 1975. It was his feeling LCDC will not adopt either of the two plans that DOT submitted, but will adopt a boundary with a directive to DOT what to include in the new plan, as well as setting deadlines.

Chairman Jackson asked Mr. Talbot to get a ruling from the Attorney General setting the authority and responsibility for the Greenway. There was discussion regarding the challenge between the State's authority and that of local governments.

Mr. Burco led the discussion on future internal directions for the Department. He said the chairmen of the Task Forces are as follows in the six areas:

Regulation..... Paul Burket
Intergovernmental
Relations..... F. B. Klaboe
Public Transportation.. Dennis Moore
Financing..... Don Streun
Land Use..... Robert Burco
Decentralization
Issues..... Robert Burco

There was discussion about the responsibility of the Task Force activities. Mr. Burco explained that the mission of the task forces have not been structured. The Chairman said the Department should take a look to see if the Department is overstaffed in relation to what their legal responsibilities are to carry out the directives of the legislature in connection with the planning process. There was discussion on intergovernmental relations on whether the Department should be doing less and the local governments more. There was also discussion about the kind of help given to local governments and the extent of help.

The meeting recessed at 12:15 p.m. and reconvened at 1:50 p.m. (Commissioner Walsh was not present for the afternoon session.)

Mr. Burco opened the afternoon meeting by referring to agenda item No. 4, Oregon State Transportation Plan Citizen Involvement. (Material entitled "Issues Discussed at Public Meetings for the Oregon Transportation Plan" with attachments, was presented to the Commission and is on file in General Files, Salem.) Mr. Royer explained the workings of the Planning Section and set forth its goals and objectives. He talked about the second group of meetings which had been held around the State concerning the Oregon Transportation Plan and the relative low attendance. There was discussion about various ways of conveying information to the public and getting the public involved. Chairman Jackson suggested the town hall type meetings as an effective way and Commissioner Coleman mentioned that he would like to see some method of citizen input through the newspapers.

Mr. Mark Bovee in the Planning Section said it was important to get public input all along rather than wait until a plan is formulated and then have a plan that is unacceptable to the public. Mr. Royer said that the input received at these meetings was used as issues for the transportation plan.

Commissioner Hollern said he felt it is desirable that the Commission be involved in the third round of meetings.

Commissioner Hollern said the format of these policy development meetings is excellent.

The Chairman adjourned the meeting at 2:55 p.m.

November 25, 1975
Salem, Oregon

The Oregon Transportation Commission held their regular meeting at 10 a.m. in Room 122 of the State Highway Building in Salem, Oregon. Notice of the meeting was made by press release to newspapers of general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Robert L. Mitchell, Secretary
Tom Walsh, Member
Michael P. Hollern, Member
B. Gordon Coleman, Member
George M. Baldwin, Director of Transportation
Robert A. Burco, Deputy Director
Walt Barrie, Chief Counsel
F. B. Klaboe, Administrator and State Highway Engineer
E. S. Hunter, Deputy State Highway Engineer
J. B. Boyd, Right of Way Engineer
David Talbot, State Parks Superintendent
Paul Burket, Administrator of Aeronautics
Dennis Moore, Administrator of Mass Transit
Chester Ott, Administrator of Motor Vehicles
Fred Miller, Special Assistant for Policy Research and
Special Studies
C. W. Head, Manager, Commission Services

There were others present from the Department of Transportation and representatives from the news media.

The Commission approved the minutes of the special meeting on October 21, 1975, and the regular meeting on October 28, 1975.

HIGHWAY DIVISION

A list of properties needed for highways and other uses was presented by Mr. Boyd. He requested the Commission to declare by resolution the necessity of said properties for the public use to which they are to be put and to authorize him to attempt to agree with the owners of said properties as to price. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful and thereupon adopted "Condemnation Resolution No. 2640," which resolution by this reference is made a part hereof and filed in the Commission's files.

Attention was given to approve the Auto Wreckers Fencing Criteria as required by ORS 481.370. Mr. Boyd reported the Right of Way Section took over the inspection of the auto wrecking yards approximately two years ago. It was found that the Department was required to advise the Motor Vehicles Division whether to license the auto wreckers or not. There was lack of specification and ability to determine what was meant in the original law. The law stated that each auto wrecker should be surrounded by a "solid

enclosure." Mr. Boyd stated that a cyclone fence with redwood slats did not meet this "solid enclosure" criteria.

The 1975 Legislature changed the law to allow the Department to promulgate rules, regulations and standards as the old law was not enforceable. The Department has tried to prepare a standard which would have been acceptable to the auto wreckers in all areas through contacts with the Federal Highway Administration.

He pointed out the FHA in its Public Law 89-285, Title II, Sec. 201, (referred to in Item 2a in the rules) indicates that "facilities within 1,100 feet of interstate and primary highways except in conforming zones which will accept auto wrecking yards shall be screened by natural objects, plantings, fences or other appropriate means so as not to be visible from the main traveled way of the system, or shall be removed from sight."

This should have given the Department some latitude to allow the glimpse views that are available through the cyclone fence and also through a planting system that would have taken approximately five years to accomplish. The FHA did not agree and refused to accept this standard. The Department didn't want to get into a conflict because there is a 10 percent penalty to the Highway Program if the State doesn't comply with their rules and regulations and have accepted those facilities within 1,100 feet of the interstate and primary highways. The Department has accepted a rational standard outside of that area because it is obligated to inspect all auto wreckers and junkyards that are more than 1,100 feet along secondary highways, city streets, etc., in order that they might get their license properly. A compromise has been reached more or less in working with industry.

He said the State has approximately 19,000 lineal feet of fences on auto wreckers that are within the rules as being established before 1967 which the State is obligated to participate in removing them from visibility. The alternatives are very expensive and the Department will continue working with the problem with the FHA and hopefully come up with an economical solution. The Department doesn't believe that their solutions are within range of the Department's financial condition.

A hearing was held on these rules on September 8, 1975. Mr. Boyd recommended the adoption of these rules. He then introduced Mr. Tom Fender, Attorney in Salem, representing the Northwest Auto and Truck Dismantlers and the Willamette Valley Auto Recyclers Association.

Mr. Fender referred to Item 2 in the rules, Section A, "shall be screened by natural objects, plantings, fences or other appropriate means so as not to be visible from the main traveled way of the system or shall be removed from sight." He felt there is a distinction between the words "not to be visible" and the word "invisible." The auto wrecking industry has supported a fencing known as woven mesh with cedar or redwood slats which is very expensive. This is not acceptable to the Federal Highway Administration at this time.

He again referred to Item 2, Section B, "fencing of man-made materials can have no 'see through' tolerance." The industry has experienced serious problems in making fences stand up that have no "see through" due to the winter wind storms.

The industry felt that Item 2, Section C, "natural plantings must give immediate screening with no 'see through' tolerance" is totally unreasonable.

He stated that the industry is seeking the support of the Commission to assist them in convincing the Federal Highway Administration that changes need to be made in the regulations so that there will be a workable fencing criteria.

Commissioner Mitchell moved that the rules be adopted. It was seconded by Commissioner Coleman. The Commission unanimously adopted the regulations as permanent administrative rules. (Copy of rules and regulations on file under "Miscellaneous Resolution No. 257", in Commission's files, Salem. Permanent rules will be published in the Secretary of State's Administrative Rule Bulletin on December 15, 1975, to become effective December 25, 1975.)

Mr. Barrie asked if there were any questions in connection with the informational reports previously submitted to the Commission on cases tried, cases settled, and institution of legal proceedings filed against the Department of Transportation since the last Commission meeting. There were no questions. (See Exhibit G on file in the Commission's files, Salem.)

Mr. Talbot stated that at the October 28, 1975, meeting the Commission had instructed the Parks Branch to try and work out a compromise with George Echols for a permit to construct his home along the Rogue River Scenic Waterway in Josephine County. He mentioned that they had been working with Mr. Echols and offered a property trade in the immediate vicinity and an alternative building site on his property. These were unacceptable to Mr. Echols and he is still requesting a variance to the rules. Mr. Talbot recommended denial. The Commission denied Mr. Echols' request.

The Commission congratulated Mr. Talbot on being elected President of the National Association of State Park Directors and for receiving a meritorious service award presented by the National Society for Park Resources for the development of camp site reservation and information systems and for the nature guide program.

Mr. Klaboe reported on actions taken under delegated authority received for filing with the Commission records. These reports show the actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission's files, Salem.)

 Vice Chairman of Oregon Transportation Commission
 Administrator and Highway Engineer
 Director of Permits
 Right of Way Engineer
 State Parks Superintendent
 Chief Counsel

Exhibit A
 Exhibit B
 Exhibit C
 Exhibit D
 Exhibit E
 Exhibit F
 Exhibit G

Mr. Klaboe mentioned that a survey had been completed for the improvement of the exit ramps on the Garden Valley Boulevard Interchange of the Pacific Highway in Douglas County to eliminate a traffic backup problem. He recommended that the Commission approve the widening of the exit ramps to two lanes, installing signs, illumination and landscaping at an estimated cost of \$300,000 using Federal Aid Interstate Funds. The Commission approved the project.

A request from the Columbia Region Association of Governments (CRAG) was approved by the Commission as presented by Mr. Klaboe for the following Federal Aid Urban System Project:

| <u>Jurisdiction</u> | <u>Section</u> | <u>Total
Cost</u> | <u>Federal
Funds</u> | <u>State's
Share</u> |
|---------------------|---|-----------------------|--------------------------|--------------------------|
| CRAG | Downtown Portland
Transit Corridor Study | \$100,000 | \$78,000 | \$11,000 |

(The Commission also gave authority for the Administrator to sign the agreement for this project when prepared.)

The Commission approved the following Federal Aid Secondary Projects and authorized the Administrator to sign the agreements when prepared:

| <u>County &
FAS No.</u> | <u>Section and Description</u> | <u>Programmed
Amount</u> | <u>State's
Share
(rounded)</u> |
|---------------------------------|--|------------------------------|--|
| Douglas
253 | Rock Creek-Steamboat Bridge
Sec., N. Umpqua Hwy. Co. Rd.,
Paving | \$1,347,000 | \$148,000 |
| Washington
632 | Croeni Rd.-County Line Sec.,
Cornelius Pass Rd., Grade and
Pave | 560,000 | 62,000 |
| Washington
632 | Burlington Northern Railway
(West Union) Crossing Sec.,
Cornelius Pass Rd., Automatic
Railroad Signals | 40,000 | --- |
| Gilliam
958 | John Day Hwy.-PGE Power Plant
Sec., Rhea Rd.

BPA Substation-Airport Sec.,
Airport Rd., (to be supplemented
with future funds when available) | 407,000 | 45,000 |
| TOTAL | | \$2,354,000 | \$255,000 |

Upon Mr. Klaboe's recommendation, the Commission approved requests for increases in project authorizations on the following contracts:

- (1) Waybo, Inc., Contract No. 8072, Memaloose Safety Rest Area, Columbia River Highway, Wasco County, for \$105,904.01 (9.15%). The major reasons are increased power supply, soil-type borrow material over the existing natural rock, reconstructing screen walls of existing buildings, and temporary sewer line and sewage system until the seepage beds are constructed.
- (2) Salem Road and Driveway Co., Contract No. 8176, Salem-Dayton Highway, Polk County, for \$20,050.07 (13.6%). The reasons for the increase were soft foundation, stage construction, paving problems and engineering overruns.
- (3) Roy L. Houck Construction Co., Contract No. 8183, Columbia River Highway, Clatsop County, for \$164,637.01 (19.7%). The increase is due to an alignment change, equipment additions and substitutions and additional flagging.
- (4) Shur-Way Contractors, Inc., Contract No. 8244, Springfield-Creswell Highway, Lane County, for \$11,256.63 (11.46%). An early change from the contract plan was made requiring a revision in the drainage plan, general and trench excavation, sewer pipe and engineering costs.
- (5) Wildish Construction Company, Contract No. 8194, Willamette Highway, Lane County, for \$14,518.77 (8.12%). Engineering costs are the main reason for the overrun.

Mr. Klaboe reported that under ORS 366.525 the counties are entitled to receive 20 percent of all funds received from motor vehicle taxes and fees. For the month of October 1975 the amount credited to the counties totals \$2,095,362.11 which amount was released on November 21, 1975, as apportioned by law. (List of apportionment to counties on file in the Commission's files, Salem.)

Mr. Klaboe stated that an allocation of 12 percent of the Highway Fund to the cities for the month of October 1975 in the amount of \$1,257,217.26 was released on November 28, 1975. (A list of apportionment to the cities on file in the Commission's files, Salem.)

Mr. Klaboe stated that a public hearing was held under the Administrative Procedures Act on November 18, 1975, concerning the adoption of a rule establishing exclusive bus and high-occupancy passenger vehicle lanes on the Banfield Freeway in Portland. The

proposed rule was submitted to the Legislative Counsel Committee on October 20, 1975. He recommended that the Commission adopt the bus and high-occupancy vehicle lanes as a permanent administrative rule. He stated that Steve McCarthy of Tri-Met was present to answer any questions. The Commission accepted his recommendation and thereupon adopted "Miscellaneous Resolution No. 256," which resolution is on file in the Commission's files, Salem. (Permanent rule will be published in the Secretary of State's Administrative Rule Bulletin on December 15, 1975, and will become effective on December 25, 1975.)

Mr. Klaboe recommended that parking be prohibited on the north side of the Willamette Highway from M.P. 69.35 to M.P. 69.47 just west of the Crescent Lake Junction in Klamath County. A problem exists with trucks parking partially in the westbound lanes on the north side of the highway and vehicles exiting the service station and cafe do not have adequate sight distance. The Commission accepted his recommendation.

Consideration was given to transferring to the City of Springfield a small segment (0.13 mile) of old right of way of the Daisy Street-SPRR Section of the Springfield-Creswell Highway in Lane County. Mr. Klaboe mentioned that this transfer will conform with an agreement dated July 22, 1975, where the City is to accept this right of way upon realignment, which has now been completed. The Commission adopted "Abandonment Resolution No. 553," which resolution by this reference is made a part hereof and filed in the Commission's files, Salem.

An agreement with the City of Salem was presented by Mr. Klaboe for approval for installation of a traffic signal on Lancaster Drive at the eastbound offramp of the North Santiam Highway in Marion County. The State is to prepare all plans, let the contract and supervise the work of the project at an estimated cost of \$30,400 to be funded under the contract. The City and State will annually negotiate the costs for power and maintenance. The Commission approved the agreement.

Mr. Klaboe mentioned that by an agreement dated April 4, 1972, Crook County transferred to the State \$368,000 of its County Federal-aid Secondary Funds to be used by the State for the reconstruction of the Crooked River Highway south of Prineville. It has since been determined that because of Federal constraints this improvement could not be accomplished as a Federal-aid Highway Project. The County has requested that any unused FAS-C funds be returned to the County for use on the local road portion of the Federal-aid Secondary System. He recommended that the Commission approve an agreement transferring the remaining \$270,900 from the State's FAS account to Crook County's FAS-C account. The Commission accepted his recommendation.

Mr. Klaboe stated that Oregon will receive a \$4,964,438 grant of Title X Funds from the Federal Highway Administration for the purpose of advancing needed highway improvements to stimulate

the economy and reduce unemployment. The funds must be obligated by December 31, 1975, and can only be used on the following projects:

| <u>Highway</u> | <u>Section</u> | <u>Title X
Funds</u> | <u>State
Match</u> | <u>Estimated
Total Cost</u> |
|------------------|--------------------------------------|--------------------------|------------------------|---------------------------------|
| Powers | Broadbent | \$1,707,825 | \$ 292,175 | \$2,000,000 |
| Oregon
Coast | Elk River-Port Orford | 1,927,383 | 597,617 | 2,525,000 |
| Redwood | Hayes Hill-California
State Line | 1,016,470 | 283,530 | 1,300,000 |
| Crooked
River | Rocky Canyon-Prineville
Reservoir | 312,760 | 211,440 | 524,200 |
| TOTAL | | \$4,964,438 | \$1,384,762 | \$6,349,200 |

He stated that the Powers and Oregon Coast Highway Projects were on the Six-Year Program but the other two were not. He recommended the Commission's approval of the funding change for the Powers and Oregon Coast Highway Projects and the addition of the Redwood and Crooked River Highway Projects to the Six-Year Program for contracting in January 1976. The Commission accepted his recommendation.

Mr. Klaboe requested verification as to the responsibility for signing city streets in connection with the establishment of the truck route from Swan Island to Interstate 5 in Portland. He mentioned that the Commission had established on October 28, 1975, this truck route. The Commission verified that signing on city streets would be paid for by the City and signing of the State Highways involved in the route would be the responsibility of the Department of Transportation.

AERONAUTICS DIVISION

Mr. Burket presented a request from the City of Roseburg for financial aid to municipalities program funds to assist in the funding of an extension of City water lines to the Roseburg Municipal Airport for fire protection purposes. He stated this will not require allocation of new funds but will utilize the residual of a \$17,720 grant approved by the Commission at the May 30, 1975, meeting. The amount of funds not utilized in the previous project is \$2,022.41. The Commission approved the request.

MASS TRANSIT DIVISION

No report.

MOTOR VEHICLES DIVISION

Mr. Ott presented to the Commission for their information graphs entitled "Vehicle Fuels Tax Cumulative Net Revenue" and "Motor Vehicle Registration Fee Revenue".

DEPARTMENT OF TRANSPORTATION
Director's Report

The Commission confirmed Tuesday, December 9, 1975, as their policy development meeting date and set Thursday, December 18, 1975, as the date for the next regular meeting.

Mr. Baldwin requested authority to present to the Emergency Board approval of a plan to fund reclassifications of several positions in the Office of the Director. The reclassifications were requested in the 1975-77 budget but were not funded. This financing plan is to cover the cost of \$23,252 by eliminating the following positions:

Clerk 2 - Highway Division
Clerical Assistant - TPR and SS (Fred Miller's office)
Engineering Aide (Seasonal) - Planning

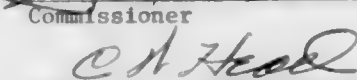

He stated in order to apply the savings in the areas where the reclassifications will take place, it is necessary to transfer funds between expenditure limitations. (Copy of financing plan and reclassifications on file in Commission's files, Salem.) The Commission granted authority to present this request to the Emergency Board.

Mr. Burco asked Mr. Miller to present to the Commission some material concerning policy development. Mr. Miller presented an outline representing general categories for a Department of Transportation Policy Framework. He also handed to the Commission recommendations of the Governor's Energy Task Force Relating to Transportation. This material was presented for their information and review for possible discussion at the next meeting on Tuesday, December 9, 1975.

The Chairman stated that under ORS 192.660 the Commission may hold an executive session with the public excluded. He said the Commission had personnel matters to discuss and they would adjourn and hold an executive session at 11:15 a.m. in the small conference room. The Chairman adjourned the meeting at 11 a.m.

- (9) Agreement with the Gleneden Sanitary District to construct a sewer line through Lincoln Beach and Fogarty Creek State Parks and to Lincoln Beach State Park and to provide a connection for sewage facilities at each of the parks for a cost to the State of \$12,525, based upon the estimated sewage flows from the two developed and one undeveloped State parks in the district. (Parks Branch) (Lincoln County)
- (10) Agreement with Fish and Wildlife Commission to mutually select State-owned Willamette Greenway lands on which regulated hunting and trapping would be permitted. These activities have generally been permitted in the past and it has come to the Park's Branch attention that an inconsistency between existing management policy and State park rules and regulations requires this action if these activities are to continue. (Parks Branch)
- (11) Agreement with Tri-Met covering the design, construction, operation and maintenance of the West Portland Park and Ride Station to be located at the junction of the Baldock Freeway (I-5), Southwest Barbur Boulevard (99W), and Southwest Capitol Highway. Cost will be approximately \$4.5 million which will come from Federal-aid Interstate funds.
- (12) Service agreement with Digital Equipment Corporation for the maintenance of a PDP8/L computer for a fog hazard study in Albany, Linn County, for an indefinite period of time commencing November 1, 1975. Present agreement expires October 31, 1975. (Traffic Section)

G

REPORT OF CASES FILED BY AND AGAINST THE DEPARTMENT OF TRANSPORTATION

L-7257 Harry Marvel v. State, et al.: This lawsuit arises out of an accident that occurred on February 19, 1975, when plaintiff's tractor and trailer collided with vehicles owned and operated by the State Highway Division. Allegations of negligence in the lawsuit relate to failure of the Highway Division drivers to keep a proper lookout, failure to yield the right of way, failure to drive on the right half of the highway, failing to give the driver of plaintiff's tractor and trailer at least one-half of main traveled portion of the roadway, failure to exercise proper control of vehicle, parking vehicle upon the highway without leaving a clear enough unobstructed portion for passage and failure to give proper or any warning of parked or disabled vehicles on the highway. The amount of the lawsuit is for \$3,016.59.

The matter has been referred to the State's insurance carrier for the defense of the State.

December 9, 1975
Salem, Oregon

The Oregon Transportation Commission held a policy development meeting at 9 a.m. in Room 120 of the State Highway Building in Salem, Oregon. Notice of the meeting was made by press release to newspapers of the general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Robert L. Mitchell, Secretary
Tom Walsh, Member
B. Gordon Coleman, Member
Michael P. Hollern, Member
Robert A. Burco, Deputy Director
F. B. Klaboe, Administrator and State Highway Engineer
Dennis Moore, Administrator of Mass Transit
E. S. Hunter, Deputy State Highway Engineer
Don Streun, Assistant Director for Administration
Fred Miller, Special Assistant for Policy Research and
Special Studies
David Talbot, State Parks Superintendent
Warren Gaskill, Deputy State Parks Superintendent
Merl Whiteman, Fiscal Officer, Department of Transportation
D. H. Moehring, Maintenance Engineer
C. W. Head, Manager, Commission Services

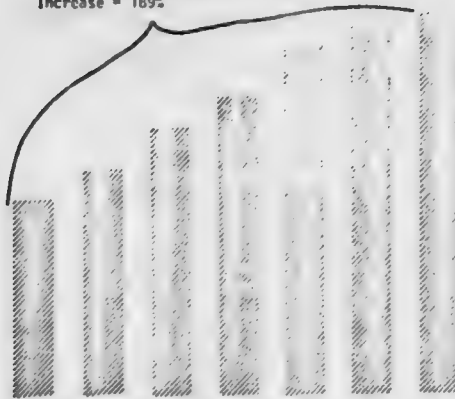

There were others present from the Department of Transportation and representatives from the news media.

Mr. Klaboe reported that the gas tax revenue at this time is holding up about what was expected and the license plate fee is also expected to hold up. The weight-mile tax collection is down considerably. Mr. Klaboe presented to the Commission a handout covering the Highway Division's history on revenues, transfers and certain expenditures for the biennium '63-'65 to date as follows:

Mr. Klaboe pointed out the increases of the Highway fund going to the other agencies. He then referred to the problem and the objective as follows:

PROBLEM: To meet projected cash balance shortage as of June 30, 1977.

The two projections are:

| | Projected Cash Shortage |
|---|-------------------------|
| (1) No growth over preceding biennium in weight mile tax | \$ 10,782,851 |
| (2) A small increase in weight mile tax (projected November 1975) | 9,416,463 |

OBJECTIVE: Identify alternative program reductions by December 31, that will result in reducing expenditures in the Highway Division by \$8,000,000 for the biennium and consider other alternatives for the balance of the shortage by March 31, 1976, subject to the following constraints:

- (1) Maintain the highways and parks at levels required to meet safety standards and protect the investments.
- (2) Avoid reduction in permanent full-time employees.
- (3) Avoid loss of Federal Aid funds and maintain the highest level of construction financially possible.

Mr. Klaboe said the State Police has shown a cooperative effort to try to reduce their budget. The Motor Vehicle Division will be looking at their budget and the Public Utility Commissioner will also be contacted.

Mr. Whiteman referred to the identified program reduction and covered each item as follows:

| SAVINGS..... | \$1,000 | \$1,975 | \$2,465 |

Mr. Whiteman covered the following employment stimulation program:

| Identified Budget Reductions
1975-77 Biennium
EMPLOYMENT STIMULATION PROGRAM
1975-77 BUDGET
(\$ in thousands) | | | | | | |
|---|-----------|------|-------------|----------------------|------------------------|---------|
| Program | Positions | Mos. | Man
Mos. | Personal
Services | Services &
Supplies | Total |
| Maintenance | 400 | 12. | 4,800 | \$4,074 | \$3,055 | \$7,129 |
| Parks | 125 | 13.9 | 1,739 | 1,467 | -- | 1,467 |
| Youth Corps | 150 | 4. | 600 | 264 | -- | 264 |
| TOTALS | 675 | | 7,139 | \$5,805 | \$3,055 | \$8,860 |

EMPLOYMENT STIMULATION PROGRAM
ALTERNATIVE #1

- A. Maintenance would reduce the program 20 positions between December 1975 and January 1976. Then by attrition, at the rate of 8 personnel per month through the end of the biennium.

Levels of employment would go from 235 at December 1, 1975, to 79 at June 30, 1977.

SAVINGS would be..... \$940,532

- B. Parks would utilize 50 positions through June 30, 1977.

SAVINGS would be..... \$560,418

TOTAL SAVINGS: \$1,500,950

EMPLOYMENT STIMULATION PROGRAM
ALTERNATIVE #2

- A. Maintenance will reduce positions as follows:
1. 20 positions between December 1975 and January 1976.
 2. 8 positions per month from January 1976 to March 1976.
 3. Lay off 49 during March 1976. (Employment level at this point would be 150 positions.)
 4. 8 positions per month through the balance of the biennium. (Number of positions at that time would be 38.)

SAVINGS would be..... \$1,947,668

- B. Parks would utilize 50 positions through June 30, 1977.

SAVINGS would be..... \$ 560,418

TOTAL SAVINGS: \$2,508,086

**EMPLOYMENT STIMULATION PROGRAM
ALTERNATIVE #3**

Retain existing positions until April 1, 1976, then discontinue program.

| <u>Program</u> | <u>Number of Positions</u> | <u>Savings</u> |
|----------------|----------------------------|----------------|
| Parks | 50 | \$1,178,518 |
| Maintenance | 191 | 3,951,698 |
| SAVINGS..... | | \$5,130,216 |

Mr. Klaboe stated that the employment stimulation program was initiated soon after Governor Straub became Governor in an attempt to place into areas of State government people that were unemployed at the time and try then to finally integrate them into government.

Mr. Whiteman presented the following budget for tourist advertising:

| <u>TOURIST ADVERTISING</u> | | <u>(In Thousands)</u> |
|-------------------------------|--|-----------------------|
| Total Budget | | \$550 |
| Less: Advertising, State Fair | | 100 |
| | | \$450 |
| Funding: | | |
| Tourist Industry Contribution | | \$ 50 1 to |
| Highway Funds | | 400 8 |
| | | \$450 |

---Budget note says Highway can spend \$8 for every \$1 contributed by the tourist industry.

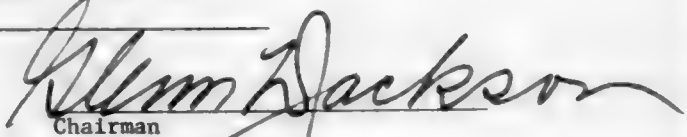

| <u>Item</u> | <u>Total Expenditure</u> | <u>Industry Match</u> | <u>Highway Funds</u> |
|---|--------------------------|-----------------------|----------------------|
| First Fiscal Year Budget | \$225 | \$25 | \$200 |
| Estimated to be Received and Spent | 189 | 21 | 168 |
| ESTIMATED SAVINGS..... | | | (\$ 32) |
| Second Fiscal Year Budget | \$225 | \$25 | \$200 |
| Estimated to be Received and Spent | -- | -- | -- |
| ESTIMATED SAVINGS..... | | | \$200 |
| TOTAL ESTIMATED SAVINGS..... | | | (\$232) |
| Total expenditures/encumbrances to 12-1-75 = \$59,750 | | | |

There was discussion relative to the Youth Corps, Travel Information Centers, contract letttings, greenway, sanding, overtime and equipment. The Commission suggested various alternatives to the items presented to reduce the budget approximately \$8,000,000 and asked Mr. Klaboe to make a recommendation to them at their regular meeting of December 18, 1975.

Mr. Whiteman informed the Commission that he had received a letter from the State Police stating that they had identified savings in personal services of approximately \$812,000.

There was discussion concerning the move of the State Parks Offices from the State Highway Building. Mr. Gaskill reported that the staff has studied and evaluated numerous buildings and the Vik Building and the Equitable Building near the Capitol Mall are very competitive as far as price per square foot and space. The rental for the Equitable Building is \$4,000 per month for approximately 10,500 sq. feet and the Vik Building rental is \$3,687 a month for a little over 11,000 square feet. This report was presented to the Commission for their information and the Parks Branch would proceed on requesting General Services to arrange for the contract.

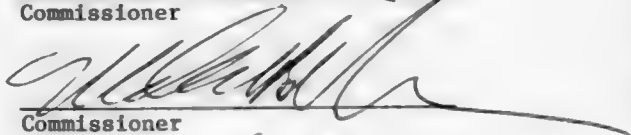

The meeting adjourned at 11:45 a.m.

December 18, 1975
Salem, Oregon

The Oregon Transportation Commission held their regular meeting at 10 a.m. in Room 122 of the State Highway Building in Salem, Oregon. Notice of the meeting was made by press release to the newspapers of the general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Robert L. Mitchell, Secretary
Tom Walsh, Member
Michael P. Hollern, Member
B. Gordon Coleman, Member
George M. Baldwin, Director of Transportation
Robert A. Burco, Deputy Director
Walt Barrie, Chief Counsel
F. B. Klaboe, Administrator and State Highway Engineer
E. S. Hunter, Deputy State Highway Engineer
J. B. Boyd, Right of Way Engineer
David Talbot, State Parks Superintendent
Paul Burkett, Administrator of Aeronautics
Dennis Moore, Administrator of Mass Transit
Chester Ott, Administrator of Motor Vehicles
C. W. Head, Manager, Commission Services

There were others present from the Department of Transportation and representatives from the news media.

The Commission approved the minutes of the special meeting on November 13 and the regular meeting on November 25, 1975.

HIGHWAY DIVISION

A list of properties needed for highways and other uses was presented by Mr. Boyd. He requested the Commission to declare by resolution the necessity of said properties for the public use to which they are to be put and to authorize him to attempt to agree with the owners of said properties as to price. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful and thereupon adopted "Condemnation Resolution No. 2641," which resolution by this reference is made a part hereof and filed in the Commission's files.

Mr. Barrie reported that the Maywood Park case has been rescheduled from December 22, 1975, to January 19, 1976, at the request of the plaintiff's attorneys. He indicated there may be a further continuance of the case by plaintiffs until the State has solidified its own position with respect to the design and the environmental impact statement. In reply to the Chairman's inquiry, Mr. Barrie said there is always a possibility of an environmental law suit in a Federal Court.

Mr. Barrie presented to the Commission copies of an oral opinion by Judge Burns on the Mt. Hood Freeway case. Mr. Barrie said the Judge denied the plaintiff's request for between \$250,000 and \$500,000 in attorney's fees which was made against the State and the individual Commission members. A final order in the case has not yet been signed because there is a minor dispute over court costs which amounts to \$1,300. (Copy of opinion dated November 30, 1975, on file in the Commission's files, Salem.)

Mr. Barrie asked if there were any questions in connection with the informational reports previously submitted to the Commission on cases tried, cases settled, and institution of legal proceedings filed against the Department of Transportation since the last Commission meeting. There were no questions. (See Exhibit G on file in the Commission's files, Salem.)

No report from the State Parks Superintendent.

Mr. Klaboe reported on actions taken under delegated authority received for filing with the Commission records. These reports show the actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission's files, Salem.)

| | |
|---|-----------|
| Chairman of Oregon Transportation Commission | Exhibit A |
| Vice Chairman of Oregon Transportation Commission | Exhibit B |
| Administrator and Highway Engineer | Exhibit C |
| Director of Permits | Exhibit D |
| Right of Way Engineer | Exhibit E |
| State Parks Superintendent | Exhibit F |
| Chief Counsel | Exhibit G |

Consideration was given to approving a preliminary engineering project to complete the preparation of plans to widen a 3.15 mile section of the Clackamas Highway in Clackamas County. Mr. Klaboe said a majority of the preliminary engineering was completed prior to approval of the Urban System, using Urban Extension Funds. The estimated cost is \$31,200 with the State providing the total matching funds of \$8,800. Upon his favorable recommendation, the Commission approved the following project:

| <u>Jurisdiction</u> | <u>Section</u> | <u>Total
Cost</u> | <u>Federal
Funds</u> | <u>State's
Share</u> |
|---------------------|---|-----------------------|--------------------------|--------------------------|
| State | I-205 Intchge.-Boring
Rd., Clackamas Hwy.,
FAU 0390 | \$40,000 | \$31,200 | \$8,800 |
| | TOTAL | \$40,000 | \$31,200 | \$8,800 |

The Commission approved the following Federal aid Secondary Projects as recommended by Mr. Klaboe and authorized him to sign the agreements when prepared.

| <u>County &
FAS No.</u> | <u>Section and Description</u> | <u>Programmed
Amount</u> | <u>State's
Share
(rounded)</u> |
|---------------------------------|--|------------------------------|--|
| Linn
124 | DeFord Cr.-N. Santiam River
Sec., Lyons-Mill City | \$275,000 | \$30,000 |
| Wheeler
814 | Mortiner Ranch-John Day Hwy.
Sec., Rowe Cr. Rd. | <u>200,000</u> | <u>22,000</u> |
| | TOTAL | \$475,000 | \$52,000 |

Attention was given to a request from Tri-Met to extend the Portland carpool program for another year as an additional Urban System Project. Mr. Klaboe stated the total cost is \$90,000 and CRAG has approved the project. The Federal Government will pay \$81,000 of the cost and Tri-Met will pay the \$9,000 matching funds. The Commission approved the request as recommended by Mr. Klaboe.

The Commission considered approving a policy letter which is to be sent to all cities and counties to obtain information to develop a bond sale program as provided in Senate Bill 448. Mr. Klaboe said initial indication shows only limited interest in the program. However, Marion County has requested \$3.4 million and the City of Grants Pass has indicated interest in the program with no amount specified. Under this program the State would at the request of a local government perform any engineering necessary to construct a project at no expense to the State. Upon his recommendation, the Commission approved the policy letter. (Copy of policy letter on file in the Commission's files, Salem.)

The Commission approved Mr. Klaboe's request to increase project authorization on the following contract:

- (1) D McD Coporation, Contract No. 8179, LaGrande-Baker Secondary Highway, Union County, for \$10,677.61 (9.07%). The reasons for the increases were due to quantity overruns and engineering.

Mr. Klaboe reported that under ORS 366.525 the counties are entitled to receive 20 percent of all funds received from motor vehicle taxes and fees. For the month of November 1975 the amount credited to the counties totals \$2,072,539.30 which amount was released on December 26, 1975, as apportioned by law. (List of apportionment to the counties on file in the Commission's files, Salem.)

Mr. Klaboe also reported that an allocation of 12% of the Highway Fund to the cities for the month of November 1975 in the amount of \$1,243,523.22 will be released on December 30, 1975. (A list of apportionment to the cities on file in the Commission's files, Salem.)

Consideration was given to adopting a temporary rule requiring mandatory prequalification for persons desiring to bid on projects for the Department of Transportation beyond January 1, 1976, when Chapter 771 Oregon Laws 1975 becomes effective. Mr. Klaboe pointed out that the temporary rule provides that all persons presently prequalified with the Commission shall remain so qualified until May 1, 1976, without submitting new prequalification statements. All persons not prequalified by May 1, 1976, who wish to bid on projects authorized by the Commission must submit a completed prequalification statement at least ten days prior to the opening of bids for projects on which they wish to bid. The temporary rule meets all of the requirements that are presently being set forth in the proposed rules by the Public Contract Review Board. Mr. Klaboe also mentioned that the temporary rule instructs the Director of the Department of Transportation or his designated representative to hold such public hearings as required by ORS 184.619 and to recommend to the Commission for adoption of a permanent rule requiring mandatory prequalification. Following his favorable recommendation, the Commission adopted the temporary rule. (Copy of temporary rule on file in the Commission's files, Salem.) (A certified copy of the temporary rule was filed with the Secretary of State on December 22, 1975, and was published in his bulletin on January 1, 1976. A hearing will be held in Salem on January 19, 1976.)

Attention was given to approving the payments under an agreement with the State Fair Board and Richardson Associates, Inc., of Portland for promotional and advertising activities for the 1976 Oregon State Fair. Mr. Klaboe said the agreement provides for a monthly payment of \$350 as a set fee and a guaranteed annual fee of \$3,000 for advertising commissions. The \$3,000 fee would be offset by commissions paid by the publications and is expected to be all or mostly covered by these commissions. Only in case the commissions do not reach \$3,000 will the Highway Division pay any additional funds to Richardson Associates under this portion of the contract. The contract provides for the Highway Division to pay the usual charges for advertising layout and design, type setting, finished art and other production charges. The Commission approved the payment as recommended by Mr. Klaboe.

Consideration was given to a request from the City of Pilot Rock to consent to the annexation of portions of the rights-of-way of the old and relocated Pendleton-John Day Highway in Umatilla County. Mr. Klaboe stated that this proposal has been investigated and found to be correctly described and in proper order. No enclave will be formed by the annexation. Following his favorable recommendation, the Commission approved the annexation and authorized Mr. Klaboe to sign the consent form.

Consideration was given to adopting a resolution establishing a one-way couplet in the City of Silverton and extending the Hillsboro-Silverton Highway and the Cascade Highway, South in Marion County. Mr. Klaboe said by an agreement dated May 31, 1974, the couplet and

redesignation of highways in the City were established on a temporary basis in conjunction with the construction of the Main Street bridge. The City now accepts the couplet as a permanent facility with some signing and truck route revisions. The Hillsboro-Silverton Highway mileage is increased by approximately 0.4 mile for the paralleling street forming the couplet and the Cascade Highway, South extended for one block to facilitate the traffic movement. Following his recommendation, the Commission adopted "Secondary Highway Designation Resolution No. 78," which resolution by this reference is made a part hereof and filed in the Commission's files, Salem.

The Commission considered a report concerning reduction of \$8 million in the Highway Division expenditures. (Report mailed to the Commission on December 12, 1975.) Mr. Klaboe stated that following the special Commission meeting of December 9, 1975, a schedule outlining a reduction of expenditures has been prepared which was based on the Commission's guidelines. (Copy of report and supporting schedules on file in the Commission's files, Salem.) The Commission approved the reduction of \$8 million in the Highway Division's 1975-77 biennium budget as follows:

SELECTED REDUCTIONS - STATE HIGHWAY FUNDS ONLY (In Thousands)

| <u>Item</u> | <u>Amount</u> |
|------------------------------------|---------------|
| Right of Way Acquisition | \$2,019 |
| Maintenance | |

| Total Planned Reductions | \$8,000 |

AERONAUTICS DIVISION

The Commission approved six actions taken by the Aeronautics Administrator in September and October 1975 relative to real property transactions on State-owned airports as follows:

(continued on page 1347)

- (1) September 26, 1975 - Executed addendum to septic tank drainfield easement of June 4, 1975.
(Columbia Helicopters - Aurora State Airport, Marion County)
- (2) October 6, 1975 - Executed one-year renewal of Ingress/Egress Permit. (Dr. Forrest G. Bennett - Aurora State Airport, Marion County)
- (3) October 9, 1975 - Executed Bargain and Sale Deed transferring 0.19 acre of property to Brooks Johnston as part of transaction acquiring property for transitional areas at Siletz Bay State Airport, Lincoln County.
- (4) October 9, 1975 - Executed final report and option on Lebanon State Airport property file No. 18, Linn County. (C. E. Kious)
- (5) October 10, 1975 - Executed 5-year lease for hangar site. (W. L. Schrunck - Independence State Airport, Polk County)
- (6) October 27, 1975 - Executed temporary Ingress/Egress Permit to expire December 31, 1975. (Tri City Flight Center - Tri City State Airport, Douglas County. (See page No. 1350 Director's Report, Amendment No. 1 to Delegation Order No. 11))

Mr. Burket presented an informational report regarding proposed Schedule of Rates and Fees at State-owned airports. He said the current rates for real property leases at State-owned airports were established in 1947 and the current fuel flowage fees were set in 1964. The Schedule of Rates and Fees and report "Fee Adjustment Justifications" is the result of a lengthy study on rates and fees at municipal and other airports in the State and is in accordance with ORS 492.110. (Schedule of Rates and Fees of State-Owned Airports and Fee Adjustment Justifications are on file in the Commission's files, Salem.) He mentioned that upon advice of Mr. Barrie the fees to be charged are not a matter for administrative rules but this fee report would be distributed to known-interested parties. Mr. Burket stated that this schedule would be presented to the Commission for their approval at the January 1976 Commission meeting.

MASS TRANSIT DIVISION

Mr. Moore presented to the Commission a second progress report on the Intercity Transportation Project. (First report was mailed to the Commission on December 9, 1975.) He stated the purpose of this study is to review bus transportation alternatives which may be available to implement an intercity transportation project

this biennium using funds which are currently reserved in the Emergency Board. The Division is in the process of studying three general types of bus transportation alternatives as follows:

- (1) Increasing bus service frequency on the Interstate 5 corridor between Portland and Eugene.
- (2) Offering new or upgraded service between communities throughout the State.
- (3) Developing statewide non-operating improvements such as signing, bus stops, and vanpool programs.

Mr. Moore outlined their time schedule in the study process. (Progress reports on file in the Commission's files, Salem.)

Consideration was given to approving general guidelines for experimental transportation projects for less populated areas. Mr. Moore stated recipients of the program could be cities, counties, or non-profit corporations representing areas that generally have a population of less than 50,000. The areas or cities such as Bend, Ontario and Western Lane County would be potential recipients. The following is a listing of requirements of the Special Transportation Program divided into three categories:

General Requirements

- (1) State assistance is on a one-time, pilot basis and no further financing can be expected from the program. However, recipients could include those applicants who did not complete a State-authorized experimental project in a prior biennium because of circumstances beyond their control (such as Ontario).
- (2) The project will be for no more than 18 months.
- (3) State matching funds will not be forthcoming until local matching funds are confirmed.
- (4) State participation will be limited to 25 percent of approved project costs; however, the State will contribute 50 percent of approved costs for marketing.
- (5) Each project will be subject to approval by the Transportation Commission.
- (6) State funds would only be expended in areas with less than 50,000 population.

(continued on page 1349)

Selection Criteria

- (1) Priority will be given to the needs of those who are without transportation.
- (2) A commitment to provide substantial initial and continuing financial and administrative support will be made at the local level.
- (3) The proposed transportation service will demonstrate innovative solutions to the problems of transportation disadvantaged persons.
- (4) The localities will be sufficiently typical to generate information useful to a broad range of areas and communities in the State.
- (5) Special consideration may be given to existing transportation services which offer innovative services to transportation disadvantaged persons.
- (6) If transportation services already exist, emphasis will be given to coordination of service and planning.

Program Administration

- (1) The Mass Transit Division will develop agreements with designated local agencies indicating the procedures for payment schedules, reporting requirements, and budget limitations.
- (2) Local agencies will be responsible for the day-to-day operations of each project including the amounts set for drivers' wages, fringe benefits, fares, routing, scheduling, etc.
- (3) Program budgets will be divided in the categories of Capital, Payroll, Operations (the State will participate up to 25 percent of the cost of each), and Marketing (the State will match expenses up to 50 percent).
- (4) Agencies will submit monthly expense, passenger, and mileage reports.
- (5) The Division will monitor and evaluate the project elements on a continuing basis and will perform periodic informal audits. Each project will have a final report containing all relevant information and an evaluation.
- (6) Agencies must be able to verify all expenses with receipts.

(continued on page 1350)

- (7) State funds will be released by requisition.
- (8) Sample forms will be supplied to account for and requisition funds. Substitutes for these forms must be approved by the Division.

Mr. Moore recommended that the guidelines remain in effect until such time as the Commission has reviewed all Department programs and established an overall policy on State transportation grants. The Commission accepted his recommendation.

MOTOR VEHICLE DIVISION

No report.

DEPARTMENT OF TRANSPORTATION
Director's Report

The Commission confirmed Tuesday, January 13, 1976, as the date for the policy development meeting and set Tuesday, January 27, 1976, for their next regular meeting. (The policy development meeting was later cancelled and the regular monthly meeting was changed to Thursday, January 22, 1976.)

Consideration was given to the adoption as a temporary rule the Attorney General's Model Rules of Procedure under the Administrative Procedure Act effective October 22, 1975. Mr. Baldwin mentioned that a public hearing will be held on Tuesday, January 20, 1976, in the Conference Room of the State Highway Building in Salem. The Commission adopted the temporary rule as recommended by Mr. Baldwin. (Upon advice of Legal Counsel, the rule was not filed with the Secretary of State as a temporary rule; therefore, the temporary rule was not put into effect. Notice of the hearing was published in the Secretary of State's Administrative Rule Bulletin on January 1, 1976.)

The Commission adopted Amendment No. 1 to Delegation Order No. 11 recommended by Mr. Baldwin as follows:

AMENDMENT NO. 1
to
DELEGATION ORDER NO. 11
DELEGATION OF AUTHORITY

Pursuant to the provisions of ORS 184.635 and in order to provide for a more efficient and expeditious administration of the Aeronautics Division, authority is hereby delegated to the Aeronautics Administrator, Oregon Department of Transportation, to approve and execute all deeds, contracts, agreements, ingress/egress permits, or other documents pertaining to all real property transactions.

Mr. Burco presented to the Commission the following tentative agenda for the policy development meeting set for January 13, 1976.

Tentative Agenda Items
January Policy Development Meeting

- (1) Status Report and Discussion - Transportation Policy Document
- (2) Issue Formulation of Policy Task Forces
 - Intergovernmental Relations
 - Land Use
 - Public Transportation
 - Financing
 - Decentralization
 - Regulation
- (3) Willamette Valley Transit Program Review
- (4) 1977-79 Program Plan
- (5) Invited Participation - Energy, LCDC, other Departments
- (6) How Does the Commission/Staff Relationship Proceed from Here on Policy Development Matters
- (7) Adoption of the Director's Report of last year as a background document.

Mr. Klaboe mentioned another item that should be included on the January agenda is to take action on a Federal rule requiring the Department to reclassify the entire road system in the State.

DELEGATION

A delegation representing Klamath County appeared before the Commission to request a change in priorities in the Six Year Construction Program by deleting the improvement of the Malin Junction-Henley Section of Highway No. 39 (Klamath Falls-Malin Highway) in the Secondary Rural Program and committing these funds to the Southside Bypass, FAS No. 959. The following people were present: Bryant Williams, County Commissioner; Alvin Cheyne, Chairman, County Roads Advisory Committee; Lyle Smith, Director, Public Works; and Earl Kessler, Assistant County Engineer.

Bryant Williams mentioned that on August 14, 1975, a group met with Fred Klaboe and discussed the proposal that is being presented today. He thanked Mr. Klaboe and staff for their assistance concerning this matter.

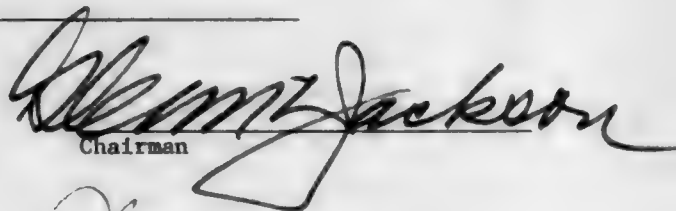

Alvin Cheyne stated that in 1936 there was a study made on the road system within the suburban and City of Klamath Falls

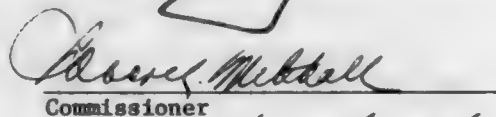

area to see what could be done to correct it. This survey called for another crossing on the Klamath River, but it was too costly. Another study was made in the 1940's by another firm with the same recommendations. He indicated that there are several north-south roads and one major east-west road (South Sixth Street). The only other east-west route is approximately five miles south. The County has looked at several other locations but could not handle due to the high cost of construction. Mr. Cheyne said the location that the County is recommending today is shown in red on the wall map and on the little handout map which is attached to the South Bypass Action Plan. (Copy on file in the Commission's files, Salem.) He said that this route is the only way that would remove log trucks and other commercial trucking off Main Street in downtown Klamath Falls. He said his group has met with the City, County, Chamber of Commerce, timber industry, mills, loggers, farmers, cattlemen, labor groups and others and all agree 100 percent to this plan.

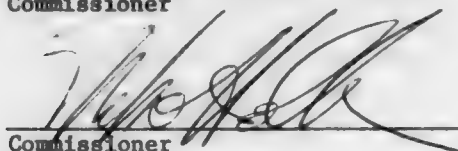

Lyle Smith pointed out that the yellow line on the map is the proposed truck route which was adopted by a truck route committee. The truck route is an integral part of this whole unit and without the Southside Bypass it just won't work. He said that their group is proposing that the \$3.9 million 1980 estimated cost on Highway 39 be transferred onto the westerly section of the Southside Bypass from Washburn Way to Highway 97. This is a direct connection with the interchange of 97 and 66 and then connects over to Highway 140 on the Orindale Road. The current estimated cost of this westerly leg from 97 to Washburn Way is \$4.2 million, which includes the bridge over Klamath River, one railroad overpass and a truck route interchange. The 1980 escalated cost is \$5.3 million which leaves the County shy \$1.4 million. It is planned to use FAS-C Funds for this project. The Association of Oregon Counties recently approved a new formula distribution and now the counties can borrow ahead five years in advance and the deadline to commit these funds is 1978. He said the County is proposing to purchase all rights-of-way for the Bypass and the truck route just as soon as the Commission gives approval on transferring these funds. It is planned to finance all construction costs from Washburn Way to Highway 39 and will construct without Federal or State aid. The estimated cost of this section is \$1.2 million and the County will begin construction in 1978 and complete by 1981.

Chairman Jackson informed the delegation that the Commission would have to defer the decision until February 1976 as the Federal Aid Highway Act containing Oregon's apportionment is expected to be passed by late February. The Chairman also stated that the Commission would cooperate with the County by recognizing their priorities.

There being no further business the Chairman adjourned
the meeting at 11:08 a.m.

TO: Oregon Transportation Commission
SUBJECT: Confirmation Report of Actions Taken Under Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority and acting in accordance therewith for the Commission, I approved the following items and report this action for the official records:

- 1) On December 2, 1975, by telephone approved consideration for \$29,895 for 181 M bd. ft. of timber on right of way from the Bureau of Land Management on the Slater Creek-Mystic Creek Section of the Coos Bay-Roseburg Highway in Douglas County. (File 48631)
- 2) On December 2, 1975, approved an agreement with Warren Whiting to prepare the format and copy writing for public service graphics displays to be placed in the rest area information plazas. Maximum to be expended on the agreement is \$2,500 with payment to be made on a \$15 per hour basis and all work will be supervised by Travel Information Section of the Highway Division. Necessity for this is the rapid expansion of the informational plazas and lack of personnel time in the Highway Division to prepare the graphics. Graphics prepared under this agreement will meet all the State's current obligations with respect to public service graphics to be placed on the information plazas. The consultant was selected by securing bid proposals from 8 different consultants and 3 of those were selected for personal interviews and Mr. Whiting was selected by the committee after the personal interviews. The committee consisted of Scott Coulter, Warren Gaskill, Vic Fryer, Frank Howard and Jack Sollis.
- 3) On December 5, 1975, rejected the bid of Marmolejo-Hewson, Inc., in the amount of \$47,488.93 on the basis of an incomplete bid and awarded the contract to the second low bidder, Freedom Bridge, Salem, in the amount of \$62,604.50 for work in Champoege State Park in Marion County. Bids received November 20, 1975. (Contract No. 8323)
- 4) On December 9, 1975, approved an agreement between the Mass Transit Division and Arthur's Reporting Service for professional recording and transcription of four public hearings covering the Rural Highway Public Transportation Demonstration Project grant application process. \$10 per hour and \$2 per transcript page plus traveling expenses. Maximum amount of contract is not to exceed \$1,500.

EXHIBIT G

REPORT OF CASES FILED BY AND AGAINST DEPARTMENT OF TRANSPORTATION

L-7266 Daniel J. Desler, Harvey Bishop and Evelyn Ayers v. Lane County Board of Commissioners and Don M. Penfold, Lane County Clerk: Petition for Writ of Review. The Lane County Board of County Commissioners granted a conditional use permit to the Highway Division to excavate aggregate material and operate rock crushing and washing equipment and also to operate an asphalt plant west of Highway 99 north some three miles south of Junction City. This was to be used in conjunction with a Highway Division contract. The Petition for Writ of Review is trying to get the conditional use permit set aside on the grounds that it is a violation of the comprehensive plan of Lane County.

The matter has been referred to the Attorney General's office to work with the Lane County Counsel in defending this action.

L-7267 Matt Patterson v. Patricia Alice Campbell, defendant and third party plaintiff v. State of Oregon, by and through the State Highway Division of the Department of Transportation, Jack Walker and Richard N. Alsbury, third party defendants: This lawsuit arises out of an accident that occurred on November 19, 1973. The alleged negligence of the Highway Division is in failing to keep a reasonable lookout for ice on Highway 30 where it crosses the John Day Bridge, in failing to sand the highway bridge, in failing to stop and examine the bridge for ice, and in failing to place warning signs or flares to the entrance to the bridge giving motorists notice of the danger on the bridge. There is also an allegation that one of the Highway Division employees failed to place supervisors and the State Police on notice of an alleged extreme danger on the John Day Bridge because of icy conditions. The amount of the lawsuit is \$101,501.53.

The matter has been referred to the State's insurance carrier for the defense of the State and its employees.

L-7273 Matt Patterson v. Jack Walker and Richard N. Alsbury: This is a companion case to L-7267, reported immediately above, and also the companion case to L-7274, reported immediately below. The same defendants are involved in all three cases with the exception that in L-7267 the State of Oregon is also named. All three cases arose out of the same accident which is fully reported under L-7267.

This case has been referred to the State's insurance carrier for the defense of the State employees.

L-7274 Patricia Alice Campbell v. Jack Walker and Richard N. Alsbury: This is a companion case to L-7273 and L-7267 which has been fully reported under L-7267 above.

This case has been referred to the State's insurance carrier for the defense of the State employees.

EXHIBIT

EXHIBIT G

L-7275 Ingrid Link v. Raymond Massie, et al and State of Oregon,
by and through the Department of Transportation: This is a companion case to L-7219. The lawsuit arises out of an accident that occurred on March 30, 1973, in a construction project underway on Ocean Blvd. in the City of Coos Bay. The alleged negligence is the failure to properly sign the construction area and to properly repair known hazardous defects in the road.

The matter has been referred to the State's insurance carrier for the defense of the State employees and the State.

L-7276 James Casper v. Walter Hall and the Highway Division of the
Department of Transportation of the State of Oregon: This lawsuit arises out of an accident that occurred on September 20, 1974, involving a State Highway employee while driving his private pickup on the way home from work. The State is in no way involved in this lawsuit as the employee was not working within the scope of his employment at the time of the accident. The employee has retained private counsel. (Deschutes County - Highway 97)

The matter has been referred to the State's insurance carrier for further handling.

January 22, 1976
Salem, Oregon

The Oregon Transportation Commission held their regular meeting at 10 a.m. in Room 122 of the State Highway Building in Salem, Oregon. Notice of the meeting was made by press release to the newspapers of the general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Robert L. Mitchell, Secretary
Michael P. Hollern, Member
B. Gordon Coleman, Member
George M. Baldwin, Director of Transportation
Robert A. Burco, Deputy Director
Jack Sollis, Assistant Counsel
F. B. Klaboe, Administrator and State Highway Engineer
E. S. Hunter, Deputy State Highway Engineer
J. B. Boyd, Right of Way Engineer
Warren Gaskill, Deputy State Parks Superintendent
Paul Burket, Administrator of Aeronautics
Dennis Moore, Administrator of Mass Transit
Chester Ott, Administrator of Motor Vehicles
C. W. Head, Manager, Commission Services

There were others present including representatives from the news media.

The Commission approved the minutes of the special meeting of December 9 and the regular meeting of December 18, 1975.

HIGHWAY DIVISION

A list of properties needed for highways and other uses was presented by Mr. Boyd. He requested the Commission to declare by resolution the necessity of said properties for the public use to which they are to be put and to authorize him to attempt to agree with the owners of said properties as to price. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful and thereupon adopted "Condemnation Resolution No. 2642," which resolution by this reference is made a part hereof and filed in the Commission's files.

Mr. Boyd reported that under the sign removal program there are nine signs yet to buy and fourteen remaining to complete legal proceedings against. He indicated the waived signs are being removed quite rapidly. The date for completion of the program is March 1, 1976.

Mr. Boyd gave a report on the organizational setup and procedures required in the installation and operation of the tourist information centers and also on the installation of logos as a substitute for the sign program. He stated there is one site now under construction at D River in Lincoln County and several more locations

are planned at Brookings, Ontario, Boardman, Astoria, Bend and Klamath Falls.

Mr. Sollis stated that the Department has applied for an experimental program with the Federal Highway Administration for directional signing on the primary system. If this request is approved, the Department can start the program at three locations: on the coast, in the Willamette Valley, and in Central Oregon. He pointed out that this would be a two-year study to determine what type of directional signing is proper to be used on the primaries and establish a criteria that could be used to direct the public to travel-oriented businesses that are not visible from the primary highway. The purpose of this program is to determine which type of signing is appropriate, the size, what information should be contained on them and what criteria should be developed to determine what businesses need them.

Mr. Sollis asked if there were any questions in connection with the informational reports previously submitted to the Commission on cases tried, cases settled, and institution of legal proceedings filed against the Department of Transportation since the last Commission meeting. There were no questions. (See Exhibit G on file in the Commission's files, Salem.)

Mr. Sollis presented a Quarterly Report of Property Damage Claims for the period of October 1, 1975, through December 31, 1975. During this period \$107,711.14 was collected.

Upon the recommendation of Mr. Sollis, the Commission gave their approval granting consent to the designation of the Swan Island Truck Route by the City of Portland. The Commission also authorized the Administrator and State Highway Engineer to sign the consent in their behalf. (ORS 483.542 requires that the Department of Transportation give such consent.)

Following Mr. Sollis' favorable recommendation, the Commission adopted as a permanent rule the Attorney General's Model Rules of Procedure dated October 22, 1975, under the Administrative Procedure Act. (Copy of Model Rules and Procedures on file in Commission's files, Salem. Permanent rule was filed with the Secretary of State on January 23, 1976, and published in the Secretary of State's Administrative Rule Bulletin on February 15, 1976.)

Mr. Gammill presented for the Commission's consideration Notifications of Intent by property owners to make various types of improvements along the Rogue River Scenic Waterway. He indicated that these requests had been carefully investigated as to their compliance with the Scenic Waterways Act. The Commission acted on the following Notifications of Intent for reasons as stated in Mr. Talbot's letters to the Commission insofar as their authority under the Scenic Waterway Act is concerned:

(Continued on page 1382)

- (1) Denied a request from Leonard Gerkin to place a mobile home on Township 36 South, Range 7 West, Section 1, Tax Lots 1500 and 1600 on the right bank of the river just downstream from Finley Bend in Josephine County.
- (2) Denied a request from Dean Jackson to place a mobile home on Tax Lot 1200, Township 35 South, Range 11 West, Section 7 on the left bank of the river just upstream from the confluence of the Illinois and Rogue Rivers in Curry County. Mr. Gaskill reported that Mr. Jackson contacted him by phone this morning and he indicated that his mobile home would now have a wood siding. Mr. Gaskill said that the telephone call does not change his recommendation. However, the staff will continue to negotiate with Mr. Jackson concerning this matter.
- (3) Approved a request from Albert Flowers to construct a residence in river mile 84, Lot 302, Township 35 South, Range 7 West, Section 35 on the left bank just upstream from Robinson Bridge in Josephine County.

The Commission considered approving an agreement with Colburn, Sheldon and Partners for architectural services for the restoration of the Wolf Creek Tavern in Josephine County. Mr. Gaskill said the work is to be divided into five phases: investigative, schematic (preliminary design), design development, contract document and bidding, and construction inspection. The project costs will be determined by a fee schedule not to exceed \$68,000. The Commission approved the agreement as recommended by Mr. Gaskill.

Attention was given to an agreement with Jack Jarvis & Company, Inc., to develop a feasibility analysis of the market, economic, development and financial merits of the Wolf Creek Tavern. Mr. Gaskill mentioned the project costs will be determined by a fee schedule not to exceed \$8,500. Following his favorable recommendation, the Commission approved the agreement.

Mr. Klaboe reported on actions taken under delegated authority received for filing with the Commission records. These reports show the actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission's files, Salem.)

| | |
|---|-----------|
| Chairman of Oregon Transportation Commission | Exhibit A |
| Vice Chairman of Oregon Transportation Commission | Exhibit B |
| Administrator and Highway Engineer | Exhibit C |
| Director of Permits | Exhibit D |
| Right of Way Engineer | Exhibit E |
| State Parks Superintendent | Exhibit F |
| Chief Counsel | Exhibit G |

Mr. Klaboe reported that under ORS 366.525 the counties are entitled to receive 20 percent of all funds received from motor vehicles taxes and fees. For the month of December 1975 the amount credited to the counties was \$2,013,166.40, which amount is to be released on January 23, 1976, as apportioned. (List of apportionment to the counties on file in the Commission's files, Salem.)

Mr. Klaboe stated that an allocation of 12 percent of the Highway Fund to the cities for the month of December 1975 in the amount of \$1,207,900.14 will be released on January 30, 1976. (A list of apportionment to the cities on file in the Commission's files, Salem.)

Following Mr. Klaboe's recommendation, the Commission approved the payment of \$5,050.39 for membership dues in the American Association of State Highway and Transportation Officials for the calendar year 1976.

Upon the recommendation of Mr. Klaboe, the Commission approved requests for increases in project authorizations on the following contracts:

- (1) L. K. Comstock & Co., Inc., Contract No. 8114, Oakland-Shady Highway in Douglas County, for \$7,697.71 (6.7 percent). The reason for the increase is due to the additional flagging.
- (2) Casey Jones Well Drilling Company, Contract No. 8315, Gettings Creek Safety Rest Area in Lane County, for \$6,210.38 (36.8 percent). The extra drilling depth, plus the installation of perforated well liner, are the main reasons for the overrun.

Attention was given to a request from the City of North Bend for an Urban System Project to develop a one-way couplet (Florida Avenue-Vermont Avenue-Sheridan Avenue) on the Oregon Coast Highway through the North Bend business district in Coos County. Mr. Klaboe said Federal Urban System funds for this project are estimated at \$195,000, with the State providing approximately \$27,500 in match funds and an equal amount being contributed by the City. The project has been investigated and is eligible for funding under the Federal Aid Highway Program. Following his favorable recommendation, the Commission approved the project and authorized the Administrator and State Highway Engineer to sign the agreement when prepared.

Consideration was given to approving a Federal Aid Secondary County Project in Umatilla County replacing the bridge over the North Fork Cold Springs on the Holdman-Helix County Road. Mr. Klaboe stated the estimated cost for this structure is \$72,000 and the State's cost is \$7,920. The Commission approved the project as recommended by Mr. Klaboe and authorized the Administrator and State Highway Engineer to sign an agreement when prepared.

The Commission considered adopting a revised policy for the distribution of Federal Aid Secondary funds to the Oregon counties. Mr. Klaboe said the apportionments in the past have been allocated annually by the Commission based on a formula established mutually by the Association of Oregon Counties and the State. Over the past several years, some of the counties have allowed their FAS fund to accumulate in substantial amounts. The Association of Oregon Counties, at its annual conference on November 21, 1975, adopted a policy statement regarding funding and project selection. (Policy statement on file in the Commission's files, Salem.) He indicated the distribution formula allocating each county its proportionate share of FAS-C funds has not changed; however, adoption of a priority system has revised the method of funding individual projects. The AOC is confident that its newly adopted procedures will be an incentive to the counties to encumber not only current FAS funds, but also unreserved accumulated funds. The Commission approved the revised policy as recommended by Mr. Klaboe.

Mr. Klaboe recommended that parking be prohibited on the east side of the Oregon Coast Highway in the vicinity of the Pre-historic Gardens area access road from M.P. 313.16 to M.P. 313.52 in Curry County. This restriction will provide for safer traffic conditions in the area. The Commission accepted his recommendation.

The Commission considered the abandonment of approximately one-quarter mile to the abutting property owner in the North Unit, Richmond Junction-Girds Creek Road Section of the Service Creek-Mitchell Highway in Wheeler County. Mr. Klaboe said this segment of the old alignment is bypassed by new construction and is no longer needed for highway purposes. The Commission approved the abandonment as recommended by Mr. Klaboe and thereupon adopted "Abandonment Resolution No. 556," which resolution by this reference is made a part hereof and filed in the Commission's files, Salem.

The Commission considered an agreement with Benton County covering installation of traffic signals at the intersection of Lewisburg Road and Pacific Highway West. Mr. Klaboe stated the estimated cost of the project is \$51,000 and will be funded by State Bond money. After installation all power costs will be paid by Benton County. The Commission approved the agreement as recommended by Mr. Klaboe and authorized him to sign it in their behalf.

Attention was given to Supplemental Agreement No. 6 with Howard, Needles, Tammen and Bergendoff for additional work for the Final Environmental Impact Statement of the East Portland Freeway (I-205) in Multnomah County. Mr. Klaboe said that due to the length of time that has passed since preparation of the original EIS Draft and the recent changes in transportation and land use planning, major updating of data will be required. The consultant's fee for this work is \$114,080. This supplemental agreement extends the completion date to December 31, 1976. Following Mr. Klaboe's favorable recommendation, the Commission approved the agreement and authorized him to sign it in their behalf.

Consideration was given to a request from the City of Stanfield for a consent to annexation of the right of way with the Umatilla-Stanfield Highway in Umatilla County. Mr. Klaboe said the request has been investigated and is in proper order and no enclave will be formed by the annexation. The Commission approved the annexation and authorized the Administrator and Highway Engineer to sign the consent in their behalf.

The Commission considered an amendment to "Through Highways and Stop Sign Resolution No. 4" dated April 27, 1943, and rescinding the resolution dated July 7, 1943, concerning the intersection of the Woodburn-Estacada Highway and the Cascade Highway South near Molalla in Clackamas County. Mr. Klaboe recommended that these resolutions be amended as follows:

All traffic moving north and south on the Cascade Highway South No. 160 shall come to a stop before entering the intersection of said highway with the Woodburn-Estacada Highway No. 161.

He also recommended that the exception to the "Through Highways and Stop Sign Resolution No. 11" dated August 26, 1947, be reaffirmed which states that traffic on the Woodburn-Estacada Highway No. 161 (M.P. 11.31) shall stop at its intersection with the Cascade Highway No. 160. The Commission accepted his recommendations.

Mr. Klaboe reported that the City of Silverton requested the installation of stop signs at the intersection of Oak and First and Main and water Streets in Marion County. He indicated that sight distance at these two intersections is quite restricted and stop signs would be beneficial. He recommended that the "Through Highways and Stop Signs Resolution No. 13" dated September 21, 1949, be amended as follows:

All traffic southbound on the Hillsboro-Silverton Highway shall stop at its intersection with Main Street. All traffic northbound on the Hillsboro-Silverton Highway shall stop at its intersection with Oak Street.

The Commission accepted his recommendation.

Commissioner Hollern inquired if a resolution could be prepared similar to speed zones delegating action pertaining to stop signs. Mr. Klaboe indicated that a delegation order could be prepared if the Commission desires. Jack Sollis stated that he has prepared a list of approximately 75 delegation orders and that he would like the opportunity to present these to the Commission at an informational session and then the Commission could act later at a regular meeting. He said there are numerous items that could be delegated to the Director and the Administrator and State Highway Engineer, and they could subdelegate to the various section heads. The Commission instructed Mr. Sollis to proceed with his recommendation.

The Commission considered approving the annexation of State property to the Eastside Water Project District for the formation of a water district which will serve the Highway Division's facilities in The Dalles in Wasco County. Mr. Klaboe said the City is presently engaged in the formation of the Eastside Water District to replace the antiquated Big Eddy Water System which serves the State office-maintenance complex. The new system may be utilized to serve the State's facilities only by requesting annexation of the property to the district. The City has advised they will approve such a request. The system presently serving the State's complex has a questionable supply. The current water district undertaking is to proceed only if Federal funding under the Economic Development Administration is forthcoming. The Commission gave their approval to the annexation as recommended by Mr. Klaboe and authorized him to sign the consent in their behalf. The Commission approved Mr. Klaboe's request to enter into an agreement with the City at such time as the investigations are completed.

Mr. Klaboe referred to a booklet entitled "Statewide Functional Classification of Roads and Streets in Oregon" dated January 1976 which was previously mailed to the Commission (copies on file in the Commission's files, Salem). He said the 1973 Federal-aid Highway Act requires the functional classification and also calls for the realignment of the various Federal Aid systems consistent with the appropriate classification of the facilities. Through the years the role of the various highways in the total transportation system has changed because of the differences in growth, construction of additional and sometimes relieving facilities, impacts of heavy traffic generators, and changes in land use. As a result, many of the facilities on the Federal Aid Secondary system are now fulfilling the role of facilities in the primary system while some of those on the primary system are performing secondary system functions. He stated this is the first overhaul of the various Federal Aid systems since 1916. Mr. Klaboe pointed out the basic purpose for determining the role that each road plays is to determine its proper Federal Aid system and also the appropriate extent of Federal, State and local interests. As of June 30, 1976, the various Federal Aid systems must conform to the appropriate classification to receive Federal-aid funding. He said system changes will have to be made to meet the new requirements. Mr. Klaboe stated that under the program 1,872 miles of state highway on the secondary system would become part of the primary system.

Mr. Klaboe recommended the Commission's approval on the following:

- (1) To concur in this functional classification so it can be submitted to the Federal Highway Administration.
- (2) Authority to proceed with the designation of the Federal Aid Primary System and its extension for facilities now on the State system. (Approximately 5,100 miles would initially be placed on the new primary system.)

(continued on page 1387)

- (3) Authority to cooperatively designate the Federal Aid Secondary System which will be composed of both County and State facilities. (Approximately 8,000 miles are eligible for the new secondary system.)
- (4) Authority to proceed in the designation of the Federal Aid Urban System by local officials and concurrence by the State. (Approximately 1,900 miles are eligible for the new urban system.)

He also stated that there are certain facilities under other jurisdictions that are eligible for the State designated Federal Aid Primary System. The facilities are rural arterials of significance to the statewide transportation network. He said the State proposes to study these routes, evaluate the implications for budgets and maintenance and determine if there is a practical and equitable way to transfer jurisdictions to the State. He requested concurrence from the Commission to discuss and develop this information in cooperation with local jurisdictions.

The Commission approved Mr. Klaboe's recommendations covering the functional classification of highways.

AERONAUTICS DIVISION

The Commission approved the schedule of rates and fees at State-owned airports which was presented at the December 18, 1975, Commission meeting. Mr. Burket said copies of the fee schedule were distributed to State-owned airport lessees and operators. He stated two airports (John Day and Sisters) had been added to this list of State-owned airports which were not on the report submitted to the Commission in December. (Schedule of rates and fees is on file in the Commission files, Salem.)

MASS TRANSIT DIVISION

Mr. Moore previously submitted to the Commission a third progress report on the intercity public transportation project. He handed to the Commission the following potential intercity transportation project elements:

| <u>ELEMENT</u> | <u>DESCRIPTION</u> | <u>COST</u> |
|----------------|--|-------------|
| Marketing | Promotional efforts would be directed towards employers and the public to encourage use of existing intercity equipment, facilities and services. The minimum goal over 16 months would be to increase use by one percent. | \$ 80,000 |

(continued on page 1388)

| <u>ELEMENT</u> | <u>DESCRIPTION</u> | <u>COST</u> |
|--|--|-------------|
| Public Transportation Map | The purpose of this map would be to facilitate the knowledge and use of public transportation by residents and visitors. It would show inter-city bus, air and rail routes, transit systems, taxis, rent-a-car services and telephone numbers to call for more information. Developing and printing of 30,000 recommended. | \$ 10,000 |
| Salem-Lincoln City-Tillamook Bus Service | One daily round-trip would be provided between communities that presently do not have connecting bus service, but do have a high volume of auto trips. The minimum goal would be to attract 18 daily riders to this service, and to interconnect riders with other coastal and valley services. | 78,000 |
| Portland-Eugene Bus Service | Three daily round-trips would be provided between Portland, Beaverton, Woodburn, Salem, Albany and Eugene. These additional schedules would provide almost hourly bus service in the Willamette Valley, enhancing the option of traveling by bus. Extra wide and comfortable seating would be tested on these new runs. The minimum goal would be to attract 102 new daily riders to the Valley service. | 244,000 |

He said the above elements appear to have the most likelihood of success if any of the \$620,000 reserved in the Emergency Fund is used to conduct an intercity transportation project. He also mentioned the possibility of a "do nothing" alternative. After considerable discussion, the Commission authorized staff to discuss certain elements of an intercity transportation project with the Governor with the potential of submitting the elements to the February Emergency Board meeting for their consideration.

The Commission considered entering into a supplemental agreement for a small area experimental public transportation project with the City of Ontario in Malheur County. Mr. Moore pointed out that staff has been working with the City on a small one-bus system primarily for senior citizens. The State had a contract with the City the last biennium and the City did not spend all of their funds as part of the project because their bus was 15 months late. Following Mr. Moore's recommendation, the Commission approved the agreement to participate in a 15-month experimental project at a cost of \$3,961.

MOTOR VEHICLES DIVISION

Mr. Ott reported on Senate Bill 898 (the motor vehicle inspection law) which was passed by the 1975 Legislature. He said this bill placed the responsibility on the Division to prevent the loss of highway funds due to not carrying out a motor vehicle safety inspection standard. At the time of the January Emergency Board meeting, both Houses of Congress had recently passed bills affecting the safety standards and the powers of the Secretary of Transportation to impose financial sanctions. The Division, therefore, asked the Subcommittee of the Emergency Board to return the request pending the results of a Congressional Conference Committee and probable passage of a compromise bill.

Mr. Ott reported on the motor vehicle emission inspections in the Portland Metropolitan service area which the Division is required to enforce for the Department of Environmental Quality. He said by law the Division must require a certificate of compliance with the emission standards for the car located in that district before the issuance of a renewal of registration.

Mr. Ott stated that the motor vehicle fuels tax revenue for 1975 is up approximately 3½% above 1974. The driver's license revenue has increased approximately 7½% over last year. Registration revenue for 1974 plus 1975 is more than 20% above 1972 plus 1973. (The 2-year registration period dictates this form of comparison.)

DEPARTMENT OF TRANSPORTATION
Director's Report

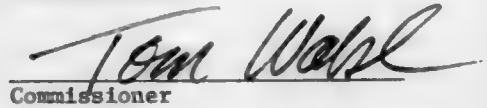

The Commission set Tuesday, February 24, as the date for their next regular meeting.

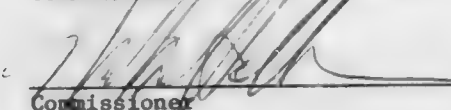

The Chairman adjourned the meeting at 11:37 a.m.

TO: Oregon Transportation Commission

SUBJECT: Report of Actions Taken Under Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority and acting in accordance therewith for the Commission, I approve all actions listed on the attachment hereto and report this action for your official records.

Dated this 22 day of Dec, 1975

Glenn L. Jackson, Chairman
Oregon Transportation Commission

Attachment List:

- 1) Options accepted (9) totaling \$40,172
- 2) Sale of 2.75 acres authorized (File 70)
- 3) Sale of 6.47 acres authorized (Files Q188, Q205)
- 4) Sale of 4.69 acres authorized (Files Q189, Q190, 41927)
- 5) Sale of 9.14 acres authorized (File 4394)
- 6) Sale of 3.0 acres authorized (File 8549)
- 7) Grant to Deschutes County approved (File 24176)
- 8) Agreement with Kenneth Klar approved
- 9) Agreement with Washington County approved (SW 209th Ave.)
- 10) Agreement with Washington County approved (SW 170th Ave.)
- 11) Agreement with Washington County approved (SW Bonita Rd.)
- 12) Agreement with Washington County approved (Cornell Rd.)

REPORT OF CASES FILED BY AND AGAINST THE DEPARTMENT OF TRANSPORTATION

L-7277 Oregon State Highway Division, ex rel. Wade & Company v. St. Paul Fire and Marine Insurance Company: This is an action by Wade & Company to recover monies allegedly owed them by a Highway Division contract or S. D. Spencer & Son. Also named as a party defendant is the surety company for the contractor, St. Paul Fire and Marine Insurance Company. This lawsuit arises out of Contract No. 7788 and in no way involves the State as it is merely a lawsuit between a material supplier and the contractor's surety.

L-7278 Fred A. Larson, et ux. v. State: This lawsuit arises out of an accident that occurred on March 5, 1975, near Slick Rock Creek Bridge in Lincoln County. The alleged negligence of the State is failing to properly and adequately warn the plaintiff of the construction and improperly directing the plaintiff to stop his vehicle. The amount of the lawsuit is \$4,445. The matter has been referred to the State's insurance carrier for the defense of the State.

L-7293 Portland Inn, Inc.; United Parcel Service v. Oregon Transportation Commission of the State of Oregon: This action challenges the validity of the "rule" adopted by the Commission which designates the Swan Island truck route and seeks to stay the operation of the "rule". The case has been referred to the Appellate Division of the Attorney General's office and the Chief Counsel's office.

February 24, 1976
Salem, Oregon

The Oregon Transportation Commission held their regular meeting at 10 a.m. in Room 122 of the State Highway Building in Salem, Oregon. Notice of the meeting was made by press release to the newspapers of the general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Robert L. Mitchell, Secretary
Michael P. Hollern, Member
Tom Walsh, Member
B. Gordon Coleman, Member
George M. Baldwin, Director of Transportation
Jack Sollis, Assistant Counsel
F. B. Klaboe, Administrator and State Highway Engineer
E. S. Hunter, Deputy State Highway Engineer
J. B. Boyd, Right of Way Engineer
Dave Talbot, State Parks Superintendent
Paul Burket, Administrator of Aeronautics
Dennis Moore, Administrator of Mass Transit
Chester Ott, Administrator of Motor Vehicles
C. W. Head, Manager, Commission Services

There were others present including representatives from the news media.

The Commission approved the minutes of the regular meeting of January 22, 1976.

HIGHWAY DIVISION

A list of properties needed for highways and other uses was presented by Mr. Boyd. He requested the Commission to declare by resolution the necessity of said properties for the public use to which they are to be put and to authorize him to attempt to agree with the owners of said properties as to price. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful and thereupon adopted "Condemnation Resolution No. 2643," which resolution by this reference is made a part hereof and filed in the Commission's files.

Attention was given to approving the vacation of a portion of Arizona Street in the City of Port Orford, Curry County. Mr. Boyd stated that this property is adjacent to the maintenance station just off the Oregon Coast Highway. Following his favorable recommendation, the Commission approved the consent to vacation and authorized Mr. Klaboe to sign it in their behalf.

Consideration was given to a resolution declaring various portions of State right of way of the Redwood Highway in Josephine County as a public road. Upon his recommendation, the Commission

adopted "Miscellaneous Resolution No. 259," which resolution by this reference is made a part hereof and filed in the Commission's files, Salem.

Mr. Boyd informed the Commission that a third meeting is scheduled for February 26, 1976, of the Advisory Committee for the study of the functional replacement of Rocky Butte Jail in Multnomah County (I-205). He said the Committee is well organized and the study should be completed by August this year. The final reports should be submitted by November 1, 1976.

Mr. Boyd reported that a second meeting of a Task Force on the disposal of the Mt. Hood Freeway properties will be in April, 1976. In reply to the Chairman's inquiry, Mr. Boyd said the State will lose some money on the properties but should recover a good share of it.

Mr. Sollis asked if there were any questions in connection with the informational reports previously submitted to the Commission on cases tried, cases settled, and institution of legal proceedings filed against the Department of Transportation since the last Commission meeting. There were no questions. (See Exhibit G on file in the Commission's files, Salem.)

Mr. Sollis mentioned that the Delegation Orders are now being prepared in final form and advance copies will be mailed to the Commission in the near future for their consideration at the March Commission meeting.

Mr. Talbot called on Gary Scott of the Parks Staff to present the State Parks System Plan (copy of Plan was previously mailed to the Commission. Copy on file in the Commission's files, Salem.) Mr. Scott explained the plan using a flip chart which covered park attendance, revenue source, criteria, program objectives and a six-year action plan. Mr. Talbot stated the State Park and Recreation Advisory Committee last November reviewed and unanimously endorsed an action plan for the parks system. The six-year plan (1975-1981) is the result of extensive planning efforts initiated by the Parks Branch approximately two years ago. At that time public meetings were conducted throughout the State to involve other agencies and citizens in the job of formulating park goals. He said the scope of the plan includes all activities which are planned, developed and administered by the Parks Branch, Recreation Trails, Scenic Waterways, Willamette River Greenway, Historic Preservation, State Parks, Waysides and Recreation Areas. The Department of Land Conservation Development has informed the Department that the plan is in accord with the newly adopted statewide land use goals. Mr. Talbot recommended that the plan proposals be generally approved, reviewed and updated every two years. The Commission accepted his recommendation.

Attention was given to providing financial assistance to the City of Cannon Beach in the amount of \$4,376.99 and to the City of Seaside in the amount of \$6,122.56 for beach lifeguard services in Clatsop County. Mr. Talbot said the 1973 Legislature authorized the Commission to provide financial assistance to the coastal communities for these services. The Commission may pay 75% of the local approved cost in excess of \$5,000 annually for the preceding year. He recalled that the Commission at their September 1973 meeting approved setting aside \$10,000 in the Parks' biennial budget to provide financial assistance to the coastal communities. Mr. Talbot recommended that \$10,000 be set aside in the Parks' budget for the current request and he recommended approval of payment to the two cities for this program. The Commission accepted his recommendation.

Mr. Talbot reported that the Parks and Recreation Branch has reviewed the rules and regulations governing park and recreation areas and is recommending the following changes:

- (1) The responsibility of issuing visitor permits for special activities be changed from the Region Supervisor to the Park Manager.
- (2) Existing rules prohibit the use of metal detectors in State Parks. Many requests have been received to allow their use. Propose the use of metal detectors be allowed on a special permit basis. The permit would be issued by the Park Manager.
- (3) Propose an increase in overnight camping fees as follows:

| <u>Present
Fee</u> | <u>Proposed
Fee</u> | <u>Type of Site</u> |
|------------------------|-------------------------|---------------------|
| \$4 | \$5 | Trailer Campsite |
| \$3 | \$4 | Improved Campsite |
| \$2 | \$3 | Tent Campsite |
| \$1 | \$2 | Primitive Campsite |

The expenditures required to operate the campgrounds exceed the revenue generated. The State Parks and Recreation Advisory Committee feels this is the best way of reducing the present deficit.

- (4) The group picnic reservation policy has been revised to accommodate smaller groups. The new fee schedule provides lower rates for groups up to 100 people as follows:

(continued on page 1422)

| | <u>Fee</u> | <u>Deposit</u> |
|---------------------|------------|----------------|
| Up to 100 people | \$ 10 | \$10 |
| 100 to 200 people | 25 | 25 |
| 201 to 500 people | 50 | 25 |
| 501 to 1,000 people | 100 | 50 |
| Over 1,000 people | 150 | 50 |

Mr. Talbot stated that a public hearing will be held on March 16, 1976, concerning the proposed revisions and regulations and after the hearing, a recommendation will be presented to the Commission for their consideration.

Mr. Talbot reported that Robert L. and Lois Raymond of Little River, California, recently donated one-half the value of 3.65 acres of land having 575 feet of ocean frontage as an addition to Squaw Creek State Wayside in Lane County. Mr. Talbot also reported a donation from Gordon Tripp of Jasper, Oregon, of several small islands amounting to 14.6 acres for inclusion into the Willamette River Greenway system. He stated the land is located in the Middle Fork of the Willamette River near Jasper in Lane County. Mr. Talbot indicated that both donors have been presented with "Expression of Appreciation" certificates signed by Chairman Jackson and the State Parks Superintendent.

Mr. Klaboe reported on actions taken under delegated authority received for filing with the Commission records. These reports show the actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission's files, Salem.)

| | |
|--|-----------|
| Chairman of Oregon Transportation Commission | Exhibit A |
| Vice Chairman of Transportation Commission (no report) | Exhibit B |
| Administrator and Highway Engineer | Exhibit C |
| Director of Permits (no report) | Exhibit D |
| Right of Way Engineer | Exhibit E |
| State Parks Superintendent (no report) | Exhibit F |
| Chief Counsel | Exhibit G |

Consideration was given to adopting as a permanent rule the requirement of mandatory prequalification by all persons desiring to bid on projects authorized by the Transportation Commission. Mr. Klaboe mentioned that a hearing was held on January 19, 1976, and that a revision was proposed to add two additional items to the temporary rule which the Commission adopted on December 18, 1975, as follows:

- (1) The prequalification may be waived by the Administrator and State Highway Engineer in case of an emergency; and
- (2) The prequalification requirements for the construction of public improvements under \$50,000 may be waived by the Administrator and State Highway Engineer.

(continued on page 1423)

Upon his recommendation, the Commission adopted the revised rule as a permanent rule. (Copy of rule in the Commission's files, Salem. A certified copy of the permanent rule was filed with the Secretary of State and became effective on February 25, 1976. The rule was published in his Bulletin on March 15, 1976.)

Upon the recommendation of Mr. Klaboe, the Commission approved requests for increases in project authorizations on the following projects:

- (1) Corvallis Sand & Gravel Co. and McNesby & Aubry, Inc., Contract No. 8149, North Pacific Boulevard-Albany Avenue (Albany) Section, Albany-Junction City Highway in Linn County, for \$9,118.54 (7.7%). The main reason for the overrun is quantity increases in the asphalt concrete items.
- (2) Gordon H. Ball, Inc., Contract No. 7866, Woodburn Interchange-Hayesville Interchange Section, Pacific Highway, Marion County, for \$1,325,979 (5.6%). The increase was due to additional lime treatment of subgrade, safety shoulder addition, and delays due to labor disputes.

The Commission considered finance approval of four projects not listed in the Six-Year Construction Program. Mr. Klaboe mentioned that these projects are either final stages of previous work or specialized work not previously anticipated. Following his recommendation, the Commission approved finance approval of the following projects:

| SECTION | FUNDING | AMOUNT | REMARKS |

K. Falls-Lakeview Hwy.,
Klamath Co. | FAU | 1,900,000 | Deck Repair |

Mr. Klaboe stated that under ORS 366.525 the counties are entitled to receive 20 percent of all funds received from motor vehicle taxes and fees. For the month of January 1976 the amount credited to the counties was \$2,535,623.04 which amount was released on February 20, 1976, as apportioned. (List of apportionment to the counties on file in the Commission's files, Salem.)

Mr. Klaboe reported that an allocation of 12 percent of the Highway Fund to the cities for the month of January 1976 in the amount of \$1,521,373.83 will be released on February 27, 1976. (A list of apportionment to the cities on file in the Commission's files, Salem.)

Consideration was given to adopting permanent rules and regulations for public use of safety rest areas, scenic overlooks, and similar roadside areas owned by the Department which are not under the jurisdiction of the State Parks Branch. Mr. Klaboe pointed out that a hearing was held on February 5, 1976, and there were no objections. The Commission adopted the permanent rule as recommended by Mr. Klaboe. (Copy of rule on file in the Commission's files, Salem. A certified copy of the rule was filed with the Secretary of State on March 5, 1976, and was published in his Bulletin on March 15, 1976.)

The Commission considered requests from the Cities of Medford and Portland for Federal-aid Urban System Projects. Mr. Klaboe mentioned that these projects have been investigated and are eligible for funding under the Federal-aid Urban System Program. The Commission approved the following projects as recommended by Mr. Klaboe and authorized him to sign the agreements when prepared.

| <u>Jurisdiction</u> | <u>Section</u> | <u>Total
Cost</u> | <u>Federal
Funds</u> | <u>State's
Share</u> |
|---------------------|--|-----------------------|--------------------------|--------------------------|

| | TOTAL | \$139,000 | \$108,420 | \$15,290 |

Attention was given to requests from Klamath, Morrow, Union, Washington, and Umatilla Counties for Federal-aid Secondary projects. Following Mr. Klaboe's recommendation, the Commission approved the requests and authorized the Administrator to sign the agreements when prepared.

(continued on page 1425)

| | TOTAL | \$1,162,000 | \$128,000 |

Attention was given to a request from Wallowa County for cancellation of an Off System Project on the Enterprise-Land Fill Section of Ant Flat Road in Wallowa County. Mr. Klaboe said that due to critical timing for completion, the County constructed this section on their own and are now requesting the cancellation of the project. The Commission approved the cancellation as recommended by Mr. Klaboe.

Attention was given to an agreement with the City of Oregon City concerning the installation of traffic signals at the intersection of Pacific Highway East (McLoughlin Boulevard) and 10th Street in Clackamas County. Mr. Klaboe stated the cost of the project is \$50,000. Federal-aid Title II funds will cover \$45,000 and the remaining \$5,000 from State funds. The State will perform all work on the project. After installation, the State will maintain the signals and the City will pay all power costs. The Commission approved the agreement as recommended by Mr. Klaboe.

Consideration was given to an agreement with the City of Coos Bay for the installation of illumination on the Central Avenue-Cape Arago Highway Section of the Ocean Boulevard (Empire-Coos Bay Highway) in Coos County. Mr. Klaboe said the estimated cost of the project is \$90,000, which will be funded by Title II funds; \$81,000 Federal funds and \$9,000 State funds. The State will prepare all plans, specifications and perform the work. The maintenance and power costs will be borne on a basis of 75 percent City and 25 percent State. Following Mr. Klaboe's recommendation, the Commission approved the agreement.

The Commission considered prohibiting parking on the south side of the Sunset Highway in Washington County. Mr. Klaboe stated that a project is currently underway to widen portions of the

shoulder to provide bus turnouts. In order to facilitate the use of turnouts by buses, it is necessary to prohibit parking in these areas. The Commission approved the following parking prohibition as recommended by Mr. Klaboe:

On the south side of the Sunset Highway in Washington County from M.P. 69.84 to M.P. 69.94 and from M.P. 70.19 to M.P. 70.48.

Attention was given to a request from Crook County School District to prohibit parking on the southwest side of the Madras-Prineville Highway and the Ochoco Highway in Crook County. Following Mr. Klaboe's recommendation, the Commission approved the following parking prohibition:

On the Ochoco Highway No. 41:

Along the north shoulder of the eastbound leg from its junction with the westbound leg (M.P. 18.07) to the Locust Street intersection (M.P. 18.26).

Along the north shoulder of the westbound leg from its intersection with the eastbound leg of the Madras-Prineville Highway No. 360 (M.P. 18.14W) to its junction with the westbound leg of the Madras-Prineville Highway No. 360 (M.P. 18.20W).

Along the south shoulder of the westbound leg from its junction with the eastbound leg (M.P. 18.07) to the Locust Street intersection (M.P. 18.26).

On the Madras-Prineville Highway No. 360:

Along the north shoulder of the eastbound leg from its junction with the westbound leg (M.P. 26.07) to its junction with the eastbound leg of the Ochoco Highway No. 41 (M.P. 26.28).

Along the south shoulder of the eastbound leg from its intersection with the westbound leg of the Ochoco Highway No. 41 (M.P. 26.21) to its junction with the eastbound leg of the Ochoco Highway No. 41 (M.P. 26.28).

Along the south shoulder of the westbound leg from its junction with the eastbound leg (M.P. 26.07) to its junction with the westbound leg of the Ochoco Highway No. 41 (M.P. 26.24W).

AERONAUTICS DIVISION

No report.

MASS TRANSIT DIVISION

Consideration was given to a 90-day reservation of \$4,200 from the Small Area Matching Grant Program to participate in an experimental transportation project in the Florence-Eugene corridor in western Lane County. Mr. Moore stated the Western Lane County Bus Project incorporates a 20 passenger, government surplus bus operating twice weekly between Florence and Eugene with service to intervening communities. A local non-profit corporation has been established with a Board of Directors representing the coastal communities served by the bus. He indicated the function of the corporation is to assume management of the bus from Lane County and to seek and receive funds to continue the transportation services. The \$4,200 represents 25 percent of the anticipated operating costs and 50 percent of the anticipated marketing expense for the 15-month experimental period schedules to commence April 1, 1976. Following Mr. Moore's recommendation, the Commission approved the program and authorized the Administrator to sign the agreement when all of the Commission-approved guidelines on the program are met.

The Commission considered authorizing the staff to seek Emergency Board approval of a Federal Fund limitation increase to participate in the 1975 Rural Highway Public Transportation Demonstration Program. Mr. Moore said the present limitation for this program is \$150,000. Four Oregon projects were chosen in the pre-selection process and have since completed all remaining application requirements. Their revised Federal Funding requests now totals \$230,000. Since the Division will be contracting directly with the Federal Highway Administration, subcontracting with project participants and maintaining administrative responsibilities, Mr. Moore said it is necessary that we seek an increase in the State's limitation. The Commission approved the program as recommended by Mr. Moore.

Following Mr. Moore's favorable recommendation, the Commission authorized staff to request Emergency Board approval to submit a Federal grant application to participate in the 1976 Rural Highway Public Transportation Demonstration Program.

Mr. Moore reported on the Intercity Transportation Project which was recently submitted to the Emergency Board for their consideration. He said staff presented a three-part project which had the approval of the Governor's Office and the Executive Department. It was an estimated 14 months of 3 round-trips of bus service within the Willamette Valley for \$244,000, a \$68,000 marketing promotional program and a \$10,000 public transportation map. The Emergency Board defeated the issue on a 7 to 7 tie vote. The Emergency Board did approve a \$20,000 project. Mr. Moore read what he thought was the Board's action, as follows:

"In order to address the long-term Intercity Transportation interest of the State of Oregon, \$20,000 is allocated to the Department to prepare a report to the 59th Legislative Assembly on the potential for intercity rail

services. The Department of Energy and the Public Utility Commissioner's Office should be included in this study. The legal and economic feasibility should be addressed along with an assessment of current physical facilities and operations. The proposal for study should be submitted to the E Board in 90 days."

There was considerable discussion concerning the Emergency Board's action concerning this matter. The Commission instructed Mr. Moore to research the scope of what the Emergency Board is talking about, evaluate it in terms of what it would cost, and then bring it back to the Commission. The Chairman said it becomes a matter of policy which is the Commission's responsibility. The Commission will make a decision at that time.

| | 3 transactions | \$2,160.00 |

- 2) Sale of 0.29 acre excess property on the Opal City Rd.-Culver Section of Culver Highway (formerly The Dalles-California Highway) in Jefferson County for a minimum consideration of \$175. File S-92
- 3) Sale of 10.58 acres excess property on the Tumalo-Deschutes Section of Tumalo-Deschutes Highway in Deschutes County for a minimum consideration of \$2,645 subject to mineral and geothermal rights. Also the relinquishment to Deschutes County of 0.44 acre excess property for public road purposes and for no consideration. File 3696. Real Property Resolution No. 725.
- 4) Sale of 1.125 acres excess property on the Crawfordsville-Brownsville Section of the Halsey-Sweet Home Highway in Linn County for a minimum consideration of \$500, subject to mineral and geothermal rights. File 26225.
- 5) Letter-form agreement with City of Portland for installation of railroad crossing protection at the N.W. Doane Street crossing of the Burlington Northern Railroad tracks. The project is eligible for 90% Federal Aid funding under Section 230 of Title II, Highway Safety Act of 1973. Estimated cost \$50,000. Matching monies will be 7½% State Grade Crossing Protection Fund (\$3,750) and 2½% City funds (\$1,250) with no expense to Highway Division. (County-City Unit)
- 6) Letter-form agreement with City of Portland for installation of railroad crossing protection at North Randolph Street crossing of the UPRR tracks. The project is eligible for 90% Federal Aid Funding under Section 230 of Title II, Highway Safety Act of 1973. Total estimated cost \$125,000. Matching monies will be 7½% State Grade Crossing Protection Fund (\$9,375) and 2½% City funds (\$3,125) with no expense to the Highway Division. (County-City Unit)
- 7) Agreement with City of Portland, through Portland Development Commission, providing for realignment and landscaping of the Burnside Br.-Hawthorne Br. Section of Front Avenue (Pacific Highway West) as one phase in development of the Portland Downtown Plan. The State's estimated \$400,000 share of the cost is to be funded through the State Bond Program. (County-City Unit)
- 8) Agreement with Pacific Power and Light Company covering use on a temporary basis the communication facilities of the State in its Arlington Remote Communications Facility, Gilliam County.
- 9) Agreement with Josephine County Juvenile Department whereby the Highway Division will use minor offenders to perform extra tasks in lieu of the minor offender being assessed a juvenile court or other probationary action. The Division will specify tasks to be done and the Josephine Co. Juvenile Dept. will have jurisdiction over the people doing the work. Basically, this work will involve clean-up of roadsides and work in landscaped areas. (Maintenance Section)

EXHIBIT G

REPORT OF SETTLEMENT OR DISPOSITION OF CASES OTHER THAN CONDEMNATION

| Plaintiff | Defendant | Cause of Action | Demand of Plaintiff |
|-------------|---|-----------------|---------------------|
| Irene Vantz | Coral Corporation
& R. A. Heintz
Construction Co. | Personal Injury | \$100,000.00 |

L-7123

County: Multnomah

Disposed of by: This case arose out of an injury sustained as a result of some work done on a highway construction project. The plaintiff sued Coral Corp., a subcontractor, and R. A. Heintz, the general contractor. The subcontractor, Coral Corp., tendered defense of the case to the State. The injury occurred when a gate which had been constructed by Coral Corp. came off its hinges and the plaintiff was injured trying to replace it. As the State's insurance carrier determined there was no negligence on behalf of the State the tender of defense of the case by Coral Corporation was refused and the file is now closed.

Disposed of by: Leasehold interest not litigated in trial of the case.

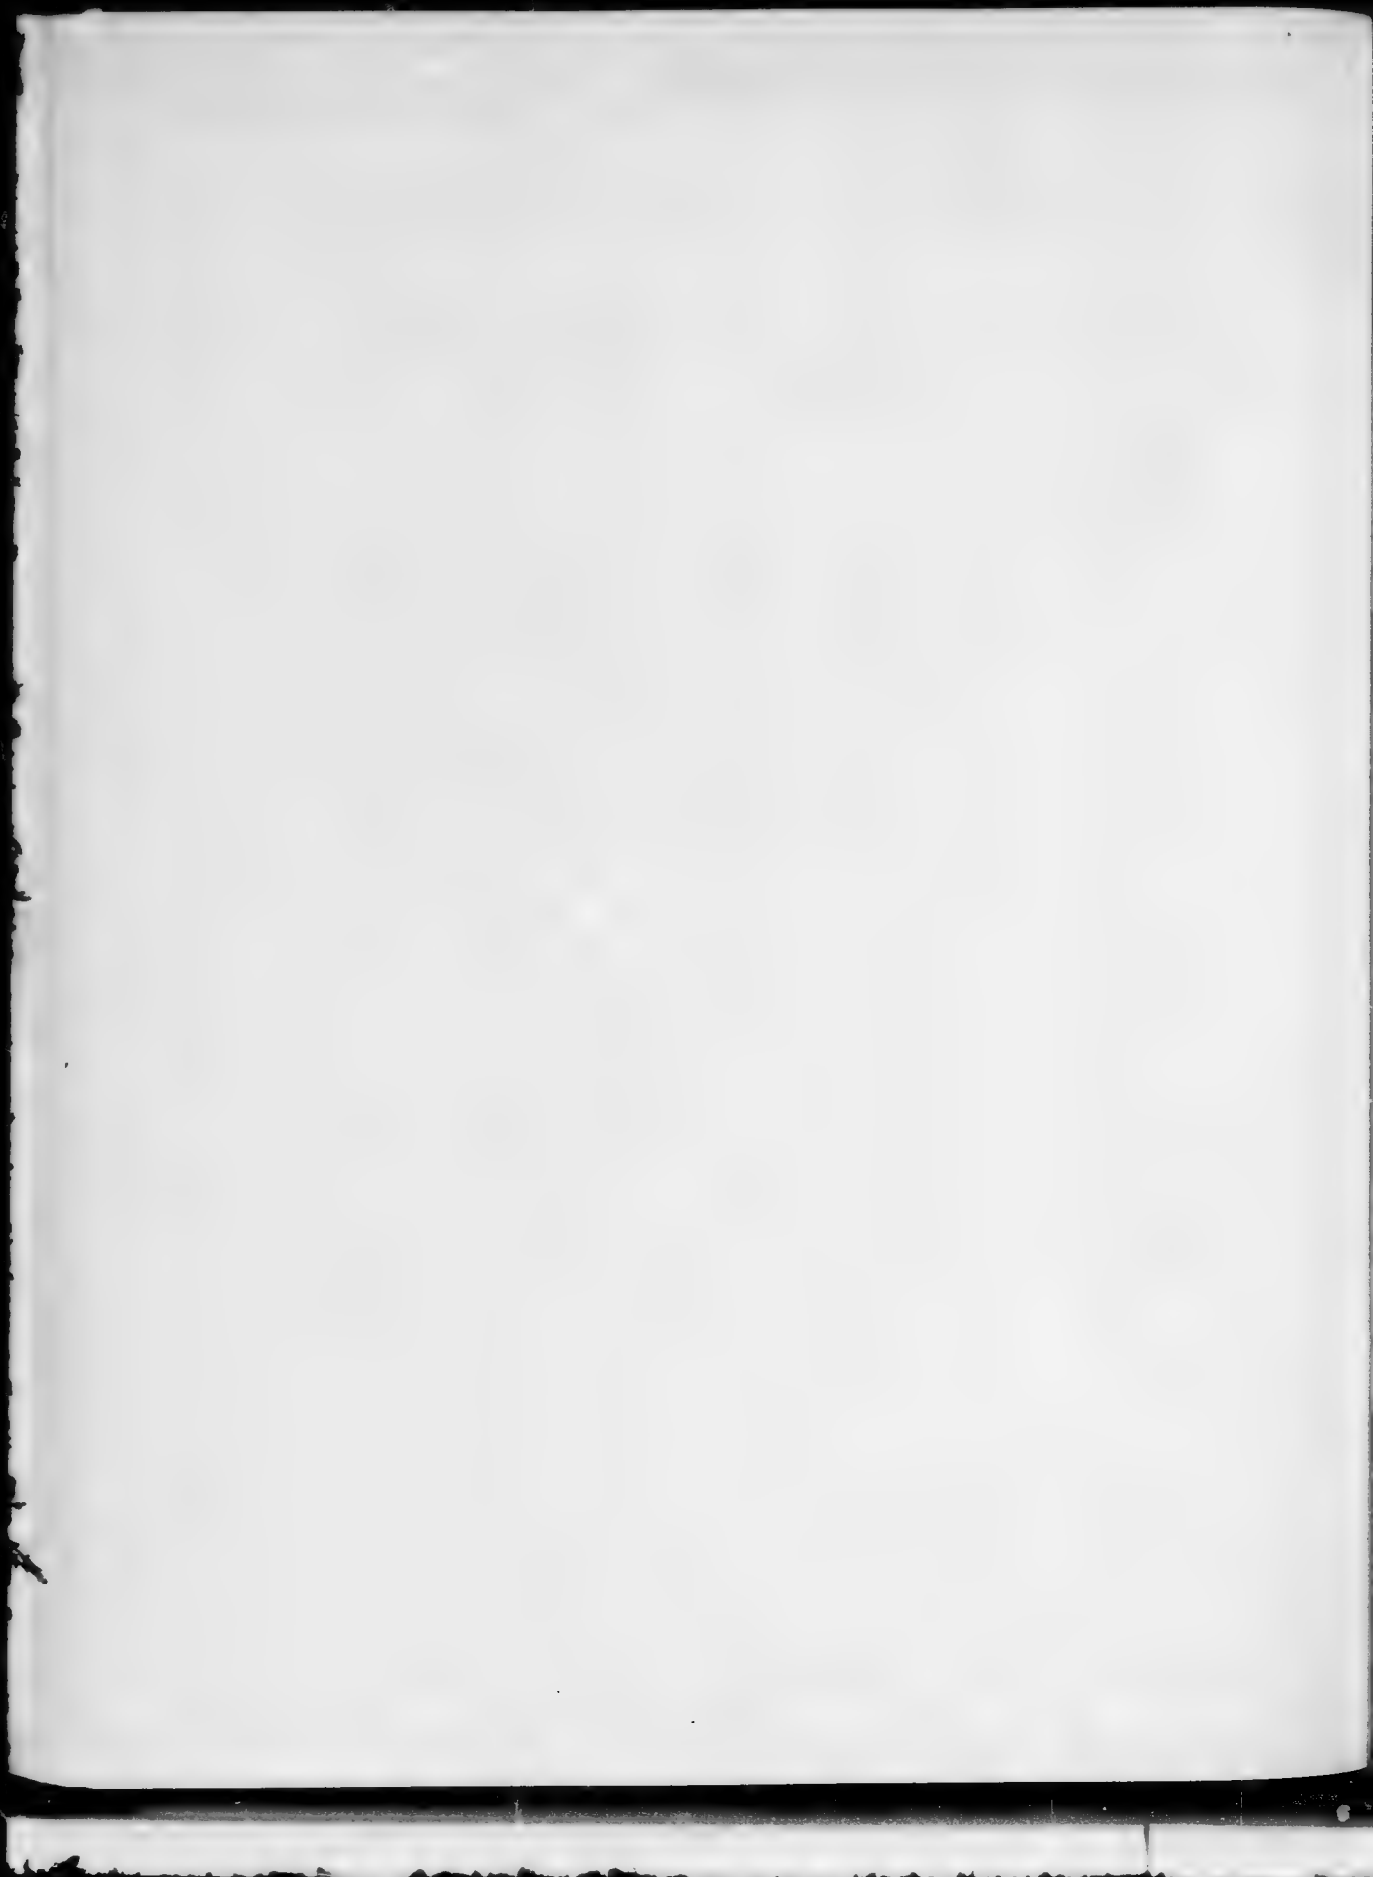

EXHIBIT G

REPORT OF CASES FILED BY AND AGAINST THE DEPARTMENT OF TRANSPORTATION

L-7300 Max S. Taggart, II, personal representative of the estate of Sharon Renee Simond v. HAC Trucking Co. Ltd., et al: This case arose out of an accident that occurred on January 8, 1975, and involved a collision between a truck and semi-trailer and two cars, one of which was being towed by the other. The two cars stopped on the edge of the bridge due to icy conditions and were struck by the truck and semi-trailer. The lawsuit alleges that the Highway Division was negligent in failing to inspect and make sure that the highway was not icy or warn the drivers of the icy conditions. (I-5, Lane County)

This is a companion case to L-7242 and is for wrongful death based on the same factual situation as reported in L-7242. The amount of the lawsuit is \$501,500.

The matter has been referred to the State's insurance carrier for the defense of the State.

March 30, 1976
Salem, Oregon

The Oregon Transportation Commission held their regular meeting at 10 a.m. in Room 122 of the State Highway Building in Salem, Oregon. Notice of the meeting was made by press release to the newspapers of the general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Robert L. Mitchell, Secretary
Michael P. Hollern, Member
Tom Walsh, Member
B. Gordon Coleman, Member
George M. Baldwin, Director of Transportation
Robert A. Burco, Deputy Director
Walt Barrie, Chief Counsel
E. S. Hunter, Deputy State Highway Engineer
Robert L. Schroeder, Assistant State Highway Engineer
J. B. Boyd, Right of Way Engineer
Dave Talbot, State Parks Superintendent
Paul Burket, Administrator of Aeronautics
Dennis Moore, Administrator of Mass Transit
Chester Ott, Administrator of Motor Vehicles
C. W. Head, Manager, Commission Services

There were others present including representatives from the news media.

The Commission approved the minutes of the regular meeting of February 24, 1976.

HIGHWAY DIVISION

A list of properties needed for highways and other uses was presented by Mr. Boyd. He requested the Commission to declare by resolution the necessity of said properties for the public use to which they are to be put and to authorize him to attempt to agree with the owners of said properties as to price. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful and thereupon adopted "Condemnation Resolution No. 2644," which resolution by this reference is made a part hereof and filed in the Commission's files.

Mr. Barrie asked if there were any questions in connection with the informational reports previously submitted to the Commission on cases tried, cases settled, and institution of legal proceedings filed against the Department of Transportation since the last Commission meeting. There were no questions. (See Exhibit G on file in the Commission's files, Salem.)

Attention was given to the abandonment of 19 damage claims totaling \$5,599.27. Mr. Barrie mentioned that these claims do not warrant further collections. Following his favorable recommendation, the Commission approved the abandonment of the following claims. (For further detail, see the Commission's files, Salem.)

(continued on page 1452)

| CAO
FILE NO. | NAME | KIND OF

The Commission considered adopting Delegation Orders Nos. 14 through 19. (Copies were previously mailed to the Commission.) Mr. Barrie pointed out that these delegation orders delegates certain power to the Chairman of the Commission, Director of Department of Transportation, Administrator and Highway Engineer, Administrator of Mass Transit, Administrator of Aeronautics, and the Assistant Attorney General-Counsel for the Department. He recommended approval of these delegation orders and the rescinding of the first 13 Transportation Commission delegation orders as they are now covered in Delegation Orders 14 through 19. The Commission accepted his recommendation.

Consideration was given to rescinding Through Highways and Stop Signs Resolutions and adopt resolution designating through highways to replace previous resolutions. Mr. Barrie asked Mr. Jack

Sollis to present this item. Mr. Sollis said it is now the policy of the Commission to delegate authority by delegation orders separate and apart from resolutions or other actions of the Commission. He recommended that all primary and secondary state highways and sections thereof heretofore designated by the State Highway Commission as through highways and all primary and secondary state highways hereinafter selected, adopted and established as primary or secondary state highways be designated as through highways under the provisions of ORS 483.204. He mentioned that nothing in this resolution and no action taken by the Oregon Transportation Commission in any manner or to any extent nullifies or rescinds the action of the State Highway Commission in and by the adoption of any previous resolutions relating to through highways or the state highway system. Mr. Sollis said all highways or sections thereof enumerated in the resolutions shall be deemed as through highways from the dates upon which they were designated. This rescinds Through Highways and Stop Signs Resolutions but the effective dates of establishment are the same. The Commission accepted his recommendation and adopted "Through Highways and Stop Signs Resolution No. 28," which resolution by this reference is made a part hereof and filed in the Commission's files, Salem.

The Commission considered adopting a temporary rule extending the time for contractors to file new prequalification forms from May 1, 1976, to July 1, 1976. Mr. Barrie stated the extension is required to allow the contractors additional time in submitting their annual prequalification forms. The Commission approved the temporary rule as recommended by Mr. Barrie. (The temporary rule was filed with the Secretary of State on March 30, 1976, and published in the Secretary of State's Administrative Rule Bulletin on April 15, 1976.)

The Commission considered adopting the beach log removal policy. Mr. Talbot stated that this policy has had careful investigation for over a year by the Parks and Recreation Staff. A concerted effort was made to invite input from relevant agencies and institutions, to review pertinent correspondence from private citizens, and to review available studies, reports and news publications. There were more than 150 agencies and private individuals as well as the State Parks and Recreation Advisory Committee contacted for assistance. A public hearing was held on January 14, 1976, to provide the public with an opportunity to review and comment on the policy proposal. Analysis of the hearing was favorable to the proposed policy with 70 percent expressing general support. The Commission accepted the policy as recommended by Mr. Talbot. (A digest of the hearing input and a copy of the proposed policy is on file in the Commission's files, Salem.) (Copy of an administrative rule covering the beach log removal policy was filed with the Secretary of State on March 30, 1976, and published in his bulletin on April 15, 1976.)

Attention was given to transferring up to \$300,000 in Bureau of Outdoor Recreation funds prior to June 30, 1976, to cities, counties, and districts for local park projects. Mr. Talbot stated an important side effect of the recent budget cutback of \$2,260,000 in the Parks Branch budget is that the State will not be able to match available federal aid. At present the State receives about \$2.6 million annually from the Land and Water Conservation Fund. Of the \$2.6 million apportioned annually to Oregon, the State has retained 55 percent for state agency use. The other 45 percent goes to local government. It is estimated that the State may have a "State surplus in federal aid" of roughly \$750,000 during the balance of the biennium. Following his recommendation, the Commission approved the transfer of funds.

Attention was given to approving the payment of \$150 annual dues to the National Association of State Outdoor Recreation Liaison Officers. Mr. Talbot mentioned the group is to the Federal aid recreation program as AASHTO is to highways. Following his recommendation, the Commission approved payment of the annual dues.

Mr. Hunter reported on actions taken under delegated authority received for filing with the Commission records. These reports show the actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission's files, Salem.)

| | |
|--|-----------|
| Chairman of Oregon Transportation Commission | Exhibit A |
| Vice Chairman of Transportation Commission (no report) | Exhibit B |
| Administrator and Highway Engineer | Exhibit C |
| Director of Permits (no report) | Exhibit D |
| Right of Way Engineer | Exhibit E |
| State Parks Superintendent (no report) | Exhibit F |
| Chief Counsel | Exhibit G |

Following Mr. Hunter's recommendation, the Commission approved requests for increases in project authorizations on the following projects:

- (1) Kelly F. White Company, Contract No. 8311, Cabin Creek Safety Rest Area, Douglas County, for \$13,808.75 (8.2 percent). The overrun was due to hookup charge to the city sewer system and revisions to the toilet building to accommodate the handicapped.
- (2) Wildish Construction Company, Contract No. 8194, Pleasant Hill and Rattlesnake Road, Willamette Highway, Lane County, for \$13,399.12 (6.9 percent). The increase was due to erosion and slumping of embankment slopes due to winter rains.

(continued on page 1455)

- (3) R. H. O'Hair Construction Company, Contract No. 8220, Riley-Lake County Line Section, Lakeview-Burns Highway in Harney County for \$159,649.51 (13.4 percent). The overrun was due to additional grading quantities including flagging and grid rolled subbase, an unusually high asphalt content in the A. C. pavement (8 percent) and additional A. C. aggregate.

Mr. Hunter stated that under ORS 366.525 the counties are entitled to receive 20 percent of all funds received from motor vehicle taxes and fees. For the month of February 1976 the amount credited to the counties was \$2,170,325.04 which amount was released on March 19, 1976, as apportioned. (List of apportionment to the counties on file in the Commission's files, Salem.)

Mr. Hunter reported that an allocation of 12 percent of the Highway Fund to the cities for the month of February 1976 in the amount of \$1,281,361.69 was released on March 26, 1976. (A list of apportionments to the cities on file in the Commission's files, Salem.)

The Commission considered approving the 1976 Revised Oregon Action Plan. Mr. Hunter said the revision process started in August of 1975 and included meetings in all of the administrative districts and with the three metropolitan areas of the state. There have been no changes in the basic concept of the Action Plan. The changes have been for increased clarity of the plan and to bring the plan into conformance with the many changes that have occurred in federal regulations. He stated it is necessary that the revision be approved by the Commission, the Governor and by the Regional Administrator of the Federal Highway Administration prior to its printing. The Federal Highway Administration is in agreement with the revision. Following his favorable recommendation, the Commission approved the 1976 Revised Oregon Action Plan. (Copy on file in the Commission's files, Salem.)

Consideration was given to supporting by Highway Planning Research funds a study entitled "Development of an Equipment Management System." Mr. Hunter pointed out that the study will be conducted by a research contractor and will be supported by pooled HPR funds made available by the participating states. Eighteen states have tentatively agreed to provide support for the project. The Federal Highway Administration anticipated a two-year, \$400,000 contract. The State made a tentative commitment of \$10,000 toward the support of the project and the funding is expected to be divided equally between fiscal year '77 and fiscal year '78. Upon his recommendation, the Commission approved the proposal and authorized the Administrator and State Highway Engineer to submit a commitment letter.

Attention was given to a request from the City of Elgin for a cancellation of an Off-System Roads Project to construct the 17th Street Truck Route Bypass. Mr. Hunter said that the Commission

previously approved this project on July 30, 1975, but the City has been unable to obtain the matching funds and is now requesting that the project be cancelled. The Commission approved the cancellation as recommended by Mr. Hunter.

The Commission considered requests from the Cities of Ontario, Oregon City, Pendleton and Portland for approval of Federal-aid Urban System Projects and the cancellation of a project in the City of Albany. Mr. Hunter said that these projects have been investigated and are eligible for funding under the Federal-aid Urban System Program. The Commission approved the following four projects as recommended by Mr. Hunter and the one cancellation and authorized the Administrator and State Highway Engineer to sign the agreements when prepared.

| <u>Jurisdiction</u> | <u>Section</u> | <u>Total
Cost</u> | <u>Federal
Funds</u> | <u>State's
Share</u> |
|---------------------|---|-------------------------|--------------------------|--------------------------|

March 30, 1976

The Commission considered prohibiting parking on the Pacific Highway West in the King City Area in Washington County. Mr. Hunter stated that as a result of a recent investigation of traffic conditions in this area, it is recommended that parking be prohibited on the shoulder on the west side of the Pacific Highway West in the area north of the Fischer Road intersection. The parking prohibition would improve the right-turn movement from Highway 1W onto Fischer Road and improve the sight distance for traffic stopped at Highway 1W on Fischer Road. He indicated that off-street parking is available. The Commission approved the following parking prohibition as recommended by Mr. Hunter:

On the west side of the Pacific Highway West No. 1W from a point 100 feet north of the centerline of Fischer Road (M.P. 11.86) to a point 40 feet north of the centerline of Fischer Road (M.P. 11.87) southeast of King City in Washington County.

The Commission considered abandoning to the abutting property owners three units of old highway alignment approximately .8 mile in the South Unit-Condon-Thirtymile Creek Section of the John Day Highway in Gilliam County. Mr. Hunter said the old alignment is no longer needed for highway purposes and recommended adoption of this resolution. The Commission accepted his recommendation and thereupon adopted "Abandonment Resolution No. 557," which resolution by this reference is made a part hereof and filed in the Commission's files, Salem.

Consideration was given to a request from the City of West Linn for a consent to annexation of the right-of-way of the East Portland Freeway in Clackamas County. Mr. Hunter said the proposal has been investigated and is in proper order and no enclave will be formed by the annexation. The Commission approved the annexation as recommended by Mr. Hunter and authorized the Administrator and State Highway Engineer to sign a consent in their behalf.

The Commission considered an agreement with Multnomah County for a traffic signal installation at the intersection of NE Portland Highway (NE Sandy Boulevard) and 181st Avenue. Mr. Hunter said the State will do all of the work and will maintain the signals after installation. The County will pay for all power costs after installation. The total cost of the project is \$36,000 with \$32,400 Federal funds and \$3,600 State funds. The Commission approved the agreement as recommended by Mr. Hunter.

Consideration was given to approving an agreement with Columbia County School District No. 13 and Columbia County for the installation of flashing beacons and luminaires at the intersection of the Lower Columbia River Highway and Wonderly Road. Mr. Hunter mentioned that the State will prepare all plans and perform the work. The estimated cost is \$4,000 to be shared equally between the State and the District. The State's share of the project will be funded by Minor Betterment Funds. After completion of the project

the State will maintain the luminaires and flashing beacon and the County will pay for the power. Following his favorable recommendation, the Commission approved the project.

AERONAUTICS DIVISION

No report.

MASS TRANSIT DIVISION

Mr. Moore reported on the 1976 Rural Highway Public Transportation Demonstration Program. He stated the purpose is to provide mobility principally for rural residents. After sending information throughout the State to cities, counties, non-profit associations, councils of governments, economic development districts, etc., the Division received six applicants. Staff is now packaging, preparing State comments and will forward to the Federal Highway Administration prior to submitting to the Emergency Board. The law requires that legislative approval must be obtained before applying for federal funds. Upon receipt of the grant funds, the Division is to request authority to be able to spend the funds. The six projects are as follows:

- (1) Eastern Oregon Community Development Corporation - \$23,000 grant to provide medical transportation.
- (2) Southeastern Oregon Council of Governments - \$19,520 of Federal Highway Administration funds for a 12 to 15 passenger van to provide service to the elderly and handicapped persons in Malheur County.
- (3) City of Florence - \$85,971 to purchase a bus to carry on the intercity service between Florence and Eugene beginning in July 1977.
- (4) East Central Oregon Council of Governments to provide rural commuter service between Boardman, Pendleton, Umatilla, Hermiston, etc.
- (5) Forest Grove Senior Center to prepare a waiting area for the rural bus transportation and a Tri-Met transportation in one area of Forest Grove.
- (6) Washington County Senior Citizen Organization - \$119,000 for a coordinated transportation system.

Mr. Moore stated that he has received the minutes of the February 1976 Emergency Board concerning the rail study. The Board appropriated \$20,000 to do the study. It appears the Board's preference was to conduct a long-term intercity rail transportation study which would not be limited to Amtrak and that study would look

into the legal and economic feasibility of developing an intercity rail transportation project. He said the actual action was to allocate \$20,000 from the Emergency Fund to Mass Transit Division of the Department of Transportation to prepare a report to the 59th Legislative Assembly on the potential of intercity rail service and it was to be coordinated with the Department of Energy and the Public Utility Commissioner. These agencies were to assist in conducting the study to address the legal and economic feasibility of service. Now that the staff has the official records of the Emergency Board, he indicated that meetings are being set up with the two agencies. Mr. Moore said the Division expects to return next month to the Commission with a work outline.

Mr. Moore mentioned that after meeting with the officials at Greyhound that the Division has decided not to proceed any further on the Willamette Valley Experimental Transportation Project on bus service until such time as their proposed new routes and schedules are released and analyzed.

MOTOR VEHICLES DIVISION

Mr. Ott reported on the vehicle registration count for 1975 which is used as the basis for the distribution of funds to the counties from Highway funds.

Mr. Ott stated that the DEQ emissions inspections in the Portland metropolitan area appear to be operating smoother and that his Division is continuing working with the DEQ Task Force.

Mr. Ott mentioned that one of his executives was charged with criminal contempt of court in Portland and this charge was later dismissed.

Mr. Ott presented to the Commission graphs of Motor Vehicles Fuels Tax Cumulative Net Revenue and the Registration Fee Revenue for January and February 1976. (Copy on file in the Commission's files, Salem.)

Mr. Ott presented a report of the Division's plan to expand the availability of driver's licensing service to Wallowa County and to make available for the first time the advantages of full vehicle registration and titling service. He said this was approved by the Joint Committee on Ways and Means at its 1975-77 budget report to the Division. The proposed service will include a new mobile Division office. The mobile office that will serve Wallowa County is one of two authorized by the Emergency Board in November 1975 as part of the Division's plans for the implementation of the photo driver's license program. The Division will present a progress report to the Emergency Board prior to July 1, 1976. Mr. Ott presented the following present and proposed services to Wallowa County:

After considerable discussion, the Commission accepted his report.

DEPARTMENT OF TRANSPORTATION Director's Report

The Commission set Tuesday, April 27, 1976, as the date for their next regular meeting. (Date changed later to April 23, 1976.)

Mr. Baldwin presented to the Commission a report on proposed major legislation for the 1977 Session. He said the Executive Department is trying to determine what legislation is desired by the various agencies and to refer to the appropriate interim committees and if possible have legislation prepared and introduced by the interim committees rather than by the agencies. The Commission informed the Director that they want to give this report further study and to advise the Executive Department that the preliminary information sent to them is not final. (Report of proposed legislation on file in the Commission's files, Salem.)

Following Mr. Baldwin's favorable recommendation, the Commission approved transferring \$14,750 from the Office of the Director to the Travel Information Section of the Highway Division to provide for an expanded motion picture program. (Details of additional proposed expenditures on file in the Commission's files, Salem.)

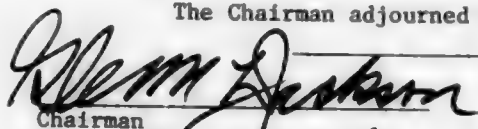

Commissioner Jackson inquired as to the status of the federal aid in Congress. Mr. Baldwin indicated that it is out of the Conference Committee and it is anticipated that it will be ready for the Floor in two to three weeks. Staff will analyze it when the final wording is available. Rapid action is expected when it hits the House and Senate.

DELEGATIONS

The East-West Highway Committee appeared before the Commission regarding the Federal Highway Act. Present were Bob Mason, Coquille; LaVerne Brodie, Myrtle Point; and Donald G. Williams, Coos Bay. Bob Mason asked what their group could do to support the Commission in getting more funds available for use on primary highways. He informed the Commission that they have been working in that direction. He submitted a letter signed by C. W. Heckard, Chairman of the East-West Highway Committee. The letter indicated their Committee's support for the utilization of interstate funds in constructing the primary system. The Commission has Oregon's Congressional leaders and the State Legislators supporting this concept in the Federal Highway Act. The Commission indicated it's support of this viewpoint. The letter also mentioned the Committee's desire to have the Coquille Bypass of Oregon 42 included in the Six-Year Program. Mr. Mason commended the Commission on the work that has been done in the way of planning and designing on Highway 42. Chairman Jackson said that all highway construction is contingent upon additional highway user taxes and would take their request under consideration.

Eli Bangs of Newport, Cleaner Oregon Resources--Beaches, Inc., appeared before the Commission concerning the beach log removal policy. He said the beach policy should address itself equally to the importance of conserving the natural resources, continuing esthetic and recreational values, and protecting marine life. Mr. Bangs requested that the Commission give consideration to permitting removal of logs from seaward under the guidelines of operation float under controlled conditions. He read his letter to the Commission which outlined various views on the matter. The Chairman thanked Mr. Bangs for his presentation. (Copy of Mr. Bangs' letter on file in the Commission's files, Salem.)

The Chairman adjourned the meeting at 11:10 a.m.

MINUTES OF 3-30-76

REPORT OF CASES FILED BY AND AGAINST THE DEPARTMENT OF TRANSPORTATION

L-7310 William H. Gregory v. State of Oregon, by and through its Department of Transportation, Oregon State Highway Division: This is a lawsuit arising out of a contract claim settlement that was entered into between the plaintiff and the Highway Division in 1975. The claim in the amount of \$389,939.46 was paid by the Highway Division in settlement of various claims for extra work made by the contractor. The contractor is now suing for interest on the claim settlement on the grounds that they were unreasonably delayed after the compromise settlement was entered into. (Contract No. 7942)

The matter has been referred to the Attorney General's office for the defense of the State. (The Dalles-California Highway, Klamath County)

L-7311 Bill Park v. The City of Milton Freewater and the State Highway Division, Department of Transportation: This is a lawsuit arising out of an accident of September 12, 1975, when the plaintiff stepped in a hole between the curbing and the highway surface and broke his foot. The lawsuit is in the amount of \$3,995.07.

The matter has been referred to the State's insurance carrier for the defense of the State. (Oregon-Washington Highway, Umatilla County)

April 9, 1976
Portland, Oregon

The Oregon Transportation Commission met in a special meeting at 9:30 a.m. in the Petite Suite of the Portland Hilton Hotel. Notice of the meeting was made by press release to the newspapers of the general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Robert L. Mitchell, Secretary
Michael P. Hollern, Member
Tom Walsh, Member
B. Gordon Coleman, Member
Robert A. Burco, Deputy Director of Transportation
Walt Barrie, Chief Counsel
John Earley, Public Affairs
C. W. Head, Manager, Commission Services

There were others present including representatives from the news media.

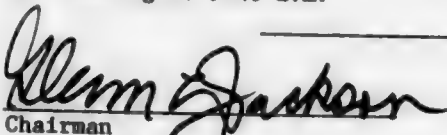

Chairman Jackson stated that the special meeting was called to consider the appointment of a replacement for George M. Baldwin who will retire as Director of the Department of Transportation on April 30, 1976. He indicated that the Commission considered several candidates for the Director and Robert A. Burco was being recommended for the position. Mr. Burco was appointed the new Director of Transportation by unanimous vote effective May 1, 1976.

The Commission by unanimous vote appointed Fred B. Klaboe as Chief of Operations for the Department of Transportation, Administrator and State Highway Engineer.

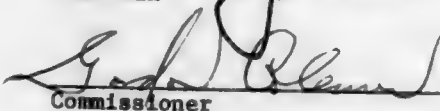

The Commission voted not to fill the position of Deputy Director of Transportation at least until after the 1977 session of the Legislature.

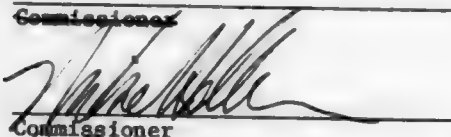

Mr. Burco's and Mr. Klaboe's salaries were set at \$39,576 per year.

There being no further business, the Chairman adjourned the meeting at 9:40 a.m.

April 23, 1976
Salem, Oregon

The Oregon Transportation Commission held their regular meeting at 10 a.m. in Room 122 of the State Highway Building in Salem, Oregon. Notice of the meeting was made by press release to the newspapers of the general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Robert L. Mitchell, Secretary
Michael P. Hollern, Member
Tom Walsh, Member
B. Gordon Coleman, Member
George M. Baldwin, Director of Transportation
Robert A. Burco, Deputy Director
Jack Sollis, Assistant Counsel
F. B. Klaboe, Administrator and State Highway Engineer
E. S. Hunter, Deputy State Highway Engineer
J. B. Boyd, Right of Way Engineer
Dave Talbot, State Parks Superintendent
Dennis Moore, Administrator of Mass Transit
Chester Ott, Administrator of Motor Vehicles
Roger Kitchey, Deputy Administrator of Aeronautics
Don Streun, Assistant Director for Administration
Robert Royer, Assistant Director for Planning
C. W. Head, Manager, Commission Services

There were others present including representatives from the news media.

The Commission approved the minutes of the regular meeting of March 30, 1976, and the special meeting of April 9, 1976.

HIGHWAY DIVISION

A list of properties needed for highways and other uses was presented by Mr. Boyd. He requested the Commission to declare by resolution the necessity of said properties for the public use to which they are to be put and to authorize him to attempt to agree with the owners of said properties as to price. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful and thereupon adopted "Condemnation Resolution No. 2645," which resolution by this reference is made a part hereof and filed in the Commission's files.

The Commission considered the utilization of Barlow School, East Portland Freeway, in Multnomah County. Mr. Boyd stated that with the completion of the Binnsmead School, Barlow School will be vacated by the Portland School District and the Commission will become the owner of the existing Barlow School. He pointed out this school was in the Mt. Hood Interchange for the Mt. Hood Freeway and subsequent changes have removed the need for the actual taking of

the plant. The East Portland Freeway (I-205) did take for its mainline, portions of the play yard creating a substandard condition for the Portland School District. The Highway Division and the Federal Highway Administration concurred in the functional replacement of the Binnsmead Intermediate School. Mr. Boyd presented the Commission with the following alternatives:

- (1) Dispose of the school proper and retain that portion required for the East Portland Freeway.
- (2) Retain the physical plant and place in a mothball condition.
- (3) Retain the physical plant, renting the building and grounds not immediately needed for the freeway construction.

He said item three above appears to be the most viable alternative utilizing the property in a productive capacity for the number of years yet necessary to place the East Portland Freeway under traffic. An investigation and appraisal have been made of economic rent for a building with this size and type and Mr. Boyd recommended that the Department establish \$5,000 per month minimum based on the premise that the lessee pays the taxes, all utilities, maintains the building and the yard. Following his favorable recommendation, the Commission approved retaining the physical plant, renting the building and grounds.

Mr. Sollis asked if there were any questions in connection with the informational reports previously submitted to the Commission on cases tried, cases settled, and institution of legal proceedings filed against the Department of Transportation since the last Commission meeting. There were no questions. (See Exhibit G on file in the Commission's files, Salem.)

Mr. Sollis presented a quarterly report of property damage claims for the period of January 1, 1976, through March 31, 1976. During this period \$71,805.38 was collected.

Mr. Talbot reported that a lease opportunity for operation of the Frenchglen Hotel in Harney County was advertised in Oregon papers and four bids were received. Ms. Malena Konek was selected as the successful bidder. Mr. Talbot mentioned that she intends to have another couple assist her in the operation of the hotel. Ms. Konek anticipates investing \$8,000 or more in furnishings and equipment to get the hotel open for business about June 1 this year. The contract calls for the lessee to pay the State a minimum of \$50 per month or three percent of the gross sales, whichever is greater, for the first 12 months with first payment due July 1, 1976, and a minimum of \$75 per month or three percent of the gross sales, whichever is greater, each month thereafter until such time as the lease is expired or terminated. The Commission accepted Mr. Talbot's recommendation for approval of this lease through 1978.

Mr. Talbot briefed the Commission on the status of the Willamette River Greenway Plan. He recalled that in June 1975 the Commission sent to the Land Conservation and Development Commission its Willamette River Greenway Plan prepared by the consulting firm of Royston-Hanamoto-Beck and Abby of San Francisco. This plan was revised by the Parks staff in consultation with the Governor's office. During September, October and November 1975, LCDC conducted more than a dozen public hearings, work sessions and meetings in the Willamette Valley. LCDC concluded that preparation of the DOT Plan - the "Green Book" - had not allowed public involvement in terms of LCDC Goal 1, the first of the 14 Statewide planning goals which became effective January 1, 1975. LCDC has instructed DOT to redo the plan by July 1 after local governments have drawn up their boundaries by April 1. Local governments are unable to meet this deadline so DOT is holding up on their schedule. Mr. Talbot said it would be Fall 1976 before a proposed plan and program would be ready for submission to LCDC. He commented that his staff is working diligently with local governments and LCDC. (See complete written report to the Commission dated April 15, 1976, on file in Commission's files, Salem.)

Consideration was given to rules and regulations for State Park areas. Mr. Talbot stated that during the 1974-75 fiscal year the maintenance expenditures for overnight camping in the State Parks exceeded revenue by \$558,000 (expenditures were \$2,049,275 and revenue was \$1,491,529). It has been the Commission policy that camping fees should try to cover the maintenance costs of the campgrounds. Mr. Talbot said the State Parks and Recreation Advisory Committee has recommended that overnight camping fees be increased \$1 to eliminate this deficit. The increase in camping fees would generate approximately \$500,000 additional revenue per year. Public hearings were also held concerning these changes. Following his favorable recommendation, the Commission approved the following changes and adopted "State Parks Resolution No. 39," which rescinds "State Parks Resolution No. 37". (Copy of Resolution on file in the Commission's files, Salem.)

- (1) An increase of \$1 across the board for overnight camping fees;
- (2) Changing the responsibility of issuing visitor permits for special activities from the Region Supervisor to the Park Manager;
- (3) Allowing metal detectors in State Parks on a special permit basis with the permit to be issued by the Park Manager;
- (4) Authorizing the State Park Superintendent to establish special rules on an emergency basis for sixty days rather than thirty days as existing rules state;

(continued on page 1489)

- (5) Revision of the picnic reservation policy to accommodate smaller groups;
- (6) Revision of the club camping policy. Previously groups were required to submit an application including a \$1 reservation fee for each site and an advance deposit of \$2 per site. The new rules would require an application and \$1 reservation fee. All other fees would be paid upon arrival.

(Certified copy of the rules and regulations were filed with the Secretary of State on April 30, 1976, and are to be published in his Administrative Rule Bulletin on May 15, 1976.)

Mr. Klaboe reported on actions taken under delegated authority received for filing with the Commission records. These reports show the actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission's files, Salem.)

| | |
|--|-----------|
| Chairman of Oregon Transportation Commission | Exhibit A |
| Vice Chairman of Transportation Commission (no report) | Exhibit B |
| Administrator and Highway Engineer | Exhibit C |
| Director of Permits (no report) | Exhibit D |
| Right of Way Engineer (no report) | Exhibit E |
| State Parks Superintendent (no report) | Exhibit F |
| Chief Counsel | Exhibit G |

The Commission approved Mr. Klaboe's request to increase the contract authorization on the following contract:

- (1) Peter Kiewit Sons' Co.; Contract No. 8234, Hilgard-La Grande Section, Old Oregon Trail, Union County, for \$279,609.75 (11.6%). The increase was due to a change to an Iowa system structural overlay on the Lower Perry Overcrossing instead of the less costly membrane waterproofing; providing median drains along the concrete median barrier; and lowering the existing grade line at the Upper Perry Overcrossing structure.

Mr. Klaboe stated that under ORS 366.525 the counties are entitled to receive 20 percent of all funds received from motor vehicle taxes and fees. For the month of March, 1976, the amount credited to the counties was \$2,148,650.77 which amount was released on April 23, 1976, as apportioned. (List of apportionment to the counties on file in the Commission's files, Salem.)

Mr. Klaboe reported that an allocation of 12 percent of the Highway Fund to the cities for the month of March, 1976, in the amount of \$1,289,190.46 will be released on April 30, 1976. (A list of apportionments to the cities on file in the Commission's files, Salem.)

April 23, 1976

- 1489 -

Mr. Klaboe requested approval to appear before the Emergency Board for authority to issue \$10,000,000 in bonds. He said the bond program is included in the 1976-77 Legislative approved budget. Oregon undertook an accelerated highway construction program when President Ford released two billion dollars in impounded Federal funds in February, 1975. The Department planned to obligate \$111,449,613 under this accelerated program utilizing ten million dollars of bond funds to provide the additional State funds to match the Federal funds. During the accelerated construction program last year, the Department utilized the proceeds from the twenty-five million dollar bond sale to provide the State match for this program. Due to the financial condition of the Department, the bonds must be sold in January 1977 to pay for the accelerated construction program. The Commission approved Mr. Klaboe's request to appear before the Emergency Board.

The Commission considered adopting a resolution pertaining to increases in maximum allowable weights for vehicles and combinations of vehicles. Mr. Klaboe said that under existing statutes the Department holds authority to adopt vehicle weights in excess of weights prescribed by statute, provided the weights proposed by the Department are permitted under Federal law. Under the Federal-aid Highway Amendments Act of 1974, the Federal Government adopted a table of vehicle weights which in most instances exceed the weights presently allowed under State law. He pointed out that it is a very comprehensive table and basically provides maximum weights in increments depending upon the number of truck axles and spacing between the axles. The table has been given considerable study and it is recommended that the Commission adopt certain sections of it at this time. The sections that are proposed would be those that would be the greatest economic and efficiency benefits to the industry while not posing threats of damage or increased maintenance costs. The proposed weight increases would also be compatible with recent action taken by adjacent States. The Commission adopted the following sections of the Federal table.

- (1) An increase in gross weights for combinations of vehicles having five or more axles and with over-all wheelbases of 40 feet or greater; the weight increases would be in increments as the wheelbase is lengthened, reaching a maximum weight of 80,000 pounds compared to the State's existing maximum weight of 76,000 pounds; and
- (2) Increases in allowable weights carried on a group of two or more axles with spacing from 9 to 13 feet; existing law gives a weight range from 36,000 to 37,100 pounds, the proposed increase would allow a range from 39,000 to 40,000 pounds.

Mr. Klaboe stated the adoption of additional sections of the Federal table at this time would not be advisable. A review of the Federal weight table will be made in the coming months and he proposed that any further revisions be submitted for action by the next Legislature. All necessary requirements with the Administrative Procedures Act

have been met. The Commission adopted "Permit Resolution No. 36," which resolution by this reference is made a part hereof and filed in the Commission's files. (Commissioner Hollern refrained from voting on this item due to a possible conflict of interest.) (A copy of the resolution was filed with the Secretary of State on April 27, 1976, to become effective on May 1, 1976, and will be published in his Administrative Rule Bulletin on May 15, 1976.)

Consideration was given to applying for deferred matching fund requirements. Mr. Klaboe stated that in June 1975 Congress passed Public Law 94-30 to enable States that were experiencing problems with matching funds for jobs let between February 12 and September 30, 1975 (accelerated construction program) to temporarily program jobs with 100 percent Federal dollars and then pay back, interest free, the appropriate matching amounts by January 1, 1977. He said the date was so soon that some contracts would still be under way when payback was required, thus making the provisions of the bill unattractive. The Conference Committee has agreed that the new Federal Highway Act will extend payback requirements to January 1, 1979. The proposal calls for a 20 percent payback on January 1, 1977, an additional thirty percent on January 1, 1978, and the remaining fifty percent on January 1, 1979, interest free. He said the Federal Highway Administration has indicated that the Department may be able to apply the provisions to those projects obligated between February 12 and September 30, 1975. The State match eligible under these provisions totals about \$10.7 million. This action will ease short term cash flow problems. The Commission approved taking advantage of the deferred matching requirements and extended payback provision if the new legislation passes.

Attention was given to a request from Lincoln County for the cancellation of a Federal-aid Secondary Project on the Coast Highway-East City Limits (Lincoln City) Section on Schooner Creek Road. Mr. Klaboe stated that this project was approved by the Commission in February 1974. Due to problems in securing additional right-of-way, the County is requesting that this project be cancelled. Following his recommendation, the Commission cancelled the project.

Upon the recommendation of Mr. Klaboe, the Commission approved subscribing to the Transportation Research Board (Research Correlation Service) for the fiscal year 1977 in the amount of \$26,500. The expenditure is eligible for Federal-aid reimbursement as Highway Planning and Research.

Consideration was given to approving a standard sign for use in Oregon when the road may not be safe for travel at 55 MPH. Mr. Klaboe said that several counties have requested this type of sign and he recommended that "END _____ MPH SPEED ZONE" sign be approved and added to the sign manual. The Commission accepted his recommendation.

The Commission considered cancelling a previously approved Urban System Project on the Clackamas Highway from the I-205 Interchange to Boring Road and approving a traffic signal project in the

City of Coos Bay at the intersection of the Empire-Coos Bay Highway and Woodland Drive. Mr. Klaboe mentioned that the Coos Bay Project has been investigated and is eligible for funding under the Federal-aid Urban System Program. The Commission accepted Mr. Klaboe's recommendation of canceling and approving the following project:

| <u>Jurisdiction</u> | <u>Section</u> | <u>Total
Cost</u> | <u>Federal
Funds</u> | <u>State's
Share</u> |
|---------------------|---|-------------------------|--------------------------|--------------------------|
| State | I-205 Intchge.-Boring Rd.
Clackamas Hwy., FAU 0390 | C A N C E L L A T I O N | | |
| Coos Bay | Empire-Coos Bay Hwy. at
Woodland Dr., FAU 2671 | \$35,000 | \$27,300 | \$7,700 |
| TOTAL | | \$35,000 | \$27,300 | \$7,700 |

The Commission considered approving a supplemental agreement with the University of Oregon, Museum of Natural History, to provide archeological research in connection with highway projects. Mr. Klaboe said the agreement which was approved in July 1975 was intended to provide such services to the Department on an on-going basis. This was limited by language which states in part "...including firm commitments to personnel to June 30, 1976...". This has been changed to read "to June 30 of the applicable fiscal year". No additional funds are requested. Upon his recommendation, the Commission approved the supplemental agreement.

The Commission considered abandoning 450 feet of old alignment to Jackson County and 150 feet to the abutting property owners on the Ruch Section of the Jacksonville Highway. The Commission approved the abandonment as recommended and thereupon adopted "Abandonment Resolution No. 550", which resolution by this reference is made a part hereof and filed in the Commission's files, Salem.

Attention was given to approving an agreement with the Associated General Contractors and Urban Indian Program for providing training of asphalt rakers at the Laborers Training School at Camp Adair in Benton County. Mr. Klaboe mentioned that the agreement is to train individuals for work on Federal-aid Highway Projects. The cost of the program is \$70,000 which is 100 percent Federally funded and will extend over a period of 16 months. The Commission approved the agreement as recommended by Mr. Klaboe.

DEPARTMENT OF TRANSPORTATION
Director's Report

The Commission set Tuesday, May 25, 1976, as the date for their next regular meeting.

Mr. Royer presented to the Commission a report on the third round of State transportation planning meetings. He stated the report summarizes the second round of meetings and covers information that was handed out in advance of the third-round meetings. The report also covers an outline of what the Department is proposing as a program plan which summarizes the highlights of the Department's activities of this biennium, including the major elements for the next budget proposal. In reply to the Chairman's inquiry, Royer said there was good participation at these meetings on the part of subdivisions of government and the public. There was approximately 288 in attendance which was about 45 percent higher than the second round of meetings. (Copy of report in the Commission's files, Salem.)

Mr. Burco submitted to the Commission an informational report on rail studies. The report covers four studies as follows:

- (1) Continuing the study on rail passenger service for the Willamette Valley Corridor.
- (2) A study by consultants for the Federal Rail Administration on a West Coast Corridor from Mexico to Canada. The results were reported to the Federal Rail Administration in January of this year recommending that two subcorridors be studied - the Pacific Northwest Corridor from the Canadian border to Eugene and the California study with linkage between Los Angeles and San Francisco.
- (3) Statewide rail freight planning required nationally by recent 1976 rail reorganization and regulatory reformed legislation.
- (4) Freight planning activities that the Department had intended to engage in as part of the Oregon Transportation Plan. This had been deferred two years because approval for freight planners did not get past the Executive Department last year.

Mr. Burco said programs would be submitted next month on these activities and a request to appear before the Emergency Board. (Copy of report on file in the Commission's files, Salem.)

April 23, 1976

- 1493 -

Mr. Streun presented to the Commission a proposed Department of Transportation 1977-79 budget calendar. He said the calendar is based on submitting the budget to the Executive Department on September 1, 1976. (Copy of calendar on file in the Commission's files, Salem.)

DELEGATIONS

The Fossil Community Club Highway Committee appeared before the Commission concerning Highway 19 (John Day Highway) from Spray south in Wheeler and Grant Counties. Present were Herb Wright, Robert D. Hofer, Clarence Asher, V. W. Kirby, George Dunn, Fossil; and August Strecker, Spray. Herb Wright thanked the Commission for the road improvements that have been accomplished during the past several years. He referred to a 25-mile section from M.P. 93 (south edge of Spray) to M.P. 118 at the Rhys Humphrey Ranch which is narrow, uneven and has sharp curves. He mentioned a bridge near M.P. 108 signed "narrow bridge, one-way traffic for trucks and busses only". He also referred to M.P. 115 to M.P. 116 as a dangerous rock and slide area with a curve called Cathedral Rock. Mr. Wright said that they are not asking for a rebuilding of this highway, but would appreciate widening the present roadway, straightening the worst curves and the placing of a new overlay. He said the US Parks Service is adding the John Day Monument area to all the National Park Maps which will increase traffic on this section of highway. He read letters from the Grant County Court, Wheeler County Senior Citizen Advisory Board, Spray Grange, Spray City Council and the National Park Service all urging improvement of Highway 19.

Mr. Hofer, President of the Fossil Community Club, stated the Club concurs in the request for improving this highway. Clarence Asher read a letter from Judge Andrew Leckie of Wheeler County requesting improvement of the highway as planned between M.P. 93.5 and 118. Mr. Kirby thanked the Commission for the recent improvements between Service Creek and Mitchell on Highway 207.

Chairman Jackson informed the group that a 2.2 mile section of Highway 19 is scheduled for contract in August of this year at a cost of approximately \$900,000. He said the Department would look into the possibility of doing some work with State forces.

Norm Schroth, President of Northeastern Oregon Roads, and Mayor Lawrence P. Gray of Hermiston were present concerning Highway 395 (Umatilla-Stanfield Highway) in Umatilla County. Norm Schroth requested improvement of the Hermiston-Stanfield Section of US 395 as authorized under the 1971 Eastern Oregon Bond Program. He asked for immediate funding of this project due to the critical need of providing a suitable highway to meet the increasing traffic load in the greater Hermiston area.

(continued on page 1495)

Mayor Gray said his concern is directed at the north end of Highway 395 from Hermiston to its junction with Highway 730. He pointed out that there are 44 new businesses in this area together with 31 pre-existing, including one race track and rodeo ground for a total of 75 establishments. Mayor Gray mentioned that 50,000 new acres of land have been brought into production using irrigation waters from the Columbia River. Over 2,000 new jobs have been created in the potato processing business. He said PGE has started construction on their new coal-fired generating plant and the Union Pacific Railroad has started a \$15,000,000 expansion of their Hinkle rail facilities. He asked for widening of the highway from Hermiston to the Columbia River from two lanes to four lanes with a continuous left-turn lane.

The Chairman said the Commission is fully aware of its commitment and will proceed with the project (Hermiston-Stanfield Section) just as soon as the funds are available. He said that the northern section from Hermiston to US 730 would have to take its place in the normal allocation of priorities under the Six-Year Construction Program.

The Commission considered a consulting contract with George Baldwin to perform personal and professional services relating to the analysis of the Department's policy, projects, programs and organization and the analysis and reporting of legislation relating to the Department. This consultant work shall be from May 1, 1976, through June 30, 1977. Chairman Jackson stated that this contract has been developed with the State's guidelines and has the approval of the Executive Department. It was moved by Commissioner Coleman and seconded by Commissioner Walsh that the Commission enter into this consultant agreement. The motion was passed unanimously. Chairman Jackson was authorized to sign the agreement on behalf of the Commission.

Chairman Jackson asked Mr. Baldwin if he wished to make a statement before he retires as Director on April 30, 1976. Mr. Baldwin called on Cecil Head to read his statement to the Commission. Mr. Baldwin's statement thanked the Commission, the Legislature and the Staff's support of his proposals while he has been Director. He said he was particularly proud of the excellent staff which is oriented toward accomplishments rather than political considerations. He pointed out some of the changes that occurred since July 1973. Mr. Baldwin said due to changing conditions, energy crisis, inflation, and environmental conflicts it is clear that expectations of the Department are constantly increasing. There is the growing importance of providing improved air, rail and bus services in both urban and rural areas. He said it is essential, however, that these additional needs not cause DOT to lose sight of the tremendous responsibilities for maintaining the primary and secondary highway systems. Mr. Baldwin said that he is complimented that the Commission asked him to remain as a consultant to assist with some unresolved problems and that he would certainly do his

best to be helpful. (Copy of Mr. Baldwin's statement on file in the Commission's files, Salem.)

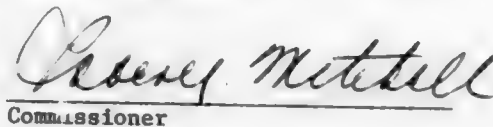

Chairman Jackson on behalf of the Commission thanked Mr. Baldwin for his efforts in meeting the problems of a new approach to transportation in the State. The Chairman said the Commission is looking forward to an effective, aggressive, and productive team play on the part of every individual in the Department.

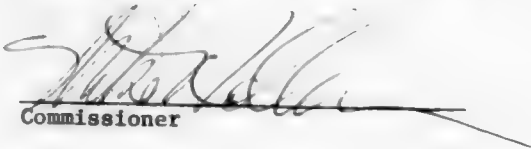

There being no further business, the Chairman adjourned the meeting at 11:25 a.m.

MINUTES OF 4-23-76

REPORT OF CASES FILED BY AND AGAINST THE DEPARTMENT OF TRANSPORTATION

L-7315 Lola May Stose v. State of Oregon: This case arises out of an accident that occurred on August 18, 1974, when the vehicle in which plaintiff was the passenger collided with a vehicle on Highway 99W at the intersection of Helmick Park Road and 99W. The allegation of negligence relates to the failure of the Highway Division to maintain a stop sign at said intersection in a position that was visible to oncoming traffic. That the stop sign was not placed in a position to provide a safe stopping distance. The amount of the lawsuit is \$45,000.

The matter has been referred to the State's insurance carrier for the defense of the State.

L-7316 Melvin Spaght and Eileen Spaght, husband and wife, v. State of Oregon: This case involves a right of access of defendant. Defendant applied for a permit to change his access in September, 1972. The permit was granted with specified conditions. Defendant did not fulfill the terms of the permit and in accordance with the Oregon Statutes, the Highway Division closed defendant's access. Defendant is seeking a preliminary injunction requiring the Highway Division to remove the barrier on his access and a declaration by the court that he need not have applied for a permit for the change of access. This access is located in Coos County, Coos Bay, Oregon.

The matter has been referred to the Department of Justice for the defense of the State.

L-7317 John Powelson, et ux., v. State of Oregon: This is an inverse condemnation case against the Department of Transportation arising out of the actions of J. C. Compton Company and a subcontractor, J2K Construction Company, who allegedly deposited waste material on the plaintiff's property in the process of constructing the Marquam Interchange-North Tigard Interchange Section of I-5. The amount of the lawsuit is \$50,000.

The matter has been referred to the Department of Justice for the defense of the State.

L-7318 State of Oregon v. James Willis: This suit is to recover \$482.77 from defendant which was due for scrap metal received by defendant from plaintiff in accordance with a written contract. Defendant resides in Gervais, Oregon, Marion County.

This matter has been referred to the Department of Justice for handling.

EXHIBIT G
MINUTES OF 4-23-76

L-7319 State of Oregon v. Fourth Sisters Condominium Company: This is an action in trespass brought against the defendants who intentionally cut trees from Sisters State Park in Deschutes County.

The matter is being handled by the Department of Justice.

L-7320 State of Oregon v. Paul White: In this case, defendant and defendant's landlord, who will be joined as a party, are wrongfully withholding possession of property owned by the Highway Division. Defendant has placed a mobile home on Highway Division's property. This action seeks to have the Highway Division's title to the property affirmed and seeks damages for defendant's possession of the property, John McHaley D.L.C. in Marion County.

The matter is being handled by the Department of Justice.

L-7321 Portland Inn, Inc. and United Parcel Service, Inc. v. State of Oregon: Plaintiff seeks a review of the Department of Transportation's action in approving the Swan Island Truck Route in Multnomah County.

The matter has been referred to the Department of Justice for the defense of the State.

L-7323 State of Oregon v. John H. Pardon and Joyce M. Pardon: This case involves an agreement between the defendant's successor in title and the State of Oregon requiring defendant's successor to remove a garage from highway right of way, Garden Valley Road-Fairgrounds Road Section of the Pacific Highway in Douglas County. This suit seeks specific performance of the agreement by defendant.

This matter is being handled by the Department of Justice.

May 25, 1976
Salem, Oregon

The Oregon Transportation Commission held their regular meeting at 10 a.m. in Room 122 of the State Highway Building in Salem, Oregon. Notice of the meeting was made by press release to the newspapers of the general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Robert L. Mitchell, Secretary
Michael P. Hollern, Member
Tom Walsh, Member
B. Gordon Coleman, Member
Robert A. Burco, Director of Transportation
Walt Barrie, Chief Counsel
F. B. Klaboe, Chief of Operations
E. S. Hunter, Deputy State Highway Engineer
R. N. Bothman, Assistant State Highway Engineer
J. B. Boyd, Right of Way Engineer
Dave Talbot, State Parks Superintendent
Robert Royer, Assistant Director for Planning
Dennis Moore, Administrator of Mass Transit
Harvey Ward, Deputy Administrator of Motor Vehicles
Paul E. Burket, Administrator of Aeronautics
C. W. Head, Manager, Commission Services

There were others present including representatives from the news media.

The Commission approved the minutes of the regular meeting of April 23, 1976.

HIGHWAY DIVISION

A list of properties needed for highways and other uses was presented by Mr. Boyd. He requested the Commission to declare by resolution the necessity of said properties for the public use to which they are to be put and to authorize him to attempt to agree with the owners of said properties as to price. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful and thereupon adopted "Condemnation Resolution No. 2646," which resolution by this reference is made a part hereof and filed in the Commission's files.

Consideration was given to approving the signing of a petition for street improvement of S.E. 80th Avenue in the Mt. Hood Freeway Corridor in the City of Portland. Mr. Boyd stated that this street is badly in need of improvement and the estimated cost to the State is \$4,000 in addition to that paid by the private owners. He indicated in this case that it is proper to sign the petition in agreement with the majority of the private owners as it will enhance the neighborhood and the properties owned by the State. Following his favorable recommendation, the Commission approved the petition and authorized Mr. Boyd to sign it.

Attention was given to establishing a policy preventing the use of any highway rights of way to be utilized for outdoor advertising billboards. Mr. Boyd pointed out that in July of 1974, a policy was established which did allow the continued rental of sign sites existing on some highway rights of way. This was right of way purchased for future utilization until needed for transportation purposes. Since that time, there have been numerous complaints from the public and from adjacent owners requesting the signs be removed. He said the removal of these outdoor advertising structures is consistent with the goals and objectives of highway beautification. Mr. Boyd recommended the approval of this policy which will direct the Right of Way Section to cancel all existing sign leases on properties owned by the State. The Commission accepted his recommendation.

Consideration was given to approve the criteria for the sale of excess property. Mr. Boyd mentioned that in delegation orders recently approved, it was necessary to develop criteria for the declaration of property to be sold as excess. This method will give the Division a standard procedure that will protect the State from sales of property which should be preserved for transportation use. Upon his favorable recommendation, the Commission approved the criteria for the sale of excess property. (Copy of criteria on file in the Commission's files, Salem.)

Mr. Barrie asked if there were any questions in connection with the informational reports previously submitted to the Commission on cases tried, cases settled and institution of legal proceedings filed against the Department of Transportation since the last Commission meeting. There were no questions. (See Exhibit G on file in the Commission's files, Salem.)

Following Mr. Barrie's recommendation, the Commission took the following action concerning delegation orders:

- (1) Rescinded Delegation Order No. 14 (replaced by Delegation Order No. 20).
- (2) Adopted Delegation Order No. 20.

Pursuant to the provision of ORS 184.635 and in order to provide for a more efficient and expeditious administration of the Department's Divisions, the authority of the Commission to act in the matters listed below is hereby delegated to the Chairman, or in the event of his unavailability, the Vice-Chairman of the Oregon Transportation Commission.

- a. Approve all contracts and agreements entered into by the Department's Divisions except those delegated to

the Administrators of those Divisions or the State Highway Engineer and except consultant contracts of more than \$20,000.

- b. Approve grants of access to State Highway rights-of-way.
 - c. Accept options or other documents relating to the acquisition of property of any kind which the Oregon Transportation Commission has statutory authority to acquire, except those transactions delegated to the Divisions' Administrators or the State Highway Engineer.
 - d. Accept donations of real or personal property.
- (3) Amended Delegation Order No. 16 by deleting the words "Administrator and" from the 4th and 5th lines of the first paragraph, and add item no. 69 on page 6 to approve and execute agreements with other governmental bodies employing the services of the Right of Way Section of the Highway Division in their land acquisition programs.

Mr. Barrie reported that the Maywood Park litigation is still pending in the Multnomah County Circuit Court. He said that he argued the case to the court on April 30, 1976, and the court has taken the matter under advisement but has not yet rendered a decision. This is with respect to the interpretation to be given Multnomah County's purported termination by resolution of the earlier throughway agreements and the right of Maywood Park then to assert its own jurisdiction to require such agreements. A decision is expected within the next two weeks.

Mr. Talbot reported that due to problems with the sewage disposal system, the Umpqua Lighthouse State Park Campground was closed in September 1975. The State Health Division and Department of Environmental Quality indicated that the best long-term solution was to convert both water and sewer systems to hook into nearby municipal-regional facilities. He pointed out that negotiations to achieve this objective have been slower and more complicated than originally planned and there is no chance that the campground can be opened this season. Mr. Talbot indicated that negotiations will continue with local authorities with the hope that all improvements can be accomplished for the 1977 season.

Mr. Talbot stated that he had recently talked to Mrs. Robert (Nani) Warren, Chairman of the Columbia River Gorge Commission, and that her appearance before the Commission later this morning is to

bring the Commission up-to-date on the activities of the Columbia River Gorge Commission and to keep communication lines open. He said the Gorge Commission is set up by the Legislature and funded by the Highway fund (1973-1975 \$6,600 and 1976-1977 \$10,545). The primary mission is the protection of the Columbia River Gorge. The State's ownership in the Gorge consists of 26 parks and 5,902.22 acres and has a staff of approximately 25 persons in that area. Over the last five years, \$410,090 has been spent for land acquisition and \$431,338 for park improvements.

Mr. Talbot presented for the Commission's consideration Notifications of Intent by property owners to make various types of improvements along the Rogue River Scenic Waterway. He stated that these requests had been carefully reviewed as to their compliance with the Scenic Waterways Act. The Commission acted on the following Notifications of Intent for reasons as stated in Mr. Talbot's letters to the Commission insofar as their authority over the Scenic Waterways Act is concerned:

- (1) Approved a request from Bernard E. McClannahan to construct a single-family residence, T 35 S, R 7 W, Section 26, Lot 1600, on the left bank of the river in river mile 83 just downstream from the Robertson Bridge, in Josephine County.
- (2) Approved a request from Robert D. Boothe to construct a single-family residence in river mile 83, T 35 S, R 7 W, Section 25, Tax Lot 2803, just upstream from the Robertson Bridge, in Josephine County.

The Commission considered renewing an agreement with Oregon State University for the planning, development, operation, supervision and administration of the seasonal park naturalist program from June 14 to September 10, 1976. Mr. Talbot said the program will be conducted at the same nine parks where it was held successfully in 1975. The estimated cost is \$42,965.51. Following his recommendation, the Commission approved the agreement.

Attention was given to an application from the Port of Gold Beach to construct an outfall line across the ocean shore at the south jetty of the Rogue River at Gold Beach in Curry County. Mr. Talbot stated the outfall line would serve the disposal system of a local seafood processing plant, which is presently overloading the city's sewage treatment plant. The line is proposed to be buried to a point of departure onto the jetty. At this point, a line will be extended on the south side of the jetty for discharge westerly of mean low water as a summer discharge point. An alternate winter discharge line will be extended over the jetty into the Rogue River. He indicated a proposed pipeline installation has the endorsement of the Department of Environmental Quality and the Department of Fish and Wildlife. A hearing was held at Gold Beach on May 17, 1976, concerning this matter and there were no adverse comments. Upon his favorable recommendation, the Commission approved the beach permit application.

Mr. Talbot reported on charging entrance fees at two historical areas, the Yaquina Bay Lighthouse in Lincoln County and Fort Stevens in Clatsop County. He said these areas will be open to the public this summer and suggested that the State charge a minimum fee to help meet its operational expenditures. In order to charge these fees, it is necessary to go through the rule changing process. He recommended the proposed rule changes as follows:

Fort Stevens:

Operating hours are 10 a.m. to 5 p.m., the third Thursday in June to Labor Day, Thursday through Monday. The area will be open other periods if use warrants it. Fee set at \$.50 per person, with six years of age and under free.

Yaquina Bay Lighthouse:

Operating hours are 12:30 p.m. to 7:30 p.m., the third Thursday in June to Labor Day, Thursday through Monday. The area will be open other periods if use warrants it. Fee set at \$.50 per person, with six years of age and under free.

Mr. Talbot said the State Parks and Recreation Advisory Committee considered this matter at their April 30 meeting and approved the proposal. After the public hearings, official approval by the Commission will be requested.

Mr. Klaboe reported on actions taken under delegated authority received for filing with the Commission records. These reports show the actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission's files, Salem.)

| | |
|--|-----------|
| Chairman of Oregon Transportation Commission | Exhibit A |
| Vice Chairman of Transportation Commission (no report) | Exhibit B |
| Administrator and Highway Engineer | Exhibit C |
| Director of Permits (no report) | Exhibit D |
| Right of Way Engineer | Exhibit E |
| State Parks Superintendent (no report) | Exhibit F |
| Chief Counsel | Exhibit G |
| Highway Controller | Exhibit H |

Upon the recommendation of Mr. Klaboe, the Commission approved the payment of \$400 for annual membership dues in the American Public Works Association.

The Commission approved Mr. Klaboe's request to increase the project authorization on the following contracts:

- (1) Clark Painting Company, Contract No. 8297, Siletz River Bridges (painting), in Lincoln County for \$15,958.75 (24.8%). The increase was due to additional sandblasting and engineering costs.

- (2) L. W. Vail, Contract No. 8249, Sharps Corner-Diagonal Road Section, Columbia River Highway in Umatilla County for \$32,942.09 (7.73%). The overrun was due to a revision of the existing illumination at Sharps Corner (Umatilla Bridge connection) and an overrun in the contract general excavation quantity.

Attention was given to the surfacing reconstruction project (4.3 miles) on the Forest Boundary-Little Beech Creek Section of the Pendleton-John Day Highway in Grant County. Mr. Klaboe said that the pavement deterioration is progressing at a rapid rate due to last winter's frost action and an increase in heavy truck traffic. He added that there is considerable heavy truck hauling in the area which is tied to the timber industry and is predicted to be on the increase for the next several years. Patching with State forces of the surface will not be adequate to sustain these heavy loads. The total estimated cost is \$900,000. Mr. Klaboe recommended approval of the project and that it be added to the Six-Year Rural Primary Construction Program. After considerable discussion, the Commission accepted his recommendation.

The Commission considered a request from the Columbia Region Association of Governments (CRAG) to cancel a previously approved Urban System project. Mr. Klaboe mentioned this is a preliminary engineering project involving a transit corridor study in downtown Portland. It has been determined that less coordination of the downtown study is necessary and the required coordination can be accomplished within the Tri-Met organization. Upon the recommendation of Mr. Klaboe, the Commission approved cancellation of the project.

The Commission considered approving a design criteria for pedestrian-actuated traffic signals. Mr. Klaboe said that since the national Manual on Uniform Traffic Control Devices, which is also Oregon's manual, does not specify definite design criteria for pedestrian-actuated traffic signals, it is desirable to establish a standard for the State. Following his favorable recommendation, the Commission adopted the following criteria:

At mid-block locations and at intersectional locations where low volume side streets do not meet warrants for complete signalization, it is recommended that the pedestrian traffic signals consist of pedestrian actuated "WALK" - "DON'T WALK" indications to the cross movement with standard red-yellow-green signals to the highway. It is not intended to provide the side street with signal indications, but to allow these low volume streets to be "STOP" sign controlled.

Consideration was given to approving the installation of advance warning signs at all railroad grade crossings by State maintenance forces. Mr. Klaboe said that most of these locations

are on city streets and county roads not part of the State Highway System. At this time, existing surveys are not accurate enough to determine the precise location where signing is needed. However, an estimate has been made of the extent of this project. Signing on roads that are part of the Federal Aid System amounts to \$41,000 and would be funded out of Section 203 of Title II. Locations not on any Federal Aid System would be funded under Section 230 of Title II and it is estimated that \$130,000 of work is needed. Mr. Klaboe pointed out that funding under Sections 203 and 230 is 90 percent Federal-aid and 10 percent State and local match. The Public Utility Commissioner has agreed to participate in 75 percent of the State's cost of this project. The total cost to the State will be 2.5 percent of the entire project, or \$4,275, and he recommended approval. The Commission approved the undertaking of this work and authorized the State Highway Engineer to approve agreements with local governmental bodies which will allow the State to do the installation and require the local jurisdiction to perform any future maintenance.

Attention was given to a request by the City of Prineville to cancel a previously approved Off-System project for constructing a number of streets in the city (N. Court St., N. Durham St., and E. 5th St. and construct a bridge over the Ochoco Creek on Court St.). Mr. Klaboe stated the City has been unable to obtain the matching funds, and he recommended the cancellation of the project. The Commission accepted his recommendation.

The Commission considered an agreement with the Scappoose School District No. 1J covering the installation of an overhead pedestrian sign with flasher at the intersection of the Lower Columbia River Highway and a private road in the vicinity of the Scappoose High School in Columbia County. Mr. Klaboe stated that the State shall prepare all plans, perform the work, maintain the system and pay the total cost estimated at \$2,500. The project will be funded with Minor Betterment Funds. The School District will pay for all power consumption. The Commission approved the agreement as recommended by Mr. Klaboe.

Consideration was given to an agreement with the City of Yachats for the installation of a pedestrian crossing sign with flashing beacons on the Oregon Coast Highway at Third Street in Lincoln County. Mr. Klaboe said the agreement provides that the State will perform all work and maintain the sign and beacons after installation with the City paying all power costs. The total cost of the project is \$3,500. Federal-aid Title II funds will cover \$3,150 and the remaining \$350 will come from State funds. Following his recommendation, the Commission approved the agreement.

Attention was given to an agreement with the City of Coos Bay for the installation of traffic signals at the intersection of the Empire-Coos Bay Highway and Woodland Drive in Coos County. Mr. Klaboe said the State will prepare all plans and specifications and perform the work. The estimated cost is \$31,000 which will be split \$24,180 Federal Aid Urban Funds and \$6,820 State Funds. After the project is completed, the State will maintain the signals and the

City will pay for all power consumption. Following his favorable recommendation, the Commission approved the agreement.

Consideration was given to approving an agreement with the Federal Highway Administration for an extensive predictive ambient air quality analysis on the Banfield Freeway for high occupancy vehicle lanes in Multnomah County. Mr. Klaboe said the Federal Highway Administration has indicated a great interest in this after-evaluation program and will provide the State with \$150,000 of 100 percent Federal-aid funds to extend this evaluation program for an additional year to July 1, 1977. He mentioned it may be necessary for the Division to provide an additional \$30,000 for the replacement of worn-out equipment. The equipment would remain in State ownership and may be purchased with Federal Highway Planning and Research funds. Upon his recommendation, the Commission approved the agreement.

The Commission considered an agreement with McCann-Erickson, Inc. for continuation of the "Keep Oregon Livable" program until June 30, 1977. Mr. Klaboe pointed out that for the past seven years the Commission, in cooperation with the Governor's Office, has conducted an environmental education and information program called "Keep Oregon Livable." The program seeks to create an awareness by the general public of a number of environmental issues relating to the activities of the Division and to encourage all Oregonians to make an individual commitment toward the preservation of this State's unique livability. He indicated the Division is not sufficiently staffed to conduct these activities on its own. The Governor's Office has reviewed the program proposal and recommends continuation. The total cost of the program will not exceed \$33,800. Funds for the program are available in the Division's General Administration budget. Following his recommendation, the Commission approved the agreement.

Attention was given to adopting a resolution rescinding previous action dated February 16, 1971, to clarify the route designation of the Succor Creek Secondary Highway in Malheur County. Mr. Klaboe explained the original resolution could be interpreted to have designated the present county road as the highway. However, the intent was to designate a route only and the State would not have any maintenance responsibility until such time as a highway had been constructed along the route. The County has concurred in this action. The Commission adopted "Secondary Highway Designation Resolution No. 74A," which resolution by this reference is made a part hereof and filed in the Commission's files, Salem.

The Commission considered approval of the Ontario Port of Entry Station in Malheur County. Mr. Klaboe recalled that in Southern Oregon near Ashland a Port of Entry Station was constructed at a cost of one and a quarter million dollars. Over \$430,000 in fees was collected that the State would not have collected if the Station had not been built. The Public Utility Commissioner did request that additional stations be built at Klamath Falls and Ontario. At that time, the cost to build these stations was much

too high. During the past several months, the Division has worked with the PUC staff on this particular Port of Entry in Ontario. He said the proposed project has been scaled down and will cost approximately \$560,000 to build which should be adequate. It is anticipated that the revenues in the first year of its operation will be over \$400,000. Mr. Klaboe recommended to proceed with construction of the PUC Port of Entry Station in the Ontario area. The Commission accepted his recommendation.

DELEGATION

The Columbia River Gorge Commission appeared before the Commission concerning their activities and concerns. Present were: Mrs. Robert (Nani) Warren, Chairman; Carl Hawkes, Secretary; and Thomas Burgess, Commissioner. Mrs. Warren stated that their Commission appears before the Parks Board annually and confers with Mr. David Talbot regularly. Monthly activity reports of the Gorge Commission are sent to the Governor, the Land Conservation and Development Commission and to the State Parks Office. She explained the activities of their Commission and mentioned their roll as coordinator of the planning and development activities with the three counties involved, CRAG, Forest Service, LCDC and their counterpart in the State of Washington. Mrs. Warren asked the Commission to establish a policy of notifying their Commission of its proposed plans in the Columbia River Gorge. Chairman Jackson informed the delegation that proper liaison and communication will be set up so the Gorge Commission will have advance information of the Highway Division's proposed plans.

Robert Bothman handed to the Commission a status report on the I-205 (East Portland Freeway). The report contained a detailed briefing starting in 1964 to date. Mr. Bothman said the current plan has been designed as a complete transportation facility including six lanes for autos and trucks, a separate two-lane bus facility and a bicycle-pedestrian path. Wherever possible, the facility has been depressed to reduce noise and visual impact. Also to further reduce the effects of the freeway on adjacent areas, earthen mounds (berms) have been included along most of the project. The cost of the project in Oregon at current estimates is \$300,000,000. The cost in the State of Washington is \$48,000,000. The projected use of the facility per day is 200,000 vehicles on the freeway system, 65,000 passengers on the busway and 1,000 people using the bicycle-pedestrian path.

The final proposed design hearing was held May 19, 1976. He mentioned the response at the hearing from the public and various groups represented indicated an overwhelming support for the facility. Of the forty-five persons who testified at the hearing, five did indicate a preference for additional access (the old eight-lane design), sixteen did indicate disfavor of the busway, and very little support was found for the bikepath. A summary of results from the hearing is included in the status report. He said transcripts of the hearing will be mailed in the near future.

Final reviews of the preliminary copy of the final Environmental Impact Statement is now being conducted with the FHWA and is scheduled for completion on June 1, 1976. The City of Portland has scheduled a Council meeting on June 3, 1976, to consider an Ordinance in favor of a design for the I-205 freeway. Multnomah County Board of Commissioners has scheduled a meeting for June 10, 1976, for the same purpose. It is proposed to have the Transportation Commission approve a design for the facility shortly after the County takes action. (Copy of the I-205 status report dated May 25, 1976 on file in the Commission's files, Salem.)

The Commission viewed the video tape which will be shown at meetings around the State concerning the Six Year Highway Construction Program.

AERONAUTICS DIVISION

The Commission considered approval of a request to the Emergency Board for review and approval of the Division's plans to automate the pilot registration system which would increase the Division's Search and Rescue program limitation by \$15,423 for the balance of this biennium. Mr. Burket said the Ways and Means budget report from the 58th Legislative Assembly states that "Any plans to automate the Airman Registration System will be reviewed by the Legislature or the Emergency Board prior to implementation." (A report of a study conducted by DOT Administrative Services on automation of the pilot automation system and a copy of the Data Systems Division "Agency Request and Equipment Justification" were previously sent to the Commission and are on file in the Commission's files, Salem.) The Commission approved the request to submit to the Emergency Board as recommended by Mr. Burket.

Consideration was given to the adoption of a report of the Aurora State Airport Master Plan study (reports were previously mailed to the Commission). Mr. Burket said two public hearings were held in the Aurora area and all comments received from the public, as well as review comments from the Planning Advisory Committee, have been considered and incorporated wherever possible. The requirements of the Land Conservation and Development Commission goals and guidelines for Citizen Involvement and Land Use Planning have been adequately met. This plan projects the forecast needs of the airport for the next twenty years and outlines the improvements needed to meet the forecast needs. Upon his favorable recommendation, the Commission adopted the report. (Copy of report on file in the Commission's files, Salem.)

MASS TRANSIT DIVISION

Mr. Moore presented to the Commission a final report of the Special Transportation Program for the elderly and handicapped. He said the report covers six areas in the State: the City of Albany, Columbia County, Jackson County, the City of Ontario, the City of Portland and Wasco-Sherman Counties. The projects were funded by

local, Federal and State general funds. The State provided up to 25 percent of the project operating costs and up to 50 percent for marketing expenses, while over 50 percent of each project's operating costs were met by local contributions. Mr. Moore said the major findings of the study are:

- 1) Use of transit by mobility limited citizens is increased by providing demand-responsive (door-to-door) transportation services.
- 2) Special transportation systems are not self-supporting.
- 3) Good local managerial expertise is an extremely important element to project success.

He pointed out that although State financial participation terminated in June 1975 all projects have continued to operate. The special transportation projects were not intended to compete with existing transit systems but to create transit systems where needed and to improve service where existing service was inadequate. (Copy of the report available at the Mass Transit Division Office, Salem.)

MOTOR VEHICLES DIVISION

No report.

DEPARTMENT OF TRANSPORTATION Director's Report

The Commission set Tuesday, June 29, 1976, as the date for the next regular meeting.

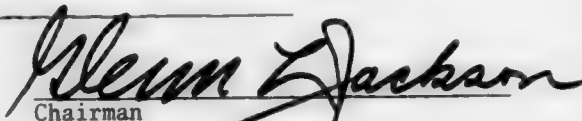

Following Mr. Burco's favorable recommendation and Mr. Klaboe's concurrence, the Commission appointed H. S. (Scott) Coulter as State Highway Engineer, effective June 1, 1976.

Consideration was given to the approval of an agreement with the Department of Economic Development for port planning services. Mr. Burco pointed out that the 1975 Legislature directed the Department to contract with the Department of Economic Development to pay 70 percent (\$42,900) of the salary costs for services of a DED Port Planner. The Department lacks the technical skills to perform the work related to ports and waterways. DED will provide the Department with memos, reports and other documents that describes work that has been done and is being accomplished by DED with a description of the relationship that that work has to present and future transportation systems. He said these services are provided in support of the Department's overall development of the statewide transportation plan. The agreement has the approval of the Chief Counsel. Upon Mr. Burco's recommendation, the Commission approved the agreement and authorized him to sign it on their behalf.

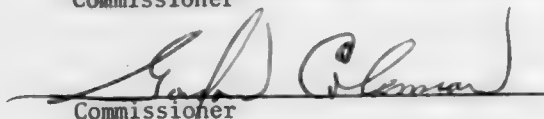

Mr. Burco asked Mr. Royer to present the Northwest Corridor Multimodal Program. Mr. Royer reviewed the past action of the Commission and of the Emergency Board concerning the rail planning. He said the Department would like authority to appear before the Emergency Board at its June meeting with a progress report that shows how the Department is coordinating these various studies. The Commission gave their approval to present the following to the Emergency Board:

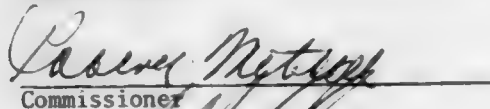

- 1) Report Department's proposed monitoring of the results of the changes Greyhound is expected to be making in July 1976.
- 2) Outlining the study the Department is proposing in response to the \$20,000 intercity rail study requested by the Emergency Board in February 1976.
- 3) Request an increase in the Department's federal funding limitation to utilize the \$110,000 of Federal Railroad funding in place of State funds. (West Coast Corridor Study.)
- 4) Request an increase in the Department's federal funding limitation to carry out freight and rail planning with the \$50,000 authorized by the 4-R Act.

The Chairman adjourned the meeting at 11:55 a.m.

- (2) Agreement with Multnomah County withdrawing their participation in the I-205 storm sewer system. The Highway Division will refund the County's original deposit of \$450,000 plus accumulated interest of \$84,000 for a total of \$534,000. The Highway Division will withhold from that total the amount of \$87,000 as just compensation to defray the cost of design revisions required because Multnomah County withdrew its participation.

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority and acting in accordance therewith for the Commission, I approve the above two items and report this for your official records.

REPORT OF CASES FILED BY AND AGAINST THE DEPARTMENT OF TRANSPORTATION

L-7324 A. L. Jefferis, personal representative of the estate of Jeffery Phillip Stoller, deceased, v. The State of Oregon, Transportation Department, Highway Division, et al.: This case arises out of an accident that occurred on May 25, 1975, on Highway 26 in Clatsop County, in which a vehicle, in which plaintiff was a passenger, collided with a vehicle driven by Douglas Paul Anderson. The alleged negligence of the state is improper construction of a highway, failure to properly maintain the highway, failing to properly repair the highway, allowing the portion of the highway to remain in a dangerous condition after repairing the same, failing to inspect the portion of the highway for dangers and defects and failure to erect any lights or signs or other warnings to motorists of the dangerous conditions on the highway. The amount of the lawsuit is \$128,354.30.

The matter has been referred to the state's insurance carrier for the defense of the state.

L-7325 Donald P. Thomsen, personal representative of the estate of Jerome Charles Kiedrowski, deceased, v. The State of Oregon, Transportation Department, Highway Division, et al.: This lawsuit arises out of the same accident as referred to under L-7324 and the plaintiff was a passenger in the same vehicle as the plaintiff in Case L-7324. The allegations of negligence are the same. The amount of the lawsuit is \$127,124.58.

The matter has been referred to the state's insurance carrier for the defense of the state.

L-7327 Gary D. Sturges v. State of Oregon Highway Department, et al.: This lawsuit arises out of an accident that occurred on July 17, 1975, on Highway 30 in Clatsop County, in which the plaintiff was struck by a vehicle driven by the other defendant in the lawsuit, Allen A. Salo. The Highway Division is alleged to be negligent in that a Highway Division vehicle pulled out in front of the defendant Salo's vehicle causing him to swerve across the highway and strike the plaintiff's vehicle. The lawsuit is in the amount of \$165,000.

The matter has been referred to the state's insurance carrier for the defense of the state.

EXHIBIT _____ G
MINUTES OF 5-25-76

L-7328 Verlin E. Hamilton v. City of Independence, et al.: This lawsuit arises out of an accident that occurred on December 10, 1974, in which the plaintiff was riding a bicycle on a bicycle path in the City of Monmouth and struck a guy wire from a power pole that was located in the bicycle path. The alleged negligence of the state in allowing Pacific Power and Light Company to locate the pole and guy wire at that particular location, failing to keep the bikeway reasonably safe, failing to keep the bikeway free and clear of dangerous obstructions and negligently allowing the guy wire pole to remain on the bikeway. The amount of the lawsuit is \$112,734.85.

The matter has been referred to the state's insurance carrier for the defense of the state.

L-7331 William A. Sumerlin v. Harold Robinson, Defendant and Third-Party Plaintiff v. Robert Sandmann: The accident occurred August 22, 1973, on a county road and the alleged negligence of the defendant Sandmann, as an employee of the Highway Division, is in refusing to allow the defendant Robinson to erect barricades, flashers or other adequate warnings adjacent to Highway 42 to give notice and warning to drivers that there was equipment on the county road. The amount of the lawsuit is \$50,000 in general damages and an undetermined amount of special damages.

The matter has been referred to the state's insurance carrier for the defense of the state.

L-7332 State of Oregon v. William I. Tolke: This is an action in ejectment brought by the Highway Division against Mr. Tolke to clear the Highway Division's title to certain property along the Banks-Vernonia right of way in Washington County and to recover damages for Mr. Tolke's trespass on the property. The amount of damages is \$34,931.

This matter has been referred to the Department of Justice for handling.

MINUTES OF 5-25-76

TO: Oregon Transportation Commission

SUBJECT: Confirmation Report of Actions Taken
Under Delegated Authority

Pursuant to authority delegated to me, I report the following action for the Transportation Commission's records:

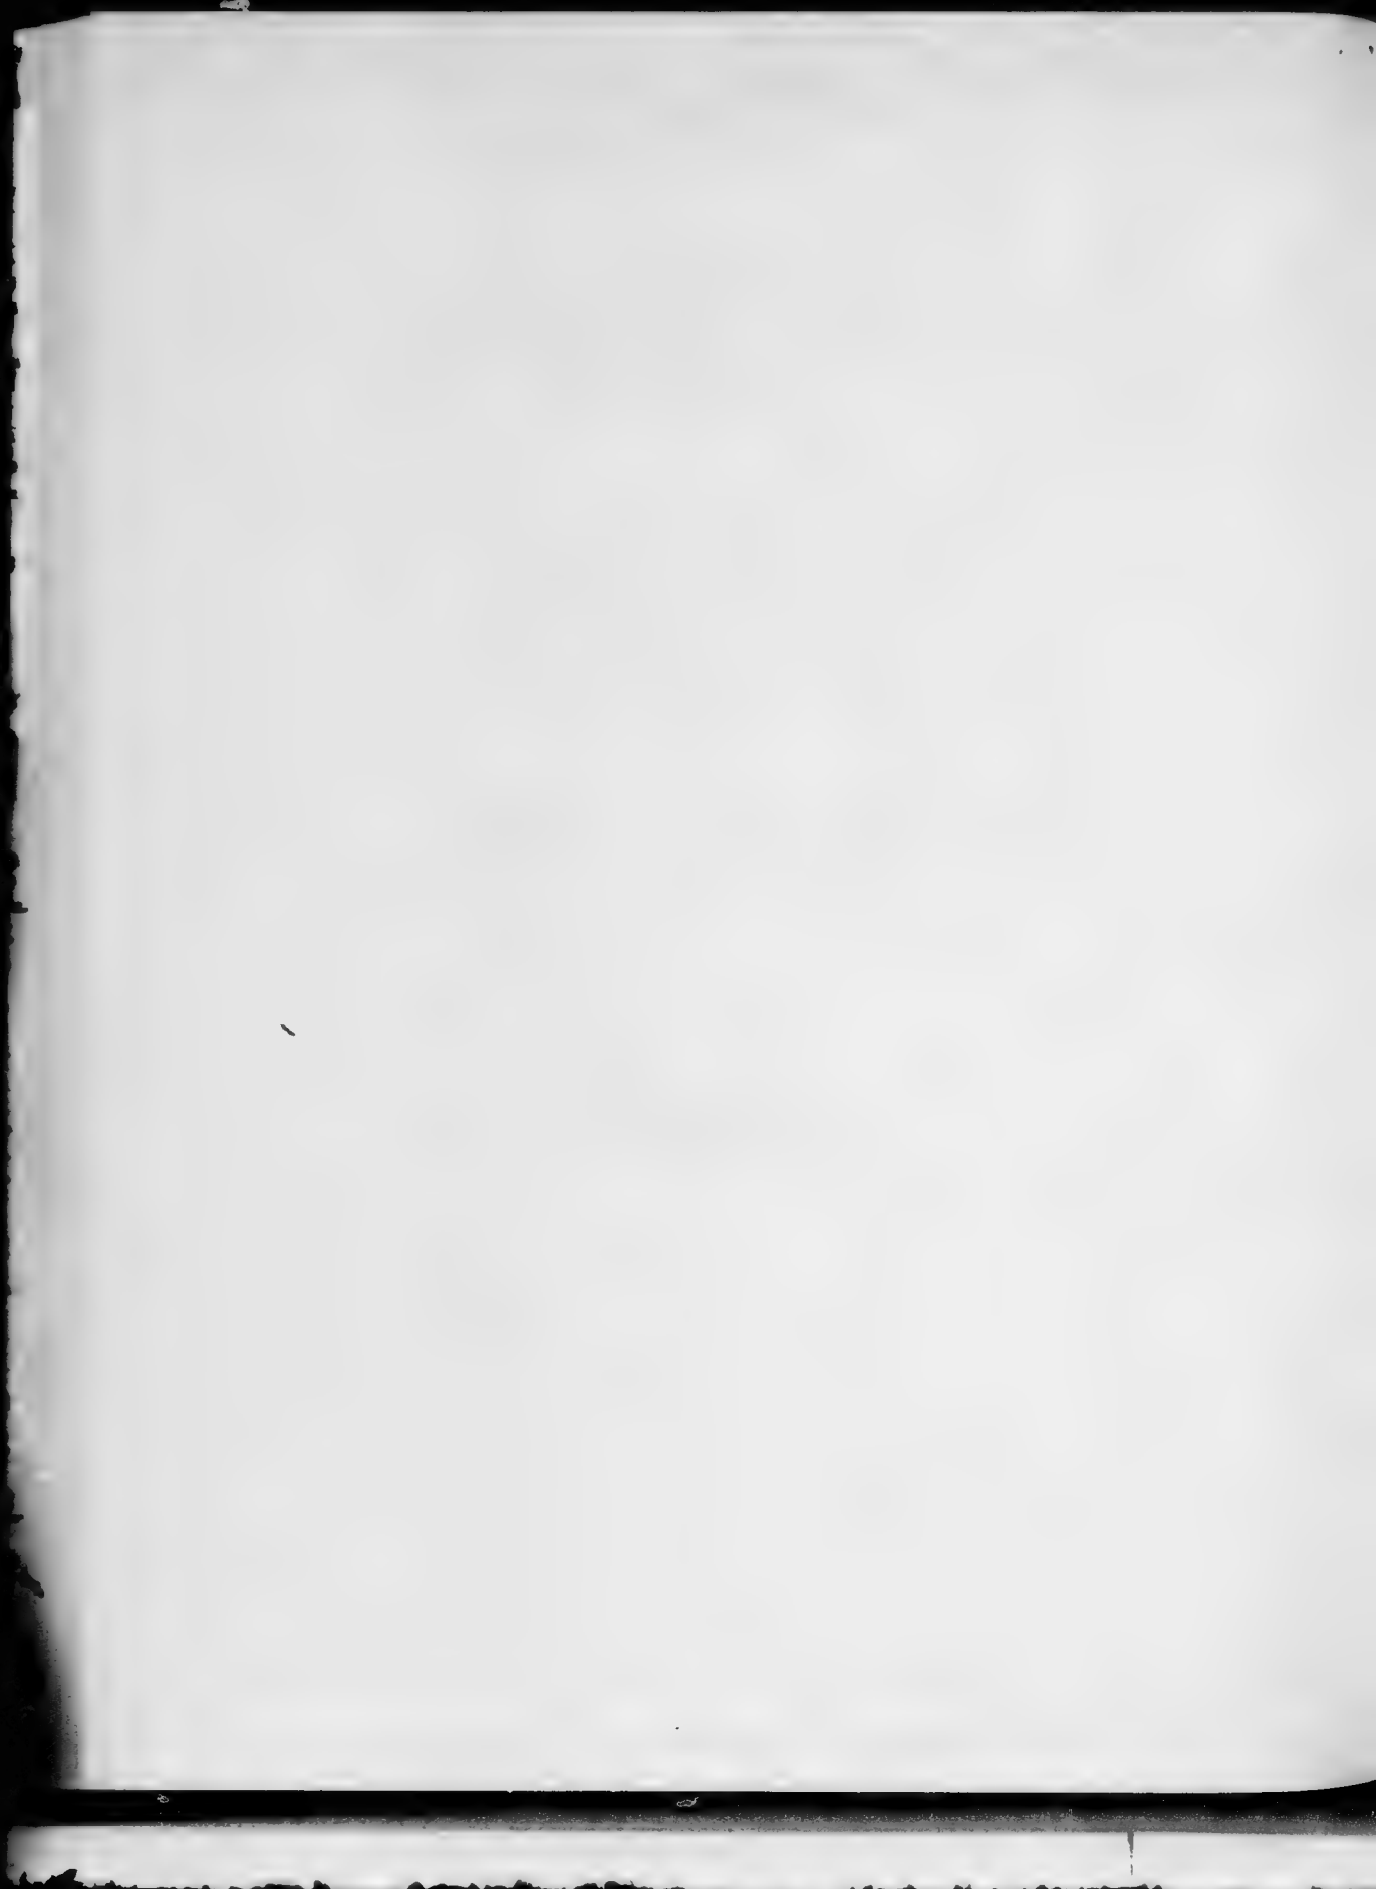

On May 21, 1976, \$2,730,376.93 was distributed to the counties as their share of motor vehicle revenues (20 percent) for the month of April, 1976. (List of apportionments on file in Commission Files, Salem.)

On May 28, 1976, \$1,638,226.16 (12 percent of the Highway Fund) was distributed to the cities for the month of April, 1976. (List of apportionments on file in Commission Files, Salem.)

Dated this 19th day of May, 1976

V. E. Skoog, Controller
Highway Division

June 10, 1976
Salem, Oregon

The Oregon Transportation Commission held a special telephone meeting at 4:30 p.m. in Room 140 of the State Highway Building in Salem, Oregon. The following persons were on the telephone at the locations given:

Glenn L. Jackson, Chairman, Portland
Robert L. Mitchell, Secretary, Portland
B. Gordon Coleman, Member, Eugene
Robert A. Burco, Director of Transportation, Salem
F. B. Klaboe, Chief of Operations, Salem
H. S. Coulter, State Highway Engineer, Salem
Robert Bothman, Assistant State Highway Engineer, Portland
George Bell, Special Assistant for Public Affairs, Salem
John Earley, Public Information Officer, Salem
Cecil Head, Manager, Commission Services, Salem

(Unable to make telephone contact with Commissioner Hollern in Bend and Commissioner Walsh in Pullman, Washington.)

Mr. Klaboe stated the special meeting is to request authorization from the Commission to transmit the Final Environmental Impact Statement on the I-205 Project (East Portland Freeway) to the Federal Highway Administration and to request their approval at the earliest possible date so the State can proceed with construction.

He asked Mr. Bothman to read the resolutions enacted by the City of Portland and Multnomah County. Mr. Bothman read the following resolutions:

CITY OF PORTLAND
RESOLUTION NO. 31698

WHEREAS, it has been the policy of the City Council of the City of Portland that I-205 be constructed as soon as possible as a regional bypass facility for automobile and truck traffic and as a regional corridor for mass transit; and

WHEREAS, the City Council previously requested certain modifications to the I-205 designs which were presented in the I-205 Draft Environmental Impact Statement; and

WHEREAS, the Oregon Department of Transportation has given considerable attention to the City's previous concerns and has accomplished such modifications in the I-205 design which is presented in the I-205 Final Environmental Impact Statement; and

WHEREAS, it is the understanding of the Council that construction of the transitway in the I-205 design is contingent upon the development of a radial transit facility connecting to downtown Portland; and

WHEREAS, comments regarding the Final Environmental Impact Statement are currently being received by the Oregon Department of Transportation; now, therefore, be it

RESOLVED that the City Council of the City of Portland does hereby express its approval of the I-205 design presented in the Final Environmental Impact Statement; and be it further

RESOLVED that the Council does hereby express its support for the construction of I-205 according to the information and design presented in the Final Environmental Impact Statement.

Adopted by the Council, June 3, 1976.

Signed by George Yerkovich
Auditor of the City of Portland

MULTNOMAH COUNTY

In the Matter of the Final)
Approval for the I-205) ORDER
Freeway/Transit Way)

This matter comes before the Board of County Commissioners on a request by the Oregon Department of Transportation for the approval for construction of the Selected Plan as described in the I-205 Final Environmental Impact Statement, Volume I, dated April, 1976.

The Board, having previously submitted design policies to the Oregon Department of Transportation, finds the Selected Plan substantially in conformance with those policies and finds the Selected Plan to be in conformance with the adopted Regional Interim Transportation Plan; and therefore it is,

ORDERED that the Board of County Commissioners of Multnomah County hereby expresses its approval of the I-205 Selected Plan and does hereby approve construction of the I-205 facility as described in the Final Environmental Impact Statement.

Board of County Commissioners
for Multnomah County, Oregon

June 10, 1976

Signed by Donald E. Clark
Chairman

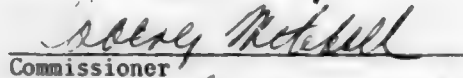

June 10, 1976

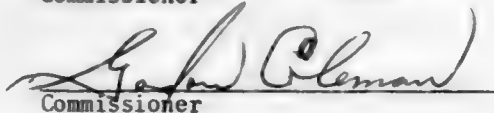

Mr. Bothman mentioned that a resolution has been received from Clark County, Washington, which states in part that the I-205 facility is an essential link of the total transportation plan urgently needed to relieve existing traffic problems. Based upon the facts presented in the Environmental Impact Statement and the studies completed to date, the Clark County Board of Commissioners supports the alignment and lane configuration proposed and urges adoption as soon as possible so construction can begin on this long overdue facility. In reply to the Chairman's inquiry, Mr. Bothman said the Clark County's document conforms with the requirements under the regulations.

The three Commissioners by unanimous vote approved the Final Environmental Impact Statement on the I-205 project and to forward it to the Federal Highway Administration for approval as recommended by Mr. Klaboe.

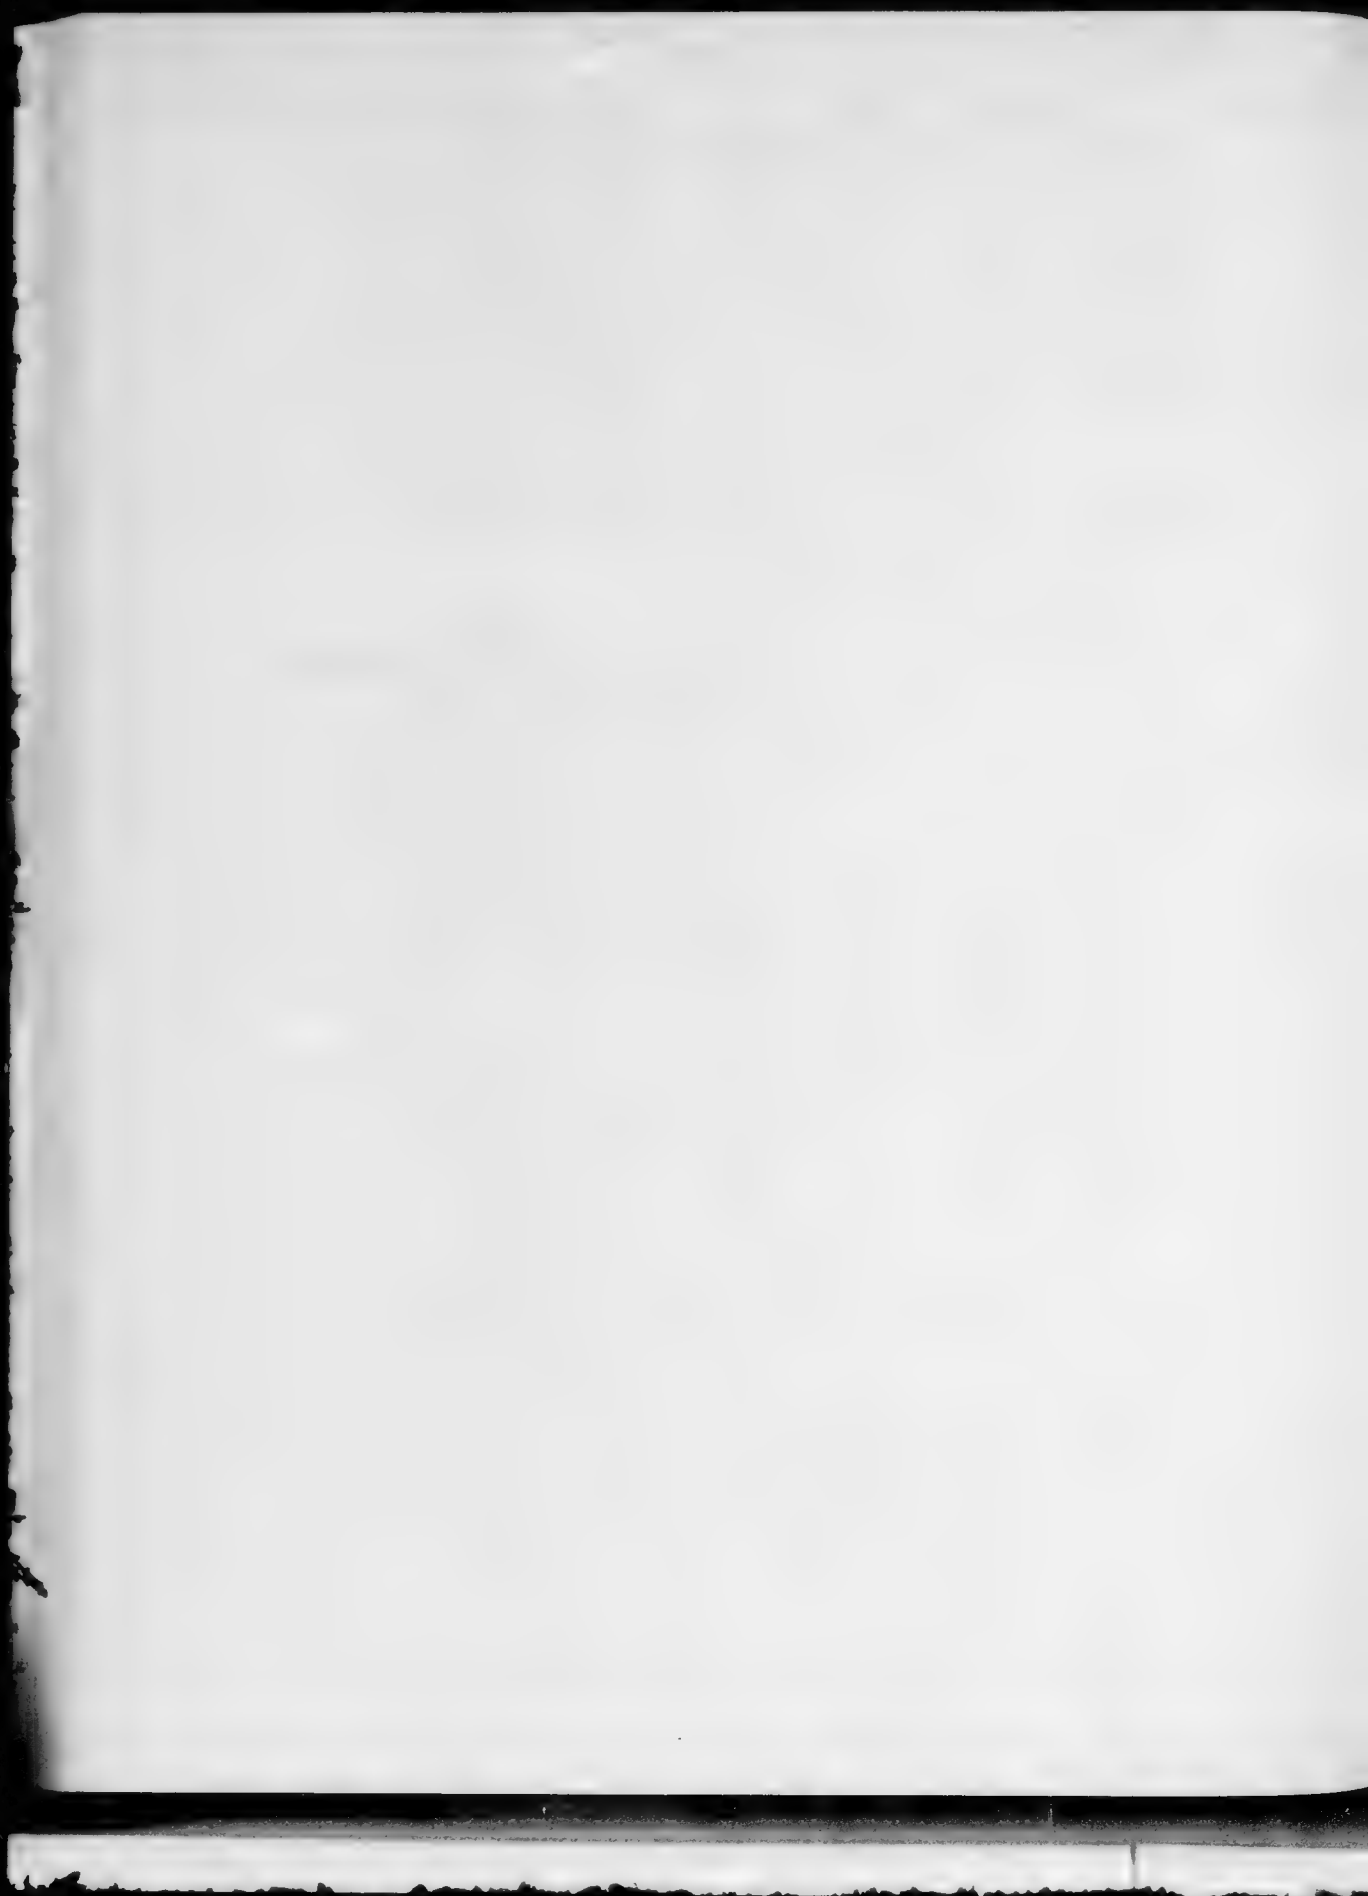

The meeting adjourned at 4:37 p.m.

Chairman

Commissioner

Commissioner

Commission Services

June 29, 1976
Salem, Oregon

The Oregon Transportation Commission held their regular meeting at 10 a.m. in Room 122 of the State Highway Building in Salem, Oregon. Notice of the meeting was made by press release to the newspapers of the general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Robert L. Mitchell, Secretary
Michael P. Hollern, Member
Tom Walsh, Member
B. Gordon Coleman, Member
Robert A. Burco, Director of Transportation
Walt Barrie, Chief Counsel
F. B. Klaboe, Chief of Operations
H. S. Coulter, State Highway Engineer
E. S. Hunter, Deputy State Highway Engineer
J. B. Boyd, Right of Way Engineer
Dave Talbot, State Parks Superintendent
Paul E. Burket, Administrator of Aeronautics
Dennis Moore, Administrator of Mass Transit
Harvey Ward, Deputy Administrator of Motor Vehicles
C. W. Head, Manager, Commission Services

There were others present including representatives from the news media.

The Commission approved the minutes of the meetings of May 25 and June 10, 1976.

HIGHWAY DIVISION

A list of properties needed for highways and other uses was presented to Mr. Boyd. He requested the Commission to declare by resolution the necessity of said properties for the public use to which they are to be put and to authorize him to attempt to agree with the owners of said properties as to price. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful and thereupon adopted "Condemnation Resolution No. 2647," which resolution by this reference is made a part hereof and filed in the Commission's files.

In reply to the Chairman's inquiry, Mr. Boyd stated that under the sign removal program there is one sign yet to be removed which is under condemnation.

Mr. Barrie asked if there were any questions in connection with the informational reports previously submitted to the Commission on cases tried, cases settled and institution of legal proceedings filed against the Department of Transportation since the last Commission meeting. There were no questions. (See Exhibit G on file in the Commission's files, Salem.)

Mr. Barrie presented to the Commission an informational report on litigation involving the Commission and Maywood Park. He said the Multnomah County Circuit Court held that Maywood Park did not have jurisdiction to require throughway agreements and that Multnomah County had not given up its own jurisdiction by its resolution which terminated concurrence in 1974. Mr. Barrie said he did not think Maywood Park would appeal this case, but they do have the right yet to file an appeal. This case represents the end of current litigation in court involving I-205 and Maywood Park.

Mr. Barrie reported that Maywood Park had adopted its own noise ordinance which appears to be stricter than Federal standards or what DEQ will probably come up with. He doubted that this particular noise regulation would interfere with an Interstate project. He indicated that he is researching the matter and will forward a report to the Commission and staff.

Mr. Barrie stated that in reference to the Astoria Bridge litigation the Oregon Supreme Court affirmed the Court of Appeals' judgment that allowed the State post-judgment interest on its pre-judgment award of some two million dollars. The State has in excess of a hundred thousand dollars in interest due yet from the DeLong Corporation and Travelers Indemnity.

Mr. Talbot presented to the Commission a report concerning the closure of Heceta Beach in Lane County. He reported that a group of five oceanfront property owners at Heceta Beach requested assistance in controlling erosion of the low bluff fronting their residences. Highway survey crews confirmed that the ocean shore zone line at this location was out on the dry sand westerly of the foredune where the erosion was occurring. He said this condition precluded the need for processing an ocean shore improvement permit to install a protective revetment at the toe of the foredune. He pointed out that the property owners proceeded to install an extensive revetment consisting of vertically-driven wood piling with drift logs collected from the beach placed horizontally behind the piling. The property owners also requested that the Highway Division stop the extensive cutting of driftwood by the public for firewood. This area of the beach is closed to vehicle use except by permit for the purpose of gathering firewood or the transporting of elderly or disabled persons. It was the feeling of the property owners that the natural accumulation of driftwood added materially to the protection of the frontage from erosion by the sea. An appeal was issued to firewood cutters to refrain from taking driftwood at this location. State Police and Highway Division offices were directed not to issue vehicle permits for the area 2,000 feet in length from the Heceta Beach ramp northerly for a one-year period. Mr. Talbot said other wood gathering areas remain available for vehicle permits

north and south of this restricted area. He also mentioned that results of the restriction will be monitored to determine the effect on the erosion problem.

Upon the recommendation of Mr. Talbot, the Commission appointed Mrs. Borden "Lu" Beck of Portland to replace Ding Cannon on the State Parks and Recreation Advisory Committee. The appointment is for four years effective June 29, 1976.

Consideration was given to adopting as a permanent rule an amendment to the State Park rules setting forth specific provisions governing the public use of Fort Stevens State Park in Clatsop County and the Yaquina Bay Lighthouse in Lincoln County. Mr. Talbot said that a public hearing was held on June 16, 1976, to consider this amendment governing the charging of fees and the operating hours at these two locations. The amendment was discussed with the four individuals who attended the hearing and there were no objections. Following Mr. Talbot's recommendation, the Commission approved the rule changes as follows.

III. AMENDMENT TO STATE PARK RULES

The following provision shall be added to the State Park Rules adopted by the Oregon Transportation Commission on April 23, 1976 as item V., D., and E:

D. Fort Stevens State Park

1. The opening and closing dates for Fort Stevens State Park and the operating hours for the park shall be established by the State Parks Superintendent. Public notice of this information shall be given by the State Parks Superintendent and the information shall be posted at the park.
2. The fee for public use of the park area shall be \$.50 per person per day. Children six years of age and under shall be admitted free.

E. Yaquina Bay Lighthouse

1. The opening and closing dates for public use of Yaquina Bay Lighthouse and the operating hours shall be established by the State Parks Superintendent. Public notice of this information shall be given by the State Parks Superintendent and the information shall be posted at the Lighthouse.
2. The fee for public entry to the Lighthouse shall be \$.50 per day. Children six years of age and under shall be admitted free.

(Continued on next page)

(See State Parks Resolution No. 39a. Copy of rule filed with Secretary of State on June 30, 1976, and will be published in the Administrative Rule Bulletin on July 15, 1976.)

Mr. Coulter reported on actions taken under delegated authority received for filing with the Commission records. These reports show the actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders:

| | |
|--|-----------|
| Chairman of Oregon Transportation Commission | Exhibit A |
| Vice Chairman of Transportation Commission (no report) | Exhibit B |
| Administrator and Highway Engineer | Exhibit C |
| Director of Permits (no report) | Exhibit D |
| Right of Way Engineer | Exhibit E |
| State Parks Superintendent (no report) | Exhibit F |
| Chief Counsel | Exhibit G |
| Highway Controller | Exhibit H |

The Commission approved Mr. Coulter's request to increase the project authorizations on the following contracts:

- (1) Stillwell Construction Company, Contract No. 8253, motorist service signing on I-80N from Cascade Locks to the Idaho State Line, for \$34,727.56 (15%). The increase was due to the addition of 13 signs by price agreements, state force orders and an overrun in engineering.
- (2) Morse Bros., Inc., Contract No. 8298, N.W. 9th Street at N.W. Buchanan Avenue (Corvallis) in Benton County, for \$19,007.93 (13.2%). The overrun was due to adjusting city water facilities and a change in the storm drainage system to comply with DEQ requirements for the separation of storm water from sanitary sewers.
- (3) K. F. Jacobsen and Company, Contract No. 8259, N.E. Union Avenue-82nd Avenue Section, Banfield Freeway (HOV lanes) in Multnomah County, for \$243,548.37 (13.3%). The increase was due to widening of on-ramps at three locations to provide safer merging distance, emergency telephone system, additional shoulder barrier work, neon advance warning signs for the construction and additional curb work that was unanticipated.
- (4) Stillwell Construction Company, Contract No. 8260, motorist service signing, I-5 North Unit between Portland and Roseburg, for \$15,850.70 (14%). Since the contract started, the Travel Information Council has sold additional logo advertising at new locations not covered in the contract. Eight additional installations have been covered by added orders and another is pending.

- (5) Kimball Construction and Alvin L. Lindley, Contract No. 8254, three units in the vicinity of Lakeview on Klamath Falls-Lakeview and Fremont Highways in Lake County, for \$58,372.34 (7.5%). The major reason for the overrun was due to flagging hours and asphalt content in the asphalt-concrete mix.
- (6) Elting, Inc., Contract No. 8243, Hogback Summit-Lake Abert Section, Lakeview-Burns Highway in Lake County, for \$139,515.37 (9.9%). The overrun was due entirely to quantity changes on regular bid items including flagging, alignment changes and vertical grade line changes.

Mr. Coulter reported that necessary hearings and survey work had been accomplished on eight sections of State highways and he recommended approval of corridor and design surveys. The Commission accepted his recommendation by adopting the following "Highway Corridor and Design Resolutions Nos. 416 through 419," which resolutions by this reference are made a part hereof and filed in the Commission's files, Salem:

- (1) Catherine Creek Section, La Grande-Baker Highway in Union County. No public hearing was required. (See "Highway Corridor and Design Resolution No. 416").
- (2) Slater Creek-Mystic Creek Section, Coos Bay-Roseburg Highway in Douglas County. A combination corridor-design hearing was held August 29, 1974, in Winston. (See "Highway Corridor and Design Resolution No. 417").
- (3) Pine Grove-Wapinitia Road Section, Wapinitia Highway in Wasco County. No public hearing was required. (See "Highway Corridor and Design Resolution No. 416").
- (4) Malheur River Bridge Section, Olds Ferry-Ontario Highway in Malheur County. A combination corridor-design hearing was held on February 6, 1975, in Ontario. (See "Highway Corridor and Design Resolution No. 418").
- (5) Ritner Creek Bridge Section, Kings Valley Highway in Polk County. A combination corridor-design hearing was held January 15, 1975, in the community of Pedee. (See "Highway Corridor and Design Resolution No. 419").
- (6) Silver Point Slide Section, Oregon Coast Highway in Clatsop County. No public hearing was required. (See "Highway Corridor and Design Resolution No. 418").
- (7) Poormans Creek Section, Jacksonville Highway in Jackson County. No public hearing was required. (See "Highway Corridor and Design Resolution No. 417").

- (8) Olney Cutoff Road Junction Section, Nehalem Highway
in Clatsop County. No public hearing was required.
(See "Highway Corridor and Design Resolution No. 416").

The Commission considered approving the distribution of Federal Aid Urban System funds to urbanized and small urban areas of the State for the transition quarter of July 1, 1976, to September 30, 1976. Mr. Coulter said the transition quarter allocation will provide funds to finance projects during the transition to the new Federal fiscal year. This transition allocation quarter is one-fourth of the Fiscal Year 1976 Urban System allocation. The total match funds are estimated at \$360,000; State's share would be approximately \$180,000. The Commission approved the following allocation as recommended by Mr. Coulter:

TRANSITION QUARTER
(July 1, 1976-Sept. 30, 1976)
URBAN SYSTEM ALLOCATION

June 1976

| | |
|--|--------------|
| $\frac{1}{4}$ Oregon's Fiscal Year 1976 Urban System Apportionment | \$1,675,919 |
| Less $1\frac{1}{2}\%$ HPR Funds | \$25,139 |
| Less $\frac{1}{2}\%$ PF Funds | <u>8,380</u> |
| | (33,519) |
| TOTAL | \$1,642,400 |

*Less Allocation of Funds Attributable to Portland
Urbanized area (Over 200,000 Population) (954,769)

Funds Available to Balance of State \$ 687,631

| The Dalles | 10,770 | 3.0315 | 12,010 |
| Woodburn | 9,560 | 2.6909 | 10,660 |
| Totals | 355,267 | 100.0000 | \$396,155 |

Note: Above funds allocated to small urban areas on per capita basis using the same State population figures used in determining FY 1976 Allocation.

The Commission considered approving the Federal Aid Secondary Highway Fund allocation to the Oregon counties for the transition quarter July 1, 1976, to September 30, 1976. Mr. Coulter pointed out that this allocation is one-quarter of the counties' current fiscal year 1976 allocation and will provide financing for projects during the transition period between the closing of the current fiscal year (June 30, 1976) and the beginning of the new Federal fiscal year (October 1, 1976). Following his favorable recommendation, the Commission approved the following allocation:

TRANSITION QUARTER - FY 1976 FAS ALLOCATION TO COUNTIES - JUNE, 1976

| <u>COUNTY</u> | <u>FEDERAL FUNDS</u> | <u>TOTAL FUNDS</u> |
|---------------|----------------------|---|
| | | <u>Including States' and
Counties' Match Money
(Rounded to Thousands)</u> |

SUMMARY FOR TRANSITION QUARTER, STATE FISCAL YEAR 1976 COUNTY FAS FUNDS:

Total Federal Funds for Construction

(50% of Oregon's apportionment less planning survey funds) \$ 878,000

Plus estimated required match money State funds 124,000

. County funds 124,000

TOTAL COUNTY FAS FUND \$1,126,000

NOTE: Above funds allocated to individual counties on basis of formula (25% equally, 60% on rural population, and 15% on rural county road mileage) proposed by Association of Oregon Counties and approved by Transportation Commission. Federal funds are estimated to represent approximately 78% of total county road FAS fund with State and County funds estimated to be approximately 11% each.

June 29, 1976

- 1568 -

The Commission considered requests from the Cities of Ashland and Portland for approval of Federal Aid Urban System Projects. Mr. Coulter said that these projects have been investigated and are eligible for funding under the Federal Aid Urban System Program. The Commission approved the following three projects as recommended by Mr. Coulter and authorized him to sign the agreements when prepared:

| <u>Jurisdiction</u> | <u>Section</u> | <u>Total
Cost</u> | <u>Federal
Funds</u> | <u>State's
Share</u> |
|---------------------|---|-----------------------|--------------------------|--------------------------|
| Ashland | Grandview Dr.-Chestnut St., Grandview St. & Wimer St., FAU 3920 (improve and widen) | \$112,000 | \$ 87,360 | \$12,320 |
| Ashland | Mountain Ave. (FAU 3875) at Rogue Valley Hwy. (traffic signal) | 40,000 | 31,200 | 8,800 |
| Portland | I-5 Ramp Connections (E. Fremont Interchange) N. Greeley Ave., FAU 9945 (preliminary engineering study) | 240,000 | 187,200 | 26,400 |
| | | <hr/> \$392,000 | <hr/> \$305,760 | <hr/> \$47,520 |

Attention was given to a request from Washington County for the cancellation of a Federal Aid Secondary project on the Tualatin River (Golf Course Road) Bridge Section of FAS 631. Mr. Coulter stated that this project was approved by the Commission in November 1971. Due to problems in securing right-of-way for major relocation work, the County is requesting that this project be cancelled. Upon his recommendation, the Commission cancelled the project.

Consideration was given to adopting as a permanent rule the amendment to the mandatory prequalification rule extending the time for filing new prequalification forms from May 1, 1976, to July 1, 1976. Mr. Coulter said extending the deadline for submission of the new prequalification statements was necessary because the new standard prequalification form approved by the Public Contract Review Board was not available in time. A hearing was held on May 19, 1976, and there were no objections or amendments offered at the hearing. Following his favorable recommendation, the Commission adopted the temporary rule as a permanent rule. (Rule on file in Commission Services as Administrative Rule No. 79D. Permanent rule was filed with the Secretary of State on June 30, 1976, and published in the Secretary of State's Administrative Rule Bulletin on July 15, 1976.)

The Commission considered adopting as a permanent administrative rule the procedures to be used for selection of consultants by the Highway Division. Mr. Coulter mentioned that the procedure is set forth in the Division's Procedures Manual but has not been formally adopted as a rule by the Commission. He pointed out the rule specifies maintaining a list of consultants by the Project Management Section; approval in advance by the State Highway Engineer of requests for consultant services; coordination with the Division's Civil Rights Coordinator; evaluation and selection of consultants by a committee appointed by the Highway Engineer; and approval of agreements by the Executive Department, the Department of General Services (for architectural and engineering agreements involving more than \$600 per year) and by the Transportation Commission. Consulting contracts of \$2,500 or less may be approved by the State Highway Engineer on behalf of the Oregon Transportation Commission.

Mr. Coulter said a hearing was held on May 19, 1976, and only one amendment was offered by Counsel to delete references to an "Administrator" of the Highway Division and, in accordance with recent reorganization, refer to the "State Highway Engineer." Upon his favorable recommendation, the Commission approved the adoption of the rule. (Rules and regulations on file in Commission Services, Salem, as Administrative Rule No. 83. A copy of the permanent administrative rule was filed with the Secretary of State on June 30, 1976, and published in his Administrative Rule Bulletin on July 15, 1976.

Consideration was given to adopting a resolution abandoning approximately 2,000 feet of old highway alignment to the City of Pilot Rock on the South Unit, Pendleton-Pilot Rock Section of the Pendleton-John Day Highway in Umatilla County. Mr. Coulter said this segment of old alignment is no longer needed for highway purposes. Upon his favorable recommendation, the Commission adopted "Abandonment Resolution No. 558" which resolution by this reference is made a part hereof and filed in the Commission's files, Salem.

Attention was given to an agreement with the City of Corvallis for the installation of roadway illumination on the Pacific Highway West between and including the intersections of Conifer Boulevard and Elk Drive in Benton County. Mr. Coulter said the State will provide and install poles, luminaire arms, conduits and the necessary wiring for the project. The City will provide and install luminaires, lamps, electrical energy, maintenance and other items necessary for the completion and use of the project. The estimated cost to the State is \$19,700 to be funded with State Bond money. Following his favorable recommendation, the Commission approved the agreement.

The Commission considered an agreement with Lane County for the installation of traffic signals at the intersection of the McKenzie Highway and Glenwood Boulevard. Mr. Coulter mentioned that the County will pay for the project estimated at \$36,150 and will also pay for the power after installation. The State will prepare the plans and maintain the traffic signals after installation. The Commission approved the agreement as recommended by Mr. Coulter.

Consideration was given to approving a cooperative project with the U. S. Geological Survey which provides stream gauging and flood runoff data for small drainage basins of 10 square miles or less throughout the State for the period July 1, 1976 to June 30, 1977. Mr. Coulter stated the U. S. Geological Survey establishes and maintains gauging stations on selected basins which are reviewed annually. A report cataloging the stream flow data is published each year. The program is financed through HPR funding and \$30,000 has been allocated from these funds. Following his recommendation, the Commission approved the project.

The Commission considered approving an amendment to an existing agreement with the City of Lake Oswego to construct the George Rogers Park Bikeway Bridge in Clackamas County by increasing the maximum amount of State's participation from \$40,000 to \$64,000. Mr. Coulter said the construction of the bikeway bridge will close a gap in the CRAG Bikeway Route No. 1 caused by removal of an unsafe bridge. It is desirable to provide a usable bikeway now rather than wait for several years for the construction of the Oswego Creek (Lake Oswego) Bridge Section. The CRAG regional bikeway in this area is one that will receive heavy recreational usage. Upon his favorable recommendation, the Commission approved the agreement.

Attention was given to an agreement with SOLV, Inc. (Stop Oregon Litter and Vandalism) for the State to continue participation in the financial support of the Statewide SOLV anti-litter and vandalism program. Mr. Coulter pointed out that SOLV will enlarge its campaign directed to the reduction of types of litter and vandalism that directly affects the operation, maintenance and use of state highways, parks, recreation areas and the ocean shore. The agreement also provides the State will underwrite the cost of the campaign through the period ending June 30, 1977, which cost is not to exceed \$25,000. Upon the recommendation of Mr. Coulter, the Commission approved the agreement.

Consideration was given to a supplemental agreement with the National Urban League, Inc., extending the existing agreement for a period of four months from July 1 to October 31, 1976. Mr. Coulter said the agreement provides for services to support on-the-job training programs on Federal-aid Highway projects. He said verbal approval of the requested extension has been received from the Federal Highway Administration and no additional funds will be required. The Commission approved the supplemental agreement as recommended by Mr. Coulter.

Attention was given to an agreement with Oregon Welcome, Inc., for tourist promotion in the amount of \$50,000 for the 1976-77 fiscal year. Mr. Coulter said that Oregon Welcome, Inc., is a non-profit corporation and the only Oregon corporation that qualifies to handle this promotional effort. The funds will come from the Travel Information Section budget and he recommended approval. The Commission accepted his recommendation. (The agreement was prepared in the name of Oregon Hospitality and Visitors Association due to a name change.)

Consideration was given to the adoption of a resolution designating a short segment of Newmark Street and Broadway Avenue in North Bend as a part of the Cape Arago Highway in Coos County. Mr. Coulter said the two street segments (0.15 mile) were transferred to the City in 1952 following relocation of the Deadmans Curve Section of the highway, but are now utilized to route northbound traffic. The Commission approved the designation as recommended and thereupon adopted "Secondary Highway Designation Resolution No. 79" which resolution by this reference is made a part hereof and filed in the Commission's files, Salem.

Mr. Coulter reported on the Six Year Highway Improvement Program (copies of the preliminary Six Year Program were presented to the Commission at the May 25, 1976 Commission meeting). He said the 1976 Federal Highway Act includes provisions for three R-type projects: reconstruction, restoration and rehabilitation. He mentioned there were 22 meetings held throughout the State to get public reaction with approximately 500 people attending. He commented that most of the people appeared to be more interested in new construction rather than preservation of the existing system; however, valuable information was received in many areas from the Statewide meetings. The program as presented throughout the State was based on available Federal funds and not on available State funds. There is a lot of question as to the availability of adequate State funds to match those programs.

Chairman Jackson commented that the Six Year Program and the financing of both maintenance and construction has been a matter of major concern for some time. He said it would be inconsistent for this Commission to go on record at this time in support of any program that is in excess of the foreseeable dollars and the Commission is going to have to look at a short-term program up until 1978. The Department will continue its planning process and will attempt to carry on certain surveys and investigations in an attempt to have ready the Department's critical needs for the next session of the Legislature. He commented at the present time, all the Department can do is to try to maintain an adequate maintenance program which will have to be minimal. The Chairman also mentioned that if the Department continues on the basis of its present source of income and adopts a program with minimum maintenance, a minimum park program, and only cover a portion of the Six Year Program in terms of construction, it is looking at a reduction of some 500 to 600 people. However, he said, if the one-cent increase in gas tax and an increase in the weight mile tax passes in November of this year, the reduction of personnel hopefully would be around 350.

Chairman Jackson said the Commission would continue to receive information until after presentations by the delegations. (See pages 1576 and 1577.)

DELEGATIONS

The Lane Council of Governments appeared before the Commission concerning the Six Year Highway Improvement Program. Present were: Mayor Ronel M. Paddock of Oakridge and Chairman of the Lane Council of Governments; Mayor Richard Gutman of Veneta; and Bill Guenzler, Staff Member of the Lane County Council of Governments.

Mayor Paddock handed to the Commission and staff small scale maps of Western Lane County which indicated the three areas of concern in the County. He said the following sections were previously scheduled as top priority projects but now appear to be delayed:

- A) Highway 99 from Junction City to Airport Road in Eugene
- B) Highway 101 from Sutton Lake to Florence
- C) Highway 126 from Veneta to Noti

Mayor Paddock requested that these projects be given a top priority rating and indicated their group would encourage the use of bond money for Federal Aid match.

Mayor Gutman said the proposed project in the Veneta area has been on file since 1970. The present highway is crooked and unsafe, especially with the heavy vehicle and truck traffic. He also mentioned the hazardous railroad crossing on the existing highway which would be eliminated with the new construction. He asked that this project be given a higher priority.

Chairman Jackson stated that the Commission could not move the projects up to an earlier date as funds were not available. He continued that any commitment that the Commission makes beyond 1978 is subject to whether or not the Department receives additional funds.

Ivan Koeber, Chairman of the Oregon Coast Association Highway Committee was present and said their Association is very concerned with the setting back of the Neskowin to Oretown Section of the Oregon Coast Highway in Tillamook County to fiscal year 1982. He asked the Commission to reconsider reinstating this Section to its original concept in the Six Year Plan. Mr. Koeber mentioned that there is no through bus or truck service from Tillamook to Lincoln City. This section of highway is very dangerous to travel, especially for school buses. He indicated their Association will help support the one-cent gas tax increase.

Chairman Jackson asked Mr. Klaboe to comment on the Forest Highway Program. Mr. Klaboe reported that one job is scheduled in this particular section at the cost of 3.2 million dollars for this coming year. There is a second job that was moved back and is listed in today's program in 1982. He mentioned that the Forest Highway

Program is to be reviewed this fall by the Forest Service, Federal Highway Administration and the Department, and at that time, consideration will be given to moving this project ahead if it is possible to do so. Chairman Jackson indicated that this was one project he would like to see built as soon as possible.

A delegation from Grants Pass came before the Commission regarding a third bridge over the Rogue River in Grants Pass, Josephine County. Present were: George Cooper, Councilman; Dick White, City Manager Pro Tem; Michael McKillip, Acting Public Works Director; Dave Brashears, Planning Director of Josephine County; and Rich Armour, Josephine County Safety Council.

Dave Brashears handed to the Commission copies of their report covering a third bridge crossing (copy of report on file in the Commission's files, Salem). (Large maps of the proposed bridge site were displayed.) He asked the Commission to include the third bridge in the Six Year Program and pointed out that the third bridge has been under consideration since 1965. The average daily traffic on the two existing bridges is now 43,000 vehicles. Josephine County is the second fastest growing county in the State with approximately 75% of the new growth south of the Rogue River. The new bridge would provide a connection between I-5 and the populated areas south of the river. It would also remove through traffic (including log trucks) through the central business district of Grants Pass. Chairman Jackson said the Department is making every effort to get this project on the Interstate Program. However, the Commission at this time is not in a position to include this in the Six Year Program.

Senator Kenneth Jernstedt and Representative Paul Walden headed a delegation from Hood River concerning the Mount Hood-Willow Flat Project on the Mt. Hood Highway in Hood River County. Others present were: Steve G. Wesche, Administrative Aide; Jerry Routson, County Commissioner and Chairman, Mid-Columbia Economic Development District; Dick Smith, Chairman, Board of Commissioners; Ron Merry, County Engineer, Director of Public Works; and Harper Barnard, Hood River Growers and Shippers Association.

Jerry Routson asked that this project be returned to fiscal year 1977 instead of the proposed fiscal year 1979. The Chairman informed the delegation that within the last couple of days this project was rescheduled in the Six Year Program for the fiscal year 1977.

AERONAUTICS DIVISION

Mr. Burket introduced Mr. C. Gilbert Sperry, State President, Oregon Pilots Association, Corvallis.

The Commission considered a request for the Division to appear before the Emergency Board for approval of a development agreement for the Siletz Bay State Airport in Lincoln County and to

authorize an increase of \$61,120 in the Aeronautics Capital Construction limitation. Mr. Burket said the settlement agreement is for acquisition of property and settlement of a breach of contract and damage suit filed against the State by Charles and Lucy McKenzie. The Commission approved the request as recommended.

Attention was given to the adoption of a financial aid to municipalities manual as the procedural guidelines for administering the program. Mr. Burket explained that this had been adopted by the Commission as a temporary administrative rule at the February 26, 1975, meeting but it has been determined now by the Attorney General's office that this does not have to be adopted as an administrative rule. Mr. Burket said the manual provides for allocation of available funds on a once-a-year basis, setting of priorities of requests for projects according to the Oregon Aviation System Plan and other criteria, formalizes the application procedure and proposes a "Grant Agreement" document being executed by the municipality when granted State funds for airport development. It appears that the airport development aid program bill will soon be approved by Congress. There are many municipalities that have indicated their need for State funds. The Commission adopted the manual. (Copy on file in the Commission's files, Salem.)

MASS TRANSIT DIVISION

Consideration was given to an agreement with the United Senior Citizens of Bend for conducting an experimental transportation project in the Bend area. Mr. Moore mentioned that the project is to be conducted under the guidelines established by the Commission on December 16, 1975. The project will test the feasibility of expanding public transportation in Bend. The total cost is \$26,725 with the State contributing \$6,831. Upon his recommendation, the Commission approved the agreement.

Mr. Moore reported on the Federal legislation for public transportation in the smaller areas. He stated as late as 1950 almost every community in the State over 10,000 population had a public transportation system serving area residents. Since that time, due to spiraling costs, declining ridership, poor equipment, etc., services have diminished. He recalled that in 1974 Congress passed the National Mass Transportation Assistance Act which included a multi-billion dollar operating assistance program for transit systems in the larger cities over 50,000 population and the same legislation provided for the use of up to \$500 million for capital assistance to areas outside of urbanized areas under 50,000 population. He said this action was virtually useless to Oregon since capital assistance was already available for small city transit systems. During 1975 the United States Senate passed S.562 which allowed the \$500 million previously allocated to capital assistance to also be used for operating assistance outside urbanized areas. Currently, the Surface Transportation Subcommittee of the House Public Works Committee is considering House Resolution 3155 which would allow up to \$250 million for operating assistance in small areas. Mr. Moore mentioned that on his recent trip to Washington, D. C., to attend the AASHTO meeting he had the opportunity to present Oregon's case for the passage of HR 3155. Mr. Moore said he entered

into the record a letter from Mr. Burco with the Oregon Senate Memorial 10 and the Department has received assurances from most of Oregon's congressional delegation in support of Senate Bill 662 or HR 3155. He said small city bus services are an important part of a Statewide network of public transportation which will be necessary to the residents of Oregon and the needed service for a substantial part of the State's population.

MOTOR VEHICLES DIVISION

Harvey Ward reported that on July 1, 1976, the Division will start issuing photo driver's licenses.

DEPARTMENT OF TRANSPORTATION DIRECTOR'S REPORT

The Commission set Tuesday, July 27, 1976, as the date for the next regular meeting.

Attention was given again to the Six Year Highway Program. (Continued from page 1572) Mr. Burco said that staff has considered the public input from the meetings as well as Federal legislation which was received recently before the preliminary plan was issued. There was a major change in the 1976 Federal Highway Act that allowed the States to do major preservation-type work (maintenance) on a variety of systems that were covered by Federal Aid. As a result of this, staff has looked at the first two years of the program in terms of what might be done if the Department allocated one-third to one-half of the funds available for primary and secondary systems to this preservation-type activity which would be resurfacing, critical bridge replacements, etc. These types of projects were not in the initial Six Year Plan developed last year because they were not legal. He said that they do represent an extremely high priority for the preservation of the existing system. Mr. Burco indicated it is staff's feeling that the Department is entirely consistent with the intent of the State Legislature in orienting the first two years of the program more heavily to preventive-type maintenance activities.

Following Mr. Burco's recommendation, the Commission took the following action:

- 1) Adopted a two year construction program with one-third to one-half of available funds going for the preservation of the present highway system.

Authorized the contracting of projects listed for the fiscal years 1977-1978 contingent upon the availability of State matching funds.

- 3) Deferred action on projects listed for the fiscal years 1979-1982 and later, because revenue projections based on current revenue sources indicate that the program cannot be financed.
- 4) Authorized preliminary engineering necessary to advance other projects for 1979-1982 following presentation of proposed new funding programs for highway construction projects to the 1977 Legislature.

(Copy of the Six Year Highway Improvement Program July 1, 1976, to June 30, 1982, dated June 29, 1976, on file in the Commission's files, Salem.)

The Chairman adjourned the meeting at 11:35 a.m.

Glenn R. Jackson
